moistening [wetting] preparations for use in bleaching; chromates; neon; photographic developers; glucose for the food industry; sensitized cloth for photography; plastics, unprocessed; gallic acid for the manufacture of ink; gums [adhesives] for industrial purposes; adjuvants, other than for medical or veterinary purposes; glycol ether; albumin [animal or vegetable, raw material]; seed preserving substances; wax-bleaching chemicals; magnesium carbonate; methyl benzol; saccharin; kainite; opacifiers for enamel; ceramic glazings; xenon; agglutinants for concrete; chemicals for the manufacture of pigments; silicon carbide [raw material]; synthetic resins, unprocessed; lead acetate; tanning substances; ammonium salts; textile-impregnating chemicals; compositions for threading; flashlight preparations; yttrium; pyrogallic acid; fire extinguishing compositions; thorium; bleaching preparations [decolorants] for industrial purposes; rubidium; fulling preparations for use in the textile industry; hypochlorite of soda; chemical reagents, other than for medical or veterinary purposes; gallotannic acid; benzene-based acids; catechu; alcohol; leather-impregnating chemicals; diazo paper; ammonium nitrate; chemical preparations to prevent mildew; methyl ether; Agar-agar for industrial purposes; descaling preparations, other than for household purposes; photographic emulsions; enamel-staining chemicals; magnesium chloride; reducing agents for use in photography; perborate of soda; leather-renovating chemicals; kaolin; wood alcohol; combusting preparations [chemical additives to motor fuel]; gadolinium; bate for dressing skins; oils for preparing leather in the course of manufacture; lime acetate; anti-tarnishing chemicals for windows; cellulose esters for industrial purposes.; antifreeze; detergent additives to petrol; nitrogenous fertilizers; mineral acids; bichromate of potassium; metalloids; gold salts; bone charcoal; chrome alum; oil cement [putty]; caustics for industrial purposes; wood vinegar [pyroligneous acid]; sumac for use in tanning; antimony; acetates [chemicals]; sizing preparations; bauxite; bacteriological preparations for acetification; humus; degumming preparations; diagnostic preparations, other than for medical or veterinary purposes; ammonium aldehyde; dispersions of plastics; adhesives for billposting; boric acid for industrial purposes; collodion; chrome salts; xylol; sensitized photographic plates; oxalic acid; dextrin [size]; lactic acid; samarium; gluten [glue], other than for stationery or household purposes; peat [fertilizer]; sodium salts [chemical compounds]; rock salt; must-fining preparations; wallpaper removing preparations; potting soil; preservatives for use in the pharmaceutical industry; cement [metallurgy]; defoliants; nitric acid; berkelium; tannic acid; alkaline iodides for industrial purposes; acetylene; gum arabic for industrial purposes; gas purifying preparations; preparations for stimulating cooking for industrial purposes; filtering preparations for the beverages industry; bases [chemical preparations]; toning salts [photography]; refrigerants; stain-preventing chemicals for use on fabrics; anhydrides; cellulose derivatives [chemicals]; compositions for the manufacture of phonograph records; glue for industrial purposes; fertilizing preparations; iodine for chemical purposes; anti-sprouting preparations for vegetables; astatine; photometric paper; cellulose; phosphoric acid; antioxidants for use in the manufacture of food supplements; oil-separating chemicals; tungstic acid; chemicals for the manufacture of paints; radon; ferments for chemical purposes; rhenium; iron salts; olivine [silicate mineral]; solidified gases for industrial purposes; phosphatides; polymer resins, unprocessed; tetrachlorides; enzymes for industrial purposes; starch-liquifying chemicals [ungluing agents]; graphene; alumina; acids; birdlime; basic gallate of bismuth; soap [metallic] for industrial purposes; blueprint paper; salts [fertilizers]; fluorine; concrete preservatives, except paints and oils; barium sulfate; picric acid; fixing solutions

[photography]; drilling muds; gallium; damp-proofing chemicals, except paints, for masonry; chlorine; compositions for repairing inner tubes of tires; tan-wood; silicon; casein for industrial purposes; hydrochlorates; alkaline-earth metals; finishing preparations for use in the manufacture of steel; moderating materials for nuclear reactors; cement for footwear; textile-waterproofing chemicals; reagent paper, other than for medical or veterinary purposes; bismuth subnitrate for chemical purposes; arsenious acid; toluene; magnesite; chemical condensation preparations; salt, raw; sulfurous acid; salt for preserving, other than for foodstuffs; alginates for industrial purposes; cement-waterproofing chemicals, except paints; solvents for varnishes; antimony oxide; opacifiers for glass; ammonia; biochemical catalysts; protein [raw material]; barium; salicylic acid; saltpeter; mercury salts; lactose for the food industry; hydrogen; ketones; americium; benzoic sulfimide; dry ice [carbon dioxide]; leather-waterproofing chemicals; milk ferments for industrial purposes; starch paste [adhesive], other than for stationery or household purposes; carbon; glycerides; emollients for industrial purposes; power steering fluid; iodised salts; cryogenic preparations; formic acid; protactinium; emulsifiers; organic digestate [fertilizer]; adhesives for wall tiles; size for use in the textile industry; scandium; spinel [oxide mineral]; ceramic compositions for sintering [granules and powders]; animal carbon; lutetium [cassiopium]; seawater for industrial purposes; silicones; brazing fluxes; dendrimer-based polymers for use in the manufacture of capsules for pharmaceuticals; blue vitriol; argon; zirconia; aluminium chloride; californium; condensation-preventing chemicals; anhydrous ammonia; technetium; vulcanization accelerators; naphthalene; soot for industrial or agricultural purposes; soil for growing; topsoil; iodic acid; salts for galvanic cells; color-brightening chemicals for industrial purposes; sulfuric acid; oils for currying leather; substances for preventing runs in stockings; percarbonates; lamp black for industrial purposes; antioxidants for use in manufacture; europium; adhesives for wallpaper; carbonic acid; benzoic acid; protective gases for welding; paste fillers for automobile body repair; synthetic materials for absorbing oil; preparations for preventing the tarnishing of lenses; silver nitrate; blood charcoal; propellant gases for aerosols; hydrates; carbonic hydrates; meat tenderizers for industrial purposes; chromium oxide; ethyl ether; carbonates; beer preserving agents; lead oxide; chromic acid; ethane; baryta; fissionable chemical elements; wine finings; soil conditioning preparations; coolants for vehicle engines; acetylene tetrachloride; carbon for filters; ammoniacal salts; sorrel salt; mangrove bark for industrial purposes; bentonite; acid proof chemical compositions; cream of tartar for the food industry; lactose for industrial purposes; benzol; ferrocyanides; alginates for the food industry; solutions for cyanotyping; dysprosium; barium compounds; masonry preservatives, except paints and oils; tan; salts [chemical preparations]; tapioca flour for industrial purposes; vulcanizing preparations; soda ash; ion exchangers [chemicals]; chemical intensifiers for paper; plutonium; glucosides; oils for the preservation of food; metal tempering preparations; mold-release compounds; galvanizing baths; cream of tartar for chemical purposes; mastic for tires; titanium dioxide for industrial purposes; paper pulp; photographic sensitizers; tartar, other than for pharmaceutical purposes; cultures of microorganisms, other than for medical and veterinary use; chemical intensifiers for rubber; alkaline metals; barytes; anti-frothing solutions for accumulators; heavy water; oil-purifying chemicals; oxalates; ethers; ammonia [volatile alkali] for industrial purposes; mercury; self-toning paper [photography]; lime chloride; animal albumen [raw material]; leather-dressing chemicals; aldehydes; anthranilic acid; thiocarbanilide; catalysts; guano; plasticizers; spirits of vinegar [dilute acetic acid]; transmission oil; lecithin for industrial purposes; enzyme preparations for industrial purposes; terbium; caesium; soldering fluxes; stearic acid; gelatine for industrial purposes; carbon tetrachloride; ammonia alum; benzene; holmium; sensitized films, unexposed; brazing preparations; galvanizing preparations; textile-brightening chemicals; biological preparations, other than for medical or veterinary purposes; humus top dressing; additives, chemical, to drilling muds; polish removing substances; titanite; enzymes for the food industry===

ironing machines; crankcases for machines, motors and engines; beaters, electric; propulsion mechanisms, other than for land vehicles; cowlings [parts of machines]; bobbins for weaving looms; beer pumps; turbines, other than for land vehicles; air cushion devices for moving loads; machine fly-wheels; cranks [parts of machines]; pistons [parts of machines or engines]; hoists; typographic machines; guns [tools using explosives]; calenders; coal-cutting machines; degreasers [machines]; transmissions, other than for land vehicles; bearings [parts of machines]; millstones; machines and apparatus for carpet shampooing, electric; alternators; milling machines; machines for processing plastics; fittings for engine boilers; lasts for shoes [parts of machines]; pasta making machines, electric; winnowers; elevators [lifts]; chucks [parts of machines]; blowing machines; mobile cranes; compressed air pumps; threading machines; painting machines; reduction gears, other than for land vehicles; aerocondensers; filling machines; crank shafts; fleshing machines; feeders [parts of machines]; rubber tracks being parts of crawlers on mining machines; pulverisers [machines]; air condensers; pump diaphragms; robotic exoskeleton suits, other than for medical purposes; stalk separators [machines]; expansion tanks [parts of machines]; boiler tubes [parts of machines]; shock absorber plungers [parts of machines]; belt conveyors; drilling rigs, floating or non-floating; bearing brackets for machines; moving walkways; grease boxes [parts of machines]; tilt hammers; rolling mill cylinders; die-stamping machines; machines for the mineralization of drinking water; welding machines, electric; winches; welding apparatus, gas-operated; bearings for transmission shafts; lubricating pumps; spray guns for paint; kick starters for motorcycles; centrifugal machines; fuel conversion apparatus for internal combustion engines; screwdrivers, electric; derricks; apparatus for aerating beverages; type-setting machines [photocomposition]; printing cylinders; current generators; smoothing presses; handling machines, automatic [manipulators]; window openers, electric; molds [parts of machines]; handling apparatus for loading and unloading; piston segments; cream/milk separators; water heaters being parts of machines; carbon brushes [electricity]; churns; metalworking machines; lifting apparatus; whisks, electric, for household purposes; machine tools; reapers and threshers; electromechanical machines for chemical industry; parquet wax-polishers, electric; engine mounts, other than for land vehicles; typographic presses; reels, mechanical, for flexible hoses; saws [machines]; excavators; engraving machines; hydraulic controls for machines, motors and engines; dynamo brushes; motors, other than for land vehicles; wine presses; curtain drawing devices, electrically operated; driving motors, other than for land vehicles; hydraulic turbines; shears, electric; soldering apparatus, electric; aerating pumps for aquaria; motorized cultivators; drums [parts of machines]; pumps for heating installations; connecting rods for machines, motors and engines; filters being parts of machines or engines; potters' wheels; anti-pollution devices for motors and engines; hydrogen dispensing pumps for service stations; puddling machines; gears, other than for land vehicles; door closers, electric; fans for motors and engines; coffee grinders, other than hand-operated; rolling mills; rotary printing presses; carding machines; cylinder heads for engines; food preparation machines, electromechanical; rubber tracks being parts of crawlers on snow ploughs; mortising machines; engines for air cushion vehicles; saw blades [parts of machines]; sewing machines; paper feeders [printing]; fuel economisers for motors and engines; flues for engine boilers; driving chains, other than for land vehicles; clack valves [parts of machines]; incubators for eggs; acetylene cleaning apparatus; electrical apparatus for sealing plastics [packaging]; rubber tracks being parts of crawlers on construction machines; igniting magnetos; rack and pinion jacks; hydraulic engines and motors; superchargers; hoppers [mechanical discharging]; hemming machines; journals [parts of machines]; sieves [machines or parts of machines]; electric welding apparatus; presses [machines for industrial purposes]; blowing machines or fans for the compression, sucking and carrying of grain; foundry machines; starters for motors and engines; waste compacting machines; compressors [machines]; drill chucks [parts of machines]; adhesive bands for pulleys; wrapping machines; nail pullers, electric; tilling machines for agricultural purposes; agricultural machines; turf removing ploughs; harrows; bookbinding apparatus and machines for industrial purposes; extractors for mines; shredders [machines] for industrial use; feeding apparatus for engine boilers; steam engine boilers; heat exchangers [parts of machines]; coin-operated washing machines; generators of electricity; milking machines; rinsing machines; housings [parts of machines]; bottle washing machines; rail-laying machines; window closers, pneumatic; apparatus for aerating water; dust removing installations for cleaning purposes; fruit presses, electric, for household purposes; guides for machines; suction nozzles for vacuum cleaners; embossing machines; packing machines; leather-working machines; bread cutting machines; converters for steelworks; steam traps; electrodes for welding machines; blowing machines for the compression, exhaustion and transport of gases; printing rollers for machines; pulleys [parts of machines]; hand-held tools, other than hand-operated; cigarette machines for industrial purposes; cord making machines; condensing installations; stamping machines; pneumatic tube conveyors; de-aerators for feedwater; blenders, electric, for household purposes; vibrators [machines] for industrial use; joysticks being parts of machines, other than for game machines; steam engines; peeling machines; rakes for raking machines; cultivators [machines]; trimming machines; road sweeping machines, self-propelled; grating machines for vegetables; emergency power generators; filter presses; exhaust manifold for engines; punching machines; rubber tracks being parts of crawlers on agricultural machines; stators [parts of machines]; 3D printing pens; bottle filling machines; glaziers' diamonds [parts of machines]; friezing machines; turbocompressors; mills [machines]; diggers [machines]; darning machines; blade sharpening [stropping] machines; door openers, hydraulic; central vacuum cleaning installations; mixing machines; scissors, electric; door closers, hydraulic; railroad constructing machines; roller bridges; can openers, electric; engines for boats; vacuum cleaners; electric hammers; high pressure washers; soldering irons, electric; chisels for machines; window openers, hydraulic; bottle stoppering machines; meat choppers [machines]; fan belts for motors and engines; valves [parts of machines]; mine borers; compressed air guns for the extrusion of mastics; pepper mills, other than hand-operated; sparking plugs for internal combustion engines; satinizing machines; pneumatic jacks; automatic grapnels for marine purposes.; chain saws; air brushes for applying colour; lawnmowers [machines]; anti-friction bearings for machines; fodder presses; stuffing boxes [parts of machines]; beverage preparation machines, electromechanical; drilling heads [parts of machines]; raking machines; speed governors for machines, engines and motors; printing plates; trueing machines; vacuum cleaner hoses; moulding machines; cutters [machines]; knives, electric; finishing machines; grease rings [parts of machines]; transmissions for machines; galvanizing machines; vulcanization apparatus; injectors for engines; belts for conveyors; compressed air machines; pressure valves [parts of machines]; sausage making machines; dishwashers; pigs for cleaning pipes; crushing machines; sifting installations; aeroplane engines; cutting machines; forge blowers; transmission chains, other than for land vehicles; carburetter feeders; sizing machines; glue guns, electric; mineworking machines; suction cups for milking machines; aeronautical engines; spinning frames; pumps for counter-current swimming; brake linings, other than for vehicles; machines and apparatus for polishing [electric]; stitching machines; oil refining machines; brake shoes, other than for vehicles; electric hand drills; pulleys; motors, electric, other than for land vehicles; grinding machines; racket stringing machines; mixers [machines]; elevating apparatus; cutting blow pipes, gas-operated; disintegrators; sewage pulverizers; washing apparatus; filters for cleaning cooling air, for engines; threshing machines; printing presses; air suction machines; jacks [machines]; concrete mixers [machines]; butter machines; dairy

machines; self-regulating fuel pumps; transmission shafts, other than for land vehicles; drainage machines; rubber tracks being parts of crawlers on loading-unloading machines and apparatus; mufflers for motors and engines; loading ramps; springs [parts of machines]; dyeing machines; shuttles [parts of machines]; catalytic converters; tables for machines; brushes for vacuum cleaners; freewheels, other than for land vehicles; brewing machines; door openers, electric; adhesive tape dispensers [machines]; thermic lances [machines]; kneading machines; knives for mowing machines; pneumatic controls for machines, motors and engines; capstans; woodworking machines; type-setting machines [printing]; soldering irons, gas-operated; joints [parts of engines]; dynamos; gas-operated blow torches; scale collectors for machine boilers; superheaters; hosiery looms; cylinders for motors and engines; regulators [parts of machines]; net hauling machines [fishing]; cylinders for machines; snow ploughs; wringing machines for laundry; filtering machines; chaff cutter blades; basket presses; pedal drives for sewing machines; gear boxes, other than for land vehicles; bitumen making machines; dust exhausting installations for cleaning purposes; looms; torque converters, other than for land vehicles; control mechanisms for machines, engines or motors; planing machines; agitators; earth moving machines; belts for machines; fuel dispensing pumps for service stations; bicycle assembling machines; binding apparatus for hay; spin driers [not heated]; bottle capping machines; tambours for embroidery machines; journal boxes [parts of machines]; reels [parts of machines]; ball rings for bearings; ploughshares; lathes [machine tools]; stands for machines; pneumatic waste oil drainers; typecasting machines; tarring machines; sowers [machines]; brushes, electrically operated [parts of machines]; electroplating machines; tobacco processing machines===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===gambut [pupuk]; bahan kimia, kecuali pigmen, untuk pembuatan enamel; gluten untuk industri makanan; amonium aldehida; persiapan pengkondisian tanah; semen [metalurgi]; vitamin untuk digunakan dalam pembuatan kosmetik; bahan kimia industri; bubur kayu; cairan untuk sirkuit hidrolik; asetilena tetraklorida; bahan kimia dekarbonisasi mesin; resin akrilik, belum diproses; penangkap [zat aktif secara kimia]; unsur tanah jarang; astatin; litium oksida; persiapan untuk mencegah lensa menjadi kusam; tanah liat fuller untuk digunakan dalam industri tekstil; gambir; sulfur; pengawet bunga; pemupukan humus di atasnya; asetat selulosa, belum diproses; preparat anti-tunas untuk sayuran; glukosa untuk industri makanan; vitamin untuk industri makanan; timbal asetat; bromin untuk keperluan kimia; boraks; dempul tukang kaca; preparat penghilang lemak untuk digunakan dalam proses manufaktur; preparat pengatur pertumbuhan tanaman; tanah pot; resin polimer, belum diproses; zat pendingin; galat dasar bismut; karbon aktif; Ester selulosa untuk keperluan industri.; antioksidan untuk digunakan dalam pembuatan kosmetik; Bahan pengawet untuk pekerjaan batu bata, kecuali cat dan minyak.; yodium untuk keperluan industri; nanopowders for industrial purposes; melembapkan [membasahi] sediaan untuk digunakan dalam pemutihan; kapur karbonat; bahan kimia perawatan kulit; Zat anti-ketukan untuk mesin pembakaran internal; grafena; Sumac untuk digunakan dalam penyamakan kulit.; bahan pembantu, selain untuk keperluan medis atau kedokteran hewan; unsur radioaktif untuk keperluan ilmiah; krim tartar untuk keperluan kimia; pektin untuk industri makanan; bahan kimia anti air tekstil; torium; semen untuk alas kaki; cairan pendingin untuk mesin kendaraan; asam oleat; gas propelan untuk aerosol; glukosida; bahan tambahan kimia untuk oli; bahan pengental untuk kaca; laktosa [bahan baku]; selenium; alkali; ukuran untuk digunakan dalam industri tekstil; logam; sediaan kimia untuk mencegah penyakit yang menyerang tanaman anggur; zat pengikat warna untuk logam; pasir pengecoran; lesitin [bahan baku]; pengembang fotografi; silikon karbida [bahan baku]; sendawa; enzim untuk keperluan industri; krim tartar untuk industri makanan; garam untuk keperluan industri; antibeku; alkohol etil; zat kimia untuk analisis di laboratorium, selain untuk keperluan medis atau kedokteran hewan; tepung kentang untuk keperluan industri; helium; kayu penyamak; Agar-agar untuk keperluan industri; larutan anti-busa untuk akumulator; asam iodat; persiapan korosif; diklorida timah; garam batu; perekat untuk ubin dinding; neodymium; ferrocyanida; xilol; cairan pembantu untuk digunakan dengan bahan abrasif; bahan kimia anti-noda untuk jendela; diastase untuk keperluan industri; protaktinium; kertas cetak biru; persiapan pemenuhan; lantanum; pupuk; sediaan kimia untuk keperluan ilmiah, selain untuk penggunaan medis atau kedokteran hewan; zirkonia; litium; aldehida krotonat; amonia [alkali mudah menguap] untuk keperluan industri; kertas fotometri; katalis biokimia; hormon untuk mempercepat pematangan buah; perkarbonat; radium untuk keperluan ilmiah; bahan kimia pencerah tekstil; bismut subnitrat untuk keperluan kimia; protein untuk digunakan dalam pembuatan suplemen makanan; cairan transmisi; reagen kimia, selain untuk keperluan medis atau kedokteran hewan.; lem kulit; pasta pati [perekat], selain untuk keperluan alat tulis atau rumah tangga; persiapan tahan api; persiapan untuk mencegah perubahan warna pada kaca; anhidrida asetat; asam tungstat; garam emas; gluten untuk keperluan industri; eter glikol; perklorat; zat kimia untuk mengawetkan bahan makanan; zat pengeras batu kapur; isotop untuk keperluan industri; rumput laut [pupuk]; asam pirogalik; arsenik; spinel [mineral oksida]; jelaga untuk keperluan industri atau pertanian; polonium; preparat pengolahan untuk digunakan dalam industri tekstil; oksida antimon; susu yang difermentasi untuk industri makanan; sediaan kimia untuk digunakan dalam fotografi; minyak rem; preparations of the distillation of wood alcohol; sodium; antimon sulfida; pelarut untuk pernis; thulium; persiapan untuk merangsang proses memasak untuk keperluan industri; lesitin untuk industri makanan; arang hewan; persulfat; pot gambut untuk hortikultura; asam glutamat untuk keperluan industri; bahan kimia impregnasi tekstil; asam arsenit; zat kimia aktif permukaan; quebracho untuk keperluan industri; minyak untuk penyamakan kulit; garam kalsium; memisahkan dan melepaskan [melepaskan] persiapan; bahan kimia pembersih radiator; bahan bakar untuk reaktor nuklir; getah tragacanth untuk keperluan industri; oksalat; terak [pupuk]; komposisi untuk merangkai; timbal arsenat; bahan kimia pencegah kondensasi; persiapan pemupukan; gelatin untuk keperluan fotografi; komposisi untuk memperbaiki ban dalam; semen minyak [dempul]; neptunium; emulsi fotografi; tanah untuk bercocok tanam; nitrogen; silikon; pelat ferotipe [fotografi]; persiapan kimia untuk mengasapi daging; komposisi untuk memperbaiki ban; preparat penghilang kerak, selain untuk keperluan rumah tangga; dekstrin [ukuran]; asam salisilat; kieselgur; aldehida; spiritus cuka [asam asetat encer]; mangan dioksida; sulfida; viskosa; glikol; bahan kimia kedap air semen, kecuali cat; tepung untuk keperluan industri; senyawa pelepas cetakan; glukosa untuk keperluan industri; kotoran hewan; persiapan kari untuk kulit; bahan kimia hortikultura, kecuali fungisida, herbisida, insektisida, dan parasitisida.; getah arab untuk keperluan industri; alkohol kayu; garam [pupuk]; garam logam mulia untuk keperluan industri; bahan kimia pengelasan; cairan power steering; albumin hewan [bahan baku]; plastik, belum diolah; olivin [mineral silikat]; toning baths [photography]; katalis; kamper, untuk keperluan industri; titanit; pektin untuk keperluan industri; kain cetak biru; zat penghilang polesan; amonium nitrat; Polimer berbasis dendrimer untuk digunakan dalam pembuatan kapsul farmasi.; aluminium iodida; gas padat untuk keperluan industri; krim tartar untuk keperluan industri; preparat pelunak air; anhidrida; garam amonium; asam mineral; benzoat sulfimida; amerisium; bahan pengikat pengecoran; bahan kimia pemisah minyak; air suling; lempung; resin epoksi, belum diproses; formaldehida untuk keperluan kimia; gliserin untuk keperluan industri; tawas amonia; karbon tetraklorida; albumin beryodium; bentonit; pelunak daging untuk keperluan industri; digestat organik [pupuk]; bahan kimia pencegah noda untuk digunakan pada kain; komposisi pemadam api; bahan kimia pewarna kaca; bahan penjernih dan pengawet bir; persiapan karbon hewan; asam sebacik; air berat; Susu difermentasi untuk keperluan kimia.; fenol untuk keperluan industri; bahan sintetis untuk menyerap minyak; bahan finishing untuk digunakan dalam pembuatan baja; hidrogen; bahan pengental untuk enamel; tepung tapioka untuk keperluan industri; asam

tartarat; asam sulfur; kertas diazo; bahan kimia pencerah warna untuk keperluan industri; soda yang dikalsinasi; asetat [bahan kimia]; asam fluorida; kromat; bahan kimia untuk digunakan dalam kehutanan, kecuali fungisida, herbisida, insektisida, dan parasitisida.; anti-boil preparations for engine coolants; praseodymium; zat untuk mencegah robekan pada stoking; lapisan kimia untuk lensa oftalmik; persiapan penjernihan must; ukuran untuk finishing dan priming; asetat kapur; natrium perborat; oksida kromium; ester; sakarin; roh garam; kripton; flokulan; witherite; gipsum untuk digunakan sebagai pupuk; lumpur pengeboran; resin sintetis, belum diproses; prometium; erbium; flavonoid [senyawa fenolik] untuk keperluan industri; asam pikrat; aluminium alum; pulut; sediaan kimia untuk mencegah penyakit yang menyerang tanaman serealia; alkaloid; preparat pemutih [dekoloran] untuk keperluan industri; soda kaustik untuk keperluan industri; garam mentah; emolien untuk keperluan industri; bahan kimia anti air untuk kulit; kaca air [kaca larut]; penukar ion [bahan kimia]; karbit; bahan penyaring zat nabati; zat kaustik untuk keperluan industri; fluorin; gliserida; kasein untuk keperluan industri; oksida uranium; gen benih untuk produksi pertanian; pengisi lubang pohon [kehutanan]; Antioksidan untuk digunakan dalam pembuatan obat-obatan; preparat enzim untuk industri makanan; perekat untuk wallpaper; kultur jaringan biologis, selain untuk tujuan medis atau kedokteran hewan; alkohol amil; soda abu; hidrat karbonat; kertas beralbumen; kalsium karbida; komposisi untuk pembuatan piringan hitam; karbon hewan; aditif kimia untuk bahan bakar motor; tiokarbanilida; eter; vitamin untuk digunakan dalam pembuatan obat-obatan; garam dari logam tanah jarang; uranium; metana; arang tulang; bahan kimia peremajaan kulit; ekstrak teh untuk industri makanan; komposisi keramik untuk sintering [butiran dan bubuk]; asam antranilat; stronsium; aditif, bahan kimia, untuk lumpur pengeboran; sediaan kimia untuk mencegah penyakit jamur gandum; eter selulosa untuk keperluan industri; skandium; zat pengawet benih; air raksa; unsur kimia yang dapat mengalami fisi; kateku; kertas self-toning [fotografi]; tanah plastisol; air kalium; deterjen untuk digunakan dalam proses manufaktur; preparat antistatik, selain untuk keperluan rumah tangga; komposisi kimia tahan asam; bensol; oli transmisi; asam sulfonat; Film sinar-X, peka tetapi tidak terpapar.; pupuk nitrogen; preservatives for tiles, except paints and oils; kertas reagen, selain untuk keperluan medis atau kedokteran hewan; oksida kobalt untuk keperluan industri; xilena; bauksit; bahan kimia pemutih minyak; galium; metil eter; neon; Bahan keramik dalam bentuk partikel, untuk digunakan sebagai media penyaring.; kertas foto; asam sitrat untuk keperluan industri; nitrogen oksida; preparat cangkok pohon yang lengket; bahan kimia pemutih lilin; antimon; protein [bahan baku]; perekat untuk pemasangan poster; persiapan penghematan batubara; methyl benzol; persiapan vulkanisasi; sediaan bakteriologis, selain untuk penggunaan medis dan veteriner; kolodion; sediaan biologis, selain untuk keperluan medis atau kedokteran hewan; pelat peka cahaya untuk pencetakan offset; telurium; senyawa fluorspar; sal amoniak; hidrat aluminium; kasein untuk industri makanan; persiapan penyaringan untuk industri minuman; garam merkuri; aseton; xenon; paladium klorida; jelaga untuk keperluan industri; albumin [hewani atau nabati, bahan mentah]; fluks patri; air laut untuk keperluan industri; alginat untuk industri makanan; cuka kayu [asam pirolignin]; asam galotannat; alkohol vinik; gelatin untuk keperluan industri; yttrium; tanin; rubidium; silikat; penguat kimia untuk karet; asam benzoat; kertas peka; air yang diasamkan untuk mengisi ulang akumulator; pektin [fotografi]; antioksidan untuk digunakan dalam pembuatan suplemen makanan; garam sorrel; ekstrak teh untuk digunakan dalam pembuatan obat-obatan; pupuk dr tahi burung; bahan kimia pemurnian air; karbon untuk filter; kalium bikromat; kaolin; gadolinium; asetilen; fluks solder; senyawa barium; kurium; karbon; aktinium; cairan magnetik untuk keperluan industri; magnesit; iterbium; eter etil; logam alkali tanah; antioksidan untuk digunakan dalam pembuatan; bakterisida oenologi [sediaan kimia untuk digunakan dalam pembuatan anggur]; alkali kaustik; mastik untuk kulit; aditif deterjen untuk bensin; bahan pengawet bir; metil benzena; pemanis buatan [sediaan kimia]; bahan moderasi untuk reaktor nuklir; persiapan pengerasan logam; serium; kalomel [merkuri klorida]; karbon disulfida; laktosa untuk keperluan industri; kalifornium; humus; asam borat untuk keperluan industri; sulfat; kalium dioksalat; minyak untuk mempersiapkan kulit selama proses pembuatan; pengawet karet; sal amoniak spiritus; bahan kimia untuk impregnasi kulit; bismut; penjernih anggur; bahan penyaring zat kimia; cokelat muda; natrium bikromat; samarium; dispersan minyak bumi; persiapan anil logam; protein untuk industri makanan; alkohol; amil asetat; klorat; magnesium klorida; berkelium; umpan untuk membalut kulit; penguat kimia untuk kertas; simena; alkaline iodides for industrial purposes; superfosfat [pupuk]; turunan benzena; bahan kimia untuk pembuatan pigmen; penghilang kerak; sediaan kimia untuk mencegah jamur; mastik pencangkokan untuk pohon; asam berbasis benzena; hidrat; lesitin untuk keperluan industri; zat peka fotografi; teknesium; asam fosforat; natrium hipoklorit; bahan kimia pemutih lemak; bunga tanah; persiapan penghematan bahan bakar; minyak untuk pengawetan makanan; krom aluminium; persiapan cetakan pengecoran; sabun [logam] untuk keperluan industri; uranium nitrat; hidroklorida; radon; kreosot untuk keperluan kimia; minyak untuk mengolah kulit; sesium; rhenium; timol untuk keperluan industri; persiapan untuk pemisahan lemak; asam tanat; sediaan mikroorganisme, selain untuk penggunaan medis dan veteriner; dempul untuk ban; bahan kimia pencair pati [agen pelepas lem]; timbal oksida; bahan kimia untuk pembuatan cat; aluminium asetat; kompos; vitriol biru; alumina; Bahan pengawet untuk bangunan, kecuali cat dan minyak.; garam untuk pengawetan, selain untuk bahan makanan; film peka cahaya, belum terpapar; ekstrak teh untuk digunakan dalam pembuatan kosmetik; pengemulsi; anti-kerak; amonia; fosfatida; garam amonia; produk sampingan dari pengolahan sereal untuk keperluan industri; nitrat; zat pereduksi untuk digunakan dalam fotografi; concrete preservatives, except paints and oils; preparat bakteriologis untuk asetifikasi; bunga belerang untuk keperluan kimia; asam oksalat; gluten [lem], selain untuk keperluan alat tulis atau rumah tangga; fransium; bubur kertas; toluena; bahan kimia pemurnian minyak; tetraklorida; kertas nitrat; aluminium silikat; pelat fotosensitif; klorida kapur; asam nitrat; etana; alginat untuk keperluan industri; es kering [karbon dioksida]; penetralisir gas beracun; garam pengencang kulit [fotografi]; grafit untuk keperluan industri; Tanah liat yang diperluas untuk budidaya tanaman hidroponik [substrat]; Bahan pengawet semen, kecuali cat dan minyak.; selulosa; barium; asam sulfat; persiapan penyambungan; persiapan kondensasi kimia; kalium; garam kromium; gel elektroforesis; sediaan unsur hara mikro untuk tanaman; kertas ujian, bahan kimia; fosfat [pupuk]; garam untuk sel galvanik; kalium karbonat; karbon hitam untuk keperluan industri; barium sulfat; pasta pengisi untuk perbaikan bodi mobil; dasar [sediaan kimia]; karbonat; solusi perbaikan [fotografi]; dolomit untuk keperluan industri; persiapan senter; asam galat untuk pembuatan tinta; kertas lakmus; lutetium [cassiopium]; persiapan kimia untuk memfasilitasi pembentukan paduan logam; bahan perekat untuk beton; disprosium; persiapan dehidrasi untuk keperluan industri; akselerator vulkanisasi; fermentasi untuk keperluan kimia; argon; sel punca, selain untuk tujuan medis atau kedokteran hewan; oksigen untuk keperluan industri; magnesium karbonat; cairan untuk menghilangkan sulfat dari akumulator; larutan untuk sianotyping; asam stearat; sediaan bakteri, selain untuk penggunaan medis dan veteriner; manganat; pupuk tepung ikan; logam alkali; garam [sediaan kimia]; kolagen untuk keperluan industri; perekat untuk keperluan industri; dispersi plastik; arang darah; europium; preparat pembasah untuk digunakan dalam industri tekstil; pelat fotografi peka cahaya; hiposulfit; kertas baryta; carbonic acid; bahan penyaring dari plastik yang belum diolah; naftalena; persiapan galvanisasi; preparat pembasah untuk digunakan dalam pewarnaan; substrat untuk budidaya tanpa tanah [pertanian]; bahan kimia aerasi beton; zat penyamak; empedu; asam kolat; laktosa untuk industri makanan; protein untuk digunakan dalam pembuatan; memperbaiki bak mandi [fotografi]; dispersan minyak; susu difermentasi untuk keperluan industri; yodium untuk keperluan kimia; persiapan renovasi untuk rekaman fonograf; chromic acid; karbolineum untuk perlindungan tanaman; baryta; aluminium klorida; persiapan pembakaran [bahan

tambahan kimia untuk bahan bakar motor]; merkuri oksida; kainit; isinglass, selain untuk keperluan alat tulis, rumah tangga, atau makanan.; natrium bikarbonat untuk keperluan kimia; persiapan penghilang getah; bahan pelunak plastik; larutan garam perak untuk pelapisan perak; bahan fisil untuk energi nuklir; kulit kayu bakau untuk keperluan industri; pati untuk keperluan industri; Balsam gurjun untuk digunakan dalam pembuatan pernis; preparat pemurnian gas; perak nitrat; bahan kimia anti lembap, kecuali cat, untuk bangunan batu; bahan kimia yang menyebabkan noda pada enamel; tanah diatom; glasir keramik; garam logam alkali; klorin; garam besi; persiapan pemurnian; keton; persiapan pengolahan kulit; plutonium; saus untuk menyiapkan tembakau; pengawet untuk digunakan dalam industri farmasi; cultures of microorganisms, other than for medical and veterinary use; talium; barytes; Persiapan untuk melepas wallpaper; komposisi untuk pembuatan keramik teknis; lilin cangkok untuk pohon; sediaan perekat untuk perban bedah; bahan penyaring zat mineral; albumin malt; aditif, bahan kimia, untuk fungisida; persiapan kriogenik; garam natrium [senyawa kimia]; bahan kimia pertanian, kecuali fungisida, herbisida, insektisida, dan parasitisida; gas pelindung untuk pengelasan; tawas; besimium; bahan kimia pengembunan kaca; sianida [prussiat]; garam krom; bedak talk [magnesium silikat]; amonia anhidrat; kalsium sianamida [pupuk]; asam persulfat; asam lemak; asam laktat; semen untuk menambal barang yang rusak; kain peka cahaya untuk fotografi; enzim untuk industri makanan; vitamin untuk digunakan dalam pembuatan suplemen makanan; enzyme preparations for industrial purposes; fosfor; lem [perekat] untuk keperluan industri; terbium; turunan selulosa [bahan kimia]; asam format; tartar, selain untuk keperluan farmasi; aditif, bahan kimia, untuk insektisida; benzena; hidrazin; zat perontok daun; holmium; garam untuk mewarnai logam; persiapan ukuran; asam; Film sinematografi, peka tetapi tidak terpapar; klorida; bak galvanisasi; lem untuk keperluan industri; hidrogen peroksida untuk keperluan industri; sediaan diagnostik, selain untuk keperluan medis atau kedokteran hewan; pembersih cerobong asap, bahan kimia; garam beryodium; eter sulfat; titanium dioksida untuk keperluan industri=== ===palu pneumatik; mesin pengupas biji-bijian; dinamo; bantalan pelumas otomatis; konveyor tabung pneumatik; transmisi untuk mesin; derek [alat pengangkat dan pengerek]; saringan [mesin atau bagian mesin]; ejektor; mesin pres [mesin untuk keperluan industri]; obor las bertenaga gas; mesin dan peralatan untuk memoles lilin, listrik; pengumpan kertas [pencetakan]; mesin penanganan, [manipulator] otomatis; alat vulkanisasi; alat penggulung, mekanis; mesin pembengkok; motor listrik, selain untuk kendaraan darat; silinder pabrik penggilingan; mesin penyulingan minyak; alat las, dioperasikan dengan gas; pena pencetak 3D; mesin cetak [pencetakan]; pabrik sentrifugal; instalasi penghilang debu untuk keperluan pembersihan; mesin untuk kendaraan bantalan udara; senjata [alat yang menggunakan bahan peledak]; mesin pengecat putih; pembuka pintu, pneumatik; penyaring abu [mesin]; katup [bagian-bagian mesin]; mesin penyusun huruf [fotokomposisi]; roda berputar; peralatan [bagian-bagian mesin]; pahat untuk mesin; mesin pemadat; pemoles lilin parket, listrik; deaerator untuk air umpan; tangga berjalan [eskalator]; mesin pemadatan sampah; mata gergaji [bagian-bagian mesin]; pemisah uap/minyak; pompa untuk berenang melawan arus; mesin bor; mesin penghancur untuk penggunaan industri; penutup pintu pneumatik; mesin pencetak huruf; matriks untuk digunakan dalam pencetakan; penutup pintu elektrik; mesin penyaring; instalasi penyaringan; kotak pelumas [bagian-bagian mesin]; kopling poros [mesin]; mesin pemerah susu; lampu solder; mesin penyegel botol; mesin las, listrik; mesin cuci [laundry]; penutup jendela pneumatik; mesin cetak untuk digunakan pada lembaran logam; kopling, selain untuk kendaraan darat; mesin pertanian; mesin rajut; mesin untuk memproses plastik; alat pembersih asetilen; mesin pemukul; penggiling dapur, listrik; alat pemotong sayuran spiral, elektrik; cerobong asap untuk boiler mesin; selang penyedot debu; roda gila mesin; membersihkan peralatan menggunakan uap; mesin penggaruk; mesin pengisian botol; mesin pemotong rumput; sekop, mekanik; panduan untuk mesin; mesin drainase; mesin penarik logam; mesin pembuat bir; pengisap untuk mesin pemerahan susu; braket bantalan untuk mesin; poros bubungan untuk mesin kendaraan; mesin konstruksi rel kereta api; pencabut paku, listrik; pompa vakum [mesin]; pompa pengisian bahan bakar untuk stasiun layanan; pabrik penggilingan; mesin susu; garu; Penggerak pedal untuk mesin jahit; printer 3D; perangkat penarik tirai, dioperasikan secara elektrik; bantalan anti gesekan untuk mesin; sabuk kipas untuk motor dan mesin; gulungan mekanis untuk selang fleksibel; machines for the textile industry; kartrid untuk mesin penyaring; alat untuk mengaerasi air; mesin carding; mesin cetak inkjet industri; cincin gemuk [bagian mesin]; busi pijar untuk mesin diesel; mesin sentrifugal; generator arus; engkol [bagian-bagian mesin]; Aksesori penyedot debu untuk menyebarkan parfum dan disinfektan; piston untuk silinder; pemisah air; konverter untuk pabrik baja; mesin pembuatan kertas; mesin finishing; gergaji mesin; corong [pengosongan mekanis]; peniup tempa; mesin penghisap untuk keperluan industri; bantalan rol; pengebor tambang; mesin jahit; robot industri; alat las busur listrik; kantong penyedot debu; sabuk lift; mesin pemasang rel; bajak; rol pencetak untuk mesin; mesin pengemas; rantai lift [bagian-bagian mesin]; alat tenun; Roda rantai karet merupakan bagian dari roda rantai pada mesin konstruksi.; perangkap uap; Alat pengait otomatis untuk keperluan kelautan.; pompa pengisian hidrogen untuk stasiun layanan; mesin jet, selain untuk kendaraan darat; dudukan pisau [bagian mesin]; mesin pengolahan kayu; mesin tipografi; lift, selain lift ski; filter untuk membersihkan udara pendingin, untuk mesin; alat pengasah tepi ski, listrik; alat untuk mengaerasi minuman; alat pemeras buah elektrik, untuk keperluan rumah tangga; pemotong jerami; pemisah krim/susu; garpu untuk mesin penggaruk; inkubator untuk telur; mesin pencampur; alat penanganan untuk pemuatan dan pembongkaran; silinder cetak; anjungan pengeboran, terapung atau tidak terapung; mesin untuk mineralisasi air minum; pompa [bagian dari mesin, mesin atau motor]; konveyor sabuk; motor, selain untuk kendaraan darat; injektor untuk mesin; penyangga geser [bagian-bagian mesin]; mesin penyiang gulma; piston untuk mesin; washing installations for vehicles; pelat cetak; mesin pembuat lubang; tangki ekspansi [bagian mesin]; mata bajak; mesin elektromekanik untuk industri kimia; pompa bir; poros transmisi, selain untuk kendaraan darat; sabuk untuk motor dan mesin; penutup jendela hidrolik; Pengatur kecepatan untuk mesin, mesin penggerak, dan motor; mesin pengolah tanah untuk keperluan pertanian; vibrator [mesin] untuk penggunaan industri; gunting, listrik; pakaian kartu [bagian-bagian mesin carding]; mesin pesawat terbang; kabel kontrol untuk mesin, mesin atau motor; mesin pelubang; mesin satinisasi; pistol udara bertekanan untuk ekstrusi mastik; sikat [bagian-bagian mesin]; alat pengepres anggur; sikat dinamo; bantalan untuk poros transmisi; katup tekanan [bagian mesin]; mesin pencuci botol; pompa [mesin]; mesin penggerak tanah; pisau untuk mesin pemotong rumput; perangkat pengapian untuk mesin pembakaran internal; palu [bagian-bagian mesin]; mesin jahit kelim; pengerjaan roda mesin; kepala bor [bagian-bagian mesin]; palu listrik; kompresor untuk lemari es; konverter katalitik; pengolah makanan, listrik; rantai transmisi, selain untuk kendaraan darat; alat pencuci; mesin pembilas; pompa bahan bakar yang mengatur sendiri; mesin pengecatan; babi untuk membersihkan pipa; gergaji [mesin]; bor tangan listrik; sikat untuk penyedot debu; penghancur untuk keperluan dapur, listrik; chuck bor [bagian-bagian mesin]; trek karet yang merupakan bagian dari roda rantai pada bajak salju; pengumpan karburator; fittings for engine boilers; silinder untuk mesin; alat penguras oli bekas pneumatik; mesin pengolah batu; mekanisme kontrol untuk mesin, motor atau mesin penggerak; penutup [bagian mesin]; poros untuk mesin; mesin ram; mesin persiapan makanan, elektromekanik; roda gigi, selain untuk kendaraan darat; sikat, [bagian mesin] yang dioperasikan secara elektrik; instalasi kondensasi; mesin penggerak, selain untuk kendaraan darat; mesin pembuat renda; mesin pengasah; pengumpan [bagian-bagian mesin]; mesin pengupas; mesin pengolahan logam; reduction gears, other than for land vehicles; pisau [bagian mesin]; generator listrik darurat; penutup jendela elektrik; konverter torsi, selain untuk kendaraan darat; Mesin penjual otomatis; mesin cetak tipografi; ketel mesin uap; jurnal [bagian-bagian mesin];

mesin stempel; chuck [bagian-bagian mesin]; mesin persiapan minuman, elektromekanik; mesin pemotong; bantalan [bagian-bagian mesin]; mata bor [bagian-bagian mesin]; mekanisme penggerak, selain untuk kendaraan darat; pompa udara bertekanan; mesin penangkap dan pengumpul lumpur; mesin pengolahan kaca; setrika uap putar, portabel, untuk kain; pemanas super; mesin pengolah daging; Roda rantai karet merupakan bagian dari roda rantai pada mesin pertanian.; turbokompresor; derek; alat pemeras jus, listrik; mesin pengaspalan; mesin peniup untuk kompresi, pembuangan, dan pengangkutan gas; alat pengangkat; dudukan mesin, selain untuk kendaraan darat; sabuk untuk konveyor; mesin pengepres filter; mesin pemotong bulu untuk hewan; batu gerinda [bagian-bagian mesin]; alat penjepit untuk mesin perkakas; mesin penutup botol; mesin pemotong daging; mesin penggali; mesin perakitan sepeda; carbon brushes [electricity]; elevator pertanian; peralatan dan mesin penjilidan buku untuk keperluan industri.; alat untuk menyedot bir di bawah tekanan; instalasi pembersihan vakum sentral; pemanen; mesin pembuat lekukan [perkakas mesin]; cetakan [bagian-bagian mesin]; cincin bola untuk bantalan; segmen piston; celemek [bagian mesin]; mesin perontok; mesin rokok untuk keperluan industri; meja untuk mesin; joystick merupakan bagian dari mesin, selain mesin permainan.; mesin pengolahan kulit; dongkrak [mesin]; silinder untuk motor dan mesin; kipas untuk motor dan mesin; mesin penarik jaring [penangkapan ikan]; turbin hidrolik; elektroda untuk mesin las; rumah [bagian-bagian mesin]; Roda rantai karet merupakan bagian dari roda rantai pada mesin dan peralatan bongkar muat.; mesin pembagi; pita perekat untuk katrol; bajak parit; mesin pemasang senar raket; alat ekstraksi untuk tambang; mesin pelapisan listrik; unit pembuangan limbah; motor untuk perahu; dongkrak pneumatik; palu miring; mesin pengolahan tembakau; ekskavator; mesin parut untuk sayuran; mesin penghancur; pegas [bagian mesin]; busi untuk mesin pembakaran internal; alat penampi; pompa pelumas; bak engkol untuk mesin, motor, dan mesin.; penghancur limbah; batang penghubung untuk mesin, motor, dan mesin; pemanen dan perontok; kepala silinder untuk mesin; mesin uap; penggilas uap; mesin pengukur ukuran; alternator; gulungan [bagian-bagian mesin]; kampas rem, selain untuk kendaraan; roda mesin; mesin pemangkas; roda gigi untuk alat tenun; alat tenun kaus kaki; kereta untuk mesin rajut; stator [bagian-bagian mesin]; starter untuk motor dan mesin; mesin pembuat tali; bajak salju; mesin penyegel untuk keperluan industri; kuas semprot untuk mengaplikasikan warna; pembangkit listrik; pistol semprot untuk cat; mesin perata; compressors [machines]; kotak roda gigi, selain untuk kendaraan darat; mesin pemotong roti; mesin pembuat sosis; bangku gergaji [bagian-bagian mesin]; buldoser; mesin kepang; mesin panen; setrika solder listrik; poros engkol; mesin galvanis; alat pengumpan untuk boiler mesin; penghemat bahan bakar untuk motor dan mesin; mesin pres penghalus; coin-operated washing machines; rantai penggerak, selain untuk kendaraan darat; pompa aerasi untuk akuarium; derek bergerak; mesin bubut [perkakas mesin]; landasan pemuatan; mesin ukir; mesin penggorengan; timpani [bagian-bagian mesin cetak]; segmen rem, selain untuk kendaraan; mesin cetak putar; lift gerbong kereta api; penggiling kopi, selain yang dioperasikan dengan tangan; transmisi, selain untuk kendaraan darat; mesin dan peralatan untuk mencuci karpet, listrik; kerekan; turbin, selain untuk kendaraan darat; Roda rantai karet merupakan bagian dari roda rantai pada mesin pertambangan.; pemanen dan pengikat; supercharger; pemukul, listrik; pulleys [parts of machines]; mesin pengepres pakan ternak; alat pemotong busur listrik; mesin untuk produksi gula; mesin dan motor hidrolik; hand-held tools, other than hand-operated; alat pengisian tinta untuk mesin cetak; bantalan bola; mesin peniup atau kipas untuk kompresi, penghisapan, dan pengangkutan biji-bijian; mesin peniup; mesin pengecoran; mesin stereotip; gantungan [bagian mesin]; mesin pemotong dan penyadap; alat las listrik; alat penyolderan, listrik; kumparan untuk alat tenun; alat pengikat untuk jerami; mesin pengisian; mesin udara tekan; jembatan rol; mesin penyapu jalan, penggerak sendiri; tombak termal [mesin]; kotak untuk matriks [pencetakan]; kalender; glaziers' diamonds [parts of machines]; bagian-bagian mesin [penghembus udara]; pisau listrik; blade sharpening [stropping] machines; mesin setrika; penukar panas [bagian-bagian mesin]; penggilingan [mesin]; mesin pembuat bitumen; door closers, hydraulic; knalpot untuk motor dan mesin; pemisah biji-bijian; blender listrik untuk keperluan rumah tangga; perangkat anti-polusi untuk motor dan mesin; mesin pembuat pasta, listrik; manifold knalpot untuk mesin; Kontrol pneumatik untuk mesin, motor, dan mesin; penghancur; setelan eksoskeleton robotik, selain untuk tujuan medis.; pukulan untuk mesin pelubang; mesin pengolahan bijih; pembuka jendela, pneumatik; piston [bagian dari mesin atau motor]; mesin pemintal; kondensor udara; radiator [pendingin] untuk motor dan mesin; katrol; pompa udara [instalasi garasi]; pengapian magnetos; regulator [bagian mesin]; alat-alat pertanian, selain yang dioperasikan dengan tangan; roda pengrajin tembikar; pengocok telur elektrik untuk keperluan rumah tangga; pemanas air merupakan bagian dari mesin.; mesin untuk perahu; roda bebas, selain untuk kendaraan darat; pistol lem listrik; mesin dan peralatan untuk pembersihan, listrik; bajak pengangkat rumput; lift; singkatan dari mesin; pengering putar [tidak dipanaskan]; kotak isian [bagian-bagian mesin]; drum [bagian-bagian mesin]; mesin pembungkus; peralatan mesin; sabuk dinamo; mesin cetak die; pembuka pintu, hidrolik; piston peredam kejut [bagian mesin]; mesin penghisap udara; mesin penggiling tepung; penghasut; pipa boiler [bagian-bagian mesin]; mesin udara bertekanan; mesin sortir untuk industri; pisau pemotong jerami; mesin dapur, listrik; filter yang merupakan bagian dari mesin atau motor; pemoles sepatu, listrik; pengangkut pneumatik; cetakan sepatu [bagian-bagian mesin]; turbin angin; jalan setapak bergerak; penggiling merica, selain yang dioperasikan dengan tangan; penurun tekanan [bagian mesin]; mesin pengaduk beton; pemisah tangkai [mesin]; mesin swaging; katup clack [bagian-bagian mesin]; mesin pewarnaan; memotong pipa tiup, dioperasikan dengan gas; dinamo sepeda; mesin paku keling; pengaduk; pipa tiup solder, dioperasikan dengan gas; mesin cetak; pengolah tanah bermotor; setrika solder, dioperasikan dengan gas; batu penggiling; mesin pengulir; mesin dan peralatan untuk memoles [listrik]; Kontrol hidrolik untuk mesin, motor, dan mesin; mesin pengupas kulit; alat konversi bahan bakar untuk mesin pembakaran internal; sabuk untuk mesin; gunting listrik; alat pengoperasian lift; pisau [bagian-bagian mesin]; mesin penggiling; mesin pengikat berkas; regulator tekanan [bagian mesin]; pembuka jendela, hidrolik; pengumpul kerak untuk boiler mesin; peralatan listrik untuk menyegel plastik [kemasan]; mesin timbul; mesin pemotong batubara; mesin pres keranjang; pompa untuk instalasi pemanas; mesin pemeras untuk cucian; mesin pencuci piring; mesin penabur; nosel hisap untuk penyedot debu; keran [bagian-bagian mesin, mesin atau motor]; mesin penambangan; pengantar [bagian-bagian mesin]; penggilingan untuk keperluan rumah tangga, selain yang dioperasikan dengan tangan; mesin pelabelan; instalasi penghisap debu untuk keperluan pembersihan; pembuka pintu, listrik; diafragma pompa; mesin pengolah tanah; mesin perencana; poros alat tenun; mesin pembuat jalan; pel uap; kondensor uap [bagian-bagian mesin]; mesin pembersih lemak; mesin cuci bertekanan tinggi; dongkrak rak dan pinion; sambungan universal [sambungan Cardan]; mesin dispenser pita perekat; konveyor [mesin]; pembuka jendela, elektrik; karburator; perangkat bantalan udara untuk memindahkan beban; kotak bantalan [bagian-bagian mesin]; pompa sentrifugal; obeng listrik; penyedot debu; starter engkol untuk sepeda motor; tambours for embroidery machines; sambungan [bagian-bagian mesin]; sambungan, selain untuk kendaraan darat; mesin mentega; mesin penerbangan; pembuka kaleng, listrik; pelumas [bagian-bagian mesin]; mesin pengaduk; pengangkat===

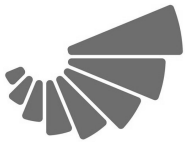
lenses; glaziers' putty; acetylene; fluorescent powder; preparations for stimulating cooking for industrial purposes; gas purifying preparations; rubber preservatives; chemical intensifiers for paper; refrigerants; preparations of the distillation of wood alcohol; compositions for the manufacture of phonograph records; cellulose; paper pulp; acetates; foundry moulding preparations; alkalies; ethers; phenol for industrial purposes; esters; toxic gas neutralizers; thermal paste; solidified gases for industrial purposes; mould-release preparations; enzymes for industrial purposes; coal saving preparations; aldehydes; chemical fertilizers; tensio-active agents; plasticizers; dielectric fluids as a chemical preparation for use in metalworking, except oils; soldering fluxes; pine camphor oil [chemicals for use in industry]; drilling muds; alkaloids; plastics, unprocessed; finishing preparations for use in the manufacture of steel; alkaline-earth metals; activated carbon; polish removing substances; Chemicals for the manufacture of paints===
===metal foil for use in painting, decorating, printing and art; pigments; Dyestuffs; paints for use in the manufacture of automobiles; clear protective coatings for vehicles; food colouring agents; undercoating for vehicle chassis; anti-rust greases; rust inhibiting preparations in the nature of a coating for use on vehicles; metals in powder form for use in painting, decorating, printing and art; ink for printers and photocopiers; conductive inks; clear coating protectant for vehicles; mastic [natural resin].; ink for leather; anti-corrosion coating for vehicle chassis; tattooing ink; automotive paints===
===Shampoos; polishing powders; automobile polish; make-up; automobile cleaners; automobile wax; toothpaste; detergents for automobiles; perfumery; wax polish for automobiles and bikes; detergents for cleaning motor vehicles; fragrances for automobiles.; polishing wax for automobiles; cleaning preparations for automobiles; deodorants for human beings or for animals; incense===
===electrical energy.; automotive engine oils; fuels; belting wax; lubricating grease for vehicles; candles; mineral motor fuels; Motor oil; diesel oil; lubricants for automobiles; lubricating oils for motor vehicles; lubricating oil for motor vehicle engines; petrol; lubricating oil; automobile fuels; lubricants; automotive lubricants; dust removing preparations===
===diapers for pets; pharmaceutical preparations; semen for artificial insemination; nutritive substances for microorganisms; contact lens cleaning preparations; radioactive substances for medical purposes; dietetic substances adapted for medical use; alloys of precious metals for dental purposes; Car deodorants; disinfectants; pesticides; cotton for medical purposes; gases for medical purposes.; chemical conductors for electrocardiograph electrodes; animal washes [insecticides]; sanitary towels===
===steel pipes; stoppers of metal; chains of metal; soldering wire of metal; locks of metal for vehicles; badges of metal for vehicles; rails of metal; steel wire; identification bracelets of metal; anchors; figurines of common metal; rings of common metal for keys; tree protectors of metal; tool boxes of metal; anchorage devices of metal; monuments of metal.; traps for wild animals; safes, electronic; wind vanes of metal; bells for animals; cable joints of metal, non-electric; pulleys of metal, other than for machines; iron ores; Props of metal===
===harpoons; spark plug sockets being hand tools; handles for hand-operated hand tools; cutting tools [hand tools]; spark plug wrenches; hobby knives [scalpels]; instruments and tools for skinning animals; paring irons; rubber hammers.; pickhammers; knives [hand tools]; syringes for spraying insecticides; livestock marking tools; clothes irons, electric; daggers; oil filter wrenches; table cutlery [knives, forks and spoons]; Hand tools, hand-operated===
===steel pens; drawing materials; tailors' chalk; name badges [office requisites]; advertisement boards of paper or cardboard; drawing instruments; typewriters; pictures; stamp-pad ink; stamps [seals]; geographical maps; periodicals; gummed tape [stationery]; ink; paper for use in the manufacture of loudspeaker diaphragms; decorative stickers for cars; staples for offices; mezuzah parchments.; books; decorative stickers for automobile wheel hubs; carrier bags of paper or plastic; atlases; terrestrial globes; modelling clay; cardboard tubes; Paper; toilet paper; decorative stickers for vehicle bumpers===
===soundproofing materials; connecting hose for vehicle radiators; waterproof packings; brake lining materials, partly processed; floating anti-pollution barriers; cylinder jointings; sew-on tags of rubber for clothing; connecting hoses for vehicle fuel injectors; Rubber, raw or semi-worked; plastic anti-fogging films for car rearview mirrors; bags of rubber for storing gas; insulating materials; plastic sealing strips (for cigarette cases).; tinted plastic films for use on vehicle windows===
===coffins; trash cans, not of metal, other than for household purposes; work benches; decorations of plastic for foodstuffs; numberplates, not of metal; mattresses; table tops; identification bracelets, not of metal; furniture; resin craftwork; Tables; neck cushions; mirrors [looking glasses]; locks, not of metal, for vehicles.; beds for household pets; fans for personal use, non-electric===
===vessels of metal for making ices and iced drinks; car washing mitts; Aromatic oil diffusers, other than reed diffusers; works of art of glass; smart medicine bottles, empty; electronic pill organizers for personal use; glass for vehicle windows [semi-finished product]; pet feeding bowls, automatic; cosmetic utensils; material for brush-making; household chinaware (including basins, bowls, plates, kettles, tableware, jars, jugs and pots); floss for dental purposes; plug-in diffusers for mosquito repellents; glass flasks [containers].; ceramics for household purposes; automatic opening and closing trash cans for household purposes; toothbrushes, electric; brushes; indoor aquaria; electric combs; tea services [tableware]; kitchen utensils===
===sails; straw wrappers for bottles; nets; textile fibres.; body bags; Car towing ropes; dust sheets; padding materials, not of rubber, plastics, paper or cardboard; vehicle covers, not fitted; tents; woven bags of textile, for packaging===
===mats; non-slip mats; wallpaper; wall hangings, not of textile.; floor mats for vehicles; floor coverings; carpets for automobiles; Carpets; wall coverings of paper; carpets for vehicles===
===rental of sales stands; provision of an online marketplace for buyers and sellers of goods and services; sponsorship search; Presentation of goods on communication media, for retail purposes; auctioning of vehicles; business management assistance; accounting; systemization of information into computer databases; rental of cash registers; retail services for pharmaceutical, veterinary and sanitary preparations and medical supplies.; sales promotion for others; rental of vending machines; personnel management consultancy===
===financing relating to automobiles; trusteeship; automobile lease financing; charitable fund raising; automobile loan brokerage services; art appraisal; financial customs brokerage services; lending against security.; used automobiles appraisal; vehicle lease financing; real estate agency services; surety services; car broker services; Accident insurance underwriting===
===encapsulation of semiconductors for others; dressmaking; custom biomanufacturing of pharmaceuticals; rental of boilers; air purification; processing of silicone; production of energy; custom manufacturing of car covers; fuel processing; custom manufacture of protective cases for cell phones; custom manufacturing of hairpins; cryopreservation services; contact lens tinting; custom manufacture of yachts; production of renewable green energy; custom manufacturing of jewelry for others; custom manufacturing of boats; custom manufacture of wigs; urea synthesis processing; rental of batteries; processing of medicinal materials; gas processing services; processing of concrete; custom manufacturing of chips [integrated circuits] for others; stone treating; framing of works of art; custom manufacture of cosmetics; custom manufacture of molds for use in industry; stripping finishes; paint mixing services; key cutting; processing of rubber; food and drink preservation; engraving;



custom manufacturing of cremation urns; recycling of electric batteries; blending processing of crude oil and synthetic oil; molding of plastic materials; tinting of car windows; rental of chemical processing machines; custom manufacturing of semiconductor circuits; custom 3d printing for others; woodworking; applying finishes to textiles; cutting of precious stones; custom manufacturing of aircraft; firing pottery; water treating; processing of semiconductor wafers; custom manufacturing of prosthetics.; rental of electricity generators; rental of printers for use with computers; custom manufacture of locks; paper finishing; rental of tobacco processing machines; printing; custom manufacture of computers for others; reproduction of museum artwork; processing of epoxy resin; custom manufacturing of blended essential oils for aromatherapy use; Sandblasting services; mixing lubricants for third parties; carbon capture; processing and treatment of chemical reagents; custom manufacturing of orthodontic appliances; custom manufacture of dental prosthesis and dentures; oil refining===
===entertainment services provided in virtual environments; organising prize draws; personal trainer services [fitness training]; multimedia library services; animal training; rental of indoor aquaria; Teaching; providing online virtual guided tours; publication of texts, other than publicity texts; toy rental; modelling for artists; organization of lotteries; arranging and conducting of congresses; providing museum facilities; distribution of video tapes; providing online images, not downloadable; rental of humanoid robots having communication and learning functions for entertaining people; providing playgrounds for pets.===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===viskosa; kolodion; aerosol pendeteksi cacat; additives, chemical, to motor fuel; selulosa; pengawet kimia; persiapan kondensasi kimia; jelaga untuk keperluan industri; litium oksida; alkohol vinik; plastik, belum diolah; brake fluid; emollients for industrial purposes; pasta pengisi untuk perbaikan bodi mobil; media pendinginan; persiapan senter; zat penghilang polesan; battery sulfuric acid; gas padat untuk keperluan industri; zat pendingin; alum; bahan perekat untuk beton; persiapan dehidrasi untuk keperluan industri; seawater for industrial purposes; agen tensio-aktif; air suling; asetilen; pencegah busa untuk bubur pelapis kedap air; fluks solder; Bahan kimia untuk pembuatan cat; cairan magnetik untuk keperluan industri; antikoagulan tinta [bahan tambahan kimia untuk tinta cetak]; elektrolit baterai; pupuk kimia; logam alkali tanah; bahan pengental untuk kaca; persiapan karbon hewan; alkali; fenol untuk keperluan industri; ukuran untuk digunakan dalam industri tekstil; bahan finishing untuk digunakan dalam pembuatan baja; pelat fotografi peka cahaya; antifreeze for vehicle radiators; antifreeze for vehicle cooling systems; zat pengikat warna untuk logam; asetat; enzim untuk keperluan industri; asetat [bahan kimia]; bauxite; persiapan korosif; persiapan renovasi untuk rekaman fonograf; metal hardening preparations; gel silika; minyak kamper pinus [bahan kimia untuk digunakan dalam industri]; pengawet karet; cairan pembantu untuk digunakan dengan bahan abrasif; zat kimia untuk mengawetkan bahan makanan.; ester; pasta termal; agen antimikroba untuk digunakan dalam pembuatan; lactic acid; kulit kayu bakau untuk keperluan industri; katalis biokimia; preparat pemurnian gas; alkaloid; mastic for tyres; persiapan untuk mencegah perubahan warna pada kaca; penguat kimia untuk kertas; chemical coatings for ophthalmic lenses; glaziers' putty; fluorescent powder; zat pengeras batu kapur; bahan kimia untuk pembuatan pigmen; jelaga untuk keperluan industri atau pertanian; keton; komposisi untuk pembuatan piringan hitam; preparations of the distillation of wood alcohol; eter; persiapan cetakan pengecoran; bahan kimia peremajaan kulit; persiapan untuk merangsang proses memasak untuk keperluan industri; kreosot untuk keperluan kimia; unsur radioaktif untuk tujuan ilmiah; toxic gas neutralizers; quebracho untuk keperluan industri; mould-release preparations; memisahkan dan melepaskan [melepaskan] persiapan; cairan dielektrik sebagai sediaan kimia untuk digunakan dalam pengerjaan logam, kecuali minyak; pengemulsi; plasticizers; komposisi untuk merangkai; produk sampingan dari pengolahan sereal untuk keperluan industri; bahan kimia pencegah kondensasi; bahan tahan api; drilling muds; air yang diasamkan untuk mengisi ulang baterai; pengikat aroma [produk kimia yang digunakan dalam pembuatan wewangian]; garam untuk mewarnai logam; bubur kertas; protein [bahan baku]; hidrogen peroksida untuk keperluan industri; activated carbon; persiapan penghematan batubara; aldehida===
===Zat warna; lapisan anti karat untuk sasis kendaraan; lapisan pelindung transparan untuk kendaraan; damar [getah alami].; cat yang digunakan dalam pembuatan mobil; food colouring agents; cat otomotif; anti-rust greases; tinta tato; logam dalam bentuk bubuk untuk digunakan dalam melukis, mendekorasi, mencetak, dan seni; ink for printers and photocopiers; tinta konduktif; Sediaan pencegah karat berupa lapisan untuk digunakan pada kendaraan.; pelindung lapisan bening untuk kendaraan; tinta untuk kulit; Lembaran logam untuk digunakan dalam melukis, mendekorasi, mencetak, dan seni.; lapisan anti korosi untuk sasis kendaraan; pigmen===
===Sampo; lilin mobil; Poles lilin untuk mobil dan sepeda; deterjen untuk mobil; preparat pembersih untuk mobil; pemoles mobil; bubuk pemoles; toko parfum; pembersih mobil; detergents for cleaning motor vehicles; pasta gigi; fragrances for automobiles.; deodoran untuk manusia atau hewan; rias; lilin pemoles untuk mobil; incense===
===oli pelumas untuk mesin kendaraan bermotor; lilin sabuk; electrical energy.; persiapan penghilang debu; oli pelumas untuk kendaraan bermotor; pelumas untuk mobil; bahan bakar; bahan bakar mobil; candles; mineral motor fuels; oli mesin otomotif; petrol; lubricating oil; minyak diesel; Oli mesin; gemuk pelumas untuk kendaraan; pelumas otomotif; pelumas===
===pembalut wanita; disinfektan; pharmaceutical preparations; pestisida; kapas untuk keperluan medis; nutritive substances for microorganisms; preparat pembersih lensa kontak; Pengharum mobil; popok untuk hewan peliharaan; zat dietetik yang disesuaikan untuk penggunaan medis; radioactive substances for medical purposes; gas untuk keperluan medis.; konduktor kimia untuk elektroda elektrokardiograf; pencuci hewan [insektisida]; paduan logam mulia untuk keperluan kedokteran gigi; sperma untuk inseminasi buatan===
===kotak perkakas dari logam; stoppers of metal; katrol logam, selain untuk mesin; lencana logam untuk kendaraan; gelang identifikasi dari logam; pelindung pohon dari logam; kawat baja; kawat solder logam; penunjuk arah angin dari logam; brankas, elektronik; perangkap untuk hewan liar; Penyangga logam; pipa baja; cincin logam biasa untuk kunci; perangkat jangkar logam; jangkar; kunci logam untuk kendaraan; monumen dari logam.; rantai logam; bells for animals; sambungan kabel dari logam, non-listrik; rel logam; patung-patung kecil dari logam biasa; iron ores===
===Perkakas tangan, dioperasikan dengan tangan; palu pemetik; alat penandaan ternak; instrumen dan alat untuk menguliti hewan; pegangan untuk perkakas tangan yang dioperasikan dengan tangan; pisau [perkakas tangan]; belati; syringes for spraying insecticides; clothes irons, electric; pisau hobi [pisau bedah]; alat pengupas; alat potong [perkakas tangan]; tombak; oil filter wrenches; table cutlery [knives, forks and spoons]; kunci busi adalah perkakas tangan.; palu karet.; kunci busi===
===steel pens; bahan menggambar; kertas untuk digunakan dalam pembuatan diafragma pengeras suara; atlas; mesin tik; perkamen mezuzah.; advertisement boards of paper or cardboard; tinta bantalan stempel; pictures; pita perekat [alat tulis]; buku; perlengkapan pokok untuk kantor; alat menggambar; stiker dekoratif untuk hub roda mobil; tabung kardus; majalah berkala; perangko [segel]; tanah liat model; kapur penjahit; lencana nama [perlengkapan kantor]; ink; decorative stickers for cars; Kertas; peta geografis; bola dunia terestrial; toilet paper; stiker dekoratif untuk bemper kendaraan; kantong belanja dari kertas atau plastik===
===Film plastik berwarna untuk digunakan pada jendela kendaraan.; selang penghubung untuk radiator kendaraan; kemasan tahan air; bahan kampas rem, sebagian diproses; penghalang anti-polusi terapung; bahan peredam suara; connecting hoses

for vehicle fuel injectors; label karet yang dijahit untuk pakaian; bahan isolasi; sambungan silinder; strip penyegel plastik (untuk kotak rokok).; kantong karet untuk menyimpan gas; Karet, mentah atau setengah jadi; lapisan plastik anti-kabut untuk kaca spion mobil===
===plat nomor, bukan dari logam; cermin [kaca mata]; peti mati; tempat tidur untuk hewan peliharaan rumah tangga; bantal leher; decorations of plastic for foodstuffs; kasur; tempat sampah, bukan dari logam, selain untuk keperluan rumah tangga; kipas angin untuk penggunaan pribadi, non-listrik; kerajinan resin; Tabel; meja kerja; permukaan meja; mebel; Kunci, bukan dari logam, untuk kendaraan.; gelang identifikasi, bukan dari logam===
===labu kaca [wadah].; akuarium dalam ruangan; wadah logam untuk membuat es dan minuman dingin; peralatan makan rumah tangga (termasuk baskom, mangkuk, piring, teko, peralatan makan, stoples, kendi, dan panci); Tempat sampah otomatis yang membuka dan menutup untuk keperluan rumah tangga.; smart medicine bottles, empty; sarung tangan cuci mobil; sikat gigi elektrik; bahan untuk pembuatan kuas; cosmetic utensils; Penyebar minyak aromatik, selain penyebar batang.; mangkuk makan hewan peliharaan, otomatis; ceramics for household purposes; karya seni dari kaca; benang gigi untuk keperluan perawatan gigi; brushes; electric combs; peralatan dapur; kaca untuk jendela kendaraan [produk setengah jadi]; perlengkapan minum teh [peralatan makan]; organizer pil elektronik untuk penggunaan pribadi; diffuser pengusir nyamuk yang dicolokkan ke stopkontak===
===pembungkus sedotan untuk botol; kantong mayat; serat tekstil.; Tali derek mobil; dust sheets; tenda; bahan bantalan, bukan dari karet, plastik, kertas atau karton; jaring; layar; tas anyaman tekstil, untuk pengemasan; penutup kendaraan, belum dipasang===
===karpet untuk mobil; karpet untuk kendaraan; penutup lantai; Hiasan dinding, bukan dari tekstil.; Karpet; tikar; wallpaper; keset anti selip; alas lantai untuk kendaraan; penutup dinding dari kertas===
===pencarian sponsor; bantuan manajemen bisnis; rental of sales stands; sistematisasi informasi ke dalam basis data komputer; auctioning of vehicles; accounting; promosi penjualan untuk orang lain; penyewaan mesin penjual otomatis; penyediaan pasar online bagi pembeli dan penjual barang dan jasa; konsultan manajemen personalia; Layanan ritel untuk sediaan farmasi, kedokteran hewan, dan sanitasi serta perlengkapan medis.; Penyajian barang di media komunikasi, untuk tujuan ritel.; penyewaan mesin kasir===
===pembiayaan terkait dengan mobil; trusteeship; pembiayaan sewa kendaraan; layanan broker mobil; financial customs brokerage services; Penjaminan asuransi kecelakaan; pemberian pinjaman dengan jaminan agunan.; used automobiles appraisal; penggalangan dana amal; pembiayaan sewa mobil; layanan agen real estat; penilaian seni; layanan penjaminan; layanan perantara pinjaman mobil===
===pencetakan bahan plastik; custom biomanufacturing of pharmaceuticals; pengolahan bahan obat; processing of silicone; pembuatan guci kremasi sesuai pesanan; production of energy; ukiran; fuel processing; penyewaan mesin pengolahan tembakau; layanan kriopreservasi; pemotongan kunci; penyewaan mesin pengolahan kimia; custom manufacturing of boats; custom manufacture of wigs; layanan pencampuran cat; pencetakan; pengolahan pencampuran minyak mentah dan minyak sintetis; pembuatan kunci sesuai pesanan; processing of concrete; enkapsulasi semikonduktor untuk pihak lain; stone treating; custom manufacture of cosmetics; custom manufacture of molds for use in industry; pembuatan perhiasan sesuai pesanan untuk orang lain; pemurnian udara; pengolahan dan perlakuan reagen kimia; processing of rubber; Layanan sandblasting; reproduksi karya seni museum; pemrosesan wafer semikonduktor; pembuatan penutup mobil sesuai pesanan; produksi energi hijau terbarukan; pembuatan jepit rambut sesuai pesanan; penyewaan generator listrik; tinting of car windows; custom manufacturing of semiconductor circuits; pengolahan air; pembingkaian karya seni; daur ulang baterai listrik; penjahitan; pewarnaan lensa kontak; pemotongan batu mulia; custom manufacturing of aircraft; mencampur pelumas untuk pihak ketiga; pembuatan komputer sesuai pesanan untuk pihak lain; custom manufacturing of prosthetics.; pengawetan makanan dan minuman; penyewaan baterai; mengupas lapisan akhir; penyewaan printer untuk digunakan dengan komputer; layanan pengolahan gas; penyulingan minyak; pemrosesan sintesis urea; paper finishing; menerapkan lapisan akhir pada tekstil; manufaktur chip [sirkuit terpadu] sesuai pesanan untuk pihak lain.; custom manufacturing of blended essential oils for aromatherapy use; pembakaran tembikar; penyewaan boiler; pencetakan 3D khusus untuk orang lain; carbon capture; pengolahan resin epoksi; pembuatan kapal pesiar sesuai pesanan; custom manufacturing of orthodontic appliances; custom manufacture of dental prosthesis and dentures; Pembuatan casing pelindung khusus untuk ponsel.; pertukangan kayu===
===layanan perpustakaan multimedia; penerbitan teks, selain teks publisitas; organising prize draws; Penyewaan robot humanoid yang memiliki fungsi komunikasi dan pembelajaran untuk menghibur orang.; Pengajaran; layanan pelatih pribadi [pelatihan kebugaran]; mengatur dan menyelenggarakan kongres; menyediakan tur virtual online yang dipandu; menjadi model untuk para seniman; menyediakan taman bermain untuk hewan peliharaan.; organization of lotteries; menyediakan fasilitas museum; Layanan hiburan yang disediakan di lingkungan virtual.; pelatihan hewan; penyewaan akuarium dalam ruangan; providing online images, not downloadable; distribusi kaset video; penyewaan mainan===

unbreakable cast materials; compensator pipes, flue gas ducts in the form of gas pipes, superheated steam, water, condensate and thermal oil pipes; chests of metal; building materials of metal, in particular cast iron material for railway tracks, cast iron material for bridges; wall claddings of metal for building; manhole covers of metal; bridges [constructions] and their structural parts, such as bridge railings, bridge posts, bridge bearings, in particular railway bridges and their structural parts of metal, in particular of cast iron; fish plates [rails]; beams of metal; building materials of metal; strongrooms; cladding of metal for building; shuttering of metal for concrete; engine casings of metal, in particular cast iron; temporary bridges of metal, in particular cast iron; ingots of common metal; machine foundations, namely press machine foundations of metal, in particular cast iron; chimneys of metal; containers of metal, in particular cast iron, for storage, in particular for long-term storage; metals in foil or powder form for 3d printers; building and construction materials and elements of metal; reinforcing materials of metal for pipes; Common metals and their alloys; mooring bollards of metal; flap valves of metal, namely for drainage pipes; cast iron manufactured in an electric induction furnace; steel alloys; frames of metal for building; materials of metal for building and construction; fireplace mantles of metal; steel, unwrought or semi-wrought; small parts of metal; hoppers of metal, non-mechanical; cast iron containing spheroidal graphite, in particular with graphite spheres embedded in an austenitic structure; metal structures for use in wind- and sea turbines; cermets; framework of metal for building; doors of metal; steel sheets; materials of metal for building, in particular cast iron for building; closures of metal for containers; elbows of metal for pipes; chimney shafts of metal; casks of metal; metal building structures and parts thereof; cast iron, in particular austenitic cast iron, in particular ductile iron, in particular with a high nickel content; buildings, transportable, of metal; flap valves of metal, namely for water pipes; anchors; duckboards of metal; anchor plates; nozzles of metal; pillars of metal for building; brackets of metal for building; structural parts and structures of common metals and their alloys; cast iron for heat applications; brackets of metal for furniture; buildings being fixed structures of metal; acoustic panels of metal; guide rails of metal; chimney cowls of metal; sills of metal; shuttering and moulds of metal; fittings of metal for furniture; branching pipes of metal; boxes of common metal; railway sleepers of metal; rails of metal; flap valves of metal, namely for gas pipes, namely for air pipes; reinforcing materials of metal for building; armour-plating of metal; latticework of metal; containers of metal for the interim and final storage of radioactive materials; chimney pots of metal; steel tubes; staircases of metal; materials of metal for funicular railway permanent ways; platforms, prefabricated, of metal; turntables [railways]; alloys of common metal; gutter pipes of metal; cast iron containing spheroidal graphite, in particular with graphite spheres embedded in a ferritic structure; iron, unwrought or semi-wrought===

===tools for composite processing machines; long log flakers; machines and installations for the crushing and processing of thermoplastics, plastic waste and rubber; partly automated, fully automated or artificial intelligence-aided [smart] industrial robots for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; motors, other than for land vehicles; pumps for industrial heating installations and furnaces; breakers, jaw crushers, primary crushers; dynamic and static air separators, cross-flow separators, centrifugal separators, basket separators, reverse separators, cascade separators, gravity separators, zig-zag separators, sifting machines, vacuum sifting machines, vibration sifting machines, drum screening machines, vibrating screening machines, flat sifting machines, eddy current sifting machines, tumbler sifting machines, roller separators, filtering machines, hose filters (parts of machines), cartridge filters (parts of machines), pocket filters (parts of machines), cyclones, separators, centrifuges, disintegrators, blowing machines, extracting machines, magnetic drums (parts of machines), magnetic rollers (parts of machines), magnetic grates (parts of machines), mechanical separators, gravity separators, overbelt magnetic separators, induction separators, metal detection coils (parts of machines); machines and mechanical apparatus for the washing of materials; machines and installations for the mechanical processing of materials and bulk materials into powders and granulates; automatic dispensing machines; transporters [machines]; cleaning machines for reactors; machines and mechanical appliances for conveying, feeding and dosing materials into a production process, and parts thereof; machines and mechanical apparatus for mechanical process engineering, and installations constructed from the aforesaid goods; single- and multi-daylight mechanical or hydraulic presses for the production of shaped parts, namely continuously or intermittently operating mechanical or hydraulic presses for the production of shaped parts from materials derived from raw materials, namely plant-based raw materials, alloyed and unalloyed steels, composite materials, metal and steel sheets, organosheets, plastics, organic and inorganic materials, materials containing minerals; machines for the shredding of temperature-sensitive materials such as plastics, thermoplastics, thermosetting plastics, elastomers, food and luxury foods, aromatic materials, pharmaceutical and cosmetic materials, chemical materials, materials containing oil and grease, highly viscous and adhesive materials, and parts thereof; compressors; membrane presses, namely fluid-loaded membrane presses for the production of shaped parts, namely continuously or intermittently operating membrane presses for the production of shaped parts from materials derived from raw materials, namely plant-based raw materials, alloyed and unalloyed steels, composite materials, metal and steel sheets, organosheets, plastics, organic and inorganic materials, materials containing minerals; tools for plastic processing machines; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from insulating materials, namely stone wool, glass wool, slag wool, polyurethanes, wood wool or glass wool; tools for composite material treatment machines; transferring machines; mineral processing machines; lifting machines and installations for transporting bulk materials; machines and mechanical apparatus for the recycling and separation of materials, in particular for separating the components of composite materials; conveyors; unmanned transportation conveyors being cargo handling machines; blowing engines; blind hole cleaning machines, namely for industrial applications; rolling mills; moulds for production [parts of machines]; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from plastics, namely thermoplastics, thermosetting plastics or elastomers; machines for working plastic; machines and mechanical appliances for compressing, compacting, agglomerating, compounding and coating materials, such as web-shaped materials, panels, moulded products, pressed products and cast products [castings]; sifters; stud tensioning machines, namely for pressurised water reactors, boiling water reactors; disc mills; stuffing screws; machines and installations in the field of press automation, industrial automation and transport automation and parts therefor; generators; manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of castings from alloyed and unalloyed ferrous and non-ferrous metals, alloyed and unalloyed steels, preferably of castings in a large mould; crushing machines; cast troughs and cast platens [parts of machines]; machines for washing materials, in particular wood, fibrous materials, food and animal foodstuffs, plastics, chemicals, pharmaceutical and cosmetic products and minerals; vacuum pumps [machines]; moulds [parts of machines];

insulating-material processing machines; painting machines incorporating painting lines; metal production machines; machines for manufacturing simply or multiply curved organic and inorganic homogeneous and composite structures and architecture; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from mineral raw materials, namely from gypsum, carbonised plant materials, silicon dioxide, silicates or ceramics, portland cement, gypsum-cement-pozzolan compounds [gcp binders], magnesia binders; tools for insulating-material processing machines; moulds [parts of machines], in particular chill-moulds and matrices; All of the aforementioned goods for processing continuous or finite shaped pieces and bulk materials, as well as pasty, flowable, vegetable, and fibrous materials and mixtures of materials, as well as liquids, fluid-solid mixtures and low- and high-consistency suspensions, in particular fibrous materials such as lignin-containing or lignocellulose-containing materials, composite materials such as organic sheets in particular, plastics and plastics with admixtures of perennial or annual plant components such as wood, waste wood, grass, bark, paper, cardboard, cellulose, or with components of other materials, such as textiles, waste, rubber, resins, leather, food, luxury foods, and animal feed, minerals, carbons, plastics, pigments, dyes, pharmaceuticals, chemical products, metals, composite materials, electronic scrap, cables, and old tires, parts, spare parts, accessories, and tools for the aforementioned goods, insofar as included in this class; lacquering installations; compres- sors [machines]; painting robots; compressors for refrigerators; heat exchangers (parts of machines); cast hoppers [parts of machines]; flakers, knife ring flakers, disc flakers, universal flakers, mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision service-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, impact crushing machines; cleaning machines, namely for industrial applications; rolling mills, mills and wind turbines, in particular wind turbine foundations, casings, frameworks and rotor casings; cast filters [parts of machines]; resin transfer moulding machines; tools for mineral processing machines; extrusion presses, injection moulding machines, agglomerators, heating/cooling mixers, compactors, calenders and parts of calenders, pelletisers, briquetting machines, pellet mills, wet compressors, screw compresses, double belt presses, packing presses, channel baling presses; foundry machines; power transmission couplings [other than for land vehicles]; bonding machines; machines for manufacturing structures and architecture; propulsion mechanisms, other than for land vehicles; steam engine boilers for power generation, other than for land vehicles; machines for generating and converting energy, for example steam engines, wind turbines, hydroelectric power plants, turbines; wood-crushing machines; parts of engine housings; Machines, machine installations and parts thereof for mechanical and chemical process engineering and for the production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; friction washers; machines for manufacturing organic and inorganic homogeneous and composite structures; machines and mechanical appliances for mixing, dispersing, emulsifying and homogenising materials; composite processing machines; engines, drive units and parts of engines, engine housings, pistons, piston rods, piston rings, Gear rods, gear wheels, toothed wheels, axles, shafts andvalves, turbines, compressors, all being parts of machine; machines and mechanical apparatus for conveying, feeding and dosing materials into a production process; parts of casings, parts of engines, in particular moving parts of engines.; beating flakers; pulping machines [refiners]; matrices (parts of machines); mechanical equipment for foundry machines and metal production machines; hydraulic high-pressure components and sealing systems [parts of machines]; power operated tools; cutting, shearing, mixing, grinding, impact and striking tools, all being parts of machines, knives [parts of machines], cutter blocks, cutting discs, cutting tips, shearing strips, grinding tracks, grinding discs, milling pins, grinding segments, grinding grids, grinding sets, pan grinder rollers, sieves [parts of machines], sifting tracks, disc screens, drum screens, perforated sheets [parts of machines], beater plates, impact strips, hammers [parts of machines], cylinders, pinion rollers, cylindrical milling cutters, grates [parts of machines], strainer bars, rod plates and gratings, mixing blades, pressure fittings, matrices [parts of machines], doctor blades, break cams, linings [parts of machines], wear plates [parts of machines], wear discs, wear rings, wear strips, wear shoes; sorting machine locks [sluices]; apron conveyors, sliding floors, belt conveyors, bucket conveyors, tube chain conveyors, stuffing screws, archimedian screws, auger fillers, sluices, dosing valves, hydraulic or pneumatically operated feeding devices, blowing machines, load conveyors, vibratory conveyors, oscillating conveyor troughs, conveying chains and drag chain conveyors; motors [other than for land vehicles]; industrial mixing machines; stud tensioning technology systems; plant shredding machines; guides for machines; shaping and moulding machines; machines and mechanically driven appliances as well as energy-generating installations formed therefrom and industrial drying installations heated both directly via hot gases and indirectly via steam, hot water and thermal oil; process control units [mechanical]; industrial robots; thrust pieces; composite-material processing machines; machines for processing organic and inorganic homogeneous and composite materials; blending machines for chemical processing; machines and mechanical apparatus for separating bulk materials of differing densities and/or sizes; electricity generators; aids for producing castings, namely hoppers and filters [parts of machines]; archimedian screws; stud tensioning devices for steam generators; fluidised bed dryers, drum dryers, screw coolers; moving and handling equipment; woodworking machines; tools for the processing of composite materials; machines and machine tools for treatment of materials and for manufacturing; coating installations [coaters], namely flow coaters and bath coaters; manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; machines and mechanical apparatus for the separation, classification, removal, degassing and filling of materials; drum shredders, bale shredders, guillotines, guillotine shears, scrap shears, scrap presses, chippers, drum chippers, disc chippers, plastic chippers, vertical crushers, shredders, single-shaft shredders, multi-shaft shredders, horizontal shredders, vertical shredders; atomising machines; mechanical process engineering installations for forming a mixture of free-flowing scatter material, namely fibrous material, chip material, plastic, carbon, dry binding material, resins or mineral material, in a defined geometric shape with a defined grammage, with the help of dosing, scattering and transport equipment that has been synchronised through monitoring and measuring systems; vibrators [machines] for industrial use; lifting ma- chines for load transport; sound absorbers being parts of machines; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from a mixture of raw materials, namely a mixture of two or more single-origin raw materials [basis], of which at least one forms a continuous phase [composite material], namely a composite material that features a matrix and a mesh arranged therein, namely a composite material with a matrix formed from resin and a fibre or grid structure formed from carbon; machinery and installations for the production of wood chips; regulators [parts of machines]; lifting and hoisting equipment; drives for

conveyors; sorting machines for industry; agricultural implements other than hand operated hand tools; machines and mechanical appliances for the shredding, granulation, disintegration, de-agglomeration, defibration and fine and ultra-fine grinding of materials, and parts thereof; conveyors and conveyor belts; control and regulating units and installations for manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, preferably within mechanical or chemical process engineering and general and special-purpose machine construction, vehicle construction and series production support; stud turning devices such as single-stud turning devices, double-stud turning devices, multi-stud turning devices, namely for industrial applications; mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision surface-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, secondary crushers, classifier mills, milling layer installations, fine mills, precision mills, mills for producing mineral and metallic powder, granulators, wet granulators, pipe granulators, precision granulators, profile granulators, lead-frame granulators, hard foam granulators, film granulators, small granulators, pelletisers, strand granulators, band granulators, chippers, drum chippers, hammer mills, impact hammer mills, pulp separators, impact crushing machines, turbo mills, blow nose mills, pin mills, universal mills, ball mills, jet mills, counter-jet mills, colloidal mills, counter-flow mills, double-flow mills, rolling mills; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of materials or products consisting of two or more layers bonded or glued together over the entire area, whereby the layers may consist of the same or different material grades and of the same or different kinds of material [laminates], namely heating foils, temperature foils, display foils, laminated insulating material, aluminium composites such as aluminium-wood composites, aluminium-composite composites such as glass-fibre-reinforced aluminium, packaging composites such as beverage carton composites, composite materials of plant materials and plastics, mineral composites such as porcelain stoneware-plastic composites; machines and mechanical apparatus for the conditioning of materials; machines for manufacturing curved organic and inorganic homogeneous and composite panels and surfaces; cast iron parts for pipes [parts of machines]; parts and fittings for all the above goods; parts, spare parts, accessories and tools for the aforementioned goods, included in this class; machines for manufacturing organic and inorganic homogeneous and composite architecture; control mechanisms for machines, engines or motors; gluing flash tube [part of a machine]; transmission components (except for land vehicles); agricultural, earthmoving, construction, oil and gas extraction and mining equipment; rollers; machines for processing composite materials; single tensioners for pressurised and boiling water reactors; dispensing machines; process control instruments [mechanical]; valves and sluices for machines and transport systems; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from reinforced materials, namely fibre-reinforced plastics such as glass- or carbon-fibre-reinforced plastics, occ composites, rubber-steel composites, such as conveyor belt materials or treads for tyres, recycling materials; machines and mechanical appliances for mixing and homogenising materials; metalworking machines; machines for shredding soft to medium-hard materials such as minerals, plastics, wood, foodstuffs and animal feed, leather, cellulose, rubber, elastomers and soft sheet metal; agitators, tumbling mixers, conical mixers, batch mixers, screw mixers; indoor self-driving robots for industrial use; machine tools for woodworking machines; cell wheel dosing devices [parts of machines]; bolt cleaning machines, reactor pressure vessel bolt cleaning machines; engine housings; pulverizing mills; single- and multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from raw materials, namely plant-based raw materials, namely raw materials obtained from annual or perennial plants, into single- or multi-layer panel-shaped materials such as fibreboard, chipboard, oriented strand board [osb] or into mixed forms thereof [hybrid boards]; control appliances for machines and installations; multi-stud tensioners; separating machines; filtering machines, separators and centrifuges; moulds that can be used multiple times, preferably chill-moulds, namely single chill-moulds and multiple child-moulds [parts of machines]; machine tools; machines for treating organic and inorganic homogeneous and composite materials; gantry canes and parts of gantry cranes; material production and processing machines; auger fillers; composite material treatment machines; valves [parts of machines]; parts of machines, namely cast iron parts, for machines and machine tools for the treatment of materials and production; linings (parts of machines)=== ===side arms, other than firearms; material properties, for example hardening; metal treating; 3d reproduction services; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production of pressed goods; generation of energy, in particular hot gases, steam, thermal oil and electricity; industrial production and custom manufacture, namely of turned parts of metal, turned parts of plastic, large turned parts such as shafts and cylinders for machines and installations, milled parts of metal, milled parts of plastic, large milled parts such as parts for machine and plant construction, namely for the construction of treatment installations for fibrous materials, intermittently or continuously operating presses and large presses for processing fibrous materials such as paper, cardboard, engineered woods, fibre composites, plastics, composite materials, iron, steel, cast materials; millworking; custom 3d printing for others; chromium plating of metal articles; metallurgical smelting; recycling of recycling materials, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste; metal casting; processing of metal surfaces using precision grinding techniques; shaping of metal components; blast treatment; processing of large structural parts with individual volumes of at least 500 litres using chemical or mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, in particular pressing; water treating; hard chromium plating and hard nickel plating of metal surfaces; fettling shop services for processing moulds for the manufacture of castings, in particular large castings; metal tempering; consultancy in the field of the manufacture of flat and simply or multiply curved or structured organic and inorganic homogeneous and composite goods, semi-finished products and structures.; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production or processing of goods containing natural fibres, of composite structures, namely non-metallic composite structures, and of metallic composite materials as well as composite materials containing plastic; processing of moulds for the manufacture of castings, in particular large castings; metal hardening; custom construction of machines; custom manufacture and processing of organic and inorganic homogeneous and composite goods, semi-finished products, structures and architecture, namely for the building industry, the production of panels, vehicle and aircraft construction, machine and plant construction in a level form or in a simply or multiply curved form; treatment and coating of metal surfaces; incineration of waste and trash; material processing of temperature-sensitive materials using chemical process engineering; material processing of piece and bulk goods, and of paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and of liquids, fluid/solid mixtures and low- and high-consistency suspensions; printing; custom manufacture of models for generating moulds for making castings, preferably large castings; preservation of food; material processing of temperature-sensitive materials using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; metal melting services; custom manufacture of tools for others; Material processing using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; coating of coatable material, namely wood, paper, cardboard, cellulose, textiles, plastics, rubber, minerals, pharmaceuticals, chemical products, metals, composite material; moulding shop services for generating moulds for the manufacture of castings, in particular large castings; material treatment services in connection with recycling, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste===
===rental services relating to equipment and facilities for education, entertainment, sports and culture; entertainment services relating to sport; audio-visual display presentation services for entertainment purposes; training; sporting activities; entertainment services; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of installations for mechanical or chemical process engineering; Educational instruction; training and instruction of users and service staff, namely relating to the operation of presses, namely of continuously or intermittently operating presses and large presses, of single- or multi-daylight presses, of presses for generating endless goods, namely web products in the form of natural-fibre-based web goods for the production of panels, in the form of organically or inorganically based web goods for the production of panels, in the form of composite-forming web goods for the production of composite materials, such as organosheets; party planning [entertainment]; instruction and training of users and service staff, namely relating to installations processing natural fibres; training services relating to the adaptation and use of monitoring systems, namely of vibration measurements and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems.; radio entertainment; arranging of presentations for entertainment purposes; production of sound recordings; instruction and training of users and service staff, namely relating to heating installations and furnaces for generating heat and steam, exhaust gas purification and drying installations; entertainment, sporting and cultural activities; organisation of sporting events; organization of entertainment events; information and advisory services relating to entertainment; instruction and training of users and service staff, namely relating to energy-generating installations; provision of recreational events; organisation of parties; rental of audio/visual and photographic equipment and facilities; instruction and training of users and service staff, namely relating to mills and refiners; cultural activities; instruction and training of users and service staff, namely relating to the use of machines, installations and parts of installations for mechanical or chemical process engineering; organisation of educational events; organisation of entertainment and cultural events; conducting of educational events; entertainment services provided at discotheques; conducting of cultural events; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of software, namely of software for controlling industrial installations, such

as production installations or installations for mechanical or chemical process engineering and parts of these installations; organizing cultural and arts events; instruction and training of users and service staff, namely relating to plastic-processing machines and installations; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of industrial machines, installations and parts of installations, namely of machines, installations and parts of installations for the production of material assets; arranging and conducting of entertainment events; musical entertainment; instruction and training of users and service staff, namely relating to industrial production installations; organising of shows for entertainment purposes===
===design services for architecture; technological consultancy in the field of measurement and calculations for the adjustment of the operating materials.; volume flow measurement; providing temporary use of on-line non-downloadable software for importing and managing data; cloud hosting provider services; services relating to the planning of energy-generating and energy-converting installations such as nuclear installations, energy installations powered by natural forces, such as installations powered by wind or water; process-related technical consultancy in connection with the operation of machines, mechanical appliances and installations for mechanical process engineering manufactured therefrom; science and technology services; laboratory analysis of materials and clinical trials relating to the treatment of materials, in particular the conveyance, dosing, crushing, mixing, agglomeration, compressing, conditioning, separation and sorting of materials; pressure measurement; industrial testing, calibration, condition monitoring; testing and quality control of monitoring systems, namely of vibration measurements and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of process of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems; industrial design; interior design services and information and advisory services relating thereto; providing virtual computer environments through cloud computing; design and development of networks; software development, programming and implementation, in particular to monitor and control machines, installations and processes for mechanical process engineering; scientific and technological services and research and design relating thereto; services of an engineer in connection with the provision of the aforementioned services; consultancy in the field of engineering, namely the design of installations and parts of installations for producing goods and semi-finished products, namely organic and inorganic panels, fibreboard, composite panels, organosheets, gypsum boards, plastic panels, wpc panels, energy carrier panels; services relating to the planning of facilities for sorting low-level radioactive waste, caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste, fuel element disposal management, data and calculations for protection against radiation, process computer systems, personal and job-based dose control; cloud storage services for electronic files; quality control; construction drafting, building design, technical project planning, technical project management, technical building supervision, quality control and assurance in the area of industrial heating installations and furnaces for generating heat and steam, industrial drying installations and environmental engineering; technological engineering analysis regarding bearings, couplings, belt pulley alignments; technical consulting, and engineering services and technological consultancy relating to concept development, plan development/design, planning and support during the approval process, advice regarding the selection of the correct business partner, project execution, project support, project management, supervision/optimisation of revision processes, quality monitoring and construction supervision, creation and checking of documentation; providing virtual computer systems through cloud computing; implementation of computer programs in networks; technological services relating to manufacture; research in the field of mechanical process engineering; preparation of reports in the field of measurement and laboratory data; engineering consultancy relating to manufacture; computer design services; performance measurement; design of models for generating moulds for making castings, preferably large castings; cloud storage services for electronic data; preparation of reports relating to scientific research on electrical energy; editing of computer programs; authentification services; technological services; computer aided design for manufacturing operations; engineering services; industrial research; design services; consulting in the field of cloud computing networks and applications; technical project studies; custom design services; programming of electronic control systems; technical research; services relating to industrial design, architectural consultancy; consultancy in the field of engineering, namely the design of installations and parts of installations for mechanical or chemical process engineering, and the refurbishment of installations and parts of installations for mechanical or chemical process engineering; planning, development and technical project planning of machines, mechanical appliances and installations for mechanical process engineering; Development of computer based networks; services of engineers and inspections in the field of energy generation; consultancy in the field of construction drafting; cloud computing; mass flow measurement; operating point measurement; industrial analysis; design and development of computer hardware and software; electric meter reading and data analysis for energy auditing purposes; design and development of computer hardware for the manufacturing industry; consultancy in the field of engineering; software creation and further development, and the use of software for costing nuclear dismantling projects, waste tracking and documentation, the radiological spatial data project information system; it services; design services relating to interior decorating for homes; testing such as vibration measurements, temperature profile analyses, and temperature profile adjustment; quality control and assessment services; research and development of new products relating to environment protection; construction drafting; computer software design; design, development and implementation of software===

Uraian Barang/Jasa :

(menggunakan mesin translasi)

===pupuk; resin sintetis, belum diproses; persiapan temper; Bahan-bahan yang disebutkan di atas untuk pembuatan senyawa kimia dan komposit, khususnya dalam kombinasi dengan bitumen, karet, karbon atau plastik, yaitu plastik termoset, termoplastik dan elastomer, bubuk, bubuk halus, serat, serutan dan serpihan untuk keperluan industri yang terbuat dari bahan lignoselulosa, khususnya selulosa, kayu, gabus dan tanaman tahunan.; soldering preparations; Bahan kimia industri; plastik yang belum diolah; sediaan kimia untuk digunakan dalam fotografi; komposisi pemadam api; kompos; perekat untuk digunakan di industri; biological preparations for use in industry and science; dempul dan bahan pengisi pasta lainnya; bahan-bahan tersebut di atas dengan tambahan gabus dan/atau kulit pohon.; bahan kimia yang digunakan dalam sains; bahan kimia yang digunakan dalam kehutanan; plastik dalam bentuk bubuk, butiran, pelet, serpihan, dan aglomerat; bahan kimia untuk digunakan dalam pertanian; bahan kimia yang digunakan dalam hortikultura; komposisi pencegahan kebakaran; komposisi penyamakan untuk kulit hewan; persiapan pemupukan===
===gemuk industri; candles for lighting; Oli mesin otomotif; lighting fuel; lilin; komposisi pengendali debu; bahan bakar; sumbu untuk lilin.; komposisi penyerap debu; pelumas; komposisi pembasah debu===
===bangunan dari logam; cast iron, in particular ferritic cast iron, in particular ductile iron, in particular with a high nickel content; paduan logam biasa; bagian struktural dan struktur logam umum serta paduannya; periksa rel logam untuk jalur kereta api; tiang logam untuk bangunan; bahan logam untuk jalur permanen kereta api funikular; wadah logam untuk penyimpanan sementara dan akhir bahan radioaktif; pipa kompensator, saluran gas buang berupa pipa gas, uap superpanas, air, kondensat, dan pipa minyak termal; bahan bangunan dan konstruksi serta elemen logam; kisi-kisi logam; tabung baja; structural parts, of metal, for boats, ships, maritime, aviation and local transport structures; pelapisan baja; bekisting dan cetakan logam; pelampung tambat dari logam; Jembatan [konstruksi] dan bagian-bagian strukturalnya, seperti pagar jembatan, tiang jembatan, bantalan jembatan, khususnya jembatan kereta api dan bagian-bagian strukturalnya yang terbuat dari logam, khususnya dari besi cor.; nosel logam; rel logam; penyangga logam; penjepit logam untuk pipa; chimneys of metal for energy and drying technology, for the power plant industry; bantalan rel kereta api dari logam; wadah logam untuk menyimpan asam; blok swage; wadah logam, khususnya besi cor, untuk penyimpanan, khususnya untuk penyimpanan jangka panjang; steel buildings; kuningan, mentah atau setengah jadi; wadah logam [penyimpanan, pengangkutan]; bantalan rel kereta api dari logam, khususnya besi cor; platform, prefabrikasi, dari logam; flensa logam [kerah]; paduan baja; katup penutup dari logam, khususnya untuk pipa drainase; timah, mentah atau setengah jadi; pintu logam; rangka logam untuk bangunan; braket logam untuk bangunan; railway material of metal; daun jendela, bekisting, dan cetakan logam untuk beton.; ores of metal; besi cor dengan struktur matriks fase tunggal atau fase ganda, khususnya dengan struktur matriks fase tunggal yang terbentuk dari besi cor austenitik; pengait panci dari logam; partitions of metal; besi cor, khususnya besi cor austenitik, khususnya besi cor ulet, khususnya dengan kandungan nikel yang tinggi; bahan penguat logam untuk pipa; saluran logam, untuk instalasi pemanas sentral; struktur dan bangunan portabel dari logam; tangga logam; cerobong asap dari logam; wadah logam untuk penyimpanan, pengangkutan, dan pengemasan; brankas [logam atau bukan logam]; bahan konstruksi tahan api dari logam; kerangka logam untuk bangunan; wadah logam untuk gas bertekanan atau udara cair; bangunan, portabel, dari logam; pipes of metal, large pipelines, exhaust steam pipes; selubung mesin dari logam, khususnya besi cor; papan kayu dari logam; bangunan merupakan struktur tetap yang terbuat dari logam.; cetakan pengecoran logam; besi cor ulet; struktur penyangga dari logam; nampan pengumpul logam; ruang penyimpanan yang aman; bahan cor yang tidak mudah pecah; menangani palet logam; cetakan dingin [pabrik pengecoran]; bahan bangunan dari logam, khususnya bahan besi cor untuk rel kereta api, bahan besi cor untuk jembatan; pipa talang logam; tabung logam; Bekisting, cetakan, dan profil logam untuk beton pracetak dan beton cor di tempat.; batangan logam biasa; penutup cerobong asap dari logam; bahan logam untuk bangunan dan konstruksi; brankas dan lemari besi dari logam, khususnya besi cor.; bahan penguat, dari logam, untuk beton; sekrup logam; katup penutup dari logam, khususnya untuk pipa gas, khususnya untuk pipa udara; jembatan sementara dari logam, khususnya besi cor; brankas; pelapis dinding logam untuk bangunan; masts of metal; kabel dan kawat non-listrik dari logam biasa; bahan bangunan dari logam; ducts of metal for ventilating and air-conditioning installations; bagian-bagian kecil logam; suku cadang dan perlengkapan untuk semua barang tersebut di atas, yang termasuk dalam kelas ini.; meja putar [kereta api]; fish plates [rails]; besi cor untuk aplikasi panas; tembaga, mentah atau setengah jadi; semburan logam; corong logam, non-mekanis; bahan bangunan non-listrik dari logam; penutup pipa logam; pelapis logam untuk bangunan; lembaran baja; reinforcing materials of metal for pipes; logam piroforik; bagian-bagian struktural, seperti jembatan dan bagian-bagian jembatan; besi siku dari logam; tangki logam; kotak logam biasa; peti logam; baja cor; mantel perapian dari logam; besi, mentah atau setengah jadi; Logam umum dan paduannya; Besi cor yang mengandung grafit bulat, khususnya dengan bola grafit yang tertanam dalam struktur austenitik.; keramik; perangkat keras logam; penutup lubang got dari logam; struktur komposit logam, yaitu struktur komposit yang mengandung logam; struktur bangunan logam dan bagian-bagiannya; jangkar; pintu putar logam; metal structures for use in wind- and sea turbines; struktur logam untuk digunakan dalam arsitektur; chimney shafts of metal; perlengkapan logam untuk furnitur; besi cor yang diproduksi dalam tungku induksi listrik; sambungan logam untuk pipa; pondasi mesin, yaitu pondasi mesin pres logam, khususnya besi cor.; pipa besi cor; wadah logam, khususnya besi cor, untuk transportasi; baja, mentah atau setengah jadi; perancah logam; pipa logam; mur logam; pipa logam bercabang; tiang tambat dari logam; tong logam; besi cor, mentah atau setengah tempa; wadah logam untuk transportasi; pembatas jalan dari logam; brackets of metal for furniture; katup penutup dari logam, khususnya untuk pipa air; wadah penyimpanan dari logam; bekisting logam untuk beton; logam umum dan paduannya; guide rails of metal; logam biasa, mentah atau setengah jadi; chimney cowls of metal; titik kereta api; pipa penyalur air dari logam; struktur logam untuk digunakan dalam industri bangunan; balok logam; ambang jendela dari logam; manifold logam untuk saluran pipa; logam dalam bentuk lembaran atau bubuk untuk printer 3D; bangunan baja; jeruji perapian dari logam; siku logam untuk pipa; pelat jangkar; pintu lapis baja dari logam; panel akustik dari logam; saluran logam untuk instalasi ventilasi dan pendingin udara; penutup logam untuk wadah; katup logam, selain bagian-bagian mesin; bahan logam untuk bangunan, khususnya besi cor untuk bangunan; bahan penguat logam untuk bangunan; tiang baja; Besi cor yang mengandung grafit bulat, khususnya dengan bola grafit yang tertanam dalam struktur feritik.; bahan besi cor padat===
===partly automated, fully automated or artificial intelligence-aided [smart] industrial robots for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; kompresor; kompresor [mesin]; peredam suara merupakan bagian dari mesin.; robot pelukis; penukar panas (bagian-bagian mesin); unit kontrol proses [mekanis]; pengikis kayu gelondong panjang; machines and mechanical appliances for conveying, feeding and dosing materials into a production process, and parts thereof; pemisah udara dinamis dan statis, pemisah aliran silang, pemisah sentrifugal, pemisah keranjang, pemisah terbalik, pemisah kaskade, pemisah gravitasi, pemisah zig-zag, mesin pengayak, mesin pengayak vakum, mesin pengayak getar, mesin penyaringan drum, mesin penyaringan getar, mesin pengayak datar,

mesin pengayak arus eddy, mesin pengayak putar, pemisah rol, mesin penyaring, filter selang (bagian mesin), filter kartrid (bagian mesin), filter saku (bagian mesin), siklon, pemisah, sentrifugal, penghancur, mesin peniup, mesin ekstraksi, drum magnetik (bagian mesin), rol magnetik (bagian mesin), kisi-kisi magnetik (bagian mesin), pemisah mekanis, pemisah gravitasi, pemisah magnetik sabuk atas, pemisah induksi, kumparan deteksi logam (bagian mesin); alat untuk mesin pengolahan plastik; penggerak untuk konveyor; regulator [bagian mesin]; motor [selain untuk kendaraan darat]; mesin pengencang baut, khususnya untuk reaktor air bertekanan, reaktor air mendidih; mesin untuk menghasilkan dan mengubah energi, misalnya mesin uap, turbin angin, pembangkit listrik tenaga air, turbin.; mesin untuk memproduksi struktur dan arsitektur organik dan anorganik homogen dan komposit yang melengkung sederhana atau ganda; mesin dan peralatan mekanik untuk teknik proses mekanik, dan instalasi yang dibangun dari barang-barang tersebut di atas; bagian-bagian dari selubung, bagian-bagian mesin, khususnya bagian-bagian mesin yang bergerak.; motor, selain untuk kendaraan darat; penggiling cakram; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from insulating materials, namely stone wool, glass wool, slag wool, polyurethanes, wood wool or glass wool; kunci mesin sortir [pintu air]; penegang tunggal untuk reaktor air bertekanan dan mendidih; mesin untuk memproduksi arsitektur homogen dan komposit organik dan anorganik; mesin pengatom; mesin penghancur; konveyor transportasi tanpa awak yang merupakan mesin penanganan kargo; perangkat pengencang baut untuk generator uap; mesin penyaring, pemisah, dan sentrifugasi; mesin dan peralatan yang digerakkan secara mekanis serta instalasi pembangkit energi yang dibentuk darinya dan instalasi pengeringan industri yang dipanaskan baik secara langsung melalui gas panas maupun secara tidak langsung melalui uap, air panas, dan minyak termal; mesin pencampur untuk pengolahan kimia; mesin produksi dan pengolahan material; penyaring; mesin cetak transfer resin; rolling mills; bagian besi cor untuk pipa [bagian mesin]; Mesin pres membran, yaitu mesin pres membran bermuatan fluida untuk produksi bagian berbentuk, yaitu mesin pres membran yang beroperasi terus menerus atau terputus-putus untuk produksi bagian berbentuk dari bahan yang berasal dari bahan baku, yaitu bahan baku nabati, baja paduan dan non-paduan, material komposit, lembaran logam dan baja, lembaran organik, plastik, material organik dan anorganik, material yang mengandung mineral.; sekrup Archimedes; generator listrik; sistem teknologi pengencangan baut; pengencang multi-stud; Mesin pres mekanik atau hidrolik satu dan multi-daylight untuk produksi komponen berbentuk, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi komponen berbentuk dari bahan yang berasal dari bahan baku, yaitu bahan baku nabati, baja paduan dan non-paduan, material komposit, lembaran logam dan baja, lembaran organik, plastik, material organik dan anorganik, material yang mengandung mineral.; tiang gantry dan bagian-bagian dari derek gantry; mesin pembersih baut, mesin pembersih baut bejana tekan reaktor; machines and installations in the field of press automation, industrial automation and transport automation and parts therefor; mesin dispenser otomatis; mesin pembersih lubang buta, khususnya untuk aplikasi industri; katup [bagian-bagian mesin]; Mesin untuk menghancurkan material lunak hingga agak keras seperti mineral, plastik, kayu, bahan makanan dan pakan ternak, kulit, selulosa, karet, elastomer, dan lembaran logam lunak.; konveyor dan sabuk konveyor; mesin pembersih untuk reaktor; mesin dan peralatan mekanis untuk memampatkan, memadatkan, menggumpalkan, mencampur, dan melapisi material, seperti material berbentuk lembaran, panel, produk cetakan, produk pres, dan produk cor [hasil coran]; mesin untuk pembuatan struktur dan arsitektur; tools for insulating-material processing machines; Mesin pres mekanis atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanis atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari campuran bahan baku, yaitu campuran dua atau lebih bahan baku asal tunggal [basis], yang setidaknya satu di antaranya membentuk fase kontinu [material komposit], yaitu material komposit yang memiliki matriks dan jaring yang tersusun di dalamnya, yaitu material komposit dengan matriks yang terbuat dari resin dan struktur serat atau jaring yang terbuat dari karbon.; peralatan mesin; potongan dorong; ketel uap mesin uap untuk pembangkit listrik, selain untuk kendaraan darat.; All of the aforementioned goods for processing continuous or finite shaped pieces and bulk materials, as well as pasty, flowable, vegetable, and fibrous materials and mixtures of materials, as well as liquids, fluid-solid mixtures and low- and high-consistency suspensions, in particular fibrous materials such as lignin-containing or lignocellulose-containing materials, composite materials such as organic sheets in particular, plastics and plastics with admixtures of perennial or annual plant components such as wood, waste wood, grass, bark, paper, cardboard, cellulose, or with components of other materials, such as textiles, waste, rubber, resins, leather, food, luxury foods, and animal feed, minerals, carbons, plastics, pigments, dyes, pharmaceuticals, chemical products, metals, composite materials, electronic scrap, cables, and old tires, parts, spare parts, accessories, and tools for the aforementioned goods, insofar as included in this class; penghancur drum, penghancur bal, guillotine, gunting guillotine, gunting besi tua, mesin pres besi tua, mesin penghancur serpihan kayu, mesin penghancur serpihan kayu drum, mesin penghancur serpihan kayu cakram, mesin penghancur serpihan kayu plastik, penghancur vertikal, penghancur, penghancur poros tunggal, penghancur poros ganda, penghancur horizontal, penghancur vertikal; kopling transmisi daya [selain untuk kendaraan darat]; mesin sortir untuk industri; Mesin pres mekanik atau hidrolik satu dan multi-lapisan untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari bahan baku, yaitu bahan baku nabati, yaitu bahan baku yang diperoleh dari tanaman tahunan atau abadi, menjadi material berbentuk panel satu atau multi-lapisan seperti papan serat, papan partikel, papan serat berorientasi [OSB] atau menjadi bentuk campurannya [papan hibrida]; mesin pembersih, khususnya untuk aplikasi industri; Mesin untuk menghancurkan bahan-bahan yang sensitif terhadap suhu seperti plastik, termoplastik, plastik termoset, elastomer, makanan dan makanan mewah, bahan aromatik, bahan farmasi dan kosmetik, bahan kimia, bahan yang mengandung minyak dan lemak, bahan yang sangat kental dan lengket, serta bagian-bagiannya.; peralatan pengangkat dan derek; instalasi pelapisan pernis; extrusion presses, injection moulding machines, agglomerators, heating/cooling mixers, compactors, calenders and parts of calenders, pelletisers, briquetting machines, pellet mills, wet compressors, screw compresses, double belt presses, packing presses, channel baling presses; peralatan mekanik untuk mesin pengecoran dan mesin produksi logam; mesin pengolah bubur kertas [pemurni]; suku cadang dan perlengkapan untuk semua barang di atas; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari plastik, yaitu termoplastik, plastik termosetting, atau elastomer.; mesin pengangkat dan instalasi untuk mengangkut material curah; bagian-bagian rumah mesin; pompa untuk instalasi pemanas industri dan tungku; mesin pengolahan komposit; mesin pengangkat untuk pengangkutan beban; komponen hidrolik bertekanan tinggi dan sistem penyegelan [bagian-bagian mesin]; filter cor [bagian mesin]; kompresor untuk lemari es; mesin pengikis, mesin pengikis cincin pisau, mesin pengikis cakram, mesin pengikis universal, mesin penggiling, mesin penggiling kriogenik, mesin penghancur tumbukan, mesin penggiling palu, mesin penggiling pemukul silang, mesin penggiling lapisan layanan presisi, mesin penggiling pusaran, mesin penggiling cakram bergigi, mesin penggiling kulit kayu, mesin penggiling delaminasi, mesin penghancur tumbukan; Machines, machine installations and parts thereof for mechanical and chemical process engineering and for the production of material

assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; mesin untuk mengolah plastik; engines, drive units and parts of engines, engine housings, pistons, piston rods, piston rings, Gear rods, gear wheels, toothed wheels, axles, shafts andvalves, turbines, compressors, all being parts of machine; machines and mechanical apparatus for conveying, feeding and dosing materials into a production process; robot otonom dalam ruangan untuk penggunaan industri; mesin untuk memproses bahan organik dan anorganik homogen dan komposit; Mesin penggiling, penggiling untuk penggilingan kriogenik, penghancur penggiling benturan, penggiling palu, penggiling pemukul silang, penggiling lapisan permukaan presisi, penggiling pusaran angin, penggiling cakram bergigi, penggiling kulit kayu, penggiling delaminasi, penghancur sekunder, penggiling pengklasifikasi, instalasi lapisan penggilingan, penggiling halus, penggiling presisi, penggiling untuk menghasilkan bubuk mineral dan logam, granulator, granulator basah, granulator pipa, granulator presisi, granulator profil, granulator rangka timah, granulator busa keras, granulator film, granulator kecil, peletizer, granulator untai, granulator pita, mesin pemotong, mesin pemotong drum, penggiling palu, penggiling palu benturan, pemisah pulp, mesin penghancur benturan, penggiling turbo, penggiling hidung tiup, penggiling pin, penggiling universal, penggiling bola, penggiling jet, penggiling jet berlawanan, penggiling koloid, penggiling aliran berlawanan, penggiling aliran ganda, penggiling rol; Mesin dan peralatan mekanis untuk daur ulang dan pemisahan material, khususnya untuk memisahkan komponen material komposit.; mesin pemisah; peralatan pemindahan dan penanganan; penggiling; mekanisme kontrol untuk mesin, motor atau mesin penggerak; alat untuk mesin pengolahan material komposit; panduan untuk mesin; mesin dan peralatan mekanis untuk memisahkan material curah dengan kepadatan dan/atau ukuran yang berbeda; industrial mixing machines; industrial robots; mesin dan peralatan mekanis untuk penghancuran, granulasi, disintegrasi, de-agglomerasi, defibrasi dan penggilingan halus dan ultra-halus bahan, dan bagian-bagiannya; mesin dan peralatan mekanis untuk pengkondisian material; konveyor; pengisi ulir; perkakas mesin untuk mesin pengolahan kayu; mesin dan peralatan mekanis untuk pemisahan, klasifikasi, pembuangan, penghilangan gas, dan pengisian material; suku cadang, komponen pengganti, aksesori, dan peralatan untuk barang-barang yang disebutkan di atas, yang termasuk dalam kelas ini.; matriks (bagian-bagian mesin); mesin produksi logam; mesin pengolahan logam; mesin dan instalasi untuk produksi serpihan kayu; ring gesekan; mesin untuk mengolah bahan organik dan anorganik homogen dan komposit; mesin penghancur kayu; palung cor dan pelat cor [bagian-bagian mesin]; mesin untuk mencuci berbagai material, khususnya kayu, bahan berserat, makanan dan pakan ternak, plastik, bahan kimia, produk farmasi dan kosmetik, serta mineral.; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari material yang diperkuat, yaitu plastik yang diperkuat serat seperti plastik yang diperkuat serat kaca atau karbon, komposit, komposit karet-baja, seperti material sabuk konveyor atau tapak ban, material daur ulang.; Mesin yang dioperasikan secara manual, sebagian otomatis atau sepenuhnya otomatis [seperti mesin produksi dan pengolahan material], peralatan mekanik, perkakas mesin, instalasi dan bagian instalasi untuk pengolahan material dan produksi aset material [barang] dan produk setengah jadi, yaitu untuk produksi barang dan produk setengah jadi berbentuk jaring atau terdefinisi secara spasial yang tak berujung atau terpisah dengan kandungan organik atau anorganik, yang diproduksi secara alami atau buatan, seperti material berbentuk jaring, panel, cetakan datar atau tiga dimensi, bagian yang dipres atau coran.; rumah mesin; pompa vakum [mesin]; mengalahkan para penipu; mesin pengolahan mineral; sekrup pengisi; mesin dispenser; perangkat pembubutan baut seperti perangkat pembubutan baut tunggal, perangkat pembubutan baut ganda, perangkat pembubutan baut multi, yaitu untuk aplikasi industri.; mesin dan instalasi untuk pemrosesan mekanis bahan dan bahan curah menjadi bubuk dan butiran; woodworking machines; perangkat kontrol untuk mesin dan instalasi; komponen transmisi (kecuali untuk kendaraan darat); mesin untuk memproduksi panel dan permukaan melengkung organik dan anorganik homogen dan komposit; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau berselang-seling untuk produksi material atau produk yang terdiri dari dua atau lebih lapisan yang diikat atau direkatkan bersama di seluruh area, di mana lapisan tersebut dapat terdiri dari jenis material yang sama atau berbeda dan dari jenis material yang sama atau berbeda [laminasi], yaitu foil pemanas, foil suhu, foil display, material isolasi laminasi, komposit aluminium seperti komposit aluminium-kayu, komposit aluminium-komposit seperti aluminium yang diperkuat serat kaca, komposit kemasan seperti komposit karton minuman, material komposit dari bahan nabati dan plastik, komposit mineral seperti komposit porselen stoneware-plastik.; peralatan pertanian, penggalian tanah, konstruksi, ekstraksi minyak dan gas, serta pertambangan; corong cor [bagian-bagian mesin]; coating installations [coaters], namely flow coaters and bath coaters; mekanisme penggerak, selain untuk kendaraan darat; perangkat dosis roda sel [bagian-bagian mesin]; vibrators [machines] for industrial use; mesin untuk memproduksi struktur homogen dan komposit organik dan anorganik; mesin dan peralatan mekanis untuk mencuci bahan; alat bantu untuk memproduksi coran, yaitu corong dan filter [bagian-bagian mesin]; mesin peniup; cetakan yang dapat digunakan berkali-kali, lebih disukai cetakan dingin, yaitu cetakan dingin tunggal dan cetakan dingin ganda [bagian mesin]; pengangkut [mesin]; Mesin yang dioperasikan secara manual, sebagian otomatis, atau sepenuhnya otomatis [seperti mesin produksi dan pengolahan material], peralatan mekanik, perkakas mesin, instalasi dan bagian instalasi untuk pengolahan material dan produksi coran dari logam besi dan non-besi paduan dan tanpa paduan, baja paduan dan tanpa paduan, lebih disukai coran dalam cetakan besar.; konveyor apron, lantai geser, konveyor sabuk, konveyor ember, konveyor rantai tabung, sekrup pengisi, sekrup Archimedes, pengisi ulir, pintu air, katup pengatur dosis, perangkat pengumpan yang dioperasikan secara hidrolik atau pneumatik, mesin peniup, konveyor beban, konveyor getar, palung konveyor berosilasi, rantai pengangkut, dan konveyor rantai seret.; mesin pengecoran; mesin penghancur tanaman; agricultural implements other than hand operated hand tools; mesin pembentuk dan pencetak; pemecah batu, penghancur rahang, penghancur primer; pengaduk, mixer putar, mixer kerucut, mixer batch, mixer ulir; Instalasi teknik proses mekanis untuk membentuk campuran bahan tabur yang mudah mengalir, yaitu bahan berserat, bahan serpihan, plastik, karbon, bahan pengikat kering, resin atau bahan mineral, dalam bentuk geometris tertentu dengan gramatur tertentu, dengan bantuan peralatan penakaran, penaburan dan pengangkutan yang telah disinkronkan melalui sistem pemantauan dan pengukuran.; alat untuk pengolahan material komposit; generator; cetakan untuk produksi [bagian-bagian mesin]; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari bahan baku mineral, yaitu dari gipsum, bahan tanaman yang dikarbonisasi, silikon dioksida, silikat atau keramik, semen portland, senyawa gipsum-semen-pozzolan [pengikat gcp], pengikat magnesia.; lapisan (bagian-bagian mesin); rol; mesin dan peralatan mekanis untuk mencampur dan menghomogenkan bahan; mesin pengecatan yang dilengkapi dengan jalur pengecatan; mesin untuk memproses material komposit; peralatan untuk mesin pengolahan mineral; pengering unggun terfluidisasi, pengering drum, pendingin sekrup; Unit dan instalasi kontrol dan pengaturan untuk mesin yang dioperasikan secara manual, sebagian otomatis, atau sepenuhnya otomatis [seperti mesin produksi dan pengolahan material], peralatan mekanik, perkakas mesin,

instalasi dan bagian instalasi untuk pengolahan material dan produksi aset material [barang] dan produk setengah jadi, lebih disukai dalam bidang teknik proses mekanik atau kimia dan konstruksi mesin umum dan khusus, konstruksi kendaraan dan dukungan produksi seri.; menempelkan tabung lampu kilat [bagian dari mesin]; mesin pengikat; process control instruments [mechanical]; robot industri; mesin dan peralatan mekanis untuk mencampur, mendispersikan, mengemulsikan, dan menghomogenkan bahan; valves and sluices for machines and transport systems; pabrik penggilingan, pabrik penggilingan dan turbin angin, khususnya fondasi turbin angin, selubung, kerangka dan selubung rotor.; mesin dan peralatan mesin untuk pengolahan material dan untuk manufaktur; cetakan [bagian-bagian mesin], khususnya cetakan dingin dan matriks; machine tools for woodworking machines; mesin pengolahan material komposit; mesin pengolahan bahan isolasi; Mesin dan instalasi untuk penghancuran dan pengolahan termoplastik, limbah plastik, dan karet.; cetakan [bagian-bagian mesin]; Alat pemotong, penggeseran, pencampuran, penggilingan, benturan, dan pemukul, semuanya merupakan bagian dari mesin, pisau [bagian dari mesin], blok pemotong, cakram pemotong, ujung pemotong, strip penggeseran, jalur penggilingan, cakram penggilingan, pin penggilingan, segmen penggilingan, kisi penggilingan, set penggilingan, rol penggiling panci, ayakan [bagian dari mesin], jalur penyaringan, layar cakram, layar drum, lembaran berlubang [bagian dari mesin], pelat pemukul, strip benturan, palu [bagian dari mesin], silinder, rol pinion, pemotong penggilingan silindris, kisi-kisi [bagian dari mesin], batang penyaring, pelat batang dan kisi-kisi, bilah pencampur, fitting tekanan, matriks [bagian dari mesin], bilah dokter, cam rem, pelapis [bagian dari mesin], pelat aus [bagian dari mesin], cakram aus, cincin aus, strip aus, sepatu aus; mesin transfer; perkakas bertenaga listrik; parts of machines, namely cast iron parts, for machines and machine tools for the treatment of materials and production; alat untuk mesin pengolahan komposit; mesin pengolahan kayu===

Sebagai orang yang diklasifikasikan sebagai terpapar radiasi secara kerja sesuai dengan peraturan perlindungan radiasi Jerman, pengendalian dosis pribadi dan berbasis pekerjaan, data dan perhitungan untuk perlindungan radiasi, pengoperasian dan penyediaan sistem komputer proses, perhitungan, pembuatan, pengoperasian dan penyediaan sistem komputer proses yang dioptimalkan lokasi untuk pemantauan dan pengendalian berdasarkan standar yang telah teruji di industri, serta sistem informasi proyek dan data spasial radiologi dan sistem informasi proses.; instruksi dan pelatihan pengguna dan staf layanan, khususnya yang berkaitan dengan instalasi pemanas dan tungku untuk menghasilkan panas dan uap, pemurnian gas buang, dan instalasi pengeringan.; Pelatihan dan instruksi bagi pengguna dan staf layanan, khususnya yang berkaitan dengan pengoperasian mesin pres, yaitu mesin pres yang beroperasi terus menerus atau terputus-putus dan mesin pres besar, mesin pres satu atau multi-daylight, mesin pres untuk menghasilkan barang tanpa batas, yaitu produk web berupa barang web berbahan dasar serat alami untuk produksi panel, berupa barang web berbahan dasar organik atau anorganik untuk produksi panel, berupa barang web pembentuk komposit untuk produksi material komposit, seperti lembaran organik.; layanan hiburan; hiburan musik; penyelenggaraan acara hiburan; mengatur dan menyelenggarakan acara hiburan; rental of audio/visual and photographic equipment and facilities; perencanaan pesta [hiburan]; pelatihan dan instruksi bagi pengguna dan staf layanan, khususnya yang berkaitan dengan unit kontrol dan pengaturan, yaitu unit kontrol dan pengaturan instalasi untuk teknik proses mekanik atau kimia; organisasi partai; organisation of educational events; penyelenggaraan acara pendidikan; instruksi dan pelatihan pengguna dan staf layanan, khususnya yang berkaitan dengan instalasi pengolahan serat alami; Instruksi pendidikan; instruksi dan pelatihan pengguna dan staf layanan, khususnya yang berkaitan dengan instalasi produksi industri.; pelatihan dan instruksi bagi pengguna dan staf layanan, khususnya yang berkaitan dengan unit kontrol dan pengaturan, yaitu unit kontrol dan pengaturan perangkat lunak, khususnya perangkat lunak untuk mengendalikan instalasi industri, seperti instalasi produksi atau instalasi untuk teknik proses mekanik atau kimia dan bagian-bagian dari instalasi tersebut.; layanan hiburan yang disediakan di diskotek; instruksi dan pelatihan pengguna dan staf layanan, khususnya yang berkaitan dengan mesin dan instalasi pengolahan plastik.; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of industrial machines, installations and parts of installations, namely of machines, installations and parts of installations for the production of material assets; layanan hiburan yang berkaitan dengan olahraga===

===layanan desain khusus; menyediakan lingkungan komputasi virtual melalui komputasi awan; studi proyek teknis; volume flow measurement; penelitian teknis; services relating to the planning of energy-generating and energy-converting installations such as nuclear installations, energy installations powered by natural forces, such as installations powered by wind or water; Perencanaan, pengembangan, dan perencanaan proyek teknis mesin, peralatan mekanik, dan instalasi untuk teknik proses mekanik.; Pengujian dan pengendalian mutu sistem pemantauan, yaitu pengukuran getaran dan sistem pengukuran getaran, pemantauan pemotongan dan sistem pemantauan pemotongan, pengukuran getaran bilah dan sistem pengukuran getaran bilah, analisis tanah dan sistem analisis tanah, analisis sistem lingkungan dan pemantauan emisi, serta prakiraan yang diperoleh darinya dan perhitungan ilmiah dan teknik yang diperlukan, analisis informasi tanah serta sistem informasi tanah dan sistem kadaster perlindungan tanah dan penggunaan serta evaluasinya, pemeliharaan elektronik struktur dan badan air, pembuatan, pengoperasian, penyediaan, pengembangan lebih lanjut dan evaluasi basis data iklim, analisis air tanah statistik, pembuatan, pengoperasian, penyediaan, pengembangan lebih lanjut dan evaluasi sistem informasi air minum dan basis data dan sistem informasi lainnya, seperti sistem informasi pemerintah, sistem informasi tanah dan register perlindungan tanah, pemeliharaan elektronik struktur dan badan air, sistem kalibrasi berbantuan komputer, sistem manajemen dokumen, penyeimbangan dan penganggaran data energi, manajemen laporan kejadian, sistem informasi dan pelaporan unsur bahan bakar, manajemen pembuangan unsur bahan bakar, sistem manajemen dan pelaporan data pengukuran dan laboratorium, layanan yang berkaitan dengan fisika nuklir, pengumpulan data seluler, manajemen orang yang terpapar secara kerja, seperti orang yang Diklasifikasikan sebagai terpapar radiasi secara kerja sesuai dengan peraturan perlindungan radiasi Jerman, pengendalian dosis pribadi dan berbasis pekerjaan, data dan perhitungan untuk perlindungan radiasi, pengoperasian dan penyediaan sistem komputer proses, perhitungan, pembuatan, pengoperasian dan penyediaan sistem komputer proses yang dioptimalkan lokasi untuk pemantauan dan pengendalian berdasarkan standar yang telah teruji di industri, dan sistem informasi proyek dan data spasial radiologi serta sistem informasi proses.; konsultasi di bidang pembuatan gambar konstruksi; menyediakan penggunaan sementara perangkat lunak daring yang tidak dapat diunduh untuk mengimpor dan mengelola data.; penelitian di bidang teknik proses mekanik; Konsultasi teknologi di bidang pengukuran dan perhitungan untuk penyesuaian bahan operasi.; kontrol kualitas; Konsultasi di bidang teknik, yaitu desain instalasi dan bagian instalasi untuk produksi barang dan produk setengah jadi, yaitu panel organik dan anorganik, papan serat, panel komposit, lembaran organik, papan gipsum, panel plastik, panel WPC, panel pembawa energi.; jasa seorang insinyur sehubungan dengan penyediaan jasa-jasa yang disebutkan di atas; design and development of networks; penyusunan laporan yang berkaitan dengan penelitian ilmiah tentang energi listrik; pengukuran kinerja; Pengembangan jaringan berbasis komputer; technological engineering analysis regarding bearings, couplings, belt pulley alignments; desain industri; Konsultasi teknis terkait proses yang berhubungan dengan pengoperasian mesin, peralatan mekanik, dan instalasi untuk teknik proses mekanik yang diproduksi darinya.; desain perangkat lunak komputer; technical consulting, and engineering services and technological consultancy relating to concept development, plan development/design, planning and support during the approval process, advice regarding the selection of the correct business partner, project execution, project support, project management, supervision/optimisation of revision processes, quality monitoring and construction supervision, creation and checking of documentation; technological services relating to manufacture; Penyusunan gambar konstruksi, desain bangunan, perencanaan proyek teknis, manajemen proyek teknis, pengawasan bangunan teknis, pengendalian dan jaminan mutu di bidang instalasi pemanas industri dan tungku untuk menghasilkan panas dan uap, instalasi pengeringan industri, dan teknik lingkungan.; Analisis laboratorium terhadap material dan uji klinis yang berkaitan dengan pengolahan material, khususnya pengangkutan, pemberian dosis, penghancuran, pencampuran, aglomerasi, pemadatan, pengkondisian, pemisahan, dan penyortiran material.; desain berbantuan komputer untuk operasi manufaktur; Pengembangan perangkat lunak, pemrograman, dan implementasi, khususnya untuk memantau dan mengendalikan mesin, instalasi, dan proses untuk teknik proses mekanik.; Desain, pengembangan, dan implementasi perangkat lunak.; implementasi program komputer dalam jaringan; analisis industri; pengukuran tekanan; pengujian industri, kalibrasi, pemantauan kondisi; penelitian dan pengembangan produk baru yang berkaitan dengan perlindungan lingkungan; pengujian seperti pengukuran getaran, analisis profil suhu, dan penyesuaian profil suhu; menyediakan sistem komputer virtual melalui komputasi awan; penelitian industri; pemrograman sistem kontrol elektronik; pengukuran titik operasi; layanan TI; consulting in the field of cloud computing networks and applications; layanan desain untuk arsitektur; layanan teknologi; Konsultasi di bidang teknik, yaitu perancangan instalasi dan bagian-bagian instalasi untuk teknik proses mekanik atau kimia, serta perbaikan instalasi dan bagian-bagian instalasi untuk teknik proses mekanik atau kimia.; Layanan yang berkaitan dengan perencanaan fasilitas untuk penyortiran limbah radioaktif tingkat rendah, caisson dan housing, penutup drum otomatis, sel panas, pengepresan dalam drum, sementasi limbah cair, manajemen pembuangan elemen bahan bakar, data dan perhitungan untuk perlindungan terhadap radiasi, sistem komputer proses, pengendalian dosis pribadi dan berbasis pekerjaan.; Desain dan pengembangan perangkat keras komputer untuk industri manufaktur.; layanan desain; layanan ilmiah dan teknologi serta penelitian dan desain yang terkait dengannya; layanan teknik; gambar konstruksi; layanan desain komputer; pengukuran aliran massa; konsultasi di bidang teknik; Pembuatan dan pengembangan lebih lanjut perangkat lunak, serta penggunaan perangkat lunak untuk menghitung biaya proyek pembongkaran nuklir, pelacakan dan dokumentasi limbah, sistem informasi proyek data spasial radiologi.; layanan penyedia cloud hosting; jasa insinyur dan inspeksi di bidang pembangkitan energi; Pembacaan meter listrik dan analisis data untuk keperluan audit energi.; design services relating to interior decorating for homes; layanan penyimpanan awan untuk data elektronik; layanan penyimpanan cloud untuk file elektronik; Desain dan pengembangan perangkat keras dan perangkat lunak komputer.; layanan sains dan teknologi; Layanan yang berkaitan dengan desain industri, konsultasi arsitektur.; penyusunan laporan di bidang pengukuran dan data laboratorium; konsultasi teknik terkait manufaktur; komputasi awan; layanan pengendalian mutu dan penilaian; layanan otentikasi; layanan desain interior serta layanan informasi dan konsultasi terkait hal tersebut.; penyuntingan program komputer; desain model untuk menghasilkan cetakan untuk membuat coran, sebaiknya coran berukuran besar=== ===Perizinan perangkat lunak komputer [jasa hukum].===

crushing machines; cast troughs and cast platens [parts of machines]; machines for washing materials, in particular wood, fibrous materials, food and animal foodstuffs, plastics, chemicals, pharmaceutical and cosmetic products and minerals; vacuum pumps [machines]; moulds [parts of machines]; insulating-material processing machines; painting machines incorporating painting lines; metal production machines; machines for manufacturing simply or multiply curved organic and inorganic homogeneous and composite structures and architecture; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from mineral raw materials, namely from gypsum, carbonised plant materials, silicon dioxide, silicates or ceramics, portland cement, gypsum-cement-pozzolan compounds [gcp binders], magnesia binders; tools for insulating-material processing machines; moulds [parts of machines], in particular chill-moulds and matrices; All of the aforementioned goods for processing continuous or finite shaped pieces and bulk materials, as well as pasty, flowable, vegetable, and fibrous materials and mixtures of materials, as well as liquids, fluid-solid mixtures and low- and high-consistency suspensions, in particular fibrous materials such as lignin-containing or lignocellulose-containing materials, composite materials such as organic sheets in particular, plastics and plastics with admixtures of perennial or annual plant components such as wood, waste wood, grass, bark, paper, cardboard, cellulose, or with components of other materials, such as textiles, waste, rubber, resins, leather, food, luxury foods, and animal feed, minerals, carbons, plastics, pigments, dyes, pharmaceuticals, chemical products, metals, composite materials, electronic scrap, cables, and old tires, parts, spare parts, accessories, and tools for the aforementioned goods, insofar as included in this class; lacquering installations; compres- sors [machines]; painting robots; compressors for refrigerators; heat exchangers (parts of machines); cast hoppers [parts of machines]; flakers, knife ring flakers, disc flakers, universal flakers, mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision service-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, impact crushing machines; cleaning machines, namely for industrial applications; rolling mills, mills and wind turbines, in particular wind turbine foundations, casings, frameworks and rotor casings; cast filters [parts of machines]; resin transfer moulding machines; tools for mineral processing machines; extrusion presses, injection moulding machines, agglomerators, heating/cooling mixers, compactors, calenders and parts of calenders, pelletisers, briquetting machines, pellet mills, wet compressors, screw compresses, double belt presses, packing presses, channel baling presses; foundry machines; power transmission couplings [other than for land vehicles]; bonding machines; machines for manufacturing structures and architecture; propulsion mechanisms, other than for land vehicles; steam engine boilers for power generation, other than for land vehicles; machines for generating and converting energy, for

example steam engines, wind turbines, hydroelectric power plants, turbines; wood-crushing machines; parts of engine housings; Machines, machine installations and parts thereof for mechanical and chemical process engineering and for the production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; friction washers; machines for manufacturing organic and inorganic homogeneous and composite structures; machines and mechanical appliances for mixing, dispersing, emulsifying and homogenising materials; composite processing machines; engines, drive units and parts of engines, engine housings, pistons, piston rods, piston rings, Gear rods, gear wheels, toothed wheels, axles, shafts andvalves, turbines, compressors, all being parts of machine; machines and mechanical apparatus for conveying, feeding and dosing materials into a production process; parts of casings, parts of engines, in particular moving parts of engines.; beating flakers; pulping machines [refiners]; matrices (parts of machines); mechanical equipment for foundry machines and metal production machines; hydraulic high-pressure components and sealing systems [parts of machines]; power operated tools; cutting, shearing, mixing, grinding, impact and striking tools, all being parts of machines, knives [parts of machines], cutter blocks, cutting discs, cutting tips, shearing strips, grinding tracks, grinding discs, milling pins, grinding segments, grinding grids, grinding sets, pan grinder rollers, sieves [parts of machines], sifting tracks, disc screens, drum screens, perforated sheets [parts of machines], beater plates, impact strips, hammers [parts of machines], cylinders, pinion rollers, cylindrical milling cutters, grates [parts of machines], strainer bars, rod plates and gratings, mixing blades, pressure fittings, matrices [parts of machines], doctor blades, break cams, linings [parts of machines], wear plates [parts of machines], wear discs, wear rings, wear strips, wear shoes; sorting machine locks [sluices]; apron conveyors, sliding floors, belt conveyors, bucket conveyors, tube chain conveyors, stuffing screws, archimedian screws, auger fillers, sluices, dosing valves, hydraulic or pneumatically operated feeding devices, blowing machines, load conveyors, vibratory conveyors, oscillating conveyor troughs, conveying chains and drag chain conveyors; motors [other than for land vehicles]; industrial mixing machines; stud tensioning technology systems; plant shredding machines; guides for machines; shaping and moulding machines; machines and mechanically driven appliances as well as energy-generating installations formed therefrom and industrial drying installations heated both directly via hot gases and indirectly via steam, hot water and thermal oil; process control units [mechanical]; industrial robots; thrust pieces; composite-material processing machines; machines for processing organic and inorganic homogeneous and composite materials; blending machines for chemical processing; machines and mechanical apparatus for separating bulk materials of differing densities and/or sizes; electricity generators; aids for producing castings, namely hoppers and filters [parts of machines]; archimedian screws; stud tensioning devices for steam generators; fluidised bed dryers, drum dryers, screw coolers; moving and handling equipment; woodworking machines; tools for the processing of composite materials; machines and machine tools for treatment of materials and for manufacturing; coating installations [coaters], namely flow coaters and bath coaters; manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; machines and mechanical apparatus for the separation, classification, removal, degassing and filling of materials; drum shredders, bale shredders, guillotines, guillotine shears, scrap shears, scrap presses, chippers, drum chippers, disc chippers, plastic chippers, vertical crushers, shredders, single-shaft shredders, multi-shaft shredders, horizontal shredders, vertical shredders; atomising machines; mechanical process engineering installations for forming a mixture of free-flowing scatter material, namely fibrous material, chip material, plastic, carbon, dry binding material, resins or mineral material, in a defined geometric shape with a defined grammage, with the help of dosing, scattering and transport equipment that has been synchronised through monitoring and measuring systems; lifting ma- chines for load transport; vibrators [machines] for industrial use; sound absorbers being parts of machines; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from a mixture of raw materials, namely a mixture of two or more single-origin raw materials [basis], of which at least one forms a continuous phase [composite material], namely a composite material that features a matrix and a mesh arranged therein, namely a composite material with a matrix formed from resin and a fibre or grid structure formed from carbon; machinery and installations for the production of wood chips; regulators [parts of machines]; lifting and hoisting equipment; drives for conveyors; sorting machines for industry; agricultural implements other than hand operated hand tools; machines and mechanical appliances for the shredding, granulation, disintegration, de-agglomeration, defibration and fine and ultra-fine grinding of materials, and parts thereof; conveyors and conveyor belts; control and regulating units and installations for manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, preferably within mechanical or chemical process engineering and general and special-purpose machine construction, vehicle construction and series production support; stud turning devices such as single-stud turning devices, double-stud turning devices, multi-stud turning devices, namely for industrial applications; mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision surface-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, secondary crushers, classifier mills, milling layer installations, fine mills, precision mills, mills for producing mineral and metallic powder, granulators, wet granulators, pipe granulators, precision granulators, profile granulators, lead-frame granulators, hard foam granulators, film granulators, small granulators, pelletisers, strand granulators, band granulators, chippers, drum chippers, hammer mills, impact hammer mills, pulp separators, impact crushing machines, turbo mills, blow nose mills, pin mills, universal mills, ball mills, jet mills, counter-jet mills, colloidal mills, counter-flow mills, double-flow mills, rolling mills; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of materials or products consisting of two or more layers bonded or glued together over the entire area, whereby the layers may consist of the same or different material grades and of the same or different kinds of material [laminates], namely heating foils, temperature foils, display foils, laminated insulating material, aluminium composites such as aluminium-wood composites, aluminium-composite composites such as glass-fibre-reinforced aluminium, packaging composites such as beverage carton composites, composite materials of plant materials and plastics, mineral composites such as porcelain stoneware-plastic composites; machines and mechanical apparatus for the conditioning of materials; machines for manufacturing curved organic and inorganic homogeneous and composite panels and surfaces; cast iron parts for pipes [parts of machines]; parts and fittings for all the above goods; parts, spare parts, accessories and tools for the aforementioned goods, included in this class; machines for manufacturing organic and inorganic homogeneous and composite architecture;

control mechanisms for machines, engines or motors; gluing flash tube [part of a machine]; transmission components (except for land vehicles); agricultural, earthmoving, construction, oil and gas extraction and mining equipment; rollers; machines for processing composite materials; single tensioners for pressurised and boiling water reactors; dispensing machines; process control instruments [mechanical]; valves and sluices for machines and transport systems; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from reinforced materials, namely fibre-reinforced plastics such as glass- or carbon-fibre-reinforced plastics, occ composites, rubber-steel composites, such as conveyor belt materials or treads for tyres, recycling materials; machines and mechanical appliances for mixing and homogenising materials; metalworking machines; machines for shredding soft to medium-hard materials such as minerals, plastics, wood, foodstuffs and animal feed, leather, cellulose, rubber, elastomers and soft sheet metal; agitators, tumbling mixers, conical mixers, batch mixers, screw mixers; indoor self-driving robots for industrial use; machine tools for woodworking machines; cell wheel dosing devices [parts of machines]; bolt cleaning machines, reactor pressure vessel bolt cleaning machines; engine housings; pulverizing mills; single- and multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from raw materials, namely plant-based raw materials, namely raw materials obtained from annual or perennial plants, into single- or multi-layer panel-shaped materials such as fibreboard, chipboard, oriented strand board [osb] or into mixed forms thereof [hybrid boards]; control appliances for machines and installations; multi-stud tensioners; separating machines; filtering machines, separators and centrifuges; moulds that can be used multiple times, preferably chill-moulds, namely single chill-moulds and multiple child-moulds [parts of machines]; machine tools; machines for treating organic and inorganic homogeneous and composite materials; gantry canes and parts of gantry cranes; material production and processing machines; auger fillers; composite material treatment machines; parts of machines, namely cast iron parts, for machines and machine tools for the treatment of materials and production; valves [parts of machines]; linings (parts of machines)===
===side arms, other than firearms; cutlery; hand implements, hand-operated; razors; parts and fittings for all the aforesaid goods.; Hand tools, hand-operated===
===studio monitor loudspeakers; software; cloud server software; microphone cables; electronic control systems; computer operating programs; air analysis apparatus; connection cables; industrial automation controls; led screen displays; recorded content; point-to-point communications equipment; computer networking and data communications equipment; data storage devices and media; sensors for measuring instruments; speakers for video conferencing; process controlling software; process control digital controllers; programmable controllers; process controlling apparatus [electronic]; databases; fire-extinguishing devices for the aforementioned installations; optimisation software; recorded media; switchboxes [electricity]; operating systems; apparatus for broadcasting sound, data or images; lighting control panels; artificial intelligence software; horns for loudspeakers; electromagnetic valves; computer software platforms for social networking; operating system programs; pressure indicator plugs for valves; cabinets for loudspeakers; cases for loudspeakers; signal cables for it, av and telecommunication; electronic controllers; electronic control units; all of the aforementioned goods for controlling and regulating processes, machines, appliances and installations for mechanical engineering; information technology and audio-visual, multimedia and photographic equipment; downloadable media; monitoring control apparatus [electric]; surveying apparatus and instruments; networking software; telecommunications apparatus for use with mobile networks; software for monitoring, analysing, controlling and running physical world operations; local area networks; industrial process control software; communications equipment; portable speakers; downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; monitoring units [electric]; distribution boards [electricity]; numerical controllers for controlling the aforementioned installations; physical analysing apparatus [other than for medical use]; editing software; blank digital or analogue recording and storage media; multi-room audio devices; computer software [saved] for controlling installations for heating installations and furnaces for generating heat and steam, drying installations, cooling installations, thermotechnical installations for saving energy, installations for exhaust gas purification and exhaust gas filtration, installations for exhaust air purification and exhaust air filtration, installations for air treatment, and installations for treating water; calculating devices; computers; measuring, detecting, monitoring and controlling equipment; computer software for wireless network communications; cloud computing software; control installations (electric -); control units for machines and installations; optical sensors; electronic control instruments; monitoring apparatus, other than for medical purposes; surveillance cameras; data processing equipment and accessories (electrical and mechanical); automatic control apparatus; production support software; computer operating system software; coin-operated mechanisms; personal speakers; network operating system programs; electronic cables; monitoring instruments; computer hardware for remotely accessing and transmitting data; instrument panels [electric]; machine learning software for analysis; industrial automation software; loudspeaker systems; loudspeakers; internet of things [iot] sensors; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; electric sensors; application software for cloud computing services; loudspeaker cables; computer software for the monitoring of computer systems; downloadable software for remotely accessing and controlling a computer; process controlling apparatus [electric]; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; artificial intelligence software for surveillance; measuring, signalling, inspecting, switching and monitoring appliances and instruments; interactive software based on artificial intelligence; loudspeakers with built in amplifiers; controllers and regulators; fire extinguishers; sensor controllers; computer programs for connecting remotely to computers or computer networks; machine learning software for surveillance; sensors used in plant control; speakers [audio equipment]; artificial intelligence software for analysis; downloadable cloud computing software; monitor speakers; speaker switches; software for the integration of artificial intelligence and machine learning in the field of big data; sensors for monitoring physical movements; process controllers [electric]; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; electrical power extension cords; smart manufacturing system controls; appliances and equipment for testing, weighing, analysing and measuring materials; connection boards [electric]; Robotic process automation [RPA] software; computer peripheral devices; apparatus for scientific research and laboratories; process monitors; lighting transformers; network communication apparatus; factory automation software; fire safety installations, essentially consisting of sliding plate fire dampers of metal and/or plastic and/or mineral materials, sliding plate smoke dampers of metal and/or plastic and/or mineral materials, smoke detectors, all of the aforementioned components also as individual goods and parts thereof; speaker docks; electronic monitoring systems.; power cables; video screens; cloud servers; electric control apparatus; signal processors for audio speakers; measuring appliances, control appliances, regulating appliances, indicators for the aforementioned installations; video cameras adapted for monitoring purposes; checking (supervision) apparatus and instruments; sensors for use with machine tools; smart manufacturing software; navigation, guidance, tracking, targeting and

map making equipment; computer software; all of the aforementioned goods, in particular for the areas of press automation, industry automation and transport automation; sensors, detectors and monitoring instruments; cloud network monitoring software; sensors; computers and computer hardware; sensors for determining position===
===safety lamps; lamps; floodlights; air deodorizing apparatus; gas burners; cooling installations for liquids; appliances and installations connected to heating boilers for heating purposes, namely regulating and safety accessories for water and gas pipes, taps for pipes and pipelines, water supply installations; air heating apparatus; industrial wastewater treatment installations; lamp reflectors; gas cleaners and purifiers; oil burner control units; strobe lights [light effects]; security lighting; air filtering installations; led lighting installations; light projectors; pressure vessels, expansion tanks, valves, taps for heat transfer and steam pipes, appliances for the treatment of heat transfer media; automatic gas stokers; Appliances and installations, and parts of appliances and installations for heating, cooling, steam-generating, cooking, drying, ventilating and water supply purposes; led luminaires; appliances and equipment for exhaust air purification and exhaust gas purification; incandescent light bulbs; parts and fittings for all the aforesaid goods, included in this class.; machines and installations constructed therefrom for industrial drying purposes; water filtering apparatus; air sterilizers; ventilation stacks and exhaust air installations; refrigerators and refrigerating installations; dust and granule burners and combination burners as well as surface burners; fans [air-conditioning]; heating, ventilating, and air conditioning and purification equipment (ambient); lighting installations; cooling installations for panels; lamp shades; fans [parts of air-conditioning installations]; drying machines, humidifying (other than for medical use) and wetting apparatus, in particular for wood, fibrous materials, food and animal feed, plastics, chemical fiber and cosmetic products and minerals; cooling installations for industrial purposes; chilling machines; drying installations; luminaires for security use; air filters; evaporators; gas/heating boilers, including industrial steam boilers, water tube boilers, saturated steam and hot steam boilers, hot water boilers, waste heat boilers, fire-tube boilers, special boilers for thermal disposal and afterburning, including installations for stoking and ash removal, process heat generation, heat transfer oil installations and in particular including installations that essentially consist of heat transfer heaters, heat transfer pumps, heat exchangers and heat transfer lines; light diffusers; hydrogen reactors and parts thereof; lights for vehicles; air conditioning installations and air conditioning apparatus; apparatus for filtering water, consisting of automatic roll filters, wall and channel filters, bag filters, particulate filter modules for ceilings, mini dust extractors, centrifugal separators and filter media, namely glass fibre paper, glass fibre matting, randomly-oriented-fibre fleeces and activated carbon, all being parts of sanitary installations; light-emitting diode [led] light bulbs; industrial ovens and furnaces [not for food and beverages] for grate firing; heat pumps for energy processing; air dryers; cooling installations for reactors; industrial air treatment installations; refrigerating chambers; electric lamps; burners, boilers and heaters; oil burners; industrial water treatment installations; lighting apparatus; heat recovery installations; decorative lights; the aforementioned components also as individual goods and parts thereof; lamp mantles; ventilation installations, essentially consisting of ventilation grilles, ceiling diffusers, slot diffusers, floor diffusers, window parapet induction diffusers, swirl diffusers, induction swirl diffusers, ventilation valves, multi-leaf dampers, weather grilles, airtight steel doors, fans, water level regulators [valves] being parts of sanitary installations, the aforementioned components also as individual goods and parts thereof; distillation apparatus===
===transport vehicles for internal transport tasks; apparatus for locomotion by land; powertrains, including engines and motors, for land vehicles; structural parts for boats, ships, maritime, aviation and local transport structures; driverless transport systems; Vehicles; unmanned, manned, autonomous, remotely operated, automated guided and manually guided vehicles and conveyances, and appliances for locomotion by land, air or water; vehicles adapted for military purposes, in particular armoured vehicles; sledges for transportation; rail vehicles; and parts and fittings for the aforesaid goods; apparatus for locomotion by air; rail vehicles, in particular trains, locomotives, trams, underground railway trains, magnetic trains; cars, carts and trailers; air and space vehicles; hulls and superstructures for boats, ships, maritime, aviation and local transport structures; autonomous vehicles; apparatus for locomotion by water; load carrying vehicles; vehicles and conveyances; mobility conveyances; self-driving transport vehicles; parts and accessories for all of the aforementioned goods, included in this class, in particular casings, chassis, drive units, propulsion mechanisms, gearboxes and gearbox parts, steering racks, gearbox casings and parts of gearbox casings, axles and shafts, wheels, protective heat shields, brake discs, brake drums; wheeled vehicles; land vehicles and conveyances; trolleys; appliances for locomotion by air and appliances for locomotion by water, in particular for carrying loads, freight or passengers, in particular railbound or non-railbound vehicles and conveyances, and appliances for locomotion by land, air or water; parts and components for vehicles and appliances for locomotion by land, air or water; water vehicles; transport vehicles and transport appliances for machine and plant construction, not included in other classes; hulls and superstructures for boats, ships, maritime, aviation and local transport structures.; elevated trains, cable cars, chairlifts, rack railway trains, and vehicles on rails, such as sledges for transportation, trolleys, mine cars, handcars; autonomous cars===
===natural fibres as insulating materials, in particular made from cotton, kapok, poplar fluff, bamboo, palm tree, stinging nettles, hemp, jute, linen, kenaf, ramie, wood, sisal, manila, coconut, wool, hair; insulating materials made from materials containing cork and bark, from plastic and from material mixtures of plastic, cork and/or materials containing bark; self-adhesive plastic sheets for use in industry; semi-finished products of plastic in the form of agglomerates and compounds, included in class 17; fibre-matrix semi-finished products for use in manufacturing processes; fibres infused with natural or synthetic resin [not for textile use]; artificial insulating fibres made from natural polymers, namely, cellulose, rubber, plant protein, animal protein; the aforementioned goods in the form of blocks, also being fabrics, mats and laminates; goods and semi-finished products of plastics or resins in extruded form, namely for use in manufacturing processes; the aforementioned goods also in conjunction with plastics, in particular with a thermoplastic shell; artificial insulating fibres for reinforcing concrete, cement and mortar; asbestos sheets; all of the aforementioned goods also in conjunction with plastics, in particular with a thermoplastic shell; fibre-reinforced plastics for industrial purposes [as semi-finished products]; goods and semi-finished products of plastics or resins, namely for use in manufacturing processes; flexible hoses, not of metal; artificial fibres made from synthetic polymers [not for textile use] such as polycondensation fibres, polymerisation fibres, polyaddition fibres; thermoplastic laminate composite materials; thermosetting laminate composite materials; compression-moulded goods and semi-finished products of plastic, thermoplastic polymer, thermosetting plastic, reinforced plastic, carbon-fibre-reinforced plastic, glass-fibre-reinforced plastic, composite products of artificial or natural fibres for insulating, sealing, packing and padding, composite products made from resin and carbon or resin and ceramics; goods [semi-finished products] made of plastic or composites involving plastics, in particular wpc goods; goods and semi-finished products of fibre composite materials, namely for use in manufacturing processes; parts and fittings for all the aforesaid goods.; Unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials; viscose sheets, other than for wrapping; packing materials; plastic sheeting for agricultural purposes; injection-moulded goods and semi- finished products of plastic, thermoplastic polymer, thermosetting plastic, reinforced plastic, carbon-fibre-reinforced plastic, glass-fibre-reinforced

plastic, composite products of artificial or natural fibres for insulating, sealing, packing and padding, composite products of resin and carbon or resin and ceramics; all of the aforementioned goods in the form of agglomerates and compounds; insulating materials; all of the aforementioned goods for industrial and commercial purposes, namely for making composite products from artificial or natural fibres, for example wpc products, insulating, sealing and packing materials and materials for padding; goods and semi-finished products made of natural fibre composites, namely for use in manufacturing processes; sealing materials===
===roof coverings, not of metal; flap valves, not of metal or plastic, namely for water pipes; wall panels, not of metal; composite structures, namely non-metallic composite struc- tures [building material]; flap valves, not of metal or plastic, namely for drainage pipes; non-metallic window frames; shutters, shuttering and moulds [not of metal] for concrete; mouldings, not of metal, for building; building materials, not of metal, in the form of rods, blocks, boards, profiles, containers, mouldings, fleeces, felts, fabrics; non-metal cladding for windows; pitch; structures for use in the building industry, in bridge construction and in the construction of energy-generating installations; tar; structures for use in architecture; the aforementioned goods as composites, especially with fibres or composite fibres; buildings, transportable, not of metal; ducts, not of metal, for ventilating and air-conditioning installations; natural fibres [building materials not of metal] for building and construction purposes, in particular as an admixture in building materials that can be cast and hardened, in particular cement, mortar and concrete; bitumen; building structures, not of metal; non-metal door panels; asphalt; monuments, not of metal; parts and fittings for all the aforesaid goods.; Building materials, not of metal, namely for building purposes; architecture [structures] of concrete, organic and inorganic composite materials or glass; door casings, not of metal; building materials, not of metal; rigid pipes, not of metal, for building; non-metal coverings for ceilings; shuttering, shuttering and moulds for precast and cast-in-situ concrete, organic and inorganic composite materials and glass; shuttering, shuttering and moulds for concrete, organic and inorganic composite materials and glass; building products (non-metallic)===
===administrative support for the operation of energy-generating and energy-converting installations such as nuclear installations and energy installations powered by natural forces, such as installations powered by wind or water; market analysis, marketing and services relating to customer loyalty programmes regarding machines and installations for the production of pressed goods; business management; wholesale and retail of machines and installations for the production of pressed goods; all of the aforementioned goods also as virtual goods.; business administration; wholesale and retail of machines and installations for carrying out mechanical or chemical process engineering, and of special parts, special appliances, special machines, special installations and parts of special installations for carrying out mechanical or chemical process engineering; business management consultancy; market analysis, marketing and services relating to customer loyalty programmes regarding machines and installations for carrying out mechanical or chemical process engineering, and regarding special parts, special appliances, special machines, special installations and parts of special installations for carrying out mechanical or chemical process engineering; business organization; office functions; wholesale and retail services, also online, with machines and machine tools for material processing and production, industrial robots, material production and processing machines, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from raw materials, machine tools, machines and mechanical appliances for mechanical process engineering, and installations, machines and mechanical appliances constructed from the aforementioned goods for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for compressing, compacting, agglomerating, compounding and coating materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, spare parts, accessories and tools for the aforementioned goods, robotic process automation [rpa] software, recorded data, software, databases, software for monitoring, analysing, controlling and running physical world operations, physical analysing appliances [other than for medical use], machine learning software for analysis, artificial intelligence software for analysis, downloadable computer software for collecting, analysing and organizing data in the field of deep learning, monitoring units [electric], monitoring control appliances [electric], monitoring instruments and appliances, computer software for the monitoring of computer systems, sensors for monitoring physical movements, industrial automation controls, industrial automation software, artificial intelligence software, process monitors, process controlling software, process controlling appliances [electric], process controlling appliances [electronic], digital process controllers, process controllers [electric], process controllers [electronic], data processing equipment and accessories [electrical and mechanical], communications equipment, signal cables for it, av and telecommunication, computer networking and data communications equipment, point-to-point communications equipment, computers and computer hardware, sensors, network communication appliances, network operating system programs, networking software, local area networks, smart manufacturing software, smart manufacturing system controls, editing software, computer operating programs, operating systems, operating system programs, computer operating system software, factory automation software, production support software, computer programs for connecting remotely to computers or computer networks, computer hardware for remotely accessing and transmitting data, automatic control appliances, control installations [electric], electric control appliances, electronic controllers, programmable controllers, industrial process control software, computer software, computers, computer peripheral devices, parts and accessories for all of the aforementioned goods; administrative support for the operation of facilities for sorting low-level radioactive waste, caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste, fuel element disposal management, data and calculations for protection against radiation, process computer systems, personal and job-based dose control; Advertising===
===installation services of mills and crushing machines; installation services of industrial robots; installation of stands for exhibitions; building of trade fair and exhibition stands; installation of communication equipment; repairing construction works; mechanical and electrical installation work for industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production of pressed goods; repair and maintenance of mills and crushing machines; mechanical and electrical installation work for industrial custom manufacture, namely the custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production or processing of goods containing natural fibres, of composite structures, namely non-metallic composite structures, and of metallic composite materials as well as composite materials containing plastic; plant maintenance; painting.; replacement of parts of machines, in particular of wear parts and machine tools; installation of high tensile structures; monitoring, remote diagnostic and remote maintenance of machines and installations made therefrom, also by means of remote monitoring systems; advisory services relating to the installation of lighting apparatus; maintenance or repair of: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials,

machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; plant refurbishment; oil drilling; installation of: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; advisory services relating to the installation of audiovisual equipment; installation services of moving and handling equipment; computer hardware and telecommunication equipment installation, maintenance and repair; civil construction services; refurbishment of: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; repair or maintenance of: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; installation services relating to: lifting and hoisting equipment, installation services relating to: woodworking machines; locksmithing in the context of the aforementioned services; erection, construction and dismantling of facilities for sorting low-level radioactive waste, caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste, fuel element disposal management, data and calculations for protection against radiation, process computer systems, personal and job-based dose control; mining extraction; installation services of machines and machine tools for treatment of materials and for manufacturing; installation services of material production and processing machines; mechanical and electrical installation of machines and installations for the production and processing of goods using mechanical or chemical process engineering; repair and maintenance of industrial robots; building construction and repair; repair and maintenance of machines and machine tools for treatment of materials and for manufacturing; installation of wireless telecommunications equipment and wireless local area networks; installation of plant; Repair or maintenance of machines and apparatus for woodworking; maintenance of communications equipment; installation services relating to: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical

appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; installation of stands for trade fairs; construction; installation, rebuilding, commissioning, maintenance, cleaning and repair of machines and mechanical appliances and installations for mechanical process engineering manufactured therefrom; installation of audiovisual equipment; installation services of conveyors and conveyors belts; scenery construction; repair and maintenance of conveyors and conveyors belts; drilling and deep drilling work; repair and maintenance of material production and processing machines; installation of lighting apparatus; rental of machine tools; repair and maintenance of woodworking machines; repair and maintenance of machine tools for woodworking machines; gas drilling; repair and maintenance of moving and handling equipment; repair and maintenance of lifting and hoisting equipment, elevators and escalators; erection, construction and installation of energy-generating and energy-converting installations such as nuclear installations and energy installations powered by natural forces, such as installations powered by wind or water; installation services of machine tools for woodworking machines; installation of stands for conferences; construction, installation, repair, maintenance, renovation, refurbishment and overhaul of industrial heating installations and furnaces for generating heat and steam, installations for protecting the environment, and installations for industrial drying purposes; construction consultancy services===
===steam and electricity generating from biomass; processing of metal surfaces by abrasive polishing; air purification; treating [stamping] of metal; electricity generating; metal finishing; treatment of metal parts to prevent corrosion using hot-dip galvanizing and powder coating processes; machining parts for others; custom manufacture and assembly services; die casting; extruding of metal alloys; treating [embossing] of metal; cutting of metal; custom moulding services; food processing; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for the production of endless goods, namely [flat] web-shaped goods, such as fibrous goods, namely plant-based panels, goods containing minerals, namely panels containing minerals, namely goods containing stone wool or composite materials such as organosheets, ferrous and non-ferrous metallic goods or goods containing plastic, namely panels containing plastic; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for the production of special goods or goods produced in series production; treating [tempering] of metal; material processing in the form of the shredding, chopping, cutting, delamination, defibration, grinding, cryogenic grinding, fine and precision grinding, mixing, coating, wetting, pelletising, compounding, compacting, granulation, agglomeration, coagulation, separation and recycling of materials as a service for others; material processing of ligno-cellulosic materials, of composite materials such as organosheets in particular, of plastics, and of plastics with the addition of wood, waste wood, paper, cardboard, cellulose, textiles, waste, rubber, latex, resins, leather, food, luxury foods and animal foodstuffs, minerals, pigments, colourants, pharmaceuticals, chemical products, metals, composite materials, electronic waste, cables and old tires; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for [chemical] process engineering; metallurgical smelting services for processing moulds for the manufacture of castings, in particular large castings; surface finishing of metal articles; production of machines, mechanical appliances and installations for mechanical process engineering; polishing of metals; treating [shaping] of metal; welding services; sandblasting services; metalworking; treating [forging] of metal; die-casting of metals; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for [mechanical] process engineering; metal treating and casting, cooling of metal casting products, hardening of metal and metal products; metal brazing; recycling of waste; mechanical or chemical treatment or processing of materials; metal laminating; material processing using chemical engineering; shot blasting; metal stamping; waste treatment [transformation]; galvanising of metal; processing of fibrous materials and waste wood to form cellulose powder and wood flour; rental of machines and mechanical appliances for processing and converting materials for custom manufacture; treating [enamelling] of metal; vulcanization [material treatment]; preservation of drink; processing of minerals and metals to form mineral and metal powders; industrial production and custom manufacture of series-produced or special structural parts by casting, shaping, separating, for example cutting, joining, for example soldering, coating, for example varnishing, changing material properties, for example hardening; metal treating; 3d reproduction services; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production of pressed goods; generation of energy, in particular hot gases, steam, thermal oil and electricity; industrial production and custom manufacture, namely of turned parts of metal, turned parts of plastic, large turned parts such as shafts and cylinders for machines and installations, milled parts of metal, milled parts of plastic, large milled parts such as parts for machine and plant construction, namely for the construction of treatment installations for fibrous materials, intermittently or continuously operating presses and large presses for processing fibrous materials such as paper, cardboard, engineered woods, fibre composites, plastics, composite materials, iron, steel, cast materials; millworking; custom 3d printing for others; chromium plating of metal articles; metallurgical smelting; recycling of recycling materials, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste; metal casting; processing of metal surfaces using precision grinding techniques; shaping of metal components; blast treatment; processing of large structural parts with individual volumes of at least 500 litres using chemical or mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, in particular pressing; water treating; hard chromium plating and hard nickel plating of metal surfaces; fettling shop services for processing moulds for the manufacture of castings, in particular large castings; metal tempering; consultancy in the field of the manufacture of flat and simply or multiply curved or structured organic and inorganic homogeneous and composite goods, semi-finished products and structures.; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production or processing of goods containing natural fibres, of composite structures, namely non-metallic composite structures, and of metallic composite materials as well as composite materials containing plastic; processing of moulds for the manufacture of castings, in particular large castings; metal hardening; custom construction of machines; custom manufacture and processing of organic and inorganic homogeneous and composite goods, semi-finished products, structures and architecture, namely for the building industry, the production of panels, vehicle and aircraft construction, machine and plant construction in a level form or in a simply or multiply curved form; treatment and coating of metal surfaces; incineration of waste and trash; material processing of temperature-sensitive materials using chemical process engineering; material processing of piece and bulk goods, and of paste, fluid, vegetable-based and fibrous substances and mixtures of substances,

and of liquids, fluid/solid mixtures and low- and high-consistency suspensions; printing; custom manufacture of models for generating moulds for making castings, preferably large castings; preservation of food; material processing of temperature-sensitive materials using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; metal melting services; custom manufacture of tools for others; Material processing using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; coating of coatable material, namely wood, paper, cardboard, cellulose, textiles, plastics, rubber, minerals, pharmaceuticals, chemical products, metals, composite material; moulding shop services for generating moulds for the manufacture of castings, in particular large castings; material treatment services in connection with recycling, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste===
===rental services relating to equipment and facilities for education, entertainment, sports and culture; entertainment services relating to sport; audio-visual display presentation services for entertainment purposes; training; sporting activities; entertainment services; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of installations for mechanical or chemical process engineering; Educational instruction; training and instruction of users and service staff, namely relating to the operation of presses, namely of continuously or intermittently operating presses and large presses, of single- or multi-daylight presses, of presses for generating endless goods, namely web products in the form of natural-fibre-based web goods for the production of panels, in the form of organically or inorganically based web goods for the production of panels, in the form of composite-forming web goods for the production of composite materials, such as organosheets; party planning [entertainment]; instruction and training of users and service staff, namely relating to installations processing natural fibres; training services relating to the adaptation and use of monitoring systems, namely of vibration measurements and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems.; radio entertainment; arranging of presentations for entertainment purposes; production of sound recordings; instruction and training of users and service staff, namely relating to heating installations and furnaces for generating heat and steam, exhaust gas purification and drying installations; entertainment, sporting and cultural activities; organisation of sporting events; organization of entertainment events; information and advisory services relating to entertainment; instruction and training of users and service staff, namely relating to energy-generating installations; provision of recreational events; organisation of parties; rental of audio/visual and photographic equipment and facilities; instruction and training of users and service staff, namely relating to mills and refiners; cultural activities; instruction and training of users and service staff, namely relating to the use of machines, installations and parts of installations for mechanical or chemical process engineering; organisation of educational events; organisation of entertainment and cultural events; conducting of educational events; entertainment services provided at discotheques; conducting of cultural events; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of software, namely of software for controlling industrial installations, such as production installations or installations for mechanical or chemical process engineering and parts of these installations; organizing cultural and arts events; instruction and training of users and service staff, namely relating to plastic-processing machines and installations; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of industrial machines, installations and parts of installations, namely of machines, installations and parts of installations for the production of material assets; arranging and conducting of entertainment events; musical entertainment; instruction and training of users and service staff, namely relating to industrial production installations; organising of shows for entertainment purposes===
===design services for architecture; technological consultancy in the field of measurement and calculations for the adjustment of the operating materials.; volume flow measurement; providing temporary use of on-line non-downloadable software for importing and managing data; cloud hosting provider services; services relating to the planning of energy-generating and energy-converting installations such as nuclear installations, energy installations powered by natural forces, such as installations powered by wind or water; process-related technical consultancy in connection with the operation of machines, mechanical appliances and installations for mechanical process engineering manufactured therefrom; science and technology services; laboratory analysis of materials and clinical trials relating to the treatment of materials, in particular the conveyance, dosing, crushing, mixing, agglomeration, compressing, conditioning, separation and sorting of materials; pressure measurement; industrial testing, calibration, condition monitoring; testing and quality control of monitoring systems, namely of vibration measurements and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel

element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of process of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems; industrial design; interior design services and information and advisory services relating thereto; providing virtual computer environments through cloud computing; design and development of networks; software development, programming and implementation, in particular to monitor and control machines, installations and processes for mechanical process engineering; scientific and technological services and research and design relating thereto; services of an engineer in connection with the provision of the aforementioned services; consultancy in the field of engineering, namely the design of installations and parts of installations for producing goods and semi-finished products, namely organic and inorganic panels, fibreboard, composite panels, organosheets, gypsum boards, plastic panels, wpc panels, energy carrier panels; services relating to the planning of facilities for sorting low-level radioactive waste, caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste, fuel element disposal management, data and calculations for protection against radiation, process computer systems, personal and job-based dose control; cloud storage services for electronic files; quality control; construction drafting, building design, technical project planning, technical project management, technical building supervision, quality control and assurance in the area of industrial heating installations and furnaces for generating heat and steam, industrial drying installations and environmental engineering; technological engineering analysis regarding bearings, couplings, belt pulley alignments; technical consulting, and engineering services and technological consultancy relating to concept development, plan development/design, planning and support during the approval process, advice regarding the selection of the correct business partner, project execution, project support, project management, supervision/optimisation of revision processes, quality monitoring and construction supervision, creation and checking of documentation; providing virtual computer systems through cloud computing; implementation of computer programs in networks; technological services relating to manufacture; research in the field of mechanical process engineering; preparation of reports in the field of measurement and laboratory data; engineering consultancy relating to manufacture; computer design services; performance measurement; design of models for generating moulds for making castings, preferably large castings; cloud storage services for electronic data; preparation of reports relating to scientific research on electrical energy; editing of computer programs; authentification services; technological services; computer aided design for manufacturing operations; engineering services; industrial research; design services; consulting in the field of cloud computing networks and applications; technical project studies; custom design services; programming of electronic control systems; technical research; services relating to industrial design, architectural consultancy; consultancy in the field of engineering, namely the design of installations and parts of installations for mechanical or chemical process engineering, and the refurbishment of installations and parts of installations for mechanical or chemical process engineering; planning, development and technical project planning of machines, mechanical appliances and installations for mechanical process engineering; Development of computer based networks; services of engineers and inspections in the field of energy generation; consultancy in the field of construction drafting; cloud computing; mass flow measurement; operating point measurement; industrial analysis; design and development of computer hardware and software; electric meter reading and data analysis for energy auditing purposes; design and development of computer hardware for the manufacturing industry; consultancy in the field of engineering; software creation and further development, and the use of software for costing nuclear dismantling projects, waste tracking and documentation, the radiological spatial data project information system; it services; design services relating to interior decorating for homes; testing such as vibration measurements, temperature profile analyses, and temperature profile adjustment; quality control and assessment services; research and development of new products relating to environment protection; construction drafting; computer software design; design, development and implementation of software===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===pupuk; resin sintetis, belum diproses; persiapan temper; persiapan penyolderan; Bahan-bahan yang disebutkan di atas untuk pembuatan senyawa kimia dan komposit, khususnya dalam kombinasi dengan bitumen, karet, karbon atau plastik, yaitu plastik termoset, termoplastik dan elastomer, bubuk, bubuk halus, serat, serutan dan serpihan untuk keperluan industri yang terbuat dari bahan lignoselulosa, khususnya selulosa, kayu, gabus dan tanaman tahunan.; Bahan kimia industri; plastik yang belum diolah; sediaan kimia untuk digunakan dalam fotografi; kompos; perekat untuk digunakan di industri; dempul dan bahan pengisi pasta lainnya; bahan-bahan tersebut di atas dengan tambahan gabus dan/atau kulit pohon.; bahan kimia yang digunakan dalam sains; Sediaan biologis untuk digunakan dalam industri dan sains.; bahan kimia yang digunakan dalam kehutanan; fire extinguishing compositions; plastik dalam bentuk bubuk, butiran, pelet, serpihan, dan aglomerat; bahan kimia untuk digunakan dalam pertanian; bahan kimia yang digunakan dalam hortikultura; komposisi pencegahan kebakaran; tanning compositions for animal skins; persiapan pemupukan===
===gemuk industri; candles for lighting; Oli mesin otomotif; lighting fuel; fuel; lilin; dust wetting compositions; komposisi pengendali debu; sumbu untuk lilin.; komposisi penyerap debu; pelumas===
===bangunan dari logam; scaffolding of metal; cast iron, in particular ferritic cast iron, in particular ductile iron, in particular with a high nickel content; paduan logam biasa; bagian struktural dan struktur logam umum serta paduannya; periksa rel logam untuk jalur kereta api; tiang logam untuk bangunan; bahan logam untuk jalur permanen kereta api funikular; pipa kompensator, saluran gas buang berupa pipa gas, uap superpanas, air, kondensat, dan pipa minyak termal; wadah logam untuk penyimpanan sementara dan akhir bahan radioaktif; bahan bangunan dan konstruksi serta elemen logam; kisi-kisi logam; tabung baja; bekisting dan cetakan logam; pelapisan baja; pelampung tambat dari logam; Jembatan [konstruksi] dan bagian-bagian strukturalnya, seperti pagar jembatan, tiang jembatan, bantalan jembatan, khususnya jembatan kereta api dan bagian-bagian strukturalnya yang terbuat dari logam, khususnya dari besi cor.; nosel logam; rel logam; penyangga logam; blok swage; wadah logam untuk menyimpan asam; wadah logam, khususnya besi cor, untuk penyimpanan, khususnya untuk penyimpanan jangka panjang; kuningan, mentah atau setengah jadi; wadah logam [penyimpanan, pengangkutan]; bantalan rel kereta api dari logam, khususnya besi cor; platform, prefabrikasi, dari logam; flensa logam [kerah]; paduan baja; katup penutup dari logam, khususnya untuk pipa drainase; timah, mentah atau setengah jadi; pintu logam; rangka logam untuk bangunan; braket logam untuk bangunan; cerobong asap logam; daun jendela, bekisting, dan cetakan logam untuk beton.; ores of metal; besi cor dengan struktur matriks fase tunggal atau fase ganda, khususnya dengan struktur matriks fase tunggal yang terbentuk dari besi cor austenitik; structures and transportable buildings of metal; pengait panci dari logam; common metals, unwrought or

semi-wrought; besi cor, khususnya besi cor austenitik, khususnya besi cor ulet, khususnya dengan kandungan nikel yang tinggi; cast iron, unwrought or semi-wrought; bahan penguat logam untuk pipa; saluran logam, untuk instalasi pemanas sentral; non-electric cables and wires of common metal; tangga logam; fireplace grates of metal; cerobong asap dari logam; wadah logam untuk penyimpanan, pengangkutan, dan pengemasan; brankas [logam atau bukan logam]; bahan konstruksi tahan api dari logam; kerangka logam untuk bangunan; bangunan, portabel, dari logam; selubung mesin dari logam, khususnya besi cor; wadah logam untuk gas bertekanan atau udara cair; tiang-tiang logam; papan kayu dari logam; bangunan merupakan struktur tetap yang terbuat dari logam.; cetakan pengecoran logam; besi cor ulet; struktur penyangga dari logam; struktur logam untuk digunakan pada turbin angin dan turbin laut; nampan pengumpul logam; storage containers of metal; bahan cor yang tidak mudah pecah; menangani palet logam; cetakan dingin [pabrik pengecoran]; bahan bangunan dari logam, khususnya bahan besi cor untuk rel kereta api, bahan besi cor untuk jembatan; solid cast iron materials; pipa talang logam; tabung logam; Bekisting, cetakan, dan profil logam untuk beton pracetak dan beton cor di tempat.; penutup cerobong asap dari logam; brankas dan lemari besi dari logam, khususnya besi cor.; katup penutup dari logam, khususnya untuk pipa gas, khususnya untuk pipa udara; bahan penguat, dari logam, untuk beton; sekrup logam; jembatan sementara dari logam, khususnya besi cor; brankas; pelapis dinding logam untuk bangunan; clips of metal for pipes; braket logam untuk furnitur; bahan bangunan dari logam; ducts of metal for ventilating and air-conditioning installations; bagian-bagian kecil logam; structural parts, such as bridges and parts of bridges; suku cadang dan perlengkapan untuk semua barang tersebut di atas, yang termasuk dalam kelas ini.; meja putar [kereta api]; bahan rel kereta api dari logam; besi cor untuk aplikasi panas; tembaga, mentah atau setengah jadi; building materials of metal; strongrooms; semburan logam; corong logam, non-mekanis; ingots of common metal; rel pemandu dari logam; bahan bangunan non-listrik dari logam; penutup pipa logam; pelapis logam untuk bangunan; lembaran baja; logam piroforik; besi siku dari logam; tangki logam; kotak logam biasa; peti logam; baja cor; pelat sambung [rel]; mantel perapian dari logam; besi, mentah atau setengah jadi; Logam umum dan paduannya; Besi cor yang mengandung grafit bulat, khususnya dengan bola grafit yang tertanam dalam struktur austenitik.; keramik; struktur komposit logam, yaitu struktur komposit yang mengandung logam; materials of metal for building and construction; perangkat keras logam; penutup lubang got dari logam; bagian struktural, dari logam, untuk perahu, kapal, infrastruktur maritim, penerbangan, dan transportasi lokal.; pintu putar logam; struktur logam untuk digunakan dalam arsitektur; besi cor yang diproduksi dalam tungku induksi listrik; perlengkapan logam untuk furnitur; metal building structures and parts thereof; casks of metal; sambungan logam untuk pipa; pondasi mesin, yaitu pondasi mesin pres logam, khususnya besi cor.; pipa besi cor; wadah logam, khususnya besi cor, untuk transportasi; anchors; baja, mentah atau setengah jadi; pipa logam; mur logam; pipa logam bercabang; tiang tambat dari logam; partisi logam; besi cor, mentah atau setengah tempa; wadah logam untuk transportasi; katup penutup dari logam, khususnya untuk pipa air; pembatas jalan dari logam; bekisting logam untuk beton; logam umum dan paduannya; pipa logam, saluran pipa besar, pipa pembuangan uap; logam biasa, mentah atau setengah jadi; titik kereta api; struktur logam untuk digunakan dalam industri bangunan; pipa penyalur air dari logam; balok logam; ambang jendela dari logam; railway sleepers of metal; manifold logam untuk saluran pipa; bangunan baja; logam dalam bentuk lembaran atau bubuk untuk printer 3D; siku logam untuk pipa; pelat jangkar; pintu lapis baja dari logam; panel akustik dari logam; saluran logam untuk instalasi ventilasi dan pendingin udara; penutup logam untuk wadah; katup logam, selain bagian-bagian mesin; cerobong asap logam untuk teknologi energi dan pengeringan, untuk industri pembangkit listrik.; bahan logam untuk bangunan, khususnya besi cor untuk bangunan; tiang baja; Besi cor yang mengandung grafit bulat, khususnya dengan bola grafit yang tertanam dalam struktur feritik.; bahan penguat logam untuk bangunan===
===machines and installations for the crushing and processing of thermoplastics, plastic waste and rubber; kompresor; pumps for industrial heating installations and furnaces; Robot industri yang sebagian otomatis, sepenuhnya otomatis, atau dibantu kecerdasan buatan [pintar] untuk pemrosesan material dan produksi aset material [barang] dan produk setengah jadi, yaitu untuk produksi barang dan produk setengah jadi berbentuk jaring atau terdefinisi secara spasial yang tak terbatas atau terpisah dengan kandungan organik atau anorganik, yang diproduksi secara alami atau buatan, seperti material berbentuk jaring, panel, cetakan datar atau tiga dimensi, bagian yang dipres, atau coran.; kompresor [mesin]; breakers, jaw crushers, primary crushers; peredam suara merupakan bagian dari mesin.; robot pelukis; dynamic and static air separators, cross-flow separators, centrifugal separators, basket separators, reverse separators, cascade separators, gravity separators, zig-zag separators, sifting machines, vacuum sifting machines, vibration sifting machines, drum screening machines, vibrating screening machines, flat sifting machines, eddy current sifting machines, tumbler sifting machines, roller separators, filtering machines, hose filters (parts of machines), cartridge filters (parts of machines), pocket filters (parts of machines), cyclones, separators, centrifuges, disintegrators, blowing machines, extracting machines, magnetic drums (parts of machines), magnetic rollers (parts of machines), magnetic grates (parts of machines), mechanical separators, gravity separators, overbelt magnetic separators, induction separators, metal detection coils (parts of machines); machines and mechanical apparatus for the washing of materials; penukar panas (bagian-bagian mesin); unit kontrol proses [mekanis]; pengikis kayu gelondong panjang; machines and mechanical appliances for conveying, feeding and dosing materials into a production process, and parts thereof; Mesin pres mekanik atau hidrolik satu dan multi-lapisan untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari bahan baku, yaitu bahan baku nabati, yaitu bahan baku yang diperoleh dari tanaman tahunan atau abadi, menjadi material berbentuk panel satu atau multi-lapisan seperti papan serat, papan partikel, papan serat berorientasi [OSB] atau menjadi bentuk campurannya [papan hibrida].; alat untuk mesin pengolahan plastik; penggerak untuk konveyor; regulator [bagian mesin]; motor [selain untuk kendaraan darat]; mesin pengencang baut, khususnya untuk reaktor air bertekanan, reaktor air mendidih; mesin untuk menghasilkan dan mengubah energi, misalnya mesin uap, turbin angin, pembangkit listrik tenaga air, turbin.; mesin untuk memproduksi struktur dan arsitektur organik dan anorganik homogen dan komposit yang melengkung sederhana atau ganda; mesin dan peralatan mekanik untuk teknik proses mekanik, dan instalasi yang dibangun dari barang-barang tersebut di atas; bagian-bagian dari selubung, bagian-bagian mesin, khususnya bagian-bagian mesin yang bergerak.; motor, selain untuk kendaraan darat; penggiling cakram; tools for composite material treatment machines; kunci mesin sortir [pintu air]; penegang tunggal untuk reaktor air bertekanan dan mendidih; mesin untuk memproduksi arsitektur homogen dan komposit organik dan anorganik; mesin pengatom; mesin penghancur; konveyor transportasi tanpa awak yang merupakan mesin penanganan kargo; perangkat pengencang baut untuk generator uap; mesin pencampur untuk pengolahan kimia; mesin produksi dan pengolahan material; penyaring; mesin cetak transfer resin; moulds for production [parts of machines]; Mesin pres membran, yaitu mesin pres membran bermuatan fluida untuk produksi bagian berbentuk, yaitu mesin pres membran yang beroperasi terus menerus atau terputus-putus untuk produksi bagian berbentuk dari bahan yang berasal dari bahan baku, yaitu bahan baku nabati, baja paduan dan non-paduan, material komposit, lembaran logam dan baja, lembaran organik, plastik, material organik dan anorganik, material yang mengandung mineral.; sekrup Archimedes; generator listrik; pengencang multi-stud; mesin, unit penggerak dan bagian-bagian mesin, rumah mesin, piston, batang piston, ring piston, batang roda gigi, roda gigi,

roda bergigi, gandar, poros dan katup, turbin, kompresor, semuanya merupakan bagian dari mesin; Mesin pres mekanik atau hidrolik satu dan multi-daylight untuk produksi komponen berbentuk, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi komponen berbentuk dari bahan yang berasal dari bahan baku, yaitu bahan baku nabati, baja paduan dan non-paduan, material komposit, lembaran logam dan baja, lembaran organik, plastik, material organik dan anorganik, material yang mengandung mineral.; tiang gantry dan bagian-bagian dari derek gantry; mesin pembersih baut, mesin pembersih baut bejana tekan reaktor; mesin dispenser otomatis; mesin pembersih lubang buta, khususnya untuk aplikasi industri; katup [bagian-bagian mesin]; moulds [parts of machines]; konveyor dan sabuk konveyor; mesin pembersih untuk reaktor; insulating-material processing machines; mesin dan peralatan mekanis untuk memampatkan, memadatkan, menggumpalkan, mencampur, dan melapisi material, seperti material berbentuk lembaran, panel, produk cetakan, produk pres, dan produk cor [hasil coran]; painting machines incorporating painting lines; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from mineral raw materials, namely from gypsum, carbonised plant materials, silicon dioxide, silicates or ceramics, portland cement, gypsum-cement-pozzolan compounds [gcp binders], magnesia binders; vibrator [mesin] untuk penggunaan industri; mesin untuk pembuatan struktur dan arsitektur; peralatan mesin; potongan dorong; All of the aforementioned goods for processing continuous or finite shaped pieces and bulk materials, as well as pasty, flowable, vegetable, and fibrous materials and mixtures of materials, as well as liquids, fluid-solid mixtures and low- and high-consistency suspensions, in particular fibrous materials such as lignin-containing or lignocellulose-containing materials, composite materials such as organic sheets in particular, plastics and plastics with admixtures of perennial or annual plant components such as wood, waste wood, grass, bark, paper, cardboard, cellulose, or with components of other materials, such as textiles, waste, rubber, resins, leather, food, luxury foods, and animal feed, minerals, carbons, plastics, pigments, dyes, pharmaceuticals, chemical products, metals, composite materials, electronic scrap, cables, and old tires, parts, spare parts, accessories, and tools for the aforementioned goods, insofar as included in this class; mesin pencampur industri; compressors for refrigerators; penghancur drum, penghancur bal, guillotine, gunting guillotine, gunting besi tua, mesin pres besi tua, mesin penghancur serpihan kayu, mesin penghancur serpihan kayu drum, mesin penghancur serpihan kayu cakram, mesin penghancur serpihan kayu plastik, penghancur vertikal, penghancur, penghancur poros tunggal, penghancur poros ganda, penghancur horizontal, penghancur vertikal; kopling transmisi daya [selain untuk kendaraan darat]; mesin sortir untuk industri; mesin pembersih, khususnya untuk aplikasi industri; Mesin untuk menghancurkan bahan-bahan yang sensitif terhadap suhu seperti plastik, termoplastik, plastik termoset, elastomer, makanan dan makanan mewah, bahan aromatik, bahan farmasi dan kosmetik, bahan kimia, bahan yang mengandung minyak dan lemak, bahan yang sangat kental dan lengket, serta bagian-bagiannya.; instalasi pelapisan pernis; peralatan pengangkat dan derek; peralatan mekanik untuk mesin pengecoran dan mesin produksi logam; mesin pengolah bubur kertas [pemurni]; suku cadang dan perlengkapan untuk semua barang di atas; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari plastik, yaitu termoplastik, plastik termosetting, atau elastomer.; mesin pengangkat dan instalasi untuk mengangkut material curah; steam engine boilers for power generation, other than for land vehicles; wood-crushing machines; parts of engine housings; mesin pengolahan komposit; mesin pengangkat untuk pengangkutan beban; komponen hidrolik bertekanan tinggi dan sistem penyegelan [bagian-bagian mesin]; filter cor [bagian mesin]; mesin pengikis, mesin pengikis cincin pisau, mesin pengikis cakram, mesin pengikis universal, mesin penggiling, mesin penggiling kriogenik, mesin penghancur tumbukan, mesin penggiling palu, mesin penggiling pemukul silang, mesin penggiling lapisan layanan presisi, mesin penggiling pusaran, mesin penggiling cakram bergigi, mesin penggiling kulit kayu, mesin penggiling delaminasi, mesin penghancur tumbukan; mesin untuk mengolah plastik; katup dan pintu air untuk mesin dan sistem transportasi; robot otonom dalam ruangan untuk penggunaan industri; mesin untuk memproses bahan organik dan anorganik homogen dan komposit; Mesin penggiling, penggiling untuk penggilingan kriogenik, penghancur penggiling benturan, penggiling palu, penggiling pemukul silang, penggiling lapisan permukaan presisi, penggiling pusaran angin, penggiling cakram bergigi, penggiling kulit kayu, penggiling delaminasi, penghancur sekunder, penggiling pengklasifikasi, instalasi lapisan penggilingan, penggiling halus, penggiling presisi, penggiling untuk menghasilkan bubuk mineral dan logam, granulator, granulator basah, granulator pipa, granulator presisi, granulator profil, granulator rangka timah, granulator busa keras, granulator film, granulator kecil, peletizer, granulator untai, granulator pita, mesin pemotong, mesin pemotong drum, penggiling palu, penggiling palu benturan, pemisah pulp, mesin penghancur benturan, penggiling turbo, penggiling hidung tiup, penggiling pin, penggiling universal, penggiling bola, penggiling jet, penggiling jet berlawanan, penggiling koloid, penggiling aliran berlawanan, penggiling aliran ganda, penggiling rol; Mesin dan peralatan mekanis untuk daur ulang dan pemisahan material, khususnya untuk memisahkan komponen material komposit.; beating flakers; mesin pemisah; peralatan pemindahan dan penanganan; penggiling; matrices (parts of machines); mekanisme kontrol untuk mesin, motor atau mesin penggerak; power operated tools; panduan untuk mesin; mesin dan peralatan mekanis untuk memisahkan material curah dengan kepadatan dan/atau ukuran yang berbeda; apron conveyors, sliding floors, belt conveyors, bucket conveyors, tube chain conveyors, stuffing screws, archimedian screws, auger fillers, sluices, dosing valves, hydraulic or pneumatically operated feeding devices, blowing machines, load conveyors, vibratory conveyors, oscillating conveyor troughs, conveying chains and drag chain conveyors; stud tensioning technology systems; machines and mechanically driven appliances as well as energy-generating installations formed therefrom and industrial drying installations heated both directly via hot gases and indirectly via steam, hot water and thermal oil; industrial robots; mesin dan peralatan mekanis untuk penghancuran, granulasi, disintegrasi, de-agglomerasi, defibrasi dan penggilingan halus dan ultra-halus bahan, dan bagian-bagiannya; mesin dan peralatan mekanis untuk pengkondisian material; konveyor; pengisi ulir; perkakas mesin untuk mesin pengolahan kayu; composite-material processing machines; mesin dan peralatan mekanis untuk pemisahan, klasifikasi, pembuangan, penghilangan gas, dan pengisian material; suku cadang, komponen pengganti, aksesori, dan peralatan untuk barang-barang yang disebutkan di atas, yang termasuk dalam kelas ini.; mesin produksi logam; mesin pengolahan logam; mesin dan instalasi untuk produksi serpihan kayu; ring gesekan; mesin untuk mengolah bahan organik dan anorganik homogen dan komposit; palung cor dan pelat cor [bagian-bagian mesin]; mesin untuk mencuci berbagai material, khususnya kayu, bahan berserat, makanan dan pakan ternak, plastik, bahan kimia, produk farmasi dan kosmetik, serta mineral.; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari material yang diperkuat, yaitu plastik yang diperkuat serat seperti plastik yang diperkuat serat kaca atau karbon, komposit, komposit karet-baja, seperti material sabuk konveyor atau tapak ban, material daur ulang.; alat untuk mesin pengolahan bahan isolasi; Mesin yang dioperasikan secara manual, sebagian otomatis atau sepenuhnya otomatis [seperti mesin produksi dan pengolahan material], peralatan mekanik, perkakas mesin, instalasi dan bagian instalasi untuk pengolahan material dan produksi aset material [barang] dan produk setengah jadi, yaitu untuk

produksi barang dan produk setengah jadi berbentuk jaring atau terdefinisi secara spasial yang tak berujung atau terpisah dengan kandungan organik atau anorganik, yang diproduksi secara alami atau buatan, seperti material berbentuk jaring, panel, cetakan datar atau tiga dimensi, bagian yang dipres atau coran.; rumah mesin; pompa vakum [mesin]; mesin pengolahan mineral; sekrup pengisi; pabrik penggilingan; fluidised bed dryers, drum dryers, screw coolers; mesin dispenser; mesin dan instalasi untuk pemrosesan mekanis bahan dan bahan curah menjadi bubuk dan butiran; woodworking machines; perangkat kontrol untuk mesin dan instalasi; komponen transmisi (kecuali untuk kendaraan darat); Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau berselang-seling untuk produksi material atau produk yang terdiri dari dua atau lebih lapisan yang diikat atau direkatkan bersama di seluruh area, di mana lapisan tersebut dapat terdiri dari jenis material yang sama atau berbeda dan dari jenis material yang sama atau berbeda [laminasi], yaitu foil pemanas, foil suhu, foil display, material isolasi laminasi, komposit aluminium seperti komposit aluminium-kayu, komposit aluminium-komposit seperti aluminium yang diperkuat serat kaca, komposit kemasan seperti komposit karton minuman, material komposit dari bahan nabati dan plastik, komposit mineral seperti komposit porselen stoneware-plastik.; Mesin, instalasi mesin dan bagian-bagiannya untuk teknik proses mekanik dan kimia serta untuk produksi aset material [barang] dan produk setengah jadi, yaitu untuk produksi barang dan produk setengah jadi berbentuk jaring tak berujung atau terpisah atau yang terdefinisi secara spasial dengan kandungan organik atau anorganik, yang diproduksi secara alami atau buatan, seperti material berbentuk jaring, panel, cetakan datar atau tiga dimensi, bagian yang dipres atau coran.; corong cor [bagian-bagian mesin]; mekanisme penggerak, selain untuk kendaraan darat; Mesin pres mekanis atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanis atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari bahan isolasi, yaitu wol batu, wol kaca, wol terak, poliuretan, wol kayu atau wol kaca.; perangkat dosis roda sel [bagian-bagian mesin]; machines and mechanical apparatus for the separation, classification, removal, degassing and filling of materials; mesin untuk memproduksi struktur homogen dan komposit organik dan anorganik; alat bantu untuk memproduksi coran, yaitu corong dan filter [bagian-bagian mesin]; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from a mixture of raw materials, namely a mixture of two or more single-origin raw materials [basis], of which at least one forms a continuous phase [composite material], namely a composite material that features a matrix and a mesh arranged therein, namely a composite material with a matrix formed from resin and a fibre or grid structure formed from carbon; mesin peniup; pengangkut [mesin]; Mesin yang dioperasikan secara manual, sebagian otomatis, atau sepenuhnya otomatis [seperti mesin produksi dan pengolahan material], peralatan mekanik, perkakas mesin, instalasi dan bagian instalasi untuk pengolahan material dan produksi coran dari logam besi dan non-besi paduan dan tanpa paduan, baja paduan dan tanpa paduan, lebih disukai coran dalam cetakan besar.; mesin pengecoran; mesin penghancur tanaman; mesin pembentuk dan pencetak; pengaduk, mixer putar, mixer kerucut, mixer batch, mixer ulir; alat untuk pengolahan material komposit; generator; control and regulating units and installations for manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, preferably within mechanical or chemical process engineering and general and special-purpose machine construction, vehicle construction and series production support; stud turning devices such as single-stud turning devices, double-stud turning devices, multi-stud turning devices, namely for industrial applications; lapisan (bagian-bagian mesin); rol; machines for manufacturing curved organic and inorganic homogeneous and composite panels and surfaces; cast iron parts for pipes [parts of machines]; mesin dan peralatan mekanis untuk mencampur dan menghomogenkan bahan; gluing flash tube [part of a machine]; mesin untuk memproses material komposit; peralatan untuk mesin pengolahan mineral; alat-alat pertanian selain alat-alat tangan yang dioperasikan dengan tangan; agricultural, earthmoving, construction, oil and gas extraction and mining equipment; mesin pengikat; process control instruments [mechanical]; robot industri; mesin dan peralatan mekanis untuk mencampur, mendispersikan, mengemulsikan, dan menghomogenkan bahan; pabrik penggilingan, pabrik penggilingan dan turbin angin, khususnya fondasi turbin angin, selubung, kerangka dan selubung rotor.; mesin dan peralatan mesin untuk pengolahan material dan untuk manufaktur; cetakan [bagian-bagian mesin], khususnya cetakan dingin dan matriks; machines for shredding soft to medium-hard materials such as minerals, plastics, wood, foodstuffs and animal feed, leather, cellulose, rubber, elastomers and soft sheet metal; Mesin ekstrusi, mesin cetak injeksi, aglomerator, mixer pemanas/pendingin, pemadat, kalender dan bagian-bagian kalender, mesin peletisasi, mesin briket, pabrik pelet, kompresor basah, kompresor ulir, mesin pres sabuk ganda, mesin pengemas, mesin pengepres baling saluran; Mesin dan instalasi di bidang otomatisasi pers, otomatisasi industri, dan otomatisasi transportasi serta suku cadangnya.; mesin pengolahan material komposit; instalasi pelapis [pelapis], yaitu pelapis aliran dan pelapis bak; mesin dan peralatan mekanis untuk mengangkut, memasukkan, dan menakar bahan ke dalam proses produksi; filtering machines, separators and centrifuges; Alat pemotong, penggeseran, pencampuran, penggilingan, benturan, dan pemukul, semuanya merupakan bagian dari mesin, pisau [bagian dari mesin], blok pemotong, cakram pemotong, ujung pemotong, strip penggeseran, jalur penggilingan, cakram penggilingan, pin penggilingan, segmen penggilingan, kisi penggilingan, set penggilingan, rol penggiling panci, ayakan [bagian dari mesin], jalur penyaringan, layar cakram, layar drum, lembaran berlubang [bagian dari mesin], pelat pemukul, strip benturan, palu [bagian dari mesin], silinder, rol pinion, pemotong penggilingan silindris, kisi-kisi [bagian dari mesin], batang penyaring, pelat batang dan kisi-kisi, bilah pencampur, fitting tekanan, matriks [bagian dari mesin], bilah dokter, cam rem, pelapis [bagian dari mesin], pelat aus [bagian dari mesin], cakram aus, cincin aus, strip aus, sepatu aus; moulds that can be used multiple times, preferably chill-moulds, namely single chill-moulds and multiple child-moulds [parts of machines]; Instalasi teknik proses mekanis untuk membentuk campuran bahan tabur yang mudah mengalir, yaitu bahan berserat, bahan serpihan, plastik, karbon, bahan pengikat kering, resin atau bahan mineral, dalam bentuk geometris tertentu dengan gramatur tertentu, dengan bantuan peralatan penakar, penyebar, dan pengangkut yang telah disinkronkan melalui sistem pemantauan dan pengukuran.; mesin transfer; perkakas bertenaga listrik; parts of machines, namely cast iron parts, for machines and machine tools for the treatment of materials and production; alat untuk mesin pengolahan komposit; mesin pengolahan kayu=== ===senjata sampingan, selain senjata api; alat makan; Perkakas tangan, dioperasikan dengan tangan; peralatan tangan, dioperasikan dengan tangan; suku cadang dan perlengkapan untuk semua barang tersebut di atas.; pisau cukur=== ===peralatan telekomunikasi untuk digunakan dengan jaringan seluler; kabel sinyal untuk IT, AV, dan telekomunikasi; studio monitor loudspeakers; microphone cables; air analysis apparatus; katup elektromagnetik; perangkat lunak komputasi awan yang dapat diunduh; perangkat lunak sistem operasi komputer; instalasi kontrol (listrik -); sensor yang digunakan dalam pengendalian tanaman; kabinet untuk pengeras suara; sensor untuk menentukan posisi; tampilan layar LED; perangkat lunak komputer untuk komunikasi jaringan nirkabel; speaker [peralatan audio]; komputer dan perangkat keras komputer; sumbat indikator tekanan untuk katup; Perbaikan dan perawatan mesin perkakas untuk mesin pengolahan kayu.; pemasangan peralatan penerangan; Jasa instalasi yang berkaitan dengan: peralatan pengangkat dan derek, jasa instalasi yang berkaitan dengan: mesin pengolahan kayu; perbaikan dan perawatan mesin pengolahan kayu; penyewaan peralatan mesin; pemasangan, pembangunan kembali, pengoperasian, pemeliharaan, pembersihan, dan perbaikan mesin serta peralatan dan instalasi mekanik untuk teknik proses mekanik yang diproduksi darinya.; Pekerjaan instalasi mekanik dan listrik untuk manufaktur khusus industri, yaitu manufaktur khusus industri berupa suku cadang khusus, peralatan khusus, mesin khusus, instalasi khusus dan bagian-bagian instalasi khusus untuk produksi barang-barang hasil

pengepresan.; gas drilling; jasa instalasi konveyor dan sabuk konveyor; pemasangan struktur tarik tinggi; Konstruksi, instalasi, perbaikan, pemeliharaan, renovasi, pemugaran, dan perbaikan menyeluruh instalasi pemanas industri dan tungku untuk menghasilkan panas dan uap, instalasi untuk melindungi lingkungan, dan instalasi untuk keperluan pengeringan industri.; perbaikan dan pemeliharaan mesin produksi dan pengolahan material===
===pembuatan alat sesuai pesanan untuk pihak lain; steam and electricity generating from biomass; penyelesaian logam; processing of metal surfaces by abrasive polishing; Pengolahan material menggunakan teknik proses mekanik, yaitu melalui penghancuran, pengatomisasian, penggumpalan, pemisahan, pengayakan, pencampuran, penyimpanan, penggabungan atau pembentukan, misalnya dengan pengepresan.; pemrosesan material yang sensitif terhadap suhu menggunakan teknik proses kimia; mengerjakan suku cadang untuk orang lain; Pengolahan material yang sensitif terhadap suhu menggunakan teknik proses mekanik, yaitu melalui penghancuran, pengatomisasian, penggumpalan, pemisahan, pengayakan, pencampuran, penyimpanan, penggabungan atau pembentukan, misalnya dengan pengepresan.; manufaktur kustom industri, yaitu manufaktur kustom industri berupa suku cadang khusus, peralatan khusus, mesin khusus, instalasi khusus, dan bagian-bagian dari instalasi khusus untuk produksi barang-barang hasil pengepresan.; treating [stamping] of metal; perawatan ledakan; laminasi logam; electricity generating; Pengolahan bagian struktural besar dengan volume individual minimal 500 liter menggunakan teknik proses kimia atau mekanik, yaitu melalui penghancuran, pengatomisasian, penggumpalan, pemisahan, pengayakan, pencampuran, penyimpanan, penggabungan atau pembentukan, khususnya pengepresan.; pengecoran logam; treatment of metal parts to prevent corrosion using hot-dip galvanizing and powder coating processes; Produksi industri dan pembuatan khusus komponen struktural seri atau khusus melalui proses pengecoran, pembentukan, pemisahan (misalnya pemotongan), penyambungan (misalnya penyolderan), pelapisan (misalnya pernisan), dan perubahan sifat material (misalnya pengerasan).; extruding of metal alloys; penyambungan logam; galvanisasi logam; Pengolahan material dalam bentuk penghancuran, pencincangan, pemotongan, delaminasi, defibrasi, penggilingan, penggilingan kriogenik, penggilingan halus dan presisi, pencampuran, pelapisan, pembasahan, pembuatan pelet, penggabungan, pemadatan, granulasi, aglomerasi, koagulasi, pemisahan dan daur ulang material sebagai layanan untuk pihak lain.; pemolesan logam; Produksi industri dan manufaktur sesuai pesanan, yaitu bagian-bagian logam yang dibubut, bagian-bagian plastik yang dibubut, bagian-bagian besar yang dibubut seperti poros dan silinder untuk mesin dan instalasi, bagian-bagian logam yang digiling, bagian-bagian plastik yang digiling, bagian-bagian besar yang digiling seperti bagian-bagian untuk konstruksi mesin dan pabrik, yaitu untuk konstruksi instalasi pengolahan bahan berserat, mesin pres yang beroperasi secara intermiten atau kontinu dan mesin pres besar untuk pengolahan bahan berserat seperti kertas, karton, kayu olahan, komposit serat, plastik, bahan komposit, besi, baja, bahan cor.; Manufaktur kustom industri untuk komponen struktural, peralatan, mesin, instalasi, dan bagian-bagian instalasi untuk produksi barang khusus atau barang yang diproduksi secara massal.; pencetakan; pembangkitan energi, khususnya gas panas, uap, minyak termal dan listrik; manufaktur khusus industri, yaitu manufaktur khusus industri berupa suku cadang khusus, peralatan khusus, mesin khusus, instalasi khusus dan bagian-bagian instalasi khusus untuk produksi atau pengolahan barang yang mengandung serat alami, struktur komposit, yaitu struktur komposit non-logam, dan material komposit logam serta material komposit yang mengandung plastik.; pengolahan kayu; pengerasan logam; treating [shaping] of metal; perlakuan atau pemrosesan bahan secara mekanis atau kimiawi; sandblasting services; pengolahan [pembentukan] logam; pemrosesan cetakan untuk pembuatan coran, khususnya coran berukuran besar; pemurnian udara; manufaktur khusus industri untuk komponen struktural, peralatan, mesin, instalasi dan bagian instalasi untuk teknik proses [kimia]; pemrosesan permukaan logam menggunakan teknik penggerindaan presisi; pengolahan [transformasi] limbah; material processing using chemical engineering; pembakaran limbah dan sampah; produksi mesin, peralatan mekanik, dan instalasi untuk teknik proses mekanik; metal stamping; pembentukan komponen logam; peledakan tembakan; pengolahan [penempaan] logam; vulcanization [material treatment]; daur ulang limbah; pengolahan makanan; manufaktur khusus industri untuk komponen struktural, peralatan, mesin, instalasi, dan bagian instalasi untuk teknik proses [mekanik]; Layanan bengkel pencetakan untuk menghasilkan cetakan untuk pembuatan coran, khususnya coran berukuran besar.; pembuatan mesin sesuai pesanan; Penyewaan mesin dan peralatan mekanik untuk memproses dan mengubah bahan untuk pembuatan sesuai pesanan.; pengolahan air; layanan pengelasan; pengecoran cetakan; penyelesaian permukaan barang-barang logam; Jasa peleburan metalurgi untuk memproses cetakan untuk pembuatan coran, khususnya coran berukuran besar.; chromium plating of metal articles; Pengolahan material berupa barang satuan dan barang curah, serta pasta, cairan, zat nabati dan berserat, dan campuran zat, serta cairan, campuran cairan/padat, dan suspensi dengan konsistensi rendah dan tinggi.; Pembuatan model sesuai pesanan untuk menghasilkan cetakan guna membuat coran, lebih disukai coran berukuran besar.; water treating; fettling shop services for processing moulds for the manufacture of castings, in particular large castings; pengolahan dan pengecoran logam, pendinginan produk coran logam, pengerasan logam dan produk logam; pelapisan krom keras dan pelapisan nikel keras pada permukaan logam; layanan pencetakan khusus; pengawetan makanan; pengerjaan logam; pengolahan logam; peleburan metalurgi; treatment and coating of metal surfaces; Konsultasi di bidang manufaktur barang homogen dan komposit organik dan anorganik yang datar, melengkung sederhana atau berstruktur ganda, serta produk setengah jadi dan struktur.; pengolahan [pelapisan enamel] logam; pemotongan logam; Pembuatan komponen struktural, peralatan, mesin, instalasi, dan bagian instalasi sesuai pesanan industri untuk produksi barang tanpa batas, yaitu barang berbentuk lembaran [datar], seperti barang berserat, yaitu panel berbahan dasar tumbuhan, barang yang mengandung mineral, yaitu panel yang mengandung mineral, yaitu barang yang mengandung wol batu atau bahan komposit seperti lembaran organik, barang logam besi dan non-besi atau barang yang mengandung plastik, yaitu panel yang mengandung plastik.; layanan reproduksi 3D; Pengolahan material lignoselulosa, material komposit seperti lembaran organik khususnya, plastik, dan plastik dengan tambahan kayu, limbah kayu, kertas, karton, selulosa, tekstil, limbah, karet, lateks, resin, kulit, makanan, makanan mewah dan pakan ternak, mineral, pigmen, pewarna, farmasi, produk kimia, logam, material komposit, limbah elektronik, kabel dan ban bekas.; pengolahan mineral dan logam untuk membentuk bubuk mineral dan logam; Daur ulang bahan daur ulang, yaitu kayu, kertas, karton, OCC, dikombinasikan dengan bahan pengikat, plastik, lumpur limbah, batu bara, limbah debu batu bara, limbah kemasan campuran.; printing; Pembuatan dan pengolahan barang organik dan anorganik homogen dan komposit, produk setengah jadi, struktur dan arsitektur sesuai pesanan, khususnya untuk industri bangunan, produksi panel, konstruksi kendaraan dan pesawat terbang, konstruksi mesin dan pabrik dalam bentuk datar atau dalam bentuk lengkung sederhana atau ganda.; layanan manufaktur dan perakitan khusus; pencetakan 3D khusus untuk orang lain; pengolahan bahan berserat dan limbah kayu untuk membentuk bubuk selulosa dan tepung kayu; pengolahan [embossing] logam; metal melting services; pengawetan minuman; Pelapisan bahan yang dapat dilapisi, yaitu kayu, kertas, karton, selulosa, tekstil, plastik, karet, mineral, farmasi, produk kimia, logam, dan material komposit.; pengolahan [pencetakan] logam; material treatment services in connection with recycling, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste===

foundry moulds of metal; structural parts, of metal, for boats, ships, maritime, aviation and local transport structures; screws of metal; ductile cast iron; chimneys of metal for energy and drying technology, for the power plant industry; pot hooks of metal; refractory construction materials of metal; steel buildings; containers of metal for compressed gas or liquid air; flanges of metal [collars]; crash barriers of metal for roads; lead, unwrought or semi-wrought; metal hardware; tubbing of metal; common metals and their alloys; turnstiles of metal; tanks of metal; pipe muffs of metal; railway points; railway material of metal; ores of metal; metallic composite structures, namely composite structures containing metal; parts and fittings for all the aforesaid goods, included in this class.; structures and transportable buildings of metal; common metals, unwrought or semi-wrought; containers of metal for storing acids; cast iron, unwrought or semi-wrought; partitions of metal; non-electric cables and wires of common metal; penstock pipes of metal; fireplace grates of metal; jets of metal; steel masts; pipes of metal, large pipelines, exhaust steam pipes; mooring buoys of metal; manifolds of metal for pipelines; containers of metal [storage, transport]; collecting trays of metal; junctions of metal for pipes; containers of metal, in particular cast iron, for transport; containers of metal for transport; railway sleepers of metal, in particular cast iron; cast iron pipes; swage blocks; tubes of metal; cast steel; storage containers of metal; pyrophoric metals; shutters, shuttering and mouldings of metal for precast and cast-in-situ concrete; solid cast iron materials; metal structures for use in the building in- dustry; copper, unwrought or semi-wrought; pipework of metal; safes [metal or non-metal]; angle irons of metal; shutters, shuttering and mouldings of metal for concrete; check rails of metal for railways; metal structures for use in architecture; buildings of metal; brass, unwrought or semi-wrought; clips of metal for pipes; masts of metal; chill-moulds [foundry]; valves of metal, other than parts of machines; ducts of metal, for central heating installations; cast iron with a single-phase or multiple-phase matrix structure, in particular with a single-phase matrix structure formed from austenitic cast iron; ducts of metal for ventilating and air-conditioning installations; structural parts, such as bridges and parts of bridges; unbreakable cast materials; compensator pipes, flue gas ducts in the form of gas pipes, superheated steam, water, condensate and thermal oil pipes; building materials of metal, in particular cast iron material for railway tracks, cast iron material for bridges; chests of metal; wall claddings of metal for building; manhole covers of metal; bridges [constructions] and their structural parts, such as bridge railings, bridge posts, bridge bearings, in particular railway bridges and their structural parts of metal, in particular of cast iron; fish plates [rails]; beams of metal; building materials of metal; strongrooms; cladding of metal for building; shuttering of metal for concrete; engine casings of metal, in particular cast iron; temporary bridges of metal, in particular cast iron; ingots of common metal; machine foundations, namely press machine foundations of metal, in particular cast iron; chimneys of metal; containers of metal, in particular cast iron, for storage, in particular for long-term storage; metals in foil or powder form for 3d printers; building and construction materials and elements of metal; reinforcing materials of metal for pipes; Common metals and their alloys; mooring bollards of metal; cast iron manufactured in an electric induction furnace; flap valves of metal, namely for drainage pipes; steel alloys; frames of metal for building; materials of metal for building and construction; fireplace mantles of metal; steel, unwrought or semi-wrought; small parts of metal; hoppers of metal, non-mechanical; cast iron containing spheroidal graphite, in particular with graphite spheres embedded in an austenitic structure; metal structures for use in wind- and sea turbines; cermets; framework of metal for building; doors of metal; steel sheets; materials of metal for building, in particular cast iron for building; closures of metal for containers; elbows of metal for pipes; chimney shafts of metal; casks of metal; metal building structures and parts thereof; cast iron, in particular austenitic cast iron, in particular ductile iron, in particular with a high nickel content; buildings, transportable, of metal; flap valves of metal, namely for water pipes; anchors; duckboards of metal; anchor plates; nozzles of metal; pillars of metal for building; brackets of metal for building; structural parts and structures of common metals and their alloys; cast iron for heat applications; brackets of metal for furniture; buildings being fixed structures of metal; acoustic panels of metal; guide rails of metal; chimney cowls of metal; sills of metal; shuttering and moulds of metal; fittings of metal for furniture; branching pipes of metal; boxes of common metal; railway sleepers of metal; rails of metal; flap valves of metal, namely for gas pipes, namely for air pipes; reinforcing materials of metal for building; armour-plating of metal; latticework of metal; containers of metal for the interim and final storage of radioactive materials; chimney pots of metal; steel tubes; staircases of metal; materials of metal for funicular railway permanent ways; platforms, prefabricated, of metal; turntables [railways]; alloys of common metal; cast iron containing spheroidal graphite, in particular with graphite spheres embedded in a ferritic structure; gutter pipes of metal; iron, unwrought or semi-wrought===
===tools for composite processing machines; long log flakers; machines and installations for the crushing and processing of thermoplastics, plastic waste and rubber; partly automated, fully automated or artificial intelligence-aided [smart] industrial robots for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; motors, other than for land vehicles; pumps for industrial heating installations and furnaces; breakers, jaw crushers, primary crushers; dynamic and static air separators, cross-flow separators, centrifugal separators, basket separators, reverse separators, cascade separators, gravity separators, zig-zag separators, sifting machines, vacuum sifting machines, vibration sifting machines, drum screening machines, vibrating screening machines, flat sifting machines, eddy current sifting machines, tumbler sifting machines, roller separators, filtering machines, hose filters (parts of machines), cartridge filters (parts of machines), pocket filters (parts of machines), cyclones, separators, centrifuges, disintegrators, blowing machines, extracting machines, magnetic drums (parts of machines), magnetic rollers (parts of machines), magnetic grates (parts of machines), mechanical separators, gravity separators, overbelt magnetic separators, induction separators, metal detection coils (parts of

machines); machines and mechanical apparatus for the washing of materials; machines and installations for the mechanical processing of materials and bulk materials into powders and granulates; automatic dispensing machines; transporters [machines]; cleaning machines for reactors; machines and mechanical appliances for conveying, feeding and dosing materials into a production process, and parts thereof; machines and mechanical apparatus for mechanical process engineering, and installations constructed from the aforesaid goods; single- and multi-daylight mechanical or hydraulic presses for the production of shaped parts, namely continuously or intermittently operating mechanical or hydraulic presses for the production of shaped parts from materials derived from raw materials, namely plant-based raw materials, alloyed and unalloyed steels, composite materials, metal and steel sheets, organosheets, plastics, organic and inorganic materials, materials containing minerals; machines for the shredding of temperature-sensitive materials such as plastics, thermoplastics, thermosetting plastics, elastomers, food and luxury foods, aromatic materials, pharmaceutical and cosmetic materials, chemical materials, materials containing oil and grease, highly viscous and adhesive materials, and parts thereof; compressors; membrane presses, namely fluid-loaded membrane presses for the production of shaped parts, namely continuously or intermittently operating membrane presses for the production of shaped parts from materials derived from raw materials, namely plant-based raw materials, alloyed and unalloyed steels, composite materials, metal and steel sheets, organosheets, plastics, organic and inorganic materials, materials containing minerals; tools for plastic processing machines; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from insulating materials, namely stone wool, glass wool, slag wool, polyurethanes, wood wool or glass wool; tools for composite material treatment machines; transferring machines; mineral processing machines; lifting machines and installations for transporting bulk materials; machines and mechanical apparatus for the recycling and separation of materials, in particular for separating the components of composite materials; conveyors; unmanned transportation conveyors being cargo handling machines; blowing engines; blind hole cleaning machines, namely for industrial applications; rolling mills; moulds for production [parts of machines]; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from plastics, namely thermoplastics, thermosetting plastics or elastomers; machines for working plastic; machines and mechanical appliances for compressing, compacting, agglomerating, compounding and coating materials, such as web-shaped materials, panels, moulded products, pressed products and cast products [castings]; sifters; stud tensioning machines, namely for pressurised water reactors, boiling water reactors; disc mills; stuffing screws; machines and installations in the field of press automation, industrial automation and transport automation and parts therefor; generators; manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of castings from alloyed and unalloyed ferrous and non-ferrous metals, alloyed and unalloyed steels, preferably of castings in a large mould; crushing machines; cast troughs and cast platens [parts of machines]; machines for washing materials, in particular wood, fibrous materials, food and animal foodstuffs, plastics, chemicals, pharmaceutical and cosmetic products and minerals; vacuum pumps [machines]; moulds [parts of machines]; insulating-material processing machines; painting machines incorporating painting lines; metal production machines; machines for manufacturing simply or multiply curved organic and inorganic homogeneous and composite structures and architecture; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from mineral raw materials, namely from gypsum, carbonised plant materials, silicon dioxide, silicates or ceramics, portland cement, gypsum-cement-pozzolan compounds [gcp binders], magnesia binders; tools for insulating-material processing machines; moulds [parts of machines], in particular chill-moulds and matrices; lacquering installations; compres- sors [machines]; painting robots; compressors for refrigerators; heat exchangers (parts of machines); cast hoppers [parts of machines]; flakers, knife ring flakers, disc flakers, universal flakers, mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision service-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, impact crushing machines; cleaning machines, namely for industrial applications; rolling mills, mills and wind turbines, in particular wind turbine foundations, casings, frameworks and rotor casings; cast filters [parts of machines]; resin transfer moulding machines; tools for mineral processing machines; extrusion presses, injection moulding machines, agglomerators, heating/cooling mixers, compactors, calenders and parts of calenders, pelletisers, briquetting machines, pellet mills, wet compressors, screw compresses, double belt presses, packing presses, channel baling presses; foundry machines; power transmission couplings [other than for land vehicles]; bonding machines; machines for manufacturing structures and architecture; propulsion mechanisms, other than for land vehicles; steam engine boilers for power generation, other than for land vehicles; machines for generating and converting energy, for example steam engines, wind turbines, hydroelectric power plants, turbines; wood-crushing machines; parts of engine housings; Machines, machine installations and parts thereof for mechanical and chemical process engineering and for the production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; friction washers; machines for manufacturing organic and inorganic homogeneous and composite structures; machines and mechanical appliances for mixing, dispersing, emulsifying and homogenising materials; composite processing machines; machines and mechanical apparatus for conveying, feeding and dosing materials into a production process; parts of casings, parts of engines, in particular moving parts of engines.; beating flakers; pulping machines [refiners]; matrices (parts of machines); mechanical equipment for foundry machines and metal production machines; hydraulic high-pressure components and sealing systems [parts of machines]; power operated tools; cutting, shearing, mixing, grinding, impact and striking tools, all being parts of machines, knives [parts of machines], cutter blocks, cutting discs, cutting tips, shearing strips, grinding tracks, grinding discs, milling pins, grinding segments, grinding grids, grinding sets, pan grinder rollers, sieves [parts of machines], sifting tracks, disc screens, drum screens, perforated sheets [parts of machines], beater plates, impact strips, hammers [parts of machines], cylinders, pinion rollers, cylindrical milling cutters, grates [parts of machines], strainer bars, rod plates and gratings, mixing blades, pressure fittings, matrices [parts of machines], doctor blades, break cams, linings [parts of machines], wear plates [parts of machines], wear discs, wear rings, wear strips, wear shoes; sorting machine locks [sluices]; apron conveyors, sliding floors, belt conveyors, bucket conveyors, tube chain conveyors, stuffing screws, archimedian screws, auger fillers, sluices, dosing valves, hydraulic or pneumatically operated feeding devices, blowing machines, load conveyors, vibratory conveyors, oscillating conveyor troughs, conveying chains and drag chain conveyors; motors [other than for land vehicles]; industrial mixing machines; stud tensioning technology systems; plant shredding machines; guides for machines; shaping and moulding machines; machines and mechanically driven appliances as well as energy-generating installations formed therefrom and industrial drying installations heated both directly via hot gases

and indirectly via steam, hot water and thermal oil; process control units [mechanical]; industrial robots; thrust pieces; composite-material processing machines; machines for processing organic and inorganic homogeneous and composite materials; blending machines for chemical processing; machines and mechanical apparatus for separating bulk materials of differing densities and/or sizes; electricity generators; aids for producing castings, namely hoppers and filters [parts of machines]; archimedian screws; stud tensioning devices for steam generators; fluidised bed dryers, drum dryers, screw coolers; moving and handling equipment; woodworking machines; tools for the processing of composite materials; machines and machine tools for treatment of materials and for manufacturing; coating installations [coaters], namely flow coaters and bath coaters; manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; machines and mechanical apparatus for the separation, classification, removal, degassing and filling of materials; drum shredders, bale shredders, guillotines, guillotine shears, scrap shears, scrap presses, chippers, drum chippers, disc chippers, plastic chippers, vertical crushers, shredders, single-shaft shredders, multi-shaft shredders, horizontal shredders, vertical shredders; atomising machines; mechanical process engineering installations for forming a mixture of free-flowing scatter material, namely fibrous material, chip material, plastic, carbon, dry binding material, resins or mineral material, in a defined geometric shape with a defined grammage, with the help of dosing, scattering and transport equipment that has been synchronised through monitoring and measuring systems; vibrators [machines] for industrial use; lifting ma- chines for load transport; sound absorbers being parts of machines; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from a mixture of raw materials, namely a mixture of two or more single-origin raw materials [basis], of which at least one forms a continuous phase [composite material], namely a composite material that features a matrix and a mesh arranged therein, namely a composite material with a matrix formed from resin and a fibre or grid structure formed from carbon; machinery and installations for the production of wood chips; regulators [parts of machines]; lifting and hoisting equipment; drives for conveyors; sorting machines for industry; agricultural implements other than hand operated hand tools; machines and mechanical appliances for the shredding, granulation, disintegration, de-agglomeration, defibration and fine and ultra-fine grinding of materials, and parts thereof; conveyors and conveyor belts; engines, drive units and parts of engines, engine housings, pistons, piston rods, piston rings, gear rods, gear wheels, toothed wheels, axles, shafts and valves, turbines, compressors, all being parts of machine; control and regulating units and installations for manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, preferably within mechanical or chemical process engineering and general and special-purpose machine construction, vehicle construction and series production support; stud turning devices such as single-stud turning devices, double-stud turning devices, multi-stud turning devices, namely for industrial applications; mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision surface-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, secondary crushers, classifier mills, milling layer installations, fine mills, precision mills, mills for producing mineral and metallic powder, granulators, wet granulators, pipe granulators, precision granulators, profile granulators, lead-frame granulators, hard foam granulators, film granulators, small granulators, pelletisers, strand granulators, band granulators, chippers, drum chippers, hammer mills, impact hammer mills, pulp separators, impact crushing machines, turbo mills, blow nose mills, pin mills, universal mills, ball mills, jet mills, counter-jet mills, colloidal mills, counter-flow mills, double-flow mills, rolling mills; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of materials or products consisting of two or more layers bonded or glued together over the entire area, whereby the layers may consist of the same or different material grades and of the same or different kinds of material [laminates], namely heating foils, temperature foils, display foils, laminated insulating material, aluminium composites such as aluminium-wood composites, aluminium-composite composites such as glass-fibre-reinforced aluminium, packaging composites such as beverage carton composites, composite materials of plant materials and plastics, mineral composites such as porcelain stoneware-plastic composites; machines and mechanical apparatus for the conditioning of materials; machines for manufacturing curved organic and inorganic homogeneous and composite panels and surfaces; cast iron parts for pipes [parts of machines]; parts and fittings for all the above goods; parts, spare parts, accessories and tools for the aforementioned goods, included in this class; machines for manufacturing organic and inorganic homogeneous and composite architecture; control mechanisms for machines, engines or motors; gluing flash tube [part of a machine]; transmission components (except for land vehicles); agricultural, earthmoving, construction, oil and gas extraction and mining equipment; rollers; machines for processing composite materials; single tensioners for pressurised and boiling water reactors; dispensing machines; process control instruments [mechanical]; valves and sluices for machines and transport systems; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from reinforced materials, namely fibre-reinforced plastics such as glass- or carbon-fibre-reinforced plastics, occ composites, rubber-steel composites, such as conveyor belt materials or treads for tyres, recycling materials; machines and mechanical appliances for mixing and homogenising materials; metalworking machines; machines for shredding soft to medium-hard materials such as minerals, plastics, wood, foodstuffs and animal feed, leather, cellulose, rubber, elastomers and soft sheet metal; agitators, tumbling mixers, conical mixers, batch mixers, screw mixers; indoor self-driving robots for industrial use; machine tools for woodworking machines; cell wheel dosing devices [parts of machines]; bolt cleaning machines, reactor pressure vessel bolt cleaning machines; engine housings; pulverizing mills; single- and multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from raw materials, namely plant-based raw materials, namely raw materials obtained from annual or perennial plants, into single- or multi-layer panel-shaped materials such as fibreboard, chipboard, oriented strand board [osb] or into mixed forms thereof [hybrid boards]; control appliances for machines and installations; multi-stud tensioners; all of the aforementioned goods for processing continuous or finite shaped pieces and bulk materials, as well as pasty, flowable, vegetable, and fibrous materials and mixtures of materials, as well as liquids, fluid-solid mixtures and low- and high-consistency suspensions, in particular fibrous materials such as lignin-containing or lignocellulose-containing materials, composite materials such as organic sheets in particular, plastics and plastics with admixtures of perennial or annual plant components such as wood, waste wood, grass, bark, paper, cardboard, cellulose, or with components of other materials, such as textiles, waste, rubber, resins, leather, food, luxury foods, and animal feed,

minerals, carbons, plastics, pigments, dyes, pharmaceuticals, chemical products, metals, composite materials, electronic scrap, cables, and old tires, parts, spare parts, accessories, and tools for the aforementioned goods, insofar as included in this class; separating machines; filtering machines, separators and centrifuges; moulds that can be used multiple times, preferably chill-moulds, namely single chill-moulds and multiple child-moulds [parts of machines]; machine tools; machines for treating organic and inorganic homogeneous and composite materials; gantry canes and parts of gantry cranes; material production and processing machines; auger fillers; composite material treatment machines; valves [parts of machines]; parts of machines, namely cast iron parts, for machines and machine tools for the treatment of materials and production; linings (parts of machines)===

===studio monitor loudspeakers; microphone cables; software; cloud server software; electronic control systems; computer operating programs; air analysis apparatus; connection cables; industrial automation controls; led screen displays; recorded content; point-to-point communications equipment; computer networking and data communications equipment; data storage devices and media; sensors for measuring instruments; speakers for video conferencing; process controlling software; process control digital controllers; programmable controllers; process controlling apparatus [electronic]; fire-extinguishing devices for the aforementioned installations; databases; optimisation software; recorded media; switchboxes [electricity]; operating systems; apparatus for broadcasting sound, data or images; lighting control panels; horns for loudspeakers; electromagnetic valves; artificial intelligence software; computer software platforms for social networking; operating system programs; pressure indicator plugs for valves; cabinets for loudspeakers; cases for loudspeakers; signal cables for it, av and telecommunication; electronic controllers; all of the aforementioned goods for controlling and regulating processes, machines, appliances and installations for mechanical engineering; electronic control units; information technology and audio-visual, multimedia and photographic equipment; downloadable media; monitoring control apparatus [electric]; surveying apparatus and instruments; networking software; telecommunications apparatus for use with mobile networks; software for monitoring, analysing, controlling and running physical world operations; local area networks; industrial process control software; portable speakers; communications equipment; downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; monitoring units [electric]; distribution boards [electricity]; numerical controllers for controlling the aforementioned installations; physical analysing apparatus [other than for medical use]; editing software; blank digital or analogue recording and storage media; multi-room audio devices; computer software [saved] for controlling installations for heating installations and furnaces for generating heat and steam, drying installations, cooling installations, thermotechnical installations for saving energy, installations for exhaust gas purification and exhaust gas filtration, installations for exhaust air purification and exhaust air filtration, installations for air treatment, and installations for treating water; calculating devices; computers; measuring, detecting, monitoring and controlling equipment; computer software for wireless network communications; cloud computing software; control installations (electric -); control units for machines and installations; optical sensors; electronic control instruments; monitoring apparatus, other than for medical purposes; surveillance cameras; data processing equipment and accessories (electrical and mechanical); automatic control apparatus; production support software; personal speakers; computer operating system software; coin-operated mechanisms; network operating system programs; electronic cables; instrument panels [electric]; monitoring instruments; computer hardware for remotely accessing and transmitting data; machine learning software for analysis; loudspeaker systems; industrial automation software; loudspeakers; internet of things [iot] sensors; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; loudspeaker cables; electric sensors; application software for cloud computing services; computer software for the monitoring of computer systems; downloadable software for remotely accessing and controlling a computer; process controlling apparatus [electric]; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; measuring, signalling, inspecting, switching and monitoring appliances and instruments; artificial intelligence software for surveillance; interactive software based on artificial intelligence; loudspeakers with built in amplifiers; controllers and regulators; fire extinguishers; sensor controllers; computer programs for connecting remotely to computers or computer networks; machine learning software for surveillance; sensors used in plant control; speakers [audio equipment]; artificial intelligence software for analysis; downloadable cloud computing software; monitor speakers; speaker switches; software for the integration of artificial intelligence and machine learning in the field of big data; sensors for monitoring physical movements; process controllers [electric]; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; electrical power extension cords; smart manufacturing system controls; appliances and equipment for testing, weighing, analysing and measuring materials; connection boards [electric]; Robotic process automation [RPA] software; computer peripheral devices; apparatus for scientific research and laboratories; process monitors; lighting transformers; network communication apparatus; fire safety installations, essentially consisting of sliding plate fire dampers of metal and/or plastic and/or mineral materials, sliding plate smoke dampers of metal and/or plastic and/or mineral materials, smoke detectors, all of the aforementioned components also as individual goods and parts thereof; factory automation software; speaker docks; electronic monitoring systems.; power cables; video screens; cloud servers; signal processors for audio speakers; electric control apparatus; measuring appliances, control appliances, regulating appliances, indicators for the aforementioned installations; video cameras adapted for monitoring purposes; checking (supervision) apparatus and instruments; sensors for use with machine tools; smart manufacturing software; navigation, guidance, tracking, targeting and map making equipment; computer software; all of the aforementioned goods, in particular for the areas of press automation, industry automation and transport automation; sensors, detectors and monitoring instruments; cloud network monitoring software; sensors; computers and computer hardware; sensors for determining position===
===safety lamps; lamps; floodlights; air deodorizing apparatus; gas burners; cooling installations for liquids; appliances and installations connected to heating boilers for heating purposes, namely regulating and safety accessories for water and gas pipes, taps for pipes and pipelines, water supply installations; air heating apparatus; industrial wastewater treatment installations; lamp reflectors; gas cleaners and purifiers; oil burner control units; strobe lights [light effects]; security lighting; air filtering installations; led lighting installations; light projectors; pressure vessels, expansion tanks, valves, taps for heat transfer and steam pipes, appliances for the treatment of heat transfer media; automatic gas stokers; Appliances and installations, and parts of appliances and installations for heating, cooling, steam-generating, cooking, drying, ventilating and water supply purposes; led luminaires; appliances and equipment for exhaust air purification and exhaust gas purification; incandescent light bulbs; parts and fittings for all the aforesaid goods, included in this class.; machines and installations constructed therefrom for industrial drying purposes; water filtering apparatus; air sterilizers; ventilation stacks and exhaust air installations; refrigerators and refrigerating installations; dust and granule burners and combination burners as well as surface burners; fans

[air-conditioning]; heating, ventilating, and air conditioning and purification equipment (ambient); lighting installations; cooling installations for panels; lamp shades; fans [parts of air-conditioning installations]; drying machines, humidifying (other than for medical use) and wetting apparatus, in particular for wood, fibrous materials, food and animal feed, plastics, chemical fiber and cosmetic products and minerals; cooling installations for industrial purposes; chilling machines; drying installations; luminaires for security use; air filters; evaporators; gas/heating boilers, including industrial steam boilers, water tube boilers, saturated steam and hot steam boilers, hot water boilers, waste heat boilers, fire-tube boilers, special boilers for thermal disposal and afterburning, including installations for stoking and ash removal, process heat generation, heat transfer oil installations and in particular including installations that essentially consist of heat transfer heaters, heat transfer pumps, heat exchangers and heat transfer lines; light diffusers; hydrogen reactors and parts thereof; lights for vehicles; air conditioning installations and air conditioning apparatus; apparatus for filtering water, consisting of automatic roll filters, wall and channel filters, bag filters, particulate filter modules for ceilings, mini dust extractors, centrifugal separators and filter media, namely glass fibre paper, glass fibre matting, randomly-oriented-fibre fleeces and activated carbon, all being parts of sanitary installations; light-emitting diode [led] light bulbs; industrial ovens and furnaces [not for food and beverages] for grate firing; heat pumps for energy processing; air dryers; cooling installations for reactors; industrial air treatment installations; refrigerating chambers; electric lamps; industrial water treatment installations; burners, boilers and heaters; oil burners; lighting apparatus; heat recovery installations; decorative lights; the aforementioned components also as individual goods and parts thereof; lamp mantles; ventilation installations, essentially consisting of ventilation grilles, ceiling diffusers, slot diffusers, floor diffusers, window parapet induction diffusers, swirl diffusers, induction swirl diffusers, ventilation valves, multi-leaf dampers, weather grilles, airtight steel doors, fans, water level regulators [valves] being parts of sanitary installations, the aforementioned components also as individual goods and parts thereof; distillation apparatus===

machining parts for others; custom manufacture and assembly services; die casting; extruding of metal alloys; treating [embossing] of metal; cutting of metal; custom moulding services; food processing; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for the production of endless goods, namely [flat] web-shaped goods, such as fibrous goods, namely plant-based panels, goods containing minerals, namely panels containing minerals, namely goods containing stone wool or composite materials such as organosheets, ferrous and non-ferrous metallic goods or goods containing plastic, namely panels containing plastic; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for the production of special goods or goods produced in series production; treating [tempering] of metal; material processing in the form of the shredding, chopping, cutting, delamination, defibration, grinding, cryogenic grinding, fine and precision grinding, mixing, coating, wetting, pelletising, compounding, compacting, granulation, agglomeration, coagulation, separation and recycling of materials as a service for others; material processing of ligno-cellulosic materials, of composite materials such as organosheets in particular, of plastics, and of plastics with the addition of wood, waste wood, paper, cardboard, cellulose, textiles, waste, rubber, latex, resins, leather, food, luxury foods and animal foodstuffs, minerals, pigments, colourants, pharmaceuticals, chemical products, metals, composite materials, electronic waste, cables and old tires; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for [chemical] process engineering; metallurgical smelting services for processing moulds for the manufacture of castings, in particular large castings; surface finishing of metal articles; production of machines, mechanical appliances and installations for mechanical process engineering; polishing of metals; treating [shaping] of metal; welding services; sandblasting services; metalworking; treating [forging] of metal; die-casting of metals; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for [mechanical] process engineering; metal treating and casting, cooling of metal casting products, hardening of metal and metal products; metal brazing; recycling of waste; mechanical or chemical treatment or processing of materials; metal laminating; material processing using chemical engineering; shot blasting; metal stamping; waste treatment [transformation]; galvanising of metal; processing of fibrous materials and waste wood to form cellulose powder and wood flour; rental of machines and mechanical appliances for processing and converting materials for custom manufacture; treating [enamelling] of metal; vulcanization [material treatment]; preservation of drink; processing of minerals and metals to form mineral and metal powders; industrial production and custom manufacture of series-produced or special structural parts by casting, shaping, separating, for example cutting, joining, for example soldering, coating, for example varnishing, changing material properties, for example hardening; metal treating; 3d reproduction services; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production of pressed goods; generation of energy, in particular hot gases, steam, thermal oil and electricity; industrial production and custom manufacture, namely of turned parts of metal, turned parts of plastic, large turned parts such as shafts and cylinders for machines and installations, milled parts of metal, milled parts of plastic, large milled parts such as parts for machine and plant construction, namely for the construction of treatment installations for fibrous materials, intermittently or continuously operating presses and large presses for processing fibrous materials such as paper, cardboard, engineered woods, fibre composites, plastics, composite materials, iron, steel, cast materials; millworking; custom 3d printing for others; chromium plating of metal articles; metallurgical smelting; recycling of recycling materials, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste; metal casting; processing of metal surfaces using precision grinding techniques; shaping of metal components; blast treatment; processing of large structural parts with individual volumes of at least 500 litres using chemical or mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, in particular pressing; water treating; hard chromium plating and hard nickel plating of metal surfaces; fettling shop services for processing moulds for the manufacture of castings, in particular large castings; metal tempering; consultancy in the field of the manufacture of flat and simply or multiply curved or structured organic and inorganic homogeneous and composite goods, semi-finished products and structures.; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production or processing of goods containing natural fibres, of composite structures, namely non-metallic composite structures, and of metallic composite materials as well as composite materials containing plastic; processing of moulds for the manufacture of castings, in particular large castings; metal hardening; custom construction of machines; custom manufacture and processing of organic and inorganic homogeneous and composite goods, semi-finished products, structures and architecture, namely for the building industry, the production of panels, vehicle and aircraft construction, machine and plant construction in a level form or in a simply or multiply curved form; treatment and coating of metal surfaces; incineration of waste and trash; material processing of temperature-sensitive materials using chemical process engineering; material processing of piece and bulk goods, and of paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and of liquids, fluid/solid mixtures and low- and high-consistency suspensions; printing; custom manufacture of models for generating moulds for making castings, preferably large castings; preservation of food; material processing of temperature-sensitive materials using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; metal melting services; custom manufacture of tools for others; Material processing using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; coating of coatable material, namely wood, paper, cardboard, cellulose, textiles, plastics, rubber, minerals, pharmaceuticals, chemical products, metals, composite material; moulding shop services for generating moulds for the manufacture of castings, in particular large castings; material treatment services in connection with recycling, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste===
===rental services relating to equipment and facilities for education, entertainment, sports and culture; entertainment services relating to sport; audio-visual display presentation services for entertainment purposes; training; sporting activities; entertainment services; training and instruction of users and service staff, namely relating to control and regulating units,

namely control and regulating units of installations for mechanical or chemical process engineering; Educational instruction; training and instruction of users and service staff, namely relating to the operation of presses, namely of continuously or intermittently operating presses and large presses, of single- or multi-daylight presses, of presses for generating endless goods, namely web products in the form of natural-fibre-based web goods for the production of panels, in the form of organically or inorganically based web goods for the production of panels, in the form of composite-forming web goods for the production of composite materials, such as organosheets; party planning [entertainment]; instruction and training of users and service staff, namely relating to installations processing natural fibres; training services relating to the adaptation and use of monitoring systems, namely of vibration measurements and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems.; radio entertainment; arranging of presentations for entertainment purposes; production of sound recordings; instruction and training of users and service staff, namely relating to heating installations and furnaces for generating heat and steam, exhaust gas purification and drying installations; entertainment, sporting and cultural activities; organisation of sporting events; organization of entertainment events; information and advisory services relating to entertainment; instruction and training of users and service staff, namely relating to energy-generating installations; provision of recreational events; organisation of parties; rental of audio/visual and photographic equipment and facilities; instruction and training of users and service staff, namely relating to mills and refiners; cultural activities; instruction and training of users and service staff, namely relating to the use of machines, installations and parts of installations for mechanical or chemical process engineering; organisation of educational events; organisation of entertainment and cultural events; conducting of educational events; entertainment services provided at discotheques; conducting of cultural events; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of software, namely of software for controlling industrial installations, such as production installations or installations for mechanical or chemical process engineering and parts of these installations; organizing cultural and arts events; instruction and training of users and service staff, namely relating to plastic-processing machines and installations; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of industrial machines, installations and parts of installations, namely of machines, installations and parts of installations for the production of material assets; arranging and conducting of entertainment events; musical entertainment; instruction and training of users and service staff, namely relating to industrial production installations; organising of shows for entertainment purposes===
===design services for architecture; technological consultancy in the field of measurement and calculations for the adjustment of the operating materials.; volume flow measurement; providing temporary use of on-line non-downloadable software for importing and managing data; cloud hosting provider services; services relating to the planning of energy-generating and energy-converting installations such as nuclear installations, energy installations powered by natural forces, such as installations powered by wind or water; process-related technical consultancy in connection with the operation of machines, mechanical appliances and installations for mechanical process engineering manufactured therefrom; science and technology services; laboratory analysis of materials and clinical trials relating to the treatment of materials, in particular the conveyance, dosing, crushing, mixing, agglomeration, compressing, conditioning, separation and sorting of materials; pressure measurement; industrial testing, calibration, condition monitoring; testing and quality control of monitoring systems, namely of vibration measurements and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of process of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems; industrial design; interior design services and information and advisory services relating thereto; providing virtual computer environments through cloud computing; design and development of networks; software development, programming and implementation, in particular to monitor and control machines, installations and processes for mechanical process engineering; scientific and technological services and research and design relating thereto; services of an engineer in connection with the provision of the aforementioned services; consultancy in the field of engineering, namely the design of installations and parts of installations for producing goods and semi-finished products, namely organic and inorganic panels, fibreboard, composite panels,

organosheets, gypsum boards, plastic panels, wpc panels, energy carrier panels; services relating to the planning of facilities for sorting low-level radioactive waste, caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste, fuel element disposal management, data and calculations for protection against radiation, process computer systems, personal and job-based dose control; cloud storage services for electronic files; quality control; construction drafting, building design, technical project planning, technical project management, technical building supervision, quality control and assurance in the area of industrial heating installations and furnaces for generating heat and steam, industrial drying installations and environmental engineering; technological engineering analysis regarding bearings, couplings, belt pulley alignments; technical consulting, and engineering services and technological consultancy relating to concept development, plan development/design, planning and support during the approval process, advice regarding the selection of the correct business partner, project execution, project support, project management, supervision/optimisation of revision processes, quality monitoring and construction supervision, creation and checking of documentation; providing virtual computer systems through cloud computing; implementation of computer programs in networks; technological services relating to manufacture; research in the field of mechanical process engineering; preparation of reports in the field of measurement and laboratory data; engineering consultancy relating to manufacture; computer design services; performance measurement; design of models for generating moulds for making castings, preferably large castings; cloud storage services for electronic data; preparation of reports relating to scientific research on electrical energy; authentification services; editing of computer programs; technological services; computer aided design for manufacturing operations; engineering services; industrial research; design services; consulting in the field of cloud computing networks and applications; technical project studies; custom design services; programming of electronic control systems; technical research; services relating to industrial design, architectural consultancy; consultancy in the field of engineering, namely the design of installations and parts of installations for mechanical or chemical process engineering, and the refurbishment of installations and parts of installations for mechanical or chemical process engineering; planning, development and technical project planning of machines, mechanical appliances and installations for mechanical process engineering; Development of computer based networks; services of engineers and inspections in the field of energy generation; consultancy in the field of construction drafting; cloud computing; mass flow measurement; operating point measurement; industrial analysis; design and development of computer hardware and software; electric meter reading and data analysis for energy auditing purposes; design and development of computer hardware for the manufacturing industry; consultancy in the field of engineering; software creation and further development, and the use of software for costing nuclear dismantling projects, waste tracking and documentation, the radiological spatial data project information system; it services; design services relating to interior decorating for homes; testing such as vibration measurements, temperature profile analyses, and temperature profile adjustment; quality control and assessment services; research and development of new products relating to environment protection; construction drafting; computer software design; design, development and implementation of software===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===pupuk; persiapan temper; resin sintetis, belum diproses; persiapan penyolderan; Bahan-bahan yang disebutkan di atas untuk pembuatan senyawa kimia dan komposit, khususnya dalam kombinasi dengan bitumen, karet, karbon atau plastik, yaitu plastik termoset, termoplastik dan elastomer, bubuk, bubuk halus, serat, serutan dan serpihan untuk keperluan industri yang terbuat dari bahan lignoselulosa, khususnya selulosa, kayu, gabus dan tanaman tahunan.; Bahan kimia industri; plastik yang belum diolah; sediaan kimia untuk digunakan dalam fotografi; kompos; komposisi pemadam api; perekat untuk digunakan di industri; dempul dan bahan pengisi pasta lainnya; bahan-bahan tersebut di atas dengan tambahan gabus dan/atau kulit pohon.; Sediaan biologis untuk digunakan dalam industri dan sains.; bahan kimia yang digunakan dalam sains; plastik dalam bentuk bubuk, butiran, pelet, serpihan, dan aglomerat; bahan kimia yang digunakan dalam kehutanan; bahan kimia untuk digunakan dalam pertanian; bahan kimia yang digunakan dalam hortikultura; komposisi pencegahan kebakaran; komposisi penyamakan untuk kulit hewan; persiapan pemupukan===
===bahan bakar penerangan; gemuk industri; Oli mesin otomotif; lilin untuk penerangan; lilin; komposisi pengendali debu; bahan bakar; sumbu untuk lilin.; komposisi penyerap debu; pelumas; komposisi pembasah debu===
===bangunan dari logam; armoured doors of metal; paduan logam biasa; bagian struktural dan struktur logam umum serta paduannya; tiang logam untuk bangunan; besi cor, khususnya besi cor feritik, khususnya besi cor ulet, khususnya dengan kandungan nikel yang tinggi; wadah logam untuk penyimpanan sementara dan akhir bahan radioaktif; pipa kompensator, saluran gas buang berupa pipa gas, uap superpanas, air, kondensat, dan pipa minyak termal; bahan bangunan dan konstruksi serta elemen logam; kisi-kisi logam; tabung baja; pelapisan baja; pelampung tambat dari logam; Jembatan [konstruksi] dan bagian-bagian strukturalnya, seperti pagar jembatan, tiang jembatan, bantalan jembatan, khususnya jembatan kereta api dan bagian-bagian strukturalnya yang terbuat dari logam, khususnya dari besi cor.; nosel logam; rel logam; penyangga logam; penjepit logam untuk pipa; chimneys of metal for energy and drying technology, for the power plant industry; bantalan rel kereta api dari logam; blok swage; wadah logam untuk menyimpan asam; crash barriers of metal for roads; lead, unwrought or semi-wrought; kuningan, mentah atau setengah jadi; wadah logam [penyimpanan, pengangkutan]; metal hardware; bantalan rel kereta api dari logam, khususnya besi cor; platform, prefabrikasi, dari logam; flensa logam [kerah]; paduan baja; katup penutup dari logam, khususnya untuk pipa drainase; pintu logam; daun jendela, bekisting, dan cetakan logam untuk beton.; besi cor dengan struktur matriks fase tunggal atau fase ganda, khususnya dengan struktur matriks fase tunggal yang terbentuk dari besi cor austenitik; pengait panci dari logam; besi cor, khususnya besi cor austenitik, khususnya besi cor ulet, khususnya dengan kandungan nikel yang tinggi; bahan penguat logam untuk pipa; saluran logam, untuk instalasi pemanas sentral; struktur dan bangunan portabel dari logam; tangga logam; cerobong asap dari logam; wadah logam untuk penyimpanan, pengangkutan, dan pengemasan; brankas [logam atau bukan logam]; steel masts; bahan konstruksi tahan api dari logam; kerangka logam untuk bangunan; bangunan, portabel, dari logam; selubung mesin dari logam, khususnya besi cor; wadah logam untuk gas bertekanan atau udara cair; tiang-tiang logam; pipes of metal, large pipelines, exhaust steam pipes; papan kayu dari logam; bangunan merupakan struktur tetap yang terbuat dari logam.; cetakan pengecoran logam; besi cor ulet; struktur penyangga dari logam; nampan pengumpul logam; struktur logam untuk digunakan pada turbin angin dan turbin laut; bahan cor yang tidak mudah pecah; ruang penyimpanan yang aman; menangani palet logam; cetakan dingin [pabrik pengecoran]; pyrophoric metals; bahan bangunan dari logam, khususnya bahan besi cor untuk rel kereta api, bahan besi cor untuk jembatan; pipa talang logam; tabung logam; Bekisting, cetakan, dan profil logam untuk beton pracetak dan beton cor di tempat.; batangan logam biasa; penutup cerobong asap dari logam; bahan logam untuk bangunan dan konstruksi; brankas dan lemari besi dari logam, khususnya besi cor.; check rails of metal for railways; metal structures for use in architecture; bahan penguat, dari logam, untuk beton; sekrup logam; jembatan sementara dari logam, khususnya besi cor; brankas; pelapis dinding logam untuk bangunan; kabel dan kawat non-listrik dari logam biasa; braket logam untuk furnitur;

bahan bangunan dari logam; ducts of metal for ventilating and air-conditioning installations; bagian-bagian kecil logam; chests of metal; suku cadang dan perlengkapan untuk semua barang tersebut di atas, yang termasuk dalam kelas ini.; meja putar [kereta api]; bahan rel kereta api dari logam; besi cor untuk aplikasi panas; tembaga, mentah atau setengah jadi; semburan logam; corong logam, non-mekanis; rel pemandu dari logam; bijih logam; chimneys of metal; bahan bangunan non-listrik dari logam; penutup pipa logam; containers of metal, in particular cast iron, for storage, in particular for long-term storage; pelapis logam untuk bangunan; reinforcing materials of metal for pipes; bagian-bagian struktural, seperti jembatan dan bagian-bagian jembatan; besi siku dari logam; tangki logam; kotak logam biasa; baja cor; pelat sambung [rel]; besi, mentah atau setengah jadi; Logam umum dan paduannya; Besi cor yang mengandung grafit bulat, khususnya dengan bola grafit yang tertanam dalam struktur austenitik.; frames of metal for building; keramik; perangkat keras logam; penutup lubang got dari logam; struktur komposit logam, yaitu struktur komposit yang mengandung logam; fireplace mantles of metal; steel, unwrought or semi-wrought; jangkar; bagian struktural, dari logam, untuk perahu, kapal, infrastruktur maritim, penerbangan, dan transportasi lokal.; pintu putar logam; steel sheets; besi cor yang diproduksi dalam tungku induksi listrik; perlengkapan logam untuk furnitur; casks of metal; sambungan logam untuk pipa; metal building structures and parts thereof; pondasi mesin, yaitu pondasi mesin pres logam, khususnya besi cor.; pipa besi cor; wadah logam, khususnya besi cor, untuk transportasi; perancah logam; pipa logam; mur logam; pipa logam bercabang; tiang tambat dari logam; brackets of metal for building; partisi logam; besi cor, mentah atau setengah tempa; wadah logam untuk transportasi; wadah penyimpanan dari logam; katup penutup dari logam, khususnya untuk pipa air; bekisting logam untuk beton; logam umum dan paduannya; logam biasa, mentah atau setengah jadi; chimney cowls of metal; titik kereta api; shuttering and moulds of metal; pipa penyalur air dari logam; struktur logam untuk digunakan dalam industri bangunan; balok logam; ambang jendela dari logam; boxes of common metal; manifold logam untuk saluran pipa; flap valves of metal, namely for gas pipes, namely for air pipes; logam dalam bentuk lembaran atau bubuk untuk printer 3D; bangunan baja; jeruji perapian dari logam; siku logam untuk pipa; pelat jangkar; panel akustik dari logam; saluran logam untuk instalasi ventilasi dan pendingin udara; penutup logam untuk wadah; materials of metal for funicular railway permanent ways; katup logam, selain bagian-bagian mesin; bahan logam untuk bangunan, khususnya besi cor untuk bangunan; Besi cor yang mengandung grafit bulat, khususnya dengan bola grafit yang tertanam dalam struktur feritik.; bahan besi cor padat; bahan penguat logam untuk bangunan===
===machines and installations for the crushing and processing of thermoplastics, plastic waste and rubber; kompresor; pumps for industrial heating installations and furnaces; Robot industri yang sebagian otomatis, sepenuhnya otomatis, atau dibantu kecerdasan buatan [pintar] untuk pemrosesan material dan produksi aset material [barang] dan produk setengah jadi, yaitu untuk produksi barang dan produk setengah jadi berbentuk jaring atau terdefinisi secara spasial yang tak terbatas atau terpisah dengan kandungan organik atau anorganik, yang diproduksi secara alami atau buatan, seperti material berbentuk jaring, panel, cetakan datar atau tiga dimensi, bagian yang dipres, atau coran.; kompresor [mesin]; peredam suara merupakan bagian dari mesin.; robot pelukis; penukar panas (bagian-bagian mesin); unit kontrol proses [mekanis]; pengikis kayu gelondong panjang; pemisah udara dinamis dan statis, pemisah aliran silang, pemisah sentrifugal, pemisah keranjang, pemisah terbalik, pemisah kaskade, pemisah gravitasi, pemisah zig-zag, mesin pengayak, mesin pengayak vakum, mesin pengayak getar, mesin penyaringan drum, mesin penyaringan getar, mesin pengayak datar, mesin pengayak arus eddy, mesin pengayak putar, pemisah rol, mesin penyaring, filter selang (bagian mesin), filter kartrid (bagian mesin), filter saku (bagian mesin), siklon, pemisah, sentrifugal, penghancur, mesin peniup, mesin ekstraksi, drum magnetik (bagian mesin), rol magnetik (bagian mesin), kisi-kisi magnetik (bagian mesin), pemisah mekanis, pemisah gravitasi, pemisah magnetik sabuk atas, pemisah induksi, kumparan deteksi logam (bagian mesin); alat untuk mesin pengolahan plastik; penggerak untuk konveyor; regulator [bagian mesin]; motor [selain untuk kendaraan darat]; mesin untuk menghasilkan dan mengubah energi, misalnya mesin uap, turbin angin, pembangkit listrik tenaga air, turbin.; mesin untuk memproduksi struktur dan arsitektur organik dan anorganik homogen dan komposit yang melengkung sederhana atau ganda; mesin dan peralatan mekanik untuk teknik proses mekanik, dan instalasi yang dibangun dari barang-barang tersebut di atas; bagian-bagian dari selubung, bagian-bagian mesin, khususnya bagian-bagian mesin yang bergerak.; motor, selain untuk kendaraan darat; penggiling cakram; kunci mesin sortir [pintu air]; penegang tunggal untuk reaktor air bertekanan dan mendidih; mesin untuk memproduksi arsitektur homogen dan komposit organik dan anorganik; mesin pengatom; machines and mechanical apparatus for the recycling and separation of materials, in particular for separating the components of composite materials; mesin penghancur; Mesin dan peralatan mekanis untuk mengangkut, memasukkan, dan mendosis bahan ke dalam proses produksi, serta bagian-bagiannya.; konveyor transportasi tanpa awak yang merupakan mesin penanganan kargo; perangkat pengencang baut untuk generator uap; mesin penyaring, pemisah, dan sentrifugasi; mesin produksi dan pengolahan material; penyaring; mesin cetak transfer resin; bagian besi cor untuk pipa [bagian mesin]; Mesin pres membran, yaitu mesin pres membran bermuatan fluida untuk produksi bagian berbentuk, yaitu mesin pres membran yang beroperasi terus menerus atau terputus-putus untuk produksi bagian berbentuk dari bahan yang berasal dari bahan baku, yaitu bahan baku nabati, baja paduan dan non-paduan, material komposit, lembaran logam dan baja, lembaran organik, plastik, material organik dan anorganik, material yang mengandung mineral.; Semua barang yang disebutkan di atas untuk pengolahan potongan berbentuk kontinu atau terbatas dan bahan curah, serta bahan pasta, bahan yang mudah mengalir, bahan nabati, dan bahan berserat dan campuran bahan, serta cairan, campuran cairan-padat dan suspensi dengan konsistensi rendah dan tinggi, khususnya bahan berserat seperti bahan yang mengandung lignin atau lignoselulosa, bahan komposit seperti lembaran organik khususnya, plastik dan plastik dengan campuran komponen tanaman tahunan atau abadi seperti kayu, kayu bekas, rumput, kulit kayu, kertas, karton, selulosa, atau dengan komponen bahan lain, seperti tekstil, limbah, karet, resin, kulit, makanan, makanan mewah, dan pakan ternak, mineral, karbon, plastik, pigmen, pewarna, farmasi, produk kimia, logam, bahan komposit, limbah elektronik, kabel, dan ban bekas, suku cadang, komponen pengganti, aksesori, dan peralatan untuk barang-barang yang disebutkan di atas, sejauh termasuk dalam kelas ini.; sekrup Archimedes; generator listrik; sistem teknologi pengencangan baut; pengencang multi-stud; mesin, unit penggerak dan bagian-bagian mesin, rumah mesin, piston, batang piston, ring piston, batang roda gigi, roda gigi, roda bergigi, gandar, poros dan katup, turbin, kompresor, semuanya merupakan bagian dari mesin; stud tensioning machines, namely for pressurised water reactors, boiling water reactors; Mesin pres mekanik atau hidrolik satu dan multi-daylight untuk produksi komponen berbentuk, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi komponen berbentuk dari bahan yang berasal dari bahan baku, yaitu bahan baku nabati, baja paduan dan non-paduan, material komposit, lembaran logam dan baja, lembaran organik, plastik, material organik dan anorganik, material yang mengandung mineral.; tiang gantry dan bagian-bagian dari derek gantry; mesin pembersih baut, mesin pembersih baut bejana tekan reaktor; mesin dispenser otomatis; mesin pembersih lubang buta, khususnya untuk aplikasi industri; katup [bagian-bagian mesin]; cast troughs and cast platens [parts of machines]; vacuum pumps [machines]; Mesin untuk menghancurkan material lunak hingga agak keras seperti mineral, plastik, kayu, bahan makanan dan pakan ternak, kulit, selulosa, karet, elastomer, dan lembaran logam lunak.; mesin pembersih untuk reaktor; mesin dan peralatan mekanis untuk

memampatkan, memadatkan, menggumpalkan, mencampur, dan melapisi material, seperti material berbentuk lembaran, panel, produk cetakan, produk pres, dan produk cor [hasil coran]; vibrator [mesin] untuk penggunaan industri; mesin untuk pembuatan struktur dan arsitektur; peralatan mesin; potongan dorong; ketel uap mesin uap untuk pembangkit listrik, selain untuk kendaraan darat.; mesin pencampur industri; flakers, knife ring flakers, disc flakers, universal flakers, mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision service-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, impact crushing machines; penghancur drum, penghancur bal, guillotine, gunting guillotine, gunting besi tua, mesin pres besi tua, mesin penghancur serpihan kayu, mesin penghancur serpihan kayu drum, mesin penghancur serpihan kayu cakram, mesin penghancur serpihan kayu plastik, penghancur vertikal, penghancur, penghancur poros tunggal, penghancur poros ganda, penghancur horizontal, penghancur vertikal; kopling transmisi daya [selain untuk kendaraan darat]; mesin sortir untuk industri; Mesin pres mekanik atau hidrolik satu dan multi-lapisan untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari bahan baku, yaitu bahan baku nabati, yaitu bahan baku yang diperoleh dari tanaman tahunan atau abadi, menjadi material berbentuk panel satu atau multi-lapisan seperti papan serat, papan partikel, papan serat berorientasi [OSB] atau menjadi bentuk campurannya [papan hibrida]; mesin pembersih, khususnya untuk aplikasi industri; Mesin untuk menghancurkan bahan-bahan yang sensitif terhadap suhu seperti plastik, termoplastik, plastik termoset, elastomer, makanan dan makanan mewah, bahan aromatik, bahan farmasi dan kosmetik, bahan kimia, bahan yang mengandung minyak dan lemak, bahan yang sangat kental dan lengket, serta bagian-bagiannya.; instalasi pelapisan pernis; peralatan pengangkat dan derek; peralatan mekanik untuk mesin pengecoran dan mesin produksi logam; mesin pengolah bubur kertas [pemurni]; suku cadang dan perlengkapan untuk semua barang di atas; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari plastik, yaitu termoplastik, plastik termosetting, atau elastomer.; mesin pengecatan yang menggabungkan jalur pengecatan; mesin pengangkat dan instalasi untuk mengangkut material curah; bagian-bagian rumah mesin; mesin pengolahan komposit; mesin pengangkat untuk pengangkutan beban; komponen hidrolik bertekanan tinggi dan sistem penyegelan [bagian-bagian mesin]; filter cor [bagian mesin]; kompresor untuk lemari es; mesin untuk mengolah plastik; katup dan pintu air untuk mesin dan sistem transportasi; robot otonom dalam ruangan untuk penggunaan industri; Mesin penggiling, penggiling untuk penggilingan kriogenik, penghancur penggiling benturan, penggiling palu, penggiling pemukul silang, penggiling lapisan permukaan presisi, penggiling pusaran angin, penggiling cakram bergigi, penggiling kulit kayu, penggiling delaminasi, penghancur sekunder, penggiling pengklasifikasi, instalasi lapisan penggilingan, penggiling halus, penggiling presisi, penggiling untuk menghasilkan bubuk mineral dan logam, granulator, granulator basah, granulator pipa, granulator presisi, granulator profil, granulator rangka timah, granulator busa keras, granulator film, granulator kecil, peletizer, granulator untai, granulator pita, mesin pemotong, mesin pemotong drum, penggiling palu, penggiling palu benturan, pemisah pulp, mesin penghancur benturan, penggiling turbo, penggiling hidung tiup, penggiling pin, penggiling universal, penggiling bola, penggiling jet, penggiling jet berlawanan, penggiling koloid, penggiling aliran berlawanan, penggiling aliran ganda, penggiling rol; mesin pemisah; peralatan pemindahan dan penanganan; penggiling; mekanisme kontrol untuk mesin, motor atau mesin penggerak; alat untuk mesin pengolahan material komposit; cutting, shearing, mixing, grinding, impact and striking tools, all being parts of machines, knives [parts of machines], cutter blocks, cutting discs, cutting tips, shearing strips, grinding tracks, grinding discs, milling pins, grinding segments, grinding grids, grinding sets, pan grinder rollers, sieves [parts of machines], sifting tracks, disc screens, drum screens, perforated sheets [parts of machines], beater plates, impact strips, hammers [parts of machines], cylinders, pinion rollers, cylindrical milling cutters, grates [parts of machines], strainer bars, rod plates and gratings, mixing blades, pressure fittings, matrices [parts of machines], doctor blades, break cams, linings [parts of machines], wear plates [parts of machines], wear discs, wear rings, wear strips, wear shoes; panduan untuk mesin; mesin dan peralatan mekanis untuk memisahkan material curah dengan kepadatan dan/atau ukuran yang berbeda; machines and mechanically driven appliances as well as energy-generating installations formed therefrom and industrial drying installations heated both directly via hot gases and indirectly via steam, hot water and thermal oil; mesin dan peralatan mekanis untuk penghancuran, granulasi, disintegrasi, de-agglomerasi, defibrasi dan penggilingan halus dan ultra-halus bahan, dan bagian-bagiannya; mesin dan peralatan mekanis untuk pengkondisian material; konveyor; pengisi ulir; perkakas mesin untuk mesin pengolahan kayu; mesin dan peralatan mekanis untuk pemisahan, klasifikasi, pembuangan, penghilangan gas, dan pengisian material; suku cadang, komponen pengganti, aksesori, dan peralatan untuk barang-barang yang disebutkan di atas, yang termasuk dalam kelas ini.; matriks (bagian-bagian mesin); machines for processing organic and inorganic homogeneous and composite materials; mesin produksi logam; mesin pengolahan logam; blending machines for chemical processing; mesin dan instalasi untuk produksi serpihan kayu; ring gesekan; mesin untuk mengolah bahan organik dan anorganik homogen dan komposit; mesin penghancur kayu; mesin untuk mencuci berbagai material, khususnya kayu, bahan berserat, makanan dan pakan ternak, plastik, bahan kimia, produk farmasi dan kosmetik, serta mineral.; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari material yang diperkuat, yaitu plastik yang diperkuat serat seperti plastik yang diperkuat serat kaca atau karbon, komposit, komposit karet-baja, seperti material sabuk konveyor atau tapak ban, material daur ulang.; alat untuk mesin pengolahan bahan isolasi; Mesin yang dioperasikan secara manual, sebagian otomatis atau sepenuhnya otomatis [seperti mesin produksi dan pengolahan material], peralatan mekanik, perkakas mesin, instalasi dan bagian instalasi untuk pengolahan material dan produksi aset material [barang] dan produk setengah jadi, yaitu untuk produksi barang dan produk setengah jadi berbentuk jaring atau terdefinisi secara spasial yang tak berujung atau terpisah dengan kandungan organik atau anorganik, yang diproduksi secara alami atau buatan, seperti material berbentuk jaring, panel, cetakan datar atau tiga dimensi, bagian yang dipres atau coran.; rumah mesin; mengalahkan para penipu; mesin pengolahan mineral; sekrup pengisi; pabrik penggilingan; perangkat pembubutan baut seperti perangkat pembubutan baut tunggal, perangkat pembubutan baut ganda, perangkat pembubutan baut multi, yaitu untuk aplikasi industri.; mesin dan instalasi untuk pemrosesan mekanis bahan dan bahan curah menjadi bubuk dan butiran; perangkat kontrol untuk mesin dan instalasi; komponen transmisi (kecuali untuk kendaraan darat); Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau berselang-seling untuk produksi material atau produk yang terdiri dari dua atau lebih lapisan yang diikat atau direkatkan bersama di seluruh area, di mana lapisan tersebut dapat terdiri dari jenis material yang sama atau berbeda dan dari jenis material yang sama atau berbeda [laminasi], yaitu foil pemanas, foil suhu, foil display, material isolasi laminasi, komposit aluminium seperti komposit aluminium-kayu, komposit aluminium-komposit seperti aluminium yang diperkuat serat kaca, komposit kemasan seperti komposit karton minuman, material komposit dari bahan nabati dan plastik, komposit mineral seperti komposit porselen stoneware-plastik.; Mesin, instalasi mesin dan bagian-bagiannya untuk teknik proses mekanik dan kimia serta untuk produksi aset material [barang] dan

produk setengah jadi, yaitu untuk produksi barang dan produk setengah jadi berbentuk jaring tak berujung atau terpisah atau yang terdefinisi secara spasial dengan kandungan organik atau anorganik, yang diproduksi secara alami atau buatan, seperti material berbentuk jaring, panel, cetakan datar atau tiga dimensi, bagian yang dipres atau coran.; peralatan pertanian, penggalian tanah, konstruksi, ekstraksi minyak dan gas, serta pertambangan; corong cor [bagian-bagian mesin]; mekanisme penggerak, selain untuk kendaraan darat; Mesin pres mekanis atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanis atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari bahan isolasi, yaitu wol batu, wol kaca, wol terak, poliuretan, wol kayu atau wol kaca.; perangkat dosis roda sel [bagian-bagian mesin]; mesin untuk memproduksi struktur homogen dan komposit organik dan anorganik; mesin dan peralatan mekanis untuk mencuci bahan; alat bantu untuk memproduksi coran, yaitu corong dan filter [bagian-bagian mesin]; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from a mixture of raw materials, namely a mixture of two or more single-origin raw materials [basis], of which at least one forms a continuous phase [composite material], namely a composite material that features a matrix and a mesh arranged therein, namely a composite material with a matrix formed from resin and a fibre or grid structure formed from carbon; mesin peniup; pengangkut [mesin]; Mesin yang dioperasikan secara manual, sebagian otomatis, atau sepenuhnya otomatis [seperti mesin produksi dan pengolahan material], peralatan mekanik, perkakas mesin, instalasi dan bagian instalasi untuk pengolahan material dan produksi coran dari logam besi dan non-besi paduan dan tanpa paduan, baja paduan dan tanpa paduan, lebih disukai coran dalam cetakan besar.; konveyor apron, lantai geser, konveyor sabuk, konveyor ember, konveyor rantai tabung, sekrup pengisi, sekrup Archimedes, pengisi ulir, pintu air, katup pengatur dosis, perangkat pengumpan yang dioperasikan secara hidrolik atau pneumatik, mesin peniup, konveyor beban, konveyor getar, palung konveyor berosilasi, rantai pengangkut, dan konveyor rantai seret.; mesin pengecoran; mesin penghancur tanaman; mesin pembentuk dan pencetak; pemecah batu, penghancur rahang, penghancur primer; pengaduk, mixer putar, mixer kerucut, mixer batch, mixer ulir; Instalasi teknik proses mekanis untuk membentuk campuran bahan tabur yang mudah mengalir, yaitu bahan berserat, bahan serpihan, plastik, karbon, bahan pengikat kering, resin atau bahan mineral, dalam bentuk geometris tertentu dengan gramatur tertentu, dengan bantuan peralatan penakaran, penaburan dan pengangkutan yang telah disinkronkan melalui sistem pemantauan dan pengukuran.; conveyors and conveyor belts; alat untuk pengolahan material komposit; generator; cetakan untuk produksi [bagian-bagian mesin]; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari bahan baku mineral, yaitu dari gipsum, bahan tanaman yang dikarbonisasi, silikon dioksida, silikat atau keramik, semen portland, senyawa gipsum-semen-pozzolan [pengikat gcp], pengikat magnesia.; lapisan (bagian-bagian mesin); rol; machines for manufacturing curved organic and inorganic homogeneous and composite panels and surfaces; mesin dan peralatan mekanis untuk mencampur dan menghomogenkan bahan; mesin untuk memproses material komposit; peralatan untuk mesin pengolahan mineral; pengering unggun terfluidisasi, pengering drum, pendingin sekrup; alat-alat pertanian selain alat-alat tangan yang dioperasikan dengan tangan; Unit dan instalasi kontrol dan pengaturan untuk mesin yang dioperasikan secara manual, sebagian otomatis, atau sepenuhnya otomatis [seperti mesin produksi dan pengolahan material], peralatan mekanik, perkakas mesin, instalasi dan bagian instalasi untuk pengolahan material dan produksi aset material [barang] dan produk setengah jadi, lebih disukai dalam bidang teknik proses mekanik atau kimia dan konstruksi mesin umum dan khusus, konstruksi kendaraan dan dukungan produksi seri.; menempelkan tabung lampu kilat [bagian dari mesin]; mesin pengikat; dispensing machines; robot industri; bagian-bagian mesin, yaitu bagian-bagian besi cor, untuk mesin dan peralatan mesin untuk pengolahan material dan produksi; mesin dan peralatan mekanis untuk mencampur, mendispersikan, mengemulsikan, dan menghomogenkan bahan; pabrik penggilingan, pabrik penggilingan dan turbin angin, khususnya fondasi turbin angin, selubung, kerangka dan selubung rotor.; mesin dan peralatan mesin untuk pengolahan material dan untuk manufaktur; cetakan [bagian-bagian mesin], khususnya cetakan dingin dan matriks; Mesin ekstrusi, mesin cetak injeksi, aglomerator, mixer pemanas/pendingin, pemadat, kalender dan bagian-bagian kalender, mesin peletisasi, mesin briket, pabrik pelet, kompresor basah, kompresor ulir, mesin pres sabuk ganda, mesin pengemas, mesin pengepres baling saluran; mesin pengolahan material komposit; Mesin dan instalasi di bidang otomatisasi pers, otomatisasi industri, dan otomatisasi transportasi serta suku cadangnya.; instalasi pelapis [pelapis], yaitu pelapis aliran dan pelapis bak; mesin pengolahan bahan isolasi; mesin dan peralatan mekanis untuk mengangkut, memasukkan, dan menakar bahan ke dalam proses produksi; cetakan [bagian-bagian mesin]; moulds that can be used multiple times, preferably chill-moulds, namely single chill-moulds and multiple child-moulds [parts of machines]; instrumen kontrol proses [mekanik]; mesin transfer; perkakas bertenaga listrik; alat untuk mesin pengolahan komposit; mesin pengolahan kayu===

pemasangan peralatan komunikasi; repair and maintenance of material production and processing machines; Instalasi: mesin dan peralatan pengolahan kayu, mesin dan peralatan untuk pengolahan material komposit, mesin dan peralatan untuk pengolahan plastik, mesin dan peralatan untuk pengolahan material mineral, mesin dan peralatan untuk pengolahan material isolasi, mesin dan perkakas mesin untuk pengolahan material dan manufaktur, robot industri, mesin produksi dan pengolahan material, konveyor dan sabuk konveyor, mesin pres mekanik atau hidrolik untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel, mesin dan peralatan mekanik untuk mengangkut, memasukkan, dan mendosis material ke dalam proses produksi, mesin dan peralatan mekanik untuk mencampur dan menghomogenkan material, mesin dan peralatan mekanik untuk mengkondisikan material, mesin dan peralatan mekanik untuk memisahkan, mengklasifikasikan, menghilangkan, menghilangkan gas, dan mengisi material, mesin dan peralatan mekanik untuk memisahkan barang curah dengan kepadatan dan/atau ukuran yang berbeda, mesin dan peralatan mekanik untuk mendaur ulang dan memisahkan material, khususnya untuk memisahkan komponen material komposit, semua barang yang disebutkan di atas untuk pengolahan barang satuan dan barang curah serta pasta, cairan, zat nabati dan berserat dan campuran zat, dan cairan, campuran cairan/padat dan suspensi konsistensi rendah dan tinggi, unit kontrol proses [mekanik], instrumen kontrol proses [mekanik], mesin dan peralatan mekanik untuk teknik proses mekanik, dan instalasi yang dibangun dari barang-barang tersebut di atas; Perbaikan dan perawatan mesin perkakas untuk mesin pengolahan kayu.; pemasangan peralatan penerangan; Pemasangan, konstruksi, dan pembongkaran fasilitas untuk memilah limbah radioaktif tingkat rendah, caisson dan housing, penutup drum otomatis, sel panas, pengepres dalam drum, penyemenan limbah cair, manajemen pembuangan elemen bahan bakar, data dan perhitungan untuk perlindungan terhadap radiasi, sistem komputer proses, kontrol dosis pribadi dan berbasis pekerjaan.; Jasa instalasi yang berkaitan dengan: peralatan pengangkat dan derek, jasa instalasi yang berkaitan dengan: mesin pengolahan kayu; perbaikan dan perawatan mesin pengolahan kayu; penyewaan peralatan mesin; Pekerjaan instalasi mekanik dan listrik untuk manufaktur khusus industri, yaitu manufaktur khusus industri berupa suku cadang khusus, peralatan khusus, mesin khusus, instalasi khusus dan bagian-bagian instalasi khusus untuk produksi barang-barang hasil pengepresan.; repair and maintenance of moving and handling equipment; jasa instalasi konveyor dan sabuk konveyor; pemasangan struktur tarik tinggi; Konstruksi, instalasi, perbaikan, pemeliharaan, renovasi, pemugaran, dan perbaikan menyeluruh instalasi pemanas industri dan tungku untuk menghasilkan panas dan uap, instalasi untuk melindungi lingkungan, dan instalasi untuk keperluan pengeringan industri.=== ===pembuatan alat sesuai pesanan untuk pihak lain; penyelesaian logam; pemrosesan material yang sensitif terhadap suhu menggunakan teknik proses kimia; mengerjakan suku cadang untuk orang lain; pelapisan krom pada barang-barang logam; Pengolahan material yang sensitif terhadap suhu menggunakan teknik proses mekanik, yaitu melalui penghancuran, pengatomisasian, penggumpalan, pemisahan, pengayakan, pencampuran, penyimpanan, penggabungan atau pembentukan, misalnya dengan pengepresan.; manufaktur kustom industri, yaitu manufaktur kustom industri berupa suku cadang khusus, peralatan khusus, mesin khusus, instalasi khusus, dan bagian-bagian dari instalasi khusus untuk produksi barang-barang hasil pengepresan.; perawatan ledakan; ekstrusi paduan logam; pemrosesan permukaan logam dengan pemolesan abrasif; electricity generating; Perlakuan terhadap bagian logam untuk mencegah korosi menggunakan proses galvanisasi celup panas dan pelapisan bubuk.; Pengolahan bagian struktural besar dengan volume individual minimal 500 liter menggunakan teknik proses kimia atau mekanik, yaitu melalui penghancuran, pengatomisasian, penggumpalan, pemisahan, pengayakan, pencampuran, penyimpanan, penggabungan atau pembentukan, khususnya pengepresan.; pengecoran logam; Manufaktur kustom industri, yaitu manufaktur kustom industri berupa suku cadang khusus, peralatan khusus, mesin khusus, instalasi

khusus dan bagian-bagian instalasi khusus untuk produksi atau pengolahan barang yang mengandung serat alami, struktur komposit, yaitu struktur komposit non-logam, dan material komposit logam serta material komposit yang mengandung plastik.; custom manufacture and assembly services; penyambungan logam; galvanisasi logam; Pengolahan material dalam bentuk penghancuran, pencincangan, pemotongan, delaminasi, defibrasi, penggilingan, penggilingan kriogenik, penggilingan halus dan presisi, pencampuran, pelapisan, pembasahan, pembuatan pelet, penggabungan, pemadatan, granulasi, aglomerasi, koagulasi, pemisahan dan daur ulang material sebagai layanan untuk pihak lain.; pemolesan logam; Produksi industri dan manufaktur sesuai pesanan, yaitu bagian-bagian logam yang dibubut, bagian-bagian plastik yang dibubut, bagian-bagian besar yang dibubut seperti poros dan silinder untuk mesin dan instalasi, bagian-bagian logam yang digiling, bagian-bagian plastik yang digiling, bagian-bagian besar yang digiling seperti bagian-bagian untuk konstruksi mesin dan pabrik, yaitu untuk konstruksi instalasi pengolahan bahan berserat, mesin pres yang beroperasi secara intermiten atau kontinu dan mesin pres besar untuk pengolahan bahan berserat seperti kertas, karton, kayu olahan, komposit serat, plastik, bahan komposit, besi, baja, bahan cor.; Manufaktur kustom industri untuk komponen struktural, peralatan, mesin, instalasi, dan bagian-bagian instalasi untuk produksi barang khusus atau barang yang diproduksi secara massal.; pencetakan; pembangkitan energi, khususnya gas panas, uap, minyak termal dan listrik; pengolahan kayu; pengerasan logam; perlakuan atau pemrosesan bahan secara mekanis atau kimiawi; pengolahan [pembentukan] logam; Pembangkit uap dan listrik dari biomassa; layanan peleburan logam; pemrosesan cetakan untuk pembuatan coran, khususnya coran berukuran besar; pemurnian udara; manufaktur khusus industri untuk komponen struktural, peralatan, mesin, instalasi dan bagian instalasi untuk teknik proses [kimia]; pemrosesan permukaan logam menggunakan teknik penggerindaan presisi; metal laminating; pengolahan [transformasi] limbah; pembakaran limbah dan sampah; produksi mesin, peralatan mekanik, dan instalasi untuk teknik proses mekanik; pembentukan komponen logam; peledakan tembakan; pengolahan [penempaan] logam; pencetakan logam; perawatan dan pelapisan permukaan logam; Jasa bengkel pengolahan cetakan untuk pembuatan coran, khususnya coran berukuran besar.; daur ulang limbah; pengolahan makanan; manufaktur khusus industri untuk komponen struktural, peralatan, mesin, instalasi, dan bagian instalasi untuk teknik proses [mekanik]; Layanan bengkel pencetakan untuk menghasilkan cetakan untuk pembuatan coran, khususnya coran berukuran besar.; pembuatan mesin sesuai pesanan; Penyewaan mesin dan peralatan mekanik untuk memproses dan mengubah bahan untuk pembuatan sesuai pesanan.; pengolahan air; layanan pengelasan; pengecoran cetakan; penyelesaian permukaan barang-barang logam; Jasa peleburan metalurgi untuk memproses cetakan untuk pembuatan coran, khususnya coran berukuran besar.; Layanan pengolahan material terkait daur ulang, yaitu kayu, kertas, karton, OCC, dalam kombinasi dengan bahan pengikat, plastik, lumpur limbah, batu bara, limbah debu batu bara, limbah kemasan campuran.; Pengolahan material berupa barang satuan dan barang curah, serta pasta, cairan, zat nabati dan berserat, dan campuran zat, serta cairan, campuran cairan/padat, dan suspensi dengan konsistensi rendah dan tinggi.; layanan sandblasting; recycling of recycling materials, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste; pengolahan dan pengecoran logam, pendinginan produk coran logam, pengerasan logam dan produk logam; pelapisan krom keras dan pelapisan nikel keras pada permukaan logam; layanan pencetakan khusus; pengawetan makanan; pengerjaan logam; pengolahan logam; peleburan metalurgi; Konsultasi di bidang manufaktur barang homogen dan komposit organik dan anorganik yang datar, melengkung sederhana atau berstruktur ganda, serta produk setengah jadi dan struktur.; pengolahan [pelapisan enamel] logam; pemotongan logam; Pembuatan komponen struktural, peralatan, mesin, instalasi, dan bagian instalasi sesuai pesanan industri untuk produksi barang tanpa batas, yaitu barang berbentuk lembaran [datar], seperti barang berserat, yaitu panel berbahan dasar tumbuhan, barang yang mengandung mineral, yaitu panel yang mengandung mineral, yaitu barang yang mengandung wol batu atau bahan komposit seperti lembaran organik, barang logam besi dan non-besi atau barang yang mengandung plastik, yaitu panel yang mengandung plastik.; layanan reproduksi 3D; Pengolahan material lignoselulosa, material komposit seperti lembaran organik khususnya, plastik, dan plastik dengan tambahan kayu, limbah kayu, kertas, karton, selulosa, tekstil, limbah, karet, lateks, resin, kulit, makanan, makanan mewah dan pakan ternak, mineral, pigmen, pewarna, farmasi, produk kimia, logam, material komposit, limbah elektronik, kabel dan ban bekas.; pengolahan mineral dan logam untuk membentuk bubuk mineral dan logam; custom manufacture of models for generating moulds for making castings, preferably large castings; pengolahan material menggunakan teknik kimia; Pembuatan dan pengolahan barang organik dan anorganik homogen dan komposit, produk setengah jadi, struktur dan arsitektur sesuai pesanan, khususnya untuk industri bangunan, produksi panel, konstruksi kendaraan dan pesawat terbang, konstruksi mesin dan pabrik dalam bentuk datar atau dalam bentuk lengkung sederhana atau ganda.; vulkanisasi [perlakuan material]; pencetakan 3D khusus untuk orang lain; pengolahan bahan berserat dan limbah kayu untuk membentuk bubuk selulosa dan tepung kayu; pengolahan [embossing] logam; Material processing using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; pengawetan minuman; Pelapisan bahan yang dapat dilapisi, yaitu kayu, kertas, karton, selulosa, tekstil, plastik, karet, mineral, farmasi, produk kimia, logam, dan material komposit.; pengolahan [pencetakan] logam; Produksi industri dan pembuatan khusus komponen struktural seri atau khusus melalui pengecoran, pembentukan, pemisahan, misalnya pemotongan, penyambungan, misalnya penyolderan, pelapisan, misalnya pelapisan pernis, perubahan sifat material, misalnya pengerasan.===

===lighting fixtures; climate control and safety apparatus and installations for water and gas installations; light bulbs; lighting apparatus and installations; direction indicator bulbs; halogen lamps; LED lighting fixtures; sanitary installations, water supply and sanitation equipment.; electric flashlights; inspection lamps; headlight bulbs; Hot-air pistols; dashboard bulbs; lighting and reflectors for lighting===
===vehicles and means of transport.; Motorcycle chains===
===adhesives for stationery or household purposes; paint stick markers; Marking chalk; fiber-tip marking pens; inks.===
===non-metallic connectors for pipes.; sealant compounds for joints; adhesive caulking compounds; pipes, tubes, flexible pipes of rubber and parts thereof (including valves), and constituent parts for non-metallic, rigid pipes; seals, sealants and gaskets; caulking and insulating materials; laminated insulating fabrics of textile materials; caulking compounds in the form of sealants; polyurethane films intended for use in sealing and insulating buildings; sealing strips of rubber; fabrics of chemically produced fibers for use as insulation; flexible pipes, tubes, hoses not of metal and their parts including connectors not of metal; caulking sealants; Caulking materials; weatherstripping; seals; sealants for structures; insulating plates; polyurethane foam for insulation purposes; silicone rubber sealants; sealing compounds for use in the construction industry; plastic waterproofing film, other than for wrapping; waterproof materials for the manufacture of joints; insulation and protection articles and materials===
===fixing materials not of metal; rivets of plastic; window fittings, not made of metal; pipe clips, not of metal; furniture and furnishings, namely, freestanding tool racks; empty tool chests, not of metal; metal tool cabinets; containers not of metal [storage, transport], and closures and holders thereof, not of metal; license plates not of metal for vehicles; threaded fasteners of plastic; screws, not of metal; nuts, not of metal; tool chests, not of metal; fastening material, couplings and holders for tubes not of metal; non-metal tool chests (furniture); ladders and steps not of metal; door fittings, not made of metal; Fastenings not of metal; plugs [dowels], not of metal; screw sleeves, not of metal; drawer handles of plastic or wood, cork, reed, cane, wicker, horn, bone, ivory, fish, shell, amber, mother-of-pearl, meerschaum and substitutes therefor.; rivets made of plastic; non-metallic threaded sleeves; furniture fittings, not made of metal; fixing bolts not made of metal; fastening material, couplings and holders for cables or ducts not of metal; anchors [wall anchors], not of metal; furniture, display stands; threaded fastening means of plastic; protective fittings, not of metal; empty tool boxes, not of metal===
===Broom handles; brooms; brushes.; cleaning utensils, brushes and brush-making materials===
===retail and wholesale services in relation to the following goods: putties, sealants, fillers and pastes for use in industry, fillers [chemical substances], chemical additives for controlling the consistency of pastes, binders for use in preparation of caulks; retail and wholesale services in relation to the following goods: injection nozzles, machines and machine tools for material processing and production, electric tools, hand-held tools, other than hand-operated, boring tools [machine tools], circular saws, blades for power saws, blades for power saws, stirrers for circulating fluids, drills for impact tools for machines, finishing machines, screw extractors [machines], portable pneumatic tools, portable electric tools; retail and wholesale services in relation to the following goods: tool chests of metal, nuts [ironmongery], bolts of metal, screws of metal, fastening devices of metal, nuts, bolts and fastening means of metal, locks and keys of metal, welding and soldering materials, metal expansion anchors for wall mounting of frames, fasteners of metal, springs [ironmongery], knobs [handles] of metal, catches of metal for furniture, pegs of metal [pins]; retail and wholesale services in relation to the following goods: tool bits used for hand tools operated by an external power source; retail and wholesale services in relation to the following goods: removal machines, elevating apparatus, lifting apparatus, clippers [machines], side milling cutters [machines], stripping machines for removing coatings from electric cables; retail and wholesale services in relation to the following goods: lubricants and industrial greases, waxes and fluids, petroleum jelly for industrial purposes, graphite lubricants, penetrating oils, motor oil, lubricants, industrial oils and greases, and lubricants, fuels (including motor fuels); retail and wholesale services in relation to the following goods: common metals, common metals and their alloys, building materials of metal, transportable buildings of metal, structures and transportable buildings of metal; Retail and wholesale services in relation to the following goods: adhesives used in industry, adhesives for glass, adhesives for industrial use in the form of flakes, adhesives for industrial use in the form of coatings, industrial adhesives for use in caulking and protection processes, commercial adhesives (not for stationery or household purposes), adhesives for applying wall coverings; retail and wholesale services in relation to the following goods: materials of metal for railroad construction, building materials and construction elements of metal, cables, wires and chains of metal, ironmongery, pipes of metal; retail and wholesale services in relation to the following goods: coatings, lacquers and varnishes, preservative coatings, anti-corrosive substances, undercoating for vehicle chassis, preservatives against deterioration of wood,

dyestuffs, mordants, unprocessed natural resins, colorants, liquid paints, tire sidewall paints; retail and wholesale services in relation to the following goods: tools [parts of machines]; administrative management of wholesale and retail outlets; advertising, marketing and promotional services; retail and wholesale services in relation to the following goods: scissors, pincers [hand tools], tile cutters [hand-operated tools], pliers, knives, saw blades, saw holders, hand saws, stripping knives, wire strippers [hand tools], stripping tools [hand-operated tools]; retail and wholesale services in relation to the following goods: degreasing materials for use in manufacturing processes, lemon oil degreasers for use in manufacturing processes, degreasers for use in manufacturing processes, fur degreasers for use in manufacturing processes; retail and wholesale services in relation to the following goods: steps [ladders] of metal, movable steps [ladders] of metal, containers of metal for storage and transport of goods; wholesale services concerning hot glue guns, retail services concerning hot glue guns; retail and wholesale services in relation to the following goods: sprayers (hand tools), vices for work benches (hand tools); retail and wholesale services in relation to the following goods: silicones, silicone fluids, silicon-modified polyether polyols, acetates; retail and wholesale services in relation to the following goods: washers (ironmongery), adjustable collars of metal, ferrules, containers and transport and packaging articles of metal, doors of metal, gates, glazing and window screens; retail and wholesale services in relation to the following goods: hand-operated apparatus and tools for treatment of materials and for construction, repair and maintenance work, lifting tools, agricultural, gardening and landscaping tools, hand-operated hand tools, side cutters [hand tools], pipe tools, pincers [hand tools], non-electric screwdrivers, riveting hammers [tools], cutters, glass cutters, hand saw blades; providing information and consulting services with respect to e-commerce; retail and wholesale services in relation to the following goods: activators [chemicals], inorganic industrial chemicals, chemical substances, chemical materials and chemical preparations, and natural elements; retail and wholesale services in relation to the following goods: services for cleaning products, perfumed products, abrasive preparations, preparations for cleaning vehicles, products for polishing cars, shampoos for motor vehicles, waxes for motor vehicles, windscreen cleaning liquids, sandpaper, emery cloths, bleaching products [laundry], detergents for stone, cleaning products for metal, detergents for cleaning floors, cleaning and fragrancing preparations, detergents, products for removing polish, products for removing wax; retail and wholesale services in relation to the following goods: coolants for vehicle radiators, antifreeze for vehicle radiators; all the aforesaid services not intended for or in connection with manures, fertilizers, plant stimulants, plant nutrients, fungicides, insecticides and/or herbicides.; retail and wholesale services in relation to the following goods: tool bags [filled], tool cases for attachment to tool belts; retail and wholesale services in relation to the following goods: not adapted for a specific purpose, unprocessed and partially processed materials of metal, locksmith services; online retail sale services featuring clothing; retail and wholesale services in relation to the following goods: hand-operated winches; retail and wholesale services in relation to the following goods: center punches [hand tools]; retail and wholesale services in relation to the following goods: chemical bonding agents for sealing, sealants for use in construction [chemicals], drilling fluids, grease removers for use in industrial processes, chemical preparations for dissolving oil, wax stripping preparations===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===Perekat untuk penggunaan industri; bahan perekat kimia untuk industri bangunan; bahan perekat dan pasta untuk penggunaan industri; bahan pengisi [zat kimia]; coolants for vehicle radiators; solvents for cleaning machines during manufacturing processes; cairan pengeboran; bahan penghilang lemak untuk digunakan dalam proses manufaktur; preparat penghilang lemak untuk digunakan selama proses manufaktur; bahan kimia pembersih radiator; Chemical products for industrial, scientific, photographic, agricultural, horticultural and forestry use; cairan silikon; semua barang tersebut di atas yang bukan merupakan pupuk kandang, pupuk kimia, stimulan tanaman dan/atau nutrisi tanaman dan semua barang tersebut di atas yang tidak ditujukan untuk atau berkaitan dengan pupuk kandang, pupuk kimia, stimulan tanaman, nutrisi tanaman, fungisida, insektisida dan/atau herbisida.; poliol polieter yang dimodifikasi silikon; komposisi yang dibuat dengan lem dan lapisan untuk memperbaiki sambungan; bahan kimia industri anorganik; perekat semprot; asetat [bahan kimia]; silikon; penghilang lemak untuk digunakan dalam proses industri; cairan antibeku untuk radiator kendaraan; Aditif deterjen untuk gemuk; lem untuk kaca (untuk penggunaan industri); bahan kimia pemurnian minyak; aktivator [bahan kimia]; sediaan kimia untuk dispersi minyak; senyawa penyegel kimia; produk kimia untuk menghilangkan lilin===
===cat dinding samping ban; lapisan anti karat untuk sasis kendaraan; zat pewarna; pengencer dan pengental untuk pelapis, pewarna, dan tinta.; Pelapis (cat); preparat anti karat; resin alami mentah; pewarna; pewarna, zat warna, pigmen; zat pengikat warna; lacquers and varnishes; pengawet kayu===
===kertas ampelas; produk pembersih batu; Penghapus lilin untuk keperluan pembersihan.; produk untuk menghilangkan lilin; emery cloth; produk pemoles mobil; rust removing products; produk pembersih untuk logam; Produk pembersih; bahan pembersih untuk kendaraan; tailors' and cobblers' wax; sampo mobil; preparat pewangi dan pembersih; bahan abrasif; cairan pembersih kaca depan; preparat pemutih dan zat-zat lain untuk keperluan mencuci pakaian; agen penghilang lilin; bahan pembersih untuk lantai; lilin untuk kendaraan bermotor===
===lubricating graphite; fuel; oli mesin; bahan bakar; Pelumas dan lemak, lilin dan cairan industri; bahan bakar [termasuk bensin]; fuels and illuminants; minyak penetrasi; komposisi penyerap debu.; lubricating greases; Vaseline untuk keperluan industri; pelumas; minyak dan gemuk industri, serta pelumas===
===metal bolts [fasteners]; saluran logam; wadah logam untuk penyimpanan, pengangkutan, dan pengemasan; bangunan portabel dari logam; pintu, gerbang, jendela, dan penutup jendela dari logam; wadah logam untuk menyimpan dan mengangkut barang dagangan; mur logam; kabel logam non-listrik; kotak perkakas kosong dari logam; cincin logam; komponen bangunan dan material dari logam; gembok dan kunci dari logam; logam biasa yang belum diolah atau setengah diolah.; pengencang logam [perangkat keras]; adjustable rings of metal; statues and works of art made of common metal; pegas [perangkat keras logam]; hardware of metal; struktur logam dan bangunan portabel dari logam; perangkat keras dari logam; Logam umum dan paduannya; pipa, tabung dan selang, dan bagian-bagiannya, termasuk katup, dari logam; sistem pengikat logam biasa; jangkar ekspansi logam untuk pemasangan bingkai di dinding; materials of metal for railway construction; self-tapping screws of metal; sekrup logam; kabel logam, kawat, dan rantai; pengait logam untuk furnitur; ring pengunci [perangkat keras logam]; steps [ladders] of metal; logam untuk pengelasan besi cor; pasak logam [peniti]; bahan bangunan dari logam===
===mata pahat pemukul untuk mesin; peralatan pneumatik portabel; Mesin pengupas kawat untuk menghilangkan lapisan pelindung dari kabel listrik.; peralatan yang dioperasikan dengan listrik; mata bor karbida untuk mesin; alat pengangkat; cakram abrasif [perkakas mesin]; drilling heads [parts of machines]; cakram flap untuk gerinda listrik; mesin bor kayu; batu gerinda [bagian-bagian mesin]; mesin distribusi; injektor untuk mesin; electrically operated portable tools; cakram gerinda abrasif; filter [bagian-bagian mesin, motor atau mesin]; alat pelepas sekrup; Mesin dan peralatan mesin untuk pengolahan material dan untuk digunakan di sektor manufaktur.; electric perforating tools; mesin perata; mesin pemotong; pistol lem panas; mata bor untuk perkakas listrik manual; gergaji bundar; alat pengeboran [perkakas mesin]; menangani dan

memindahkan peralatan.; palu tumbuk [mesin]; pengaduk untuk sirkulasi cairan; peralatan [bagian-bagian mesin]===
===pemotong kaca; penanda titik tengah [perkakas tangan]; alat penyemprot [alat yang dioperasikan dengan tangan]; abrading instruments [hand instruments]; kunci pipa; kotak perkakas untuk dipasang pada sabuk perkakas; alat pengangkat; palu paku keling [perkakas tangan]; gunting jahit; tools for agriculture, gardening and landscaping; ragum meja [peralatan tangan]; pliers [hand tools]; tang [perkakas tangan]; perkakas tangan dan instrumen untuk pengolahan material, serta untuk konstruksi, perbaikan, dan pemeliharaan.; mata gergaji; perkakas tangan yang dioperasikan dengan tangan; pliers; hand-operated glass cutters; penggerek; pemotong; spatula pengupas; hand saw blades; pengupas kawat [perkakas tangan]; stripping tools [hand-operated tools].; Instrumen pengikis [instrumen tangan]; wire cutters [hand tools]; alat pemotong keramik [alat yang dioperasikan dengan tangan]; obeng non-listrik; dongkrak pengangkat, dioperasikan dengan tangan; alat paku keling [perkakas tangan]; tas peralatan yang terisi===
===perangkat navigasi, panduan, pelacakan, penargetan, dan pembuatan peta; alat untuk mengisi akumulator listrik; kacamata pelindung; masker pernapasan selain untuk pernapasan buatan; protective masks; perangkat untuk keselamatan, keamanan, perlindungan, dan pemberian sinyal; filter untuk masker pernapasan untuk penggunaan non-medis; baterai lithium-ion; alat pengukur tekanan ban; verification [checking] apparatus and instruments; perangkat, instrumen, dan kabel untuk listrik; masker las; recorded content; masker pernapasan; alat pengaman anti jatuh; Peralatan dan instrumen deteksi; signaling apparatus and instruments; alat ukur, deteksi, pemantauan, dan pengendalian; alat ukur; perangkat fotografi, multimedia, audiovisual, dan teknologi informasi; baterai.; electric ammeters; alat pemberi sinyal; sistem pengukuran laser; kadar timbal; spirit levels; pakaian kerja untuk perlindungan terhadap kecelakaan atau cedera; korektor optik, penguat, dan perangkat; alat dan instrumen timbangan untuk satuan standar===
===bola lampu; senter listrik; bohlam lampu depan; lampu dasbor; lampu inspeksi; lampu halogen; penerangan dan reflektor untuk penerangan; perlengkapan pencahayaan; Instalasi sanitasi, pasokan air, dan peralatan sanitasi.; Hot-air pistols; Peralatan dan instalasi pengontrol iklim dan keselamatan untuk instalasi air dan gas.; lampu sein; peralatan dan instalasi penerangan; Perlengkapan pencahayaan LED===
===Rantai sepeda motor; kendaraan dan alat transportasi.===
===spidol ujung serat; perekat untuk alat tulis atau keperluan rumah tangga; Kapur penanda; tinta.; spidol cat===
===pelat isolasi; Bahan pengisi celah; caulking and insulating materials; bahan tahan air untuk pembuatan sambungan; senyawa perekat untuk sambungan; penutup celah; pipa, tabung, pipa fleksibel dari karet dan bagian-bagiannya (termasuk katup), dan komponen penyusun untuk pipa kaku non-logam; kain isolasi laminasi dari bahan tekstil; senyawa penyegel untuk digunakan dalam industri konstruksi; busa poliuretan untuk keperluan isolasi; strip penyegel karet; bahan perekat dempul; fabrics of chemically produced fibers for use as insulation; barang dan bahan isolasi dan perlindungan; Film poliuretan yang dirancang untuk digunakan dalam penyegelan dan isolasi bangunan.; pipa fleksibel, tabung, selang bukan dari logam dan bagian-bagiannya termasuk konektor bukan dari logam; senyawa dempul perekat; senyawa pengisi celah dalam bentuk bahan perekat; konektor non-logam untuk pipa.; sealants for structures; segel, bahan penyegel, dan gasket; segel; perekat karet silikon; plastic waterproofing film, other than for wrapping===
===fixing materials not of metal; window fittings, not made of metal; kotak perkakas kosong, bukan dari logam; lemari perkakas logam; furnitur dan perlengkapan, yaitu, rak perkakas berdiri bebas; bahan pengikat, sambungan, dan dudukan untuk tabung yang bukan terbuat dari logam; penjepit pipa, bukan dari logam; sumbat [pasak], bukan dari logam; perlengkapan furnitur, bukan terbuat dari logam; furnitur, rak pajangan; screws, not of metal; nuts, not of metal; Plat nomor kendaraan bukan dari logam.; perlengkapan pintu, bukan terbuat dari logam; jangkar [jangkar dinding], bukan dari logam; baut pengencang yang tidak terbuat dari logam; tangga dan anak tangga yang bukan dari logam; kotak perkakas non-logam (furnitur); pengencang berulir dari plastik; drawer handles of plastic or wood, cork, reed, cane, wicker, horn, bone, ivory, fish, shell, amber, mother-of-pearl, meerschaum and substitutes therefor.; paku keling terbuat dari plastik; kotak perkakas, bukan dari logam; alat pengencang berulir dari plastik; non-metallic threaded sleeves; paku keling plastik; bahan pengikat, sambungan, dan penahan untuk kabel atau saluran yang bukan terbuat dari logam; fixing bolts not made of metal; selongsong sekrup, bukan dari logam; perlengkapan pelindung, bukan dari logam; kacang, bukan dari logam; wadah bukan dari logam [penyimpanan, pengangkutan], dan penutup serta pemegangnya, bukan dari logam; Pengencang bukan dari logam===
===Gagang sapu; sapu; kuas.; peralatan pembersih, sikat, dan bahan pembuatan sikat===
===retail and wholesale services in relation to the following goods: putties, sealants, fillers and pastes for use in industry, fillers [chemical substances], chemical additives for controlling the consistency of pastes, binders for use in preparation of caulks; Layanan ritel dan grosir terkait dengan barang-barang berikut: peralatan dan perkakas tangan untuk pengolahan material dan untuk pekerjaan konstruksi, perbaikan dan pemeliharaan, alat pengangkat, alat pertanian, berkebun dan lansekap, perkakas tangan, pemotong samping [perkakas tangan], alat pipa, tang [perkakas tangan], obeng non-listrik, palu paku keling [perkakas], pemotong, pemotong kaca, mata gergaji tangan; Layanan ritel dan grosir terkait dengan barang-barang berikut: logam umum, logam umum dan paduannya, bahan bangunan dari logam, bangunan portabel dari logam, struktur dan bangunan portabel dari logam.; Layanan ritel dan grosir terkait dengan barang-barang berikut: mesin pemindah, alat pengangkat, alat pengangkat, mesin pemotong, mesin pemotong penggiling samping, mesin pengupas untuk menghilangkan lapisan dari kabel listrik.; Layanan ritel dan grosir terkait barang-barang berikut: alat penyemprot (perkakas tangan), ragum untuk meja kerja (perkakas tangan); retail and wholesale services in relation to the following goods: injection nozzles, machines and machine tools for material processing and production, electric tools, hand-held tools, other than hand-operated, boring tools [machine tools], circular saws, blades for power saws, blades for power saws, stirrers for circulating fluids, drills for impact tools for machines, finishing machines, screw extractors [machines], portable pneumatic tools, portable electric tools; Layanan ritel dan grosir terkait dengan barang-barang berikut: bahan perekat kimia untuk penyegelan, bahan penyegel untuk digunakan dalam konstruksi [bahan kimia], cairan pengeboran, penghilang gemuk untuk digunakan dalam proses industri, preparat kimia untuk melarutkan minyak, preparat pengupas lilin.; Jasa ritel dan grosir terkait barang-barang berikut: jasa untuk produk pembersih, produk parfum, preparat abrasif, preparat pembersih kendaraan, produk pemoles mobil, sampo untuk kendaraan bermotor, lilin untuk kendaraan bermotor, cairan pembersih kaca depan, amplas, kain ampelas, produk pemutih [pakaian], deterjen untuk batu, produk pembersih untuk logam, deterjen untuk membersihkan lantai, preparat pembersih dan pewangi, deterjen, produk penghilang poles, produk penghilang lilin; Layanan ritel dan grosir terkait dengan barang-barang berikut: perekat yang digunakan dalam industri, perekat untuk kaca, perekat untuk penggunaan industri dalam bentuk serpihan, perekat untuk penggunaan industri dalam bentuk pelapis, perekat industri untuk digunakan dalam proses penyegelan dan perlindungan, perekat komersial (bukan untuk keperluan alat tulis atau rumah tangga), perekat untuk pemasangan penutup dinding.; Layanan ritel dan grosir terkait dengan barang-barang berikut: peralatan [suku cadang mesin]; Layanan ritel dan grosir terkait dengan barang-barang berikut: tas perkakas [terisi], kotak perkakas untuk dipasang pada sabuk perkakas.; Layanan ritel dan grosir terkait dengan barang-barang berikut: pelumas dan gemuk industri, lilin dan cairan,

petroleum jelly untuk keperluan industri, pelumas grafit, minyak penetrasi, oli motor, pelumas, oli dan gemuk industri, dan pelumas, bahan bakar (termasuk bahan bakar motor).; Layanan ritel dan grosir terkait dengan barang-barang berikut: ring pengunci (perangkat keras), klem logam yang dapat disesuaikan, cincin pengikat, wadah dan barang-barang transportasi dan pengemasan dari logam, pintu logam, gerbang, kaca dan kasa jendela.; retail and wholesale services in relation to the following goods: materials of metal for railroad construction, building materials and construction elements of metal, cables, wires and chains of metal, ironmongery, pipes of metal; Layanan ritel dan grosir terkait dengan barang-barang berikut: derek manual; advertising, marketing and promotional services; retail and wholesale services in relation to the following goods: degreasing materials for use in manufacturing processes, lemon oil degreasers for use in manufacturing processes, degreasers for use in manufacturing processes, fur degreasers for use in manufacturing processes; menyediakan layanan informasi dan konsultasi terkait e-commerce; retail and wholesale services in relation to the following goods: steps [ladders] of metal, movable steps [ladders] of metal, containers of metal for storage and transport of goods; layanan penjualan ritel online yang menampilkan pakaian; wholesale services concerning hot glue guns, retail services concerning hot glue guns; Layanan ritel dan grosir terkait barang-barang berikut: penanda titik tengah [perkakas tangan]; retail and wholesale services in relation to the following goods: silicones, silicone fluids, silicon-modified polyether polyols, acetates; manajemen administratif gerai grosir dan ritel; Layanan ritel dan grosir terkait dengan barang-barang berikut: pelapis, pernis dan cat, pelapis pengawet, zat anti korosi, lapisan dasar untuk sasis kendaraan, pengawet terhadap kerusakan kayu, zat pewarna, mordan, resin alami yang belum diolah, pewarna, cat cair, cat dinding samping ban.; semua layanan tersebut di atas tidak ditujukan untuk atau berkaitan dengan pupuk kandang, pupuk kimia, stimulan tanaman, nutrisi tanaman, fungisida, insektisida dan/atau herbisida.; Layanan ritel dan grosir terkait dengan barang-barang berikut: mata bor yang digunakan untuk perkakas tangan yang dioperasikan oleh sumber daya eksternal.; Layanan ritel dan grosir terkait dengan barang-barang berikut: cairan pendingin untuk radiator kendaraan, antibeku untuk radiator kendaraan.; Layanan ritel dan grosir terkait dengan barang-barang berikut: aktivator [bahan kimia], bahan kimia industri anorganik, zat kimia, bahan kimia dan preparat kimia, serta unsur-unsur alam.; Jasa ritel dan grosir terkait barang-barang berikut: kotak perkakas logam, mur [perangkat keras besi], baut logam, sekrup logam, alat pengikat logam, mur, baut dan alat pengikat logam, gembok dan kunci logam, bahan pengelasan dan penyolderan, jangkar ekspansi logam untuk pemasangan bingkai di dinding, pengikat logam, pegas [perangkat keras besi], kenop [pegangan] logam, pengait logam untuk furnitur, pasak logam [pin].; Layanan ritel dan grosir terkait dengan barang-barang berikut: gunting, tang [perkakas tangan], pemotong keramik [perkakas tangan], tang, pisau, mata gergaji, pemegang gergaji, gergaji tangan, pisau pengupas, pengupas kawat [perkakas tangan], alat pengupas [perkakas tangan]; Layanan ritel dan grosir terkait dengan barang-barang berikut: bahan logam yang tidak disesuaikan untuk tujuan tertentu, bahan mentah dan sebagian diproses, layanan tukang kunci.===

===lighting fixtures; climate control and safety apparatus and installations for water and gas installations; light bulbs; lighting apparatus and installations; direction indicator bulbs; halogen lamps; LED lighting fixtures; sanitary installations, water supply and sanitation equipment.; electric flashlights; inspection lamps; headlight bulbs; Hot-air pistols; dashboard bulbs; lighting and reflectors for lighting===
===vehicles and means of transport.; Motorcycle chains===
===paint stick markers; adhesives for stationery or household purposes.; Marking chalk; fiber-tip marking pens===
===sealant compounds for joints; adhesive caulking compounds; pipes, tubes, flexible pipes of rubber and parts thereof (including valves), and constituent parts for non-metallic, rigid pipes; seals, sealants and gaskets; caulking and insulating materials; laminated insulating fabrics of textile materials; caulking compounds in the form of sealants; polyurethane films intended for use in sealing and insulating buildings; fabrics of chemically produced fibers for use as insulation; flexible pipes, tubes, hoses not of metal and their parts including connectors not of metal; caulking sealants; seals; connectors not of metal for pipes; silicone rubber sealants; sealing compounds for use in the construction industry; plastic waterproofing film, other than for wrapping; insulation and protection articles and materials; sealing strips of rubber; Caulking materials; weatherstripping; sealants for structures; insulating plates; fasteners for pipes, connectors and supports, not of metal.; polyurethane foam for insulation purposes; waterproof materials for the manufacture of joints===
===fixing materials not of metal; rivets of plastic; window fittings, not made of metal; furniture and furnishings, namely, freestanding tool racks; empty tool chests, not of metal; metal tool cabinets; containers not of metal [storage, transport], and closures and holders thereof, not of metal; license plates not of metal for vehicles; threaded fasteners of plastic; screws, not of metal; nuts, not of metal; tool chests, not of metal; fastening material, couplings and holders for tubes not of metal; non-metal tool chests (furniture); ladders and steps not of metal; door fittings, not made of metal; Fastenings not of metal; plugs [dowels], not of metal; screw sleeves, not of metal; fastening material, couplings and supports for tubes, not of metal; pipe clamps, not of metal; drawer handles of plastic or wood, cork, reed, cane, wicker, horn, bone, ivory, fish, shell, amber, mother-of-pearl, meerschaum and substitutes therefor.; clips, not of metal, for tubes; rivets made of plastic; non-metallic threaded sleeves; furniture fittings, not made of metal; fixing bolts not made of metal; fastening material, couplings and holders for cables or ducts not of metal; anchors [wall anchors], not of metal; furniture, display stands; threaded fastening means of plastic; protective fittings, not of metal; empty tool boxes, not of metal===
===Broom handles; brooms; brushes.; cleaning utensils, brushes and brush-making materials===
===retail and wholesale services in relation to the following goods: putties, sealants, fillers and pastes for use in industry, fillers [chemical substances], chemical additives for controlling the consistency of pastes, binders for use in preparation of caulks; retail and wholesale services in relation to the following goods: injection nozzles, machines and machine tools for material processing and production, electric tools, hand-held tools, other than hand-operated, boring tools [machine tools], circular saws, blades for power saws, blades for power saws, stirrers for circulating fluids, drills for impact tools for machines, finishing machines, screw extractors [machines], portable pneumatic tools, portable electric tools; retail and wholesale services in relation to the following goods: tool bits used for hand tools operated by an external power source; retail and wholesale services in relation to the following goods: lubricants and industrial greases, waxes and fluids, petroleum jelly for industrial purposes, graphite lubricants, penetrating oils, motor oil, lubricants, industrial oils and greases, and lubricants, fuels (including motor fuels); retail and wholesale services in relation to the following goods: chemical binding agents for sealing, sealants for use in construction [chemical products], drilling fluids, grease removing products for use in industrial processes, chemical preparations for dissolving oil, wax stripping products, drilling fluids, grease removing products for use in industrial processes, chemical oil-dissolving preparations, wax stripping products; Retail and wholesale services in relation to the following goods: adhesives used in industry, adhesives for glass, adhesives for industrial use in the form of flakes, adhesives for industrial use in the form of coatings, industrial adhesives for use in caulking and protection processes, commercial adhesives [not for stationery or household purposes], adhesives for applying wall coverings; retail and wholesale services in relation to the following goods: common metals, common metals and their alloys, building materials of metal, transportable buildings of metal, structures and transportable buildings of metal; retail and wholesale services in relation to the following goods: materials of metal for railroad construction, building materials and construction elements of metal, cables, wires and chains of metal, ironmongery, pipes of metal; retail and wholesale services in relation to the following goods: coatings, lacquers and varnishes, preservative coatings, anti-corrosive substances, undercoating for vehicle chassis, preservatives against deterioration of wood, dyestuffs, mordants, unprocessed natural resins, colorants, liquid paints, tire sidewall paints; retail and wholesale services in relation to the following goods: tools [parts of machines]; administrative management of wholesale and retail outlets; advertising, marketing and promotional services; retail and wholesale services in relation to the following goods: scissors, pincers [hand tools], tile cutters [hand-operated tools], pliers, knives, saw blades, saw holders, hand saws, stripping knives, wire strippers [hand tools], stripping tools [hand-operated tools]; retail and wholesale services in relation to the following goods: degreasing materials for use in manufacturing processes, lemon oil degreasers for use in manufacturing processes, degreasers for use in manufacturing processes, fur degreasers for use in manufacturing processes; retail and wholesale services in relation to the following goods: steps [ladders] of metal, movable steps [ladders] of metal, containers of metal for storage and transport of goods; wholesale services concerning hot glue guns, retail services concerning hot glue guns; retail and wholesale services in relation to the following goods: sprayers (hand tools), vices for work benches (hand tools); retail and wholesale services in relation to the following goods: silicones, silicone fluids, silicon-modified polyether polyols, acetates; retail and wholesale services in relation to the following goods: washers (ironmongery), adjustable collars of metal, ferrules, containers and transport and packaging articles of metal, doors of metal, gates, glazing and window screens; retail and wholesale services in relation to the following goods: hand-operated apparatus and tools for treatment of materials and for construction, repair and maintenance work, lifting tools, agricultural, gardening and landscaping tools, hand-operated hand tools, side cutters [hand tools], pipe tools, pincers [hand tools], non-electric screwdrivers, riveting hammers [tools], cutters, glass cutters, hand saw blades; providing information and consulting services with respect to e-commerce; retail and wholesale services in relation to the following goods: activators [chemicals], inorganic industrial chemicals, chemical substances, chemical materials and chemical preparations, and natural elements; retail and wholesale services in relation to

the following goods: services for cleaning products, perfumed products, abrasive preparations, preparations for cleaning vehicles, products for polishing cars, shampoos for motor vehicles, waxes for motor vehicles, windscreen cleaning liquids, sandpaper, emery cloths, bleaching products [laundry], detergents for stone, cleaning products for metal, detergents for cleaning floors, cleaning and fragrancing preparations, detergents, products for removing polish, products for removing wax; retail and wholesale services in relation to the following goods: coolants for vehicle radiators, antifreeze for vehicle radiators; all the aforesaid services not intended for or in connection with manures, fertilizers, plant stimulants, plant nutrients, fungicides, insecticides and/or herbicides.; retail and wholesale services in relation to the following goods: tool bags [filled], tool cases for attachment to tool belts; retail and wholesale services in relation to the following goods: not adapted for a specific purpose, unprocessed and partially processed materials of metal, locksmith services; retail and wholesale services in relation to the following goods: tool chests of metal, nuts (ironmongery), bolts of metal, screws of metal, fastening devices of metal, nuts, bolts and fastening means of metal, locks and keys of metal, welding and soldering materials, metal expansion anchors for wall mounting of frames, fasteners of metal, springs (ironmongery), knobs (handles) of metal, catches of metal for furniture, pegs of metal (pins); online retail sale services featuring clothing; retail and wholesale services in relation to the following goods: hand-operated winches; retail and wholesale services in relation to the following goods: removal machines, elevating apparatus, lifting apparatus, clippers (machines), side milling cutters (machines), stripping machines for removing coatings from electric cables; retail and wholesale services in relation to the following goods: center punches [hand tools]===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===drilling fluids; Perekat untuk penggunaan industri; bahan perekat kimia untuk industri bangunan; bahan pengisi [zat kimia]; coolants for vehicle radiators; compositions made with glue and coatings for repairing joints; pelarut untuk membersihkan mesin selama proses manufaktur; all the aforesaid goods not being manures, fertilizers, plant stimulants and/or plant nutrients and all the aforesaid goods not being intended for or in relation to manures, fertilizers, plant stimulants, plant nutrients, fungicides, insecticides and/or herbicides.; preparat penghilang lemak untuk digunakan selama proses manufaktur; bahan kimia pembersih radiator; cairan silikon; poliol polieter yang dimodifikasi silikon; bahan kimia industri anorganik; Produk kimia untuk penggunaan industri, ilmiah, fotografi, pertanian, hortikultura, dan kehutanan.; perekat semprot; asetat [bahan kimia]; bahan perekat, pelapis, pasta perakitan dan pasta teknis, pasta perekat untuk industri, kerajinan, bengkel dan sektor konstruksi; silikon; aditif deterjen untuk gemuk; penghilang lemak untuk digunakan dalam proses industri; cairan antibeku untuk radiator kendaraan; lem untuk kaca (untuk penggunaan industri); bahan kimia pemurnian minyak; degreasing materials for use in manufacturing processes; aktivator [bahan kimia]; sediaan kimia untuk dispersi minyak; senyawa penyegel kimia; produk kimia untuk menghilangkan lilin===

===tools for composite processing machines; long log flakers; machines and installations for the crushing and processing of thermoplastics, plastic waste and rubber; partly automated, fully automated or artificial intelligence-aided [smart] industrial robots for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; motors, other than for land vehicles; pumps for industrial heating installations and furnaces; breakers, jaw crushers, primary crushers; dynamic and static air separators, cross-flow separators, centrifugal separators, basket separators, reverse separators, cascade separators, gravity separators, zig-zag separators, sifting machines, vacuum sifting machines, vibration sifting machines, drum screening machines, vibrating screening machines, flat sifting machines, eddy current sifting machines, tumbler sifting machines, roller separators, filtering machines, hose filters (parts of machines), cartridge filters (parts of machines), pocket filters (parts of machines), cyclones, separators, centrifuges, disintegrators, blowing machines, extracting machines, magnetic drums (parts of machines), magnetic rollers (parts of machines), magnetic grates (parts of machines), mechanical separators, gravity separators, overbelt magnetic separators, induction separators, metal detection coils (parts of machines); machines and mechanical apparatus for the washing of materials; machines and installations for the mechanical processing of materials and bulk materials into powders and granulates; automatic dispensing machines; transporters [machines]; cleaning machines for reactors; machines and mechanical appliances for conveying, feeding and dosing materials into a production process, and parts thereof; machines and mechanical apparatus for mechanical process engineering, and installations constructed from the aforesaid goods; single- and multi-daylight mechanical or hydraulic presses for the production of shaped parts, namely continuously or intermittently operating mechanical or hydraulic presses for the production

of shaped parts from materials derived from raw materials, namely plant-based raw materials, alloyed and unalloyed steels, composite materials, metal and steel sheets, organosheets, plastics, organic and inorganic materials, materials containing minerals; machines for the shredding of temperature-sensitive materials such as plastics, thermoplastics, thermosetting plastics, elastomers, food and luxury foods, aromatic materials, pharmaceutical and cosmetic materials, chemical materials, materials containing oil and grease, highly viscous and adhesive materials, and parts thereof; compressors; membrane presses, namely fluid-loaded membrane presses for the production of shaped parts, namely continuously or intermittently operating membrane presses for the production of shaped parts from materials derived from raw materials, namely plant-based raw materials, alloyed and unalloyed steels, composite materials, metal and steel sheets, organosheets, plastics, organic and inorganic materials, materials containing minerals; tools for plastic processing machines; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from insulating materials, namely stone wool, glass wool, slag wool, polyurethanes, wood wool or glass wool; tools for composite material treatment machines; transferring machines; mineral processing machines; lifting machines and installations for transporting bulk materials; machines and mechanical apparatus for the recycling and separation of materials, in particular for separating the components of composite materials; conveyors; unmanned transportation conveyors being cargo handling machines; blowing engines; blind hole cleaning machines, namely for industrial applications; rolling mills; moulds for production [parts of machines]; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from plastics, namely thermoplastics, thermosetting plastics or elastomers; machines for working plastic; machines and mechanical appliances for compressing, compacting, agglomerating, compounding and coating materials, such as web-shaped materials, panels, moulded products, pressed products and cast products [castings]; sifters; stud tensioning machines, namely for pressurised water reactors, boiling water reactors; disc mills; stuffing screws; machines and installations in the field of press automation, industrial automation and transport automation and parts therefor; generators; manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of castings from alloyed and unalloyed ferrous and non-ferrous metals, alloyed and unalloyed steels, preferably of castings in a large mould; crushing machines; cast troughs and cast platens [parts of machines]; machines for washing materials, in particular wood, fibrous materials, food and animal foodstuffs, plastics, chemicals, pharmaceutical and cosmetic products and minerals; vacuum pumps [machines]; moulds [parts of machines]; insulating-material processing machines; painting machines incorporating painting lines; metal production machines; machines for manufacturing simply or multiply curved organic and inorganic homogeneous and composite structures and architecture; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from mineral raw materials, namely from gypsum, carbonised plant materials, silicon dioxide, silicates or ceramics, portland cement, gypsum-cement-pozzolan compounds [gcp binders], magnesia binders; tools for insulating-material processing machines; moulds [parts of machines], in particular chill-moulds and matrices; All of the aforementioned goods for processing continuous or finite shaped pieces and bulk materials, as well as pasty, flowable, vegetable, and fibrous materials and mixtures of materials, as well as liquids, fluid-solid mixtures and low- and high-consistency suspensions, in particular fibrous materials such as lignin-containing or lignocellulose-containing materials, composite materials such as organic sheets in particular, plastics and plastics with admixtures of perennial or annual plant components such as wood, waste wood, grass, bark, paper, cardboard, cellulose, or with components of other materials, such as textiles, waste, rubber, resins, leather, food, luxury foods, and animal feed, minerals, carbons, plastics, pigments, dyes, pharmaceuticals, chemical products, metals, composite materials, electronic scrap, cables, and old tires, parts, spare parts, accessories, and tools for the aforementioned goods, insofar as included in this class; lacquering installations; compres- sors [machines]; painting robots; compressors for refrigerators; heat exchangers (parts of machines); cast hoppers [parts of machines]; flakers, knife ring flakers, disc flakers, universal flakers, mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision service-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, impact crushing machines; cleaning machines, namely for industrial applications; rolling mills, mills and wind turbines, in particular wind turbine foundations, casings, frameworks and rotor casings; cast filters [parts of machines]; resin transfer moulding machines; tools for mineral processing machines; extrusion presses, injection moulding machines, agglomerators, heating/cooling mixers, compactors, calenders and parts of calenders, pelletisers, briquetting machines, pellet mills, wet compressors, screw compresses, double belt presses, packing presses, channel baling presses; foundry machines; power transmission couplings [other than for land vehicles]; bonding machines; machines for manufacturing structures and architecture; propulsion mechanisms, other than for land vehicles; steam engine boilers for power generation, other than for land vehicles; machines for generating and converting energy, for example steam engines, wind turbines, hydroelectric power plants, turbines; wood-crushing machines; parts of engine housings; Machines, machine installations and parts thereof for mechanical and chemical process engineering and for the production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; friction washers; machines for manufacturing organic and inorganic homogeneous and composite structures; machines and mechanical appliances for mixing, dispersing, emulsifying and homogenising materials; composite processing machines; machines and mechanical apparatus for conveying, feeding and dosing materials into a production process; parts of casings, parts of engines, in particular moving parts of engines.; beating flakers; pulping machines [refiners]; matrices (parts of machines); mechanical equipment for foundry machines and metal production machines; hydraulic high-pressure components and sealing systems [parts of machines]; power operated tools; cutting, shearing, mixing, grinding, impact and striking tools, all being parts of machines, knives [parts of machines], cutter blocks, cutting discs, cutting tips, shearing strips, grinding tracks, grinding discs, milling pins, grinding segments, grinding grids, grinding sets, pan grinder rollers, sieves [parts of machines], sifting tracks, disc screens, drum screens, perforated sheets [parts of machines], beater plates, impact strips, hammers [parts of machines], cylinders, pinion rollers, cylindrical milling cutters, grates [parts of machines], strainer bars, rod plates and gratings, mixing blades, pressure fittings, matrices [parts of machines], doctor blades, break cams, linings [parts of machines], wear plates [parts of machines], wear discs, wear rings, wear strips, wear shoes; sorting machine locks [sluices]; apron conveyors, sliding floors, belt conveyors, bucket conveyors, tube chain conveyors, stuffing screws, archimedian screws, auger fillers, sluices, dosing valves, hydraulic or pneumatically operated feeding devices, blowing machines, load conveyors, vibratory conveyors, oscillating conveyor troughs, conveying chains and drag chain conveyors; motors [other than for land vehicles]; industrial mixing machines; stud tensioning technology systems; plant shredding machines; guides for machines; shaping and moulding

machines; machines and mechanically driven appliances as well as energy-generating installations formed therefrom and industrial drying installations heated both directly via hot gases and indirectly via steam, hot water and thermal oil; process control units [mechanical]; industrial robots; thrust pieces; composite-material processing machines; machines for processing organic and inorganic homogeneous and composite materials; blending machines for chemical processing; machines and mechanical apparatus for separating bulk materials of differing densities and/or sizes; electricity generators; aids for producing castings, namely hoppers and filters [parts of machines]; archimedian screws; stud tensioning devices for steam generators; fluidised bed dryers, drum dryers, screw coolers; moving and handling equipment; woodworking machines; tools for the processing of composite materials; machines and machine tools for treatment of materials and for manufacturing; coating installations [coaters], namely flow coaters and bath coaters; manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; machines and mechanical apparatus for the separation, classification, removal, degassing and filling of materials; drum shredders, bale shredders, guillotines, guillotine shears, scrap shears, scrap presses, chippers, drum chippers, disc chippers, plastic chippers, vertical crushers, shredders, single-shaft shredders, multi-shaft shredders, horizontal shredders, vertical shredders; atomising machines; mechanical process engineering installations for forming a mixture of free-flowing scatter material, namely fibrous material, chip material, plastic, carbon, dry binding material, resins or mineral material, in a defined geometric shape with a defined grammage, with the help of dosing, scattering and transport equipment that has been synchronised through monitoring and measuring systems; vibrators [machines] for industrial use; lifting ma- chines for load transport; sound absorbers being parts of machines; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from a mixture of raw materials, namely a mixture of two or more single-origin raw materials [basis], of which at least one forms a continuous phase [composite material], namely a composite material that features a matrix and a mesh arranged therein, namely a composite material with a matrix formed from resin and a fibre or grid structure formed from carbon; machinery and installations for the production of wood chips; regulators [parts of machines]; lifting and hoisting equipment; drives for conveyors; sorting machines for industry; agricultural implements other than hand operated hand tools; machines and mechanical appliances for the shredding, granulation, disintegration, de-agglomeration, defibration and fine and ultra-fine grinding of materials, and parts thereof; conveyors and conveyor belts; engines, drive units and parts of engines, engine housings, pistons, piston rods, piston rings, gear rods, gear wheels, toothed wheels, axles, shafts and valves, turbines, compressors, all being parts of machine; control and regulating units and installations for manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, preferably within mechanical or chemical process engineering and general and special-purpose machine construction, vehicle construction and series production support; stud turning devices such as single-stud turning devices, double-stud turning devices, multi-stud turning devices, namely for industrial applications; mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision surface-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, secondary crushers, classifier mills, milling layer installations, fine mills, precision mills, mills for producing mineral and metallic powder, granulators, wet granulators, pipe granulators, precision granulators, profile granulators, lead-frame granulators, hard foam granulators, film granulators, small granulators, pelletisers, strand granulators, band granulators, chippers, drum chippers, hammer mills, impact hammer mills, pulp separators, impact crushing machines, turbo mills, blow nose mills, pin mills, universal mills, ball mills, jet mills, counter-jet mills, colloidal mills, counter-flow mills, double-flow mills, rolling mills; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of materials or products consisting of two or more layers bonded or glued together over the entire area, whereby the layers may consist of the same or different material grades and of the same or different kinds of material [laminates], namely heating foils, temperature foils, display foils, laminated insulating material, aluminium composites such as aluminium-wood composites, aluminium-composite composites such as glass-fibre-reinforced aluminium, packaging composites such as beverage carton composites, composite materials of plant materials and plastics, mineral composites such as porcelain stoneware-plastic composites; machines and mechanical apparatus for the conditioning of materials; machines for manufacturing curved organic and inorganic homogeneous and composite panels and surfaces; cast iron parts for pipes [parts of machines]; parts and fittings for all the above goods; parts, spare parts, accessories and tools for the aforementioned goods, included in this class; machines for manufacturing organic and inorganic homogeneous and composite architecture; control mechanisms for machines, engines or motors; gluing flash tube [part of a machine]; transmission components (except for land vehicles); agricultural, earthmoving, construction, oil and gas extraction and mining equipment; rollers; machines for processing composite materials; single tensioners for pressurised and boiling water reactors; dispensing machines; process control instruments [mechanical]; valves and sluices for machines and transport systems; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from reinforced materials, namely fibre-reinforced plastics such as glass- or carbon-fibre-reinforced plastics, occ composites, rubber-steel composites, such as conveyor belt materials or treads for tyres, recycling materials; machines and mechanical appliances for mixing and homogenising materials; metalworking machines; machines for shredding soft to medium-hard materials such as minerals, plastics, wood, foodstuffs and animal feed, leather, cellulose, rubber, elastomers and soft sheet metal; agitators, tumbling mixers, conical mixers, batch mixers, screw mixers; indoor self-driving robots for industrial use; machine tools for woodworking machines; cell wheel dosing devices [parts of machines]; bolt cleaning machines, reactor pressure vessel bolt cleaning machines; engine housings; pulverizing mills; single- and multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from raw materials, namely plant-based raw materials, namely raw materials obtained from annual or perennial plants, into single- or multi-layer panel-shaped materials such as fibreboard, chipboard, oriented strand board [osb] or into mixed forms thereof [hybrid boards]; control appliances for machines and installations; multi-stud tensioners; separating machines; filtering machines, separators and centrifuges; moulds that can be used multiple times, preferably chill-moulds, namely single chill-moulds and multiple child-moulds [parts of machines]; machine tools; machines for treating organic and inorganic homogeneous and composite materials; gantry canes and parts of gantry cranes; material production and processing machines; auger fillers; composite material treatment machines; valves [parts of machines]; parts of machines, namely cast

iron parts, for machines and machine tools for the treatment of materials and production; linings (parts of machines)===

===studio monitor loudspeakers; software; cloud server software; microphone cables; electronic control systems; computer operating programs; air analysis apparatus; connection cables; industrial automation controls; led screen displays; recorded content; point-to-point communications equipment; computer networking and data communications equipment; data storage devices and media; sensors for measuring instruments; speakers for video conferencing; process controlling software; process control digital controllers; programmable controllers; process controlling apparatus [electronic]; databases; fire-extinguishing devices for the aforementioned installations; optimisation software; recorded media; switchboxes [electricity]; operating systems; apparatus for broadcasting sound, data or images; lighting control panels; artificial intelligence software; horns for loudspeakers; electromagnetic valves; computer software platforms for social networking; operating system programs; pressure indicator plugs for valves; cabinets for loudspeakers; cases for loudspeakers; signal cables for it, av and telecommunication; electronic controllers; electronic control units; all of the aforementioned goods for controlling and regulating processes, machines, appliances and installations for mechanical engineering; information technology and audio-visual, multimedia and photographic equipment; downloadable media; monitoring control apparatus [electric]; surveying apparatus and instruments; networking software; telecommunications apparatus for use with mobile networks; software for monitoring, analysing, controlling and running physical world operations; local area networks; industrial process control software; communications equipment; portable speakers; downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; monitoring units [electric]; distribution boards [electricity]; numerical controllers for controlling the aforementioned installations; physical analysing apparatus [other than for medical use]; editing software; blank digital or analogue recording and storage media; multi-room audio devices; computer software [saved] for controlling installations for heating installations and furnaces for generating heat and steam, drying installations, cooling installations, thermotechnical installations for saving energy, installations for exhaust gas purification and exhaust gas filtration, installations for exhaust air purification and exhaust air filtration, installations for air treatment, and installations for treating water; calculating devices; computers; measuring, detecting, monitoring and controlling equipment; computer software for wireless network communications; cloud computing software; control installations (electric -); control units for machines and installations; optical sensors; electronic control instruments; monitoring apparatus, other than for medical purposes; surveillance cameras; data processing equipment and accessories (electrical and mechanical); automatic control apparatus; production support software; computer operating system software; coin-operated mechanisms; personal speakers; network operating system programs; electronic cables; monitoring instruments; computer hardware for remotely accessing and transmitting data; instrument panels [electric]; machine learning software for analysis; industrial automation software; loudspeaker systems; loudspeakers; internet of things [iot] sensors; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; electric sensors; application software for cloud computing services; loudspeaker cables; computer software for the monitoring of computer systems; downloadable software for remotely accessing and controlling a computer; process controlling apparatus [electric]; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; artificial intelligence software for surveillance; measuring, signalling, inspecting, switching and monitoring appliances and instruments; interactive software based on artificial intelligence; loudspeakers with built in amplifiers; controllers and regulators; fire extinguishers; sensor controllers; computer programs for connecting remotely to computers or computer networks; machine learning software for surveillance; sensors used in plant control; speakers [audio equipment]; artificial intelligence software for analysis; downloadable cloud computing software; monitor speakers; speaker switches; software for the integration of artificial intelligence and machine learning in the field of big data; sensors for monitoring physical movements; process controllers [electric]; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; electrical power extension cords; smart manufacturing system controls; appliances and equipment for testing, weighing, analysing and measuring materials; connection boards [electric]; Robotic process automation [RPA] software; computer peripheral devices; apparatus for scientific research and laboratories; process monitors; lighting transformers; network communication apparatus; factory automation software; fire safety installations, essentially consisting of sliding plate fire dampers of metal and/or plastic and/or mineral materials, sliding plate smoke dampers of metal and/or plastic and/or mineral materials, smoke detectors, all of the aforementioned components also as individual goods and parts thereof; speaker docks; electronic monitoring systems.; power cables; video screens; cloud servers; electric control apparatus; signal processors for audio speakers; measuring appliances, control appliances, regulating appliances, indicators for the aforementioned installations; video cameras adapted for monitoring purposes; checking (supervision) apparatus and instruments; sensors for use with machine tools; smart manufacturing software; navigation, guidance, tracking, targeting and map making equipment; computer software; all of the aforementioned goods, in particular for the areas of press automation, industry automation and transport automation; sensors, detectors and monitoring instruments; cloud network monitoring software; sensors; computers and computer hardware; sensors for determining position===
===safety lamps; lamps; floodlights; air deodorizing apparatus; gas burners; cooling installations for liquids; appliances and installations connected to heating boilers for heating purposes, namely regulating and safety accessories for water and gas pipes, taps for pipes and pipelines, water supply installations; air heating apparatus; industrial wastewater treatment installations; lamp reflectors; gas cleaners and purifiers; oil burner control units; strobe lights [light effects]; security lighting; air filtering installations; led lighting installations; light projectors; pressure vessels, expansion tanks, valves, taps for heat transfer and steam pipes, appliances for the treatment of heat transfer media; automatic gas stokers; Appliances and installations, and parts of appliances and installations for heating, cooling, steam-generating, cooking, drying, ventilating and water supply purposes; led luminaires; appliances and equipment for exhaust air purification and exhaust gas purification; incandescent light bulbs; parts and fittings for all the aforesaid goods, included in this class.; machines and installations constructed therefrom for industrial drying purposes; water filtering apparatus; air sterilizers; ventilation stacks and exhaust air installations; refrigerators and refrigerating installations; dust and granule burners and combination burners as well as surface burners; fans [air-conditioning]; heating, ventilating, and air conditioning and purification equipment (ambient); cooling installations for panels; lighting installations; lamp shades; fans [parts of air-conditioning installations]; drying machines, humidifying (other than for medical use) and wetting apparatus, in particular for wood, fibrous materials, food and animal feed, plastics, chemical fiber and cosmetic products and minerals; cooling installations for industrial purposes; chilling machines; drying installations; luminaires for security use; air filters; evaporators; gas/heating boilers, including industrial steam boilers, water tube boilers, saturated steam and hot steam boilers, hot water boilers, waste heat boilers, fire-tube boilers, special boilers for thermal disposal and afterburning, including installations for stoking and ash removal, process heat generation, heat transfer oil

installations and in particular including installations that essentially consist of heat transfer heaters, heat transfer pumps, heat exchangers and heat transfer lines; light diffusers; hydrogen reactors and parts thereof; air conditioning installations and air conditioning apparatus; apparatus for filtering water, consisting of automatic roll filters, wall and channel filters, bag filters, particulate filter modules for ceilings, mini dust extractors, centrifugal separators and filter media, namely glass fibre paper, glass fibre matting, randomly-oriented-fibre fleeces and activated carbon, all being parts of sanitary installations; lights for vehicles; light-emitting diode [led] light bulbs; industrial ovens and furnaces [not for food and beverages] for grate firing; heat pumps for energy processing; air dryers; cooling installations for reactors; industrial air treatment installations; refrigerating chambers; electric lamps; industrial water treatment installations; burners, boilers and heaters; oil burners; lighting apparatus; heat recovery installations; decorative lights; the aforementioned components also as individual goods and parts thereof; ventilation installations, essentially consisting of ventilation grilles, ceiling diffusers, slot diffusers, floor diffusers, window parapet induction diffusers, swirl diffusers, induction swirl diffusers, ventilation valves, multi-leaf dampers, weather grilles, airtight steel doors, fans, water level regulators [valves] being parts of sanitary installations, the aforementioned components also as individual goods and parts thereof; lamp mantles; distillation apparatus===

[stamping] of metal; electricity generating; metal finishing; treatment of metal parts to prevent corrosion using hot-dip galvanizing and powder coating processes; machining parts for others; custom manufacture and assembly services; die casting; extruding of metal alloys; treating [embossing] of metal; cutting of metal; custom moulding services; food processing; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for the production of endless goods, namely [flat] web-shaped goods, such as fibrous goods, namely plant-based panels, goods containing minerals, namely panels containing minerals, namely goods containing stone wool or composite materials such as organosheets, ferrous and non-ferrous metallic goods or goods containing plastic, namely panels containing plastic; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for the production of special goods or goods produced in series production; treating [tempering] of metal; material processing in the form of the shredding, chopping, cutting, delamination, defibration, grinding, cryogenic grinding, fine and precision grinding, mixing, coating, wetting, pelletising, compounding, compacting, granulation, agglomeration, coagulation, separation and recycling of materials as a service for others; material processing of ligno-cellulosic materials, of composite materials such as organosheets in particular, of plastics, and of plastics with the addition of wood, waste wood, paper, cardboard, cellulose, textiles, waste, rubber, latex, resins, leather, food, luxury foods and animal foodstuffs, minerals, pigments, colourants, pharmaceuticals, chemical products, metals, composite materials, electronic waste, cables and old tires; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for [chemical] process engineering; metallurgical smelting services for processing moulds for the manufacture of castings, in particular large castings; surface finishing of metal articles; production of machines, mechanical appliances and installations for mechanical process engineering; polishing of metals; treating [shaping] of metal; welding services; sandblasting services; metalworking; treating [forging] of metal; die-casting of metals; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for [mechanical] process engineering; metal treating and casting, cooling of metal casting products, hardening of metal and metal products; metal brazing; recycling of waste; mechanical or chemical treatment or processing of materials; metal laminating; material processing using chemical engineering; shot blasting; metal stamping; waste treatment [transformation]; galvanising of metal; processing of fibrous materials and waste wood to form cellulose powder and wood flour; rental of machines and mechanical appliances for processing and converting materials for custom manufacture; treating [enamelling] of metal; vulcanization [material treatment]; preservation of drink; processing of minerals and metals to form mineral and metal powders; industrial production and custom manufacture of series-produced or special structural parts by casting, shaping, separating, for example cutting, joining, for example soldering, coating, for example varnishing, changing material properties, for example hardening; metal treating; 3d reproduction services; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production of pressed goods; generation of energy, in particular hot gases, steam, thermal oil and electricity; industrial production and custom manufacture, namely of turned parts of metal, turned parts of plastic, large turned parts such as shafts and cylinders for machines and installations, milled parts of metal, milled parts of plastic, large milled parts such as parts for machine and plant construction, namely for the construction of treatment installations for fibrous materials, intermittently or continuously operating presses and large presses for processing fibrous materials such as paper, cardboard, engineered woods, fibre composites, plastics, composite materials, iron, steel, cast materials; millworking; custom 3d printing for others; chromium plating of metal articles; metallurgical smelting; recycling of recycling materials, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste; metal casting; processing of metal surfaces using precision grinding techniques; shaping of metal components; blast treatment; processing of large structural parts with individual volumes of at least 500 litres using chemical or mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, in particular pressing; water treating; hard chromium plating and hard nickel plating of metal surfaces; fettling shop services for processing moulds for the manufacture of castings, in particular large castings; metal tempering; consultancy in the field of the manufacture of flat and simply or multiply curved or structured organic and inorganic homogeneous and composite goods, semi-finished products and structures.; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production or processing of goods containing natural fibres, of composite structures, namely non-metallic composite structures, and of metallic composite materials as well as composite materials containing plastic; processing of moulds for the manufacture of castings, in particular large castings; metal hardening; custom construction of machines; custom manufacture and processing of organic and inorganic homogeneous and composite goods, semi-finished products, structures and architecture, namely for the building industry, the production of panels, vehicle and aircraft construction, machine and plant construction in a level form or in a simply or multiply curved form; treatment and coating of metal surfaces; incineration of waste and trash; material processing of temperature-sensitive materials using chemical process engineering; material processing of piece and bulk goods, and of paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and of liquids, fluid/solid mixtures and low- and high-consistency suspensions; printing; custom manufacture of models for generating moulds for making castings, preferably large castings; preservation of food; material processing of temperature-sensitive materials using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; metal melting services; custom manufacture of tools for others; Material processing using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; coating of coatable material, namely wood, paper, cardboard, cellulose, textiles, plastics, rubber, minerals, pharmaceuticals, chemical products, metals, composite material; moulding shop services for generating moulds for the manufacture of castings, in particular large castings; material treatment services in connection with recycling, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste===

===rental services relating to equipment and facilities for education, entertainment, sports and culture; entertainment services relating to sport; audio-visual display presentation services for entertainment purposes; training; sporting activities; entertainment services; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of installations for mechanical or chemical process engineering; Educational instruction; training and instruction of users and service staff, namely relating to the operation of presses, namely of continuously or intermittently operating presses and large presses, of single- or multi-daylight presses, of presses for generating endless goods, namely web products in the form of natural-fibre-based web goods for the production of panels, in the form of organically or inorganically based web goods for the production of panels, in the form of composite-forming web goods for the production of composite materials, such as organosheets; party planning [entertainment]; instruction and training of users and service staff, namely relating to installations processing natural fibres; training services relating to the adaptation and use of

monitoring systems, namely of vibration measurements and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems.; radio entertainment; arranging of presentations for entertainment purposes; production of sound recordings; instruction and training of users and service staff, namely relating to heating installations and furnaces for generating heat and steam, exhaust gas purification and drying installations; entertainment, sporting and cultural activities; organisation of sporting events; organization of entertainment events; information and advisory services relating to entertainment; instruction and training of users and service staff, namely relating to energy-generating installations; provision of recreational events; organisation of parties; rental of audio/visual and photographic equipment and facilities; instruction and training of users and service staff, namely relating to mills and refiners; cultural activities; instruction and training of users and service staff, namely relating to the use of machines, installations and parts of installations for mechanical or chemical process engineering; organisation of educational events; organisation of entertainment and cultural events; conducting of educational events; entertainment services provided at discotheques; conducting of cultural events; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of software, namely of software for controlling industrial installations, such as production installations or installations for mechanical or chemical process engineering and parts of these installations; organizing cultural and arts events; instruction and training of users and service staff, namely relating to plastic-processing machines and installations; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of industrial machines, installations and parts of installations, namely of machines, installations and parts of installations for the production of material assets; arranging and conducting of entertainment events; musical entertainment; instruction and training of users and service staff, namely relating to industrial production installations; organising of shows for entertainment purposes===

===design services for architecture; technological consultancy in the field of measurement and calculations for the adjustment of the operating materials.; volume flow measurement; providing temporary use of on-line non-downloadable software for importing and managing data; cloud hosting provider services; services relating to the planning of energy-generating and energy-converting installations such as nuclear installations, energy installations powered by natural forces, such as installations powered by wind or water; process-related technical consultancy in connection with the operation of machines, mechanical appliances and installations for mechanical process engineering manufactured therefrom; science and technology services; laboratory analysis of materials and clinical trials relating to the treatment of materials, in particular the conveyance, dosing, crushing, mixing, agglomeration, compressing, conditioning, separation and sorting of materials; pressure measurement; industrial testing, calibration, condition monitoring; testing and quality control of monitoring systems, namely of vibration measurements and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of process of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems; industrial design; interior design services and information and advisory services relating thereto; providing virtual computer environments through cloud computing; design and development of networks; software development, programming and implementation, in particular to monitor and control machines, installations and processes for mechanical process engineering; scientific and technological services and research and design relating thereto; services of an engineer in connection with the provision of the aforementioned services; consultancy in the field of engineering, namely the design of installations and parts of installations for producing goods and semi-finished products, namely organic and inorganic panels, fibreboard, composite panels, organosheets, gypsum boards, plastic panels, wpc panels, energy carrier panels; services relating to the planning of facilities for sorting low-level radioactive waste, caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste, fuel element disposal management, data and calculations for protection against radiation, process computer systems, personal and job-based dose control; cloud storage services for electronic files; quality control; construction drafting, building design, technical project planning, technical project management, technical building supervision, quality control and assurance in the area of industrial heating installations and furnaces for generating heat and steam, industrial drying installations and environmental engineering; technological engineering analysis regarding bearings, couplings, belt

pulley alignments; technical consulting, and engineering services and technological consultancy relating to concept development, plan development/design, planning and support during the approval process, advice regarding the selection of the correct business partner, project execution, project support, project management, supervision/optimisation of revision processes, quality monitoring and construction supervision, creation and checking of documentation; providing virtual computer systems through cloud computing; implementation of computer programs in networks; technological services relating to manufacture; research in the field of mechanical process engineering; preparation of reports in the field of measurement and laboratory data; engineering consultancy relating to manufacture; computer design services; performance measurement; design of models for generating moulds for making castings, preferably large castings; cloud storage services for electronic data; preparation of reports relating to scientific research on electrical energy; editing of computer programs; authentification services; technological services; computer aided design for manufacturing operations; engineering services; industrial research; design services; consulting in the field of cloud computing networks and applications; technical project studies; custom design services; programming of electronic control systems; technical research; services relating to industrial design, architectural consultancy; consultancy in the field of engineering, namely the design of installations and parts of installations for mechanical or chemical process engineering, and the refurbishment of installations and parts of installations for mechanical or chemical process engineering; planning, development and technical project planning of machines, mechanical appliances and installations for mechanical process engineering; Development of computer based networks; services of engineers and inspections in the field of energy generation; consultancy in the field of construction drafting; cloud computing; mass flow measurement; operating point measurement; industrial analysis; design and development of computer hardware and software; electric meter reading and data analysis for energy auditing purposes; design and development of computer hardware for the manufacturing industry; consultancy in the field of engineering; software creation and further development, and the use of software for costing nuclear dismantling projects, waste tracking and documentation, the radiological spatial data project information system; it services; design services relating to interior decorating for homes; testing such as vibration measurements, temperature profile analyses, and temperature profile adjustment; quality control and assessment services; research and development of new products relating to environment protection; construction drafting; computer software design; design, development and implementation of software===
===Licensing of computer software [legal services].===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===pupuk; persiapan temper; persiapan penyolderan; adhesives for use in industry; Bahan-bahan yang disebutkan di atas untuk pembuatan senyawa kimia dan komposit, khususnya dalam kombinasi dengan bitumen, karet, karbon atau plastik, yaitu plastik termoset, termoplastik dan elastomer, bubuk, bubuk halus, serat, serutan dan serpihan untuk keperluan industri yang terbuat dari bahan lignoselulosa, khususnya selulosa, kayu, gabus dan tanaman tahunan.; Bahan kimia industri; plastik yang belum diolah; sediaan kimia untuk digunakan dalam fotografi; komposisi pemadam api; kompos; synthetic resins, unprocessed; dempul dan bahan pengisi pasta lainnya; fertilizing preparations; bahan-bahan tersebut di atas dengan tambahan gabus dan/atau kulit pohon.; bahan kimia yang digunakan dalam sains; Sediaan biologis untuk digunakan dalam industri dan sains.; bahan kimia yang digunakan dalam kehutanan; plastik dalam bentuk bubuk, butiran, pelet, serpihan, dan aglomerat; bahan kimia untuk digunakan dalam pertanian; bahan kimia yang digunakan dalam hortikultura; komposisi pencegahan kebakaran; tanning compositions for animal skins===
===gemuk industri; candles for lighting; Oli mesin otomotif; lighting fuel; lilin; komposisi pengendali debu; bahan bakar; komposisi penyerap debu; wicks for candles.; pelumas; komposisi pembasah debu===
===bangunan dari logam; paduan logam biasa; safes; bagian struktural dan struktur logam umum serta paduannya; periksa rel logam untuk jalur kereta api; non-electric building materials of metal; tiang logam untuk bangunan; nuts of metal; besi cor, khususnya besi cor feritik, khususnya besi cor ulet, khususnya dengan kandungan nikel yang tinggi; bahan logam untuk jalur permanen kereta api funikular; wadah logam untuk penyimpanan sementara dan akhir bahan radioaktif; pipa kompensator, saluran gas buang berupa pipa gas, uap superpanas, air, kondensat, dan pipa minyak termal; bahan bangunan dan konstruksi serta elemen logam; tabung baja; bekisting dan cetakan logam; pelampung tambat dari logam; nosel logam; Jembatan [konstruksi] dan bagian-bagian strukturalnya, seperti pagar jembatan, tiang jembatan, bantalan jembatan, khususnya jembatan kereta api dan bagian-bagian strukturalnya yang terbuat dari logam, khususnya dari besi cor.; rel logam; penyangga logam; penjepit logam untuk pipa; refractory construction materials of metal; kuningan, mentah atau setengah jadi; wadah logam [penyimpanan, pengangkutan]; bantalan rel kereta api dari logam, khususnya besi cor; platform, prefabrikasi, dari logam; flensa logam [kerah]; turnstiles of metal; katup penutup dari logam, khususnya untuk pipa drainase; tanks of metal; timah, mentah atau setengah jadi; pintu logam; rangka logam untuk bangunan; braket logam untuk bangunan; daun jendela, bekisting, dan cetakan logam untuk beton.; ores of metal; besi cor dengan struktur matriks fase tunggal atau fase ganda, khususnya dengan struktur matriks fase tunggal yang terbentuk dari besi cor austenitik; structures and transportable buildings of metal; pengait panci dari logam; containers of metal for storing acids; besi cor, khususnya besi cor austenitik, khususnya besi cor ulet, khususnya dengan kandungan nikel yang tinggi; bahan penguat logam untuk pipa; saluran logam, untuk instalasi pemanas sentral; non-electric cables and wires of common metal; tangga logam; cerobong asap dari logam; wadah logam untuk penyimpanan, pengangkutan, dan pengemasan; brankas [logam atau bukan logam]; wadah logam untuk gas bertekanan atau udara cair; tiang-tiang logam; bangunan, portabel, dari logam; papan kayu dari logam; bangunan merupakan struktur tetap yang terbuat dari logam.; cetakan pengecoran logam; besi cor ulet; struktur penyangga dari logam; cast iron pipes; swage blocks; nampan pengumpul logam; cast steel; struktur logam untuk digunakan pada turbin angin dan turbin laut; bahan cor yang tidak mudah pecah; ruang penyimpanan yang aman; menangani palet logam; cetakan dingin [pabrik pengecoran]; bahan bangunan dari logam, khususnya bahan besi cor untuk rel kereta api, bahan besi cor untuk jembatan; pipa talang logam; tabung logam; copper, unwrought or semi-wrought; Bekisting, cetakan, dan profil logam untuk beton pracetak dan beton cor di tempat.; batangan logam biasa; penutup cerobong asap dari logam; bahan logam untuk bangunan dan konstruksi; brankas dan lemari besi dari logam, khususnya besi cor.; bahan penguat, dari logam, untuk beton; sekrup logam; katup penutup dari logam, khususnya untuk pipa gas, khususnya untuk pipa udara; jembatan sementara dari logam, khususnya besi cor; braket logam untuk furnitur; bahan bangunan dari logam; ducts of metal for ventilating and air-conditioning installations; bagian-bagian kecil logam; suku cadang dan perlengkapan untuk semua barang tersebut di atas, yang termasuk dalam kelas ini.; meja putar [kereta api]; wall claddings of metal for building; bahan rel kereta api dari logam; fish plates [rails]; besi cor untuk aplikasi panas; semburan logam; engine casings of metal, in particular cast iron; corong logam, non-mekanis; rel pemandu dari logam; penutup pipa logam; containers of metal, in particular cast iron, for storage, in particular for long-term storage; pelapis logam untuk bangunan; lembaran baja; logam piroforik; bagian-bagian struktural, seperti jembatan dan bagian-bagian jembatan; besi siku dari logam; kotak logam biasa; peti logam; steel alloys; mantel perapian dari logam; besi, mentah atau setengah jadi; Logam umum dan paduannya; Besi cor yang mengandung grafit bulat, khususnya dengan bola

grafit yang tertanam dalam struktur austenitik.; perangkat keras logam; penutup lubang got dari logam; struktur komposit logam, yaitu struktur komposit yang mengandung logam; struktur bangunan logam dan bagian-bagiannya; jangkar; bagian struktural, dari logam, untuk perahu, kapal, infrastruktur maritim, penerbangan, dan transportasi lokal.; cermets; framework of metal for building; struktur logam untuk digunakan dalam arsitektur; perlengkapan logam untuk furnitur; besi cor yang diproduksi dalam tungku induksi listrik; sambungan logam untuk pipa; pondasi mesin, yaitu pondasi mesin pres logam, khususnya besi cor.; wadah logam, khususnya besi cor, untuk transportasi; baja, mentah atau setengah jadi; perancah logam; pipa logam; pipa logam bercabang; tiang tambat dari logam; tong logam; partisi logam; besi cor, mentah atau setengah tempa; wadah logam untuk transportasi; pembatas jalan dari logam; katup penutup dari logam, khususnya untuk pipa air; wadah penyimpanan dari logam; bekisting logam untuk beton; logam umum dan paduannya; pipa logam, saluran pipa besar, pipa pembuangan uap; logam biasa, mentah atau setengah jadi; chimney cowls of metal; titik kereta api; pipa penyalur air dari logam; struktur logam untuk digunakan dalam industri bangunan; balok logam; ambang jendela dari logam; railway sleepers of metal; manifold logam untuk saluran pipa; logam dalam bentuk lembaran atau bubuk untuk printer 3D; bangunan baja; jeruji perapian dari logam; siku logam untuk pipa; armour-plating of metal; pelat jangkar; pintu lapis baja dari logam; panel akustik dari logam; latticework of metal; saluran logam untuk instalasi ventilasi dan pendingin udara; steel tubes; penutup logam untuk wadah; katup logam, selain bagian-bagian mesin; cerobong asap logam untuk teknologi energi dan pengeringan, untuk industri pembangkit listrik.; bahan logam untuk bangunan, khususnya besi cor untuk bangunan; bahan penguat logam untuk bangunan; tiang baja; Besi cor yang mengandung grafit bulat, khususnya dengan bola grafit yang tertanam dalam struktur feritik.; bahan besi cor padat===

===kompresor; motors, other than for land vehicles; Robot industri yang sebagian otomatis, sepenuhnya otomatis, atau dibantu kecerdasan buatan [pintar] untuk pemrosesan material dan produksi aset material [barang] dan produk setengah jadi, yaitu untuk produksi barang dan produk setengah jadi berbentuk jaring atau terdefinisi secara spasial yang tak terbatas atau terpisah dengan kandungan organik atau anorganik, yang diproduksi secara alami atau buatan, seperti material berbentuk jaring, panel, cetakan datar atau tiga dimensi, bagian yang dipres, atau coran.; kompresor [mesin]; peredam suara merupakan bagian dari mesin.; robot pelukis; penukar panas (bagian-bagian mesin); unit kontrol proses [mekanis]; pengikis kayu gelondong panjang; machines and mechanical appliances for conveying, feeding and dosing materials into a production process, and parts thereof; pemisah udara dinamis dan statis, pemisah aliran silang, pemisah sentrifugal, pemisah keranjang, pemisah terbalik, pemisah kaskade, pemisah gravitasi, pemisah zig-zag, mesin pengayak, mesin pengayak vakum, mesin pengayak getar, mesin penyaringan drum, mesin penyaringan getar, mesin pengayak datar, mesin pengayak arus eddy, mesin pengayak putar, pemisah rol, mesin penyaring, filter selang (bagian mesin), filter kartrid (bagian mesin), filter saku (bagian mesin), siklon, pemisah, sentrifugal, penghancur, mesin peniup, mesin ekstraksi, drum magnetik (bagian mesin), rol magnetik (bagian mesin), kisi-kisi magnetik (bagian mesin), pemisah mekanis, pemisah gravitasi, pemisah magnetik sabuk atas, pemisah induksi, kumparan deteksi logam (bagian mesin); alat untuk mesin pengolahan plastik; penggerak untuk konveyor; mesin pengencang baut, khususnya untuk reaktor air bertekanan, reaktor air mendidih; mesin untuk memproduksi struktur dan arsitektur organik dan anorganik homogen dan komposit yang melengkung sederhana atau ganda; membrane presses, namely fluid-loaded membrane presses for the production of shaped parts, namely continuously or intermittently operating membrane presses for the production of shaped parts from materials derived from raw materials, namely plant-based raw materials, alloyed and unalloyed steels, composite materials, metal and steel sheets, organosheets, plastics, organic and inorganic materials, materials containing minerals; mesin dan peralatan mekanik untuk teknik proses mekanik, dan instalasi yang dibangun dari barang-barang tersebut di atas; bagian-bagian dari selubung, bagian-bagian mesin, khususnya bagian-bagian mesin yang bergerak.; penggiling cakram; kunci mesin sortir [pintu air]; penegang tunggal untuk reaktor air bertekanan dan mendidih; mesin untuk memproduksi arsitektur homogen dan komposit organik dan anorganik; unmanned transportation conveyors being cargo handling machines; mesin penghancur; perangkat pengencang baut untuk generator uap; mesin penyaring, pemisah, dan sentrifugasi; mesin dan peralatan yang digerakkan secara mekanis serta instalasi pembangkit energi yang dibentuk darinya dan instalasi pengeringan industri yang dipanaskan baik secara langsung melalui gas panas maupun secara tidak langsung melalui uap, air panas, dan minyak termal; mesin pencampur untuk pengolahan kimia; mesin produksi dan pengolahan material; penyaring; mesin cetak transfer resin; bagian besi cor untuk pipa [bagian mesin]; generator listrik; sistem teknologi pengencangan baut; pengencang multi-stud; mesin, unit penggerak dan bagian-bagian mesin, rumah mesin, piston, batang piston, ring piston, batang roda gigi, roda gigi, roda bergigi, gandar, poros dan katup, turbin, kompresor, semuanya merupakan bagian dari mesin; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari campuran bahan baku, yaitu campuran dua atau lebih bahan baku asal tunggal [basis], yang setidaknya satu di antaranya membentuk fase kontinu [material komposit], yaitu material komposit yang memiliki matriks dan jaring yang tersusun di dalamnya, yaitu material komposit dengan matriks yang terbuat dari resin dan struktur serat atau jaring yang terbuat dari karbon.; Mesin pres mekanik atau hidrolik satu dan multi-daylight untuk produksi komponen berbentuk, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi komponen berbentuk dari bahan yang berasal dari bahan baku, yaitu bahan baku nabati, baja paduan dan non-paduan, material komposit, lembaran logam dan baja, lembaran organik, plastik, material organik dan anorganik, material yang mengandung mineral.; mesin pembersih baut, mesin pembersih baut bejana tekan reaktor; stuffing screws; mesin dispenser otomatis; mesin pembersih lubang buta, khususnya untuk aplikasi industri; katup [bagian-bagian mesin]; machines for washing materials, in particular wood, fibrous materials, food and animal foodstuffs, plastics, chemicals, pharmaceutical and cosmetic products and minerals; Mesin untuk menghancurkan material lunak hingga agak keras seperti mineral, plastik, kayu, bahan makanan dan pakan ternak, kulit, selulosa, karet, elastomer, dan lembaran logam lunak.; konveyor dan sabuk konveyor; mesin pembersih untuk reaktor; insulating-material processing machines; mesin dan peralatan mekanis untuk memampatkan, memadatkan, menggumpalkan, mencampur, dan melapisi material, seperti material berbentuk lembaran, panel, produk cetakan, produk pres, dan produk cor [hasil coran]; vibrator [mesin] untuk penggunaan industri; mesin untuk pembuatan struktur dan arsitektur; Semua barang yang disebutkan di atas untuk pengolahan potongan berbentuk kontinu atau terbatas dan bahan curah, serta bahan pasta, bahan yang mudah mengalir, bahan nabati, dan bahan berserat dan campuran bahan, serta cairan, campuran cairan-padat dan suspensi dengan konsistensi rendah dan tinggi, khususnya bahan berserat seperti bahan yang mengandung lignin atau lignoselulosa, bahan komposit seperti lembaran organik khususnya, plastik dan plastik dengan campuran komponen tanaman tahunan atau abadi seperti kayu, limbah kayu, rumput, kulit kayu, kertas, karton, selulosa, atau dengan komponen bahan lain, seperti tekstil, limbah, karet, resin, kulit, makanan, makanan mewah, dan pakan ternak, mineral, karbon, plastik, pigmen, pewarna, farmasi, produk kimia, logam, bahan komposit, limbah elektronik, kabel, dan ban bekas, suku cadang, komponen pengganti, aksesori, dan peralatan untuk barang-barang yang disebutkan di atas, sejauh termasuk dalam kelas ini.; peralatan mesin; potongan dorong; ketel uap mesin uap

untuk pembangkit listrik, selain untuk kendaraan darat.; mesin pencampur industri; lacquering installations; cast hoppers [parts of machines]; penghancur drum, penghancur bal, guillotine, gunting guillotine, gunting besi tua, mesin pres besi tua, mesin penghancur serpihan kayu, mesin penghancur serpihan kayu drum, mesin penghancur serpihan kayu cakram, mesin penghancur serpihan kayu plastik, penghancur vertikal, penghancur, penghancur poros tunggal, penghancur poros ganda, penghancur horizontal, penghancur vertikal; kopling transmisi daya [selain untuk kendaraan darat]; mesin sortir untuk industri; Mesin pres mekanik atau hidrolik satu dan multi-lapisan untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari bahan baku, yaitu bahan baku nabati, yaitu bahan baku yang diperoleh dari tanaman tahunan atau abadi, menjadi material berbentuk panel satu atau multi-lapisan seperti papan serat, papan partikel, papan serat berorientasi [OSB] atau menjadi bentuk campurannya [papan hibrida]; mesin pembersih, khususnya untuk aplikasi industri; rolling mills, mills and wind turbines, in particular wind turbine foundations, casings, frameworks and rotor casings; cast filters [parts of machines]; Mesin untuk menghancurkan bahan-bahan yang sensitif terhadap suhu seperti plastik, termoplastik, plastik termoset, elastomer, makanan dan makanan mewah, bahan aromatik, bahan farmasi dan kosmetik, bahan kimia, bahan yang mengandung minyak dan lemak, bahan yang sangat kental dan lengket, serta bagian-bagiannya.; tools for mineral processing machines; peralatan pengangkat dan derek; peralatan mekanik untuk mesin pengecoran dan mesin produksi logam; mesin pengolah bubur kertas [pemurni]; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari plastik, yaitu termoplastik, plastik termosetting, atau elastomer.; mesin pengecatan yang menggabungkan jalur pengecatan; mesin pengangkat dan instalasi untuk mengangkut material curah; propulsion mechanisms, other than for land vehicles; bagian-bagian rumah mesin; pompa untuk instalasi pemanas industri dan tungku; machines for generating and converting energy, for example steam engines, wind turbines, hydroelectric power plants, turbines; mesin pengolahan komposit; mesin pengangkat untuk pengangkutan beban; komponen hidrolik bertekanan tinggi dan sistem penyegelan [bagian-bagian mesin]; kompresor untuk lemari es; mesin pengikis, mesin pengikis cincin pisau, mesin pengikis cakram, mesin pengikis universal, mesin penggiling, mesin penggiling kriogenik, mesin penghancur tumbukan, mesin penggiling palu, mesin penggiling pemukul silang, mesin penggiling lapisan layanan presisi, mesin penggiling pusaran, mesin penggiling cakram bergigi, mesin penggiling kulit kayu, mesin penggiling delaminasi, mesin penghancur tumbukan; machines and mechanical appliances for mixing, dispersing, emulsifying and homogenising materials; mesin untuk mengolah plastik; katup dan pintu air untuk mesin dan sistem transportasi; machines and mechanical apparatus for conveying, feeding and dosing materials into a production process; robot otonom dalam ruangan untuk penggunaan industri; Mesin penggiling, penggiling untuk penggilingan kriogenik, penghancur penggiling benturan, penggiling palu, penggiling pemukul silang, penggiling lapisan permukaan presisi, penggiling pusaran angin, penggiling cakram bergigi, penggiling kulit kayu, penggiling delaminasi, penghancur sekunder, penggiling pengklasifikasi, instalasi lapisan penggilingan, penggiling halus, penggiling presisi, penggiling untuk menghasilkan bubuk mineral dan logam, granulator, granulator basah, granulator pipa, granulator presisi, granulator profil, granulator rangka timah, granulator busa keras, granulator film, granulator kecil, peletizer, granulator untai, granulator pita, mesin pemotong, mesin pemotong drum, penggiling palu, penggiling palu benturan, pemisah pulp, mesin penghancur benturan, penggiling turbo, penggiling hidung tiup, penggiling pin, penggiling universal, penggiling bola, penggiling jet, penggiling jet berlawanan, penggiling koloid, penggiling aliran berlawanan, penggiling aliran ganda, penggiling rol; Mesin dan peralatan mekanis untuk daur ulang dan pemisahan material, khususnya untuk memisahkan komponen material komposit.; penggiling; mekanisme kontrol untuk mesin, motor atau mesin penggerak; alat untuk mesin pengolahan material komposit; power operated tools; mesin dan peralatan mekanis untuk memisahkan material curah dengan kepadatan dan/atau ukuran yang berbeda; motors [other than for land vehicles]; plant shredding machines; guides for machines; mesin dan peralatan mekanis untuk penghancuran, granulasi, disintegrasi, de-agglomerasi, defibrasi dan penggilingan halus dan ultra-halus bahan, dan bagian-bagiannya; mesin dan peralatan mekanis untuk pengkondisian material; konveyor; pengisi ulir; perkakas mesin untuk mesin pengolahan kayu; mesin dan peralatan mekanis untuk pemisahan, klasifikasi, pembuangan, penghilangan gas, dan pengisian material; suku cadang, komponen pengganti, aksesori, dan peralatan untuk barang-barang yang disebutkan di atas, yang termasuk dalam kelas ini.; matriks (bagian-bagian mesin); machines for processing organic and inorganic homogeneous and composite materials; mesin produksi logam; mesin pengolahan logam; mesin dan instalasi untuk produksi serpihan kayu; ring gesekan; mesin untuk mengolah bahan organik dan anorganik homogen dan komposit; mesin penghancur kayu; palung cor dan pelat cor [bagian-bagian mesin]; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari material yang diperkuat, yaitu plastik yang diperkuat serat seperti plastik yang diperkuat serat kaca atau karbon, komposit, komposit karet-baja, seperti material sabuk konveyor atau tapak ban, material daur ulang.; alat untuk mesin pengolahan bahan isolasi; Mesin yang dioperasikan secara manual, sebagian otomatis atau sepenuhnya otomatis [seperti mesin produksi dan pengolahan material], peralatan mekanik, perkakas mesin, instalasi dan bagian instalasi untuk pengolahan material dan produksi aset material [barang] dan produk setengah jadi, yaitu untuk produksi barang dan produk setengah jadi berbentuk jaring atau terdefinisi secara spasial yang tak berujung atau terpisah dengan kandungan organik atau anorganik, yang diproduksi secara alami atau buatan, seperti material berbentuk jaring, panel, cetakan datar atau tiga dimensi, bagian yang dipres atau coran.; rumah mesin; pompa vakum [mesin]; mengalahkan para penipu; archimedian screws; mesin pengolahan mineral; mesin untuk memproduksi panel dan permukaan komposit dan homogen organik dan anorganik yang melengkung; pabrik penggilingan; moving and handling equipment; mesin dispenser; perangkat pembubutan baut seperti perangkat pembubutan baut tunggal, perangkat pembubutan baut ganda, perangkat pembubutan baut multi, yaitu untuk aplikasi industri.; mesin dan instalasi untuk pemrosesan mekanis bahan dan bahan curah menjadi bubuk dan butiran; perangkat kontrol untuk mesin dan instalasi; komponen transmisi (kecuali untuk kendaraan darat); Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau berselang-seling untuk produksi material atau produk yang terdiri dari dua atau lebih lapisan yang diikat atau direkatkan bersama di seluruh area, di mana lapisan tersebut dapat terdiri dari jenis material yang sama atau berbeda dan dari jenis material yang sama atau berbeda [laminasi], yaitu foil pemanas, foil suhu, foil display, material isolasi laminasi, komposit aluminium seperti komposit aluminium-kayu, komposit aluminium-komposit seperti aluminium yang diperkuat serat kaca, komposit kemasan seperti komposit karton minuman, material komposit dari bahan nabati dan plastik, komposit mineral seperti komposit porselen stoneware-plastik.; Mesin, instalasi mesin dan bagian-bagiannya untuk teknik proses mekanik dan kimia serta untuk produksi aset material [barang] dan produk setengah jadi, yaitu untuk produksi barang dan produk setengah jadi berbentuk jaring tak berujung atau terpisah atau yang terdefinisi secara spasial dengan kandungan organik atau anorganik, yang diproduksi secara alami atau buatan, seperti material berbentuk jaring, panel, cetakan datar atau tiga dimensi, bagian yang dipres atau coran.; peralatan pertanian, penggalian tanah, konstruksi, ekstraksi minyak dan gas,

serta pertambangan; mekanisme penggerak, selain untuk kendaraan darat; Mesin pres mekanis atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanis atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari bahan isolasi, yaitu wol batu, wol kaca, wol terak, poliuretan, wol kayu atau wol kaca.; perangkat dosis roda sel [bagian-bagian mesin]; atomising machines; mesin untuk memproduksi struktur homogen dan komposit organik dan anorganik; mesin dan peralatan mekanis untuk mencuci bahan; alat bantu untuk memproduksi coran, yaitu corong dan filter [bagian-bagian mesin]; mesin peniup; cetakan yang dapat digunakan berkali-kali, lebih disukai cetakan dingin, yaitu cetakan dingin tunggal dan cetakan dingin ganda [bagian mesin]; pengangkut [mesin]; Mesin yang dioperasikan secara manual, sebagian otomatis, atau sepenuhnya otomatis [seperti mesin produksi dan pengolahan material], peralatan mekanik, perkakas mesin, instalasi dan bagian instalasi untuk pengolahan material dan produksi coran dari logam besi dan non-besi paduan dan tanpa paduan, baja paduan dan tanpa paduan, lebih disukai coran dalam cetakan besar.; konveyor apron, lantai geser, konveyor sabuk, konveyor ember, konveyor rantai tabung, sekrup pengisi, sekrup Archimedes, pengisi ulir, pintu air, katup pengatur dosis, perangkat pengumpan yang dioperasikan secara hidrolik atau pneumatik, mesin peniup, konveyor beban, konveyor getar, palung konveyor berosilasi, rantai pengangkut, dan konveyor rantai seret.; regulators [parts of machines]; mesin pengecoran; agricultural implements other than hand operated hand tools; mesin pembentuk dan pencetak; pemecah batu, penghancur rahang, penghancur primer; pengaduk, mixer putar, mixer kerucut, mixer batch, mixer ulir; alat untuk pengolahan material komposit; generator; cetakan untuk produksi [bagian-bagian mesin]; Mesin pres mekanik atau hidrolik satu atau multi-daylight untuk produksi material berbentuk panel, yaitu mesin pres mekanik atau hidrolik yang beroperasi terus menerus atau terputus-putus untuk produksi material berbentuk panel dari bahan baku mineral, yaitu dari gipsum, bahan tanaman yang dikarbonisasi, silikon dioksida, silikat atau keramik, semen portland, senyawa gipsum-semen-pozzolan [pengikat gcp], pengikat magnesia.; lapisan (bagian-bagian mesin); rol; parts and fittings for all the above goods; mesin untuk memproses material komposit; pengering unggun terfluidisasi, pengering drum, pendingin sekrup; alat-alat pertanian selain alat-alat tangan yang dioperasikan dengan tangan; Unit dan instalasi kontrol dan pengaturan untuk mesin yang dioperasikan secara manual, sebagian otomatis, atau sepenuhnya otomatis [seperti mesin produksi dan pengolahan material], peralatan mekanik, perkakas mesin, instalasi dan bagian instalasi untuk pengolahan material dan produksi aset material [barang] dan produk setengah jadi, lebih disukai dalam bidang teknik proses mekanik atau kimia dan konstruksi mesin umum dan khusus, konstruksi kendaraan dan dukungan produksi seri.; menempelkan tabung lampu kilat [bagian dari mesin]; mesin pengikat; robot industri; bagian-bagian mesin, yaitu bagian-bagian besi cor, untuk mesin dan peralatan mesin untuk pengolahan material dan produksi; machines and mechanical appliances for mixing and homogenising materials; mesin dan peralatan mesin untuk pengolahan material dan untuk manufaktur; cetakan [bagian-bagian mesin], khususnya cetakan dingin dan matriks; Mesin ekstrusi, mesin cetak injeksi, aglomerator, mixer pemanas/pendingin, pemadat, kalender dan bagian-bagian kalender, mesin peletisasi, mesin briket, pabrik pelet, kompresor basah, kompresor ulir, mesin pres sabuk ganda, mesin pengemas, mesin pengepres baling saluran; mesin pengolahan material komposit; Mesin dan instalasi di bidang otomatisasi pers, otomatisasi industri, dan otomatisasi transportasi serta suku cadangnya.; instalasi pelapis [pelapis], yaitu pelapis aliran dan pelapis bak; separating machines; Mesin dan instalasi untuk penghancuran dan pengolahan termoplastik, limbah plastik, dan karet.; cetakan [bagian-bagian mesin]; Alat pemotong, penggeseran, pencampuran, penggilingan, benturan, dan pemukul, semuanya merupakan bagian dari mesin, pisau [bagian dari mesin], blok pemotong, cakram pemotong, ujung pemotong, strip penggeseran, jalur penggilingan, cakram penggilingan, pin penggilingan, segmen penggilingan, kisi penggilingan, set penggilingan, rol penggiling panci, ayakan [bagian dari mesin], jalur penyaringan, layar cakram, layar drum, lembaran berlubang [bagian dari mesin], pelat pemukul, strip benturan, palu [bagian dari mesin], silinder, rol pinion, pemotong penggilingan silindris, kisi-kisi [bagian dari mesin], batang penyaring, pelat batang dan kisi-kisi, bilah pencampur, fitting tekanan, matriks [bagian dari mesin], bilah dokter, cam rem, pelapis [bagian dari mesin], pelat aus [bagian dari mesin], cakram aus, cincin aus, strip aus, sepatu aus; instrumen kontrol proses [mekanik]; machine tools; Instalasi teknik proses mekanis untuk membentuk campuran bahan tabur yang mudah mengalir, yaitu bahan berserat, bahan serpihan, plastik, karbon, bahan pengikat kering, resin atau bahan mineral, dalam bentuk geometris tertentu dengan gramatur tertentu, dengan bantuan peralatan penakar, penyebar, dan pengangkut yang telah disinkronkan melalui sistem pemantauan dan pengukuran.; gantry canes and parts of gantry cranes; mesin transfer; perkakas bertenaga listrik; alat untuk mesin pengolahan komposit; mesin pengolahan kayu===

pemasangan peralatan komunikasi; Perbaikan dan perawatan mesin perkakas untuk mesin pengolahan kayu.; pemasangan peralatan penerangan; Pemasangan, konstruksi, dan pembongkaran fasilitas untuk memilah limbah radioaktif tingkat rendah, caisson dan housing, penutup drum otomatis, sel panas, pengepres dalam drum, penyemenan limbah cair, manajemen pembuangan elemen bahan bakar, data dan perhitungan untuk perlindungan terhadap radiasi, sistem komputer proses, kontrol dosis pribadi dan berbasis pekerjaan.; Jasa instalasi yang berkaitan dengan: peralatan pengangkat dan derek, jasa instalasi yang berkaitan dengan: mesin pengolahan kayu; perbaikan dan perawatan mesin pengolahan kayu; penyewaan peralatan mesin; pemasangan, pembangunan kembali, pengoperasian, pemeliharaan, pembersihan, dan perbaikan mesin serta peralatan dan instalasi mekanik untuk teknik proses mekanik yang diproduksi darinya.; Pekerjaan instalasi mekanik dan listrik untuk manufaktur khusus industri, yaitu manufaktur khusus industri berupa suku cadang khusus, peralatan khusus, mesin khusus, instalasi khusus dan bagian-bagian instalasi khusus untuk produksi barang-barang hasil pengepresan.; gas drilling; jasa instalasi konveyor dan sabuk konveyor; pemasangan struktur tarik tinggi; Konstruksi, instalasi, perbaikan, pemeliharaan, renovasi, pemugaran, dan perbaikan menyeluruh instalasi pemanas industri dan tungku untuk menghasilkan panas dan uap, instalasi untuk melindungi lingkungan, dan instalasi untuk keperluan pengeringan industri.; perbaikan dan pemeliharaan mesin produksi dan pengolahan material===
===pembuatan alat sesuai pesanan untuk pihak lain; penyelesaian logam; Pengolahan material menggunakan teknik proses mekanik, yaitu melalui penghancuran, pengatomisasian, penggumpalan, pemisahan, pengayakan, pencampuran, penyimpanan, penggabungan atau pembentukan, misalnya dengan pengepresan.; mengerjakan suku cadang untuk orang lain; pelapisan krom pada barang-barang logam; Pengolahan material yang sensitif terhadap suhu menggunakan teknik proses mekanik, yaitu melalui penghancuran, pengatomisasian, penggumpalan, pemisahan, pengayakan, pencampuran, penyimpanan, penggabungan atau pembentukan, misalnya dengan pengepresan.; perawatan ledakan; ekstrusi paduan logam; laminasi logam; pemrosesan permukaan logam dengan pemolesan abrasif; Perlakuan terhadap bagian logam untuk mencegah korosi menggunakan proses galvanisasi celup panas dan pelapisan bubuk.; Pengolahan bagian struktural besar dengan volume individual minimal 500 liter menggunakan teknik proses kimia atau mekanik, yaitu melalui penghancuran, pengatomisasian, penggumpalan, pemisahan, pengayakan, pencampuran, penyimpanan, penggabungan atau pembentukan, khususnya pengepresan.; pengecoran logam; Produksi industri dan pembuatan khusus komponen struktural seri atau khusus melalui proses pengecoran, pembentukan, pemisahan (misalnya pemotongan), penyambungan (misalnya penyolderan), pelapisan (misalnya pernisan), dan perubahan sifat material (misalnya pengerasan).; custom manufacture and assembly services; penyambungan logam; galvanisasi logam; Pengolahan material dalam bentuk penghancuran, pencincangan, pemotongan, delaminasi, defibrasi, penggilingan, penggilingan kriogenik, penggilingan halus dan presisi, pencampuran,

pelapisan, pembasahan, pembuatan pelet, penggabungan, pemadatan, granulasi, aglomerasi, koagulasi, pemisahan dan daur ulang material sebagai layanan untuk pihak lain.; treating [tempering] of metal; pemolesan logam; Produksi industri dan manufaktur sesuai pesanan, yaitu bagian-bagian logam yang dibubut, bagian-bagian plastik yang dibubut, bagian-bagian besar yang dibubut seperti poros dan silinder untuk mesin dan instalasi, bagian-bagian logam yang digiling, bagian-bagian plastik yang digiling, bagian-bagian besar yang digiling seperti bagian-bagian untuk konstruksi mesin dan pabrik, yaitu untuk konstruksi instalasi pengolahan bahan berserat, mesin pres yang beroperasi secara intermiten atau kontinu dan mesin pres besar untuk pengolahan bahan berserat seperti kertas, karton, kayu olahan, komposit serat, plastik, bahan komposit, besi, baja, bahan cor.; Manufaktur kustom industri untuk komponen struktural, peralatan, mesin, instalasi, dan bagian-bagian instalasi untuk produksi barang khusus atau barang yang diproduksi secara massal.; pencetakan; surface finishing of metal articles; manufaktur khusus industri, yaitu manufaktur khusus industri berupa suku cadang khusus, peralatan khusus, mesin khusus, instalasi khusus dan bagian-bagian instalasi khusus untuk produksi atau pengolahan barang yang mengandung serat alami, struktur komposit, yaitu struktur komposit non-logam, dan material komposit logam serta material komposit yang mengandung plastik.; pengolahan kayu; pengerasan logam; perlakuan atau pemrosesan bahan secara mekanis atau kimiawi; sandblasting services; metalworking; pengolahan [pembentukan] logam; Pembangkit uap dan listrik dari biomassa; layanan peleburan logam; pemrosesan cetakan untuk pembuatan coran, khususnya coran berukuran besar; recycling of waste; pemurnian udara; manufaktur khusus industri untuk komponen struktural, peralatan, mesin, instalasi dan bagian instalasi untuk teknik proses [kimia]; pemrosesan permukaan logam menggunakan teknik penggerindaan presisi; shot blasting; produksi mesin, peralatan mekanik, dan instalasi untuk teknik proses mekanik; manufaktur khusus industri untuk komponen struktural, peralatan, mesin, instalasi dan bagian instalasi untuk teknik proses [mekanik]; waste treatment [transformation]; processing of fibrous materials and waste wood to form cellulose powder and wood flour; pembentukan komponen logam; pengolahan [penempaan] logam; pencetakan logam; perawatan dan pelapisan permukaan logam; Jasa bengkel pengolahan cetakan untuk pembuatan coran, khususnya coran berukuran besar.; daur ulang limbah; pengolahan makanan; metal treating; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production of pressed goods; generation of energy, in particular hot gases, steam, thermal oil and electricity; pembuatan mesin sesuai pesanan; Penyewaan mesin dan peralatan mekanik untuk memproses dan mengubah bahan untuk pembuatan sesuai pesanan.; pengolahan air; layanan pengelasan; pengecoran cetakan; Jasa peleburan metalurgi untuk memproses cetakan untuk pembuatan coran, khususnya coran berukuran besar.; Layanan pengolahan material terkait daur ulang, yaitu kayu, kertas, karton, OCC, dalam kombinasi dengan bahan pengikat, plastik, lumpur limbah, batu bara, limbah debu batu bara, limbah kemasan campuran.; Pengolahan material berupa barang satuan dan barang curah, serta pasta, cairan, zat nabati dan berserat, dan campuran zat, serta cairan, campuran cairan/padat, dan suspensi dengan konsistensi rendah dan tinggi.; Pembuatan model sesuai pesanan untuk menghasilkan cetakan guna membuat coran, lebih disukai coran berukuran besar.; recycling of recycling materials, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste; hard chromium plating and hard nickel plating of metal surfaces; pengolahan dan pengecoran logam, pendinginan produk coran logam, pengerasan logam dan produk logam; metal tempering; layanan pencetakan khusus; pengawetan makanan; pembangkit listrik; custom manufacture and processing of organic and inorganic homogeneous and composite goods, semi-finished products, structures and architecture, namely for the building industry, the production of panels, vehicle and aircraft construction, machine and plant construction in a level form or in a simply or multiply curved form; peleburan metalurgi; incineration of waste and trash; material processing of temperature-sensitive materials using chemical process engineering; Konsultasi di bidang manufaktur barang homogen dan komposit organik dan anorganik yang datar, melengkung sederhana atau berstruktur ganda, serta produk setengah jadi dan struktur.; pengolahan [pelapisan enamel] logam; pemotongan logam; Pembuatan komponen struktural, peralatan, mesin, instalasi, dan bagian instalasi sesuai pesanan industri untuk produksi barang tanpa batas, yaitu barang berbentuk lembaran [datar], seperti barang berserat, yaitu panel berbahan dasar tumbuhan, barang yang mengandung mineral, yaitu panel yang mengandung mineral, yaitu barang yang mengandung wol batu atau bahan komposit seperti lembaran organik, barang logam besi dan non-besi atau barang yang mengandung plastik, yaitu panel yang mengandung plastik.; layanan reproduksi 3D; Pengolahan material lignoselulosa, material komposit seperti lembaran organik khususnya, plastik, dan plastik dengan tambahan kayu, limbah kayu, kertas, karton, selulosa, tekstil, limbah, karet, lateks, resin, kulit, makanan, makanan mewah dan pakan ternak, mineral, pigmen, pewarna, farmasi, produk kimia, logam, material komposit, limbah elektronik, kabel dan ban bekas.; pengolahan mineral dan logam untuk membentuk bubuk mineral dan logam; pengolahan material menggunakan teknik kimia; vulkanisasi [perlakuan material]; pencetakan 3D khusus untuk orang lain; pengolahan [embossing] logam; pengawetan minuman; Pelapisan bahan yang dapat dilapisi, yaitu kayu, kertas, karton, selulosa, tekstil, plastik, karet, mineral, farmasi, produk kimia, logam, dan material komposit.; pengolahan [pencetakan] logam; moulding shop services for generating moulds for the manufacture of castings, in particular large castings=== ===Instruksi dan pelatihan bagi pengguna dan staf layanan, khususnya yang berkaitan dengan pabrik penggilingan dan pemurnian.; kegiatan hiburan, olahraga, dan budaya; menyelenggarakan acara budaya dan seni; Layanan presentasi tampilan audio-visual untuk tujuan hiburan.; penyelenggaraan acara olahraga; penyewaan peralatan dan fasilitas audio/visual dan fotografi; layanan informasi dan konsultasi terkait hiburan; pelatihan; kegiatan budaya; aktivitas olahraga; hiburan radio; penyelenggaraan pertunjukan untuk tujuan hiburan; arranging of presentations for entertainment purposes; production of sound recordings; pelatihan dan pengajaran bagi pengguna dan staf layanan, khususnya yang berkaitan dengan unit kontrol dan pengaturan, yaitu unit kontrol dan pengaturan mesin industri, instalasi dan bagian instalasi, yaitu mesin, instalasi dan bagian instalasi untuk produksi aset material.; penyediaan acara rekreasi; organization of entertainment events; instruction and training of users and service staff, namely relating to energy-generating installations; Layanan pelatihan yang berkaitan dengan adaptasi dan penggunaan sistem pemantauan, yaitu pengukuran getaran dan sistem pengukuran getaran, pemantauan pemotongan dan sistem pemantauan pemotongan, pengukuran getaran bilah dan sistem pengukuran getaran bilah, analisis tanah dan sistem analisis tanah, analisis sistem lingkungan dan pemantauan emisi, serta prakiraan yang diperoleh darinya dan perhitungan ilmiah dan teknik yang diperlukan, analisis informasi tanah serta sistem informasi tanah dan sistem kadaster perlindungan tanah dan penggunaan serta evaluasinya, pemeliharaan elektronik struktur dan badan air, pembuatan, pengoperasian, penyediaan, pengembangan lebih lanjut dan evaluasi basis data iklim, analisis air tanah statistik, pembuatan, pengoperasian, penyediaan, pengembangan lebih lanjut dan evaluasi sistem informasi air minum dan sistem basis data dan informasi lainnya, seperti sistem informasi pemerintah, sistem informasi tanah dan register perlindungan tanah, pemeliharaan elektronik struktur dan badan air, sistem kalibrasi berbantuan komputer, sistem manajemen dokumen, penyeimbangan dan penganggaran data energi, manajemen laporan kejadian, sistem informasi dan pelaporan unsur bahan bakar, manajemen pembuangan unsur bahan bakar, sistem manajemen dan pelaporan data pengukuran dan laboratorium, layanan yang berkaitan dengan fisika nuklir, pengumpulan data seluler, manajemen orang yang terpapar secara kerja, dan

sebagainya. Sebagai orang yang diklasifikasikan sebagai terpapar radiasi secara kerja sesuai dengan peraturan perlindungan radiasi Jerman, pengendalian dosis pribadi dan berbasis pekerjaan, data dan perhitungan untuk perlindungan radiasi, pengoperasian dan penyediaan sistem komputer proses, perhitungan, pembuatan, pengoperasian dan penyediaan sistem komputer proses yang dioptimalkan lokasi untuk pemantauan dan pengendalian berdasarkan standar yang telah teruji di industri, serta sistem informasi proyek dan data spasial radiologi dan sistem informasi proses.; instruksi dan pelatihan pengguna dan staf layanan, khususnya yang berkaitan dengan instalasi pemanas dan tungku untuk menghasilkan panas dan uap, pemurnian gas buang, dan instalasi pengeringan.; Pelatihan dan instruksi bagi pengguna dan staf layanan, khususnya yang berkaitan dengan pengoperasian mesin pres, yaitu mesin pres yang beroperasi terus menerus atau terputus-putus dan mesin pres besar, mesin pres satu atau multi-daylight, mesin pres untuk menghasilkan barang tanpa batas, yaitu produk web berupa barang web berbahan dasar serat alami untuk produksi panel, berupa barang web berbahan dasar organik atau anorganik untuk produksi panel, berupa barang web pembentuk komposit untuk produksi material komposit, seperti lembaran organik.; layanan hiburan; hiburan musik; mengatur dan menyelenggarakan acara hiburan; perencanaan pesta [hiburan]; pelatihan dan instruksi bagi pengguna dan staf layanan, khususnya yang berkaitan dengan unit kontrol dan pengaturan, yaitu unit kontrol dan pengaturan instalasi untuk teknik proses mekanik atau kimia; Layanan penyewaan yang berkaitan dengan peralatan dan fasilitas untuk pendidikan, hiburan, olahraga, dan budaya.; organisasi partai; penyelenggaraan acara pendidikan; instruksi dan pelatihan pengguna dan staf layanan, khususnya yang berkaitan dengan instalasi pengolahan serat alami; organisation of entertainment and cultural events; conducting of educational events; Instruksi pendidikan; pelatihan dan instruksi bagi pengguna dan staf layanan, khususnya yang berkaitan dengan unit kontrol dan pengaturan, yaitu unit kontrol dan pengaturan perangkat lunak, khususnya perangkat lunak untuk mengendalikan instalasi industri, seperti instalasi produksi atau instalasi untuk teknik proses mekanik atau kimia dan bagian-bagian dari instalasi tersebut.; layanan hiburan yang disediakan di diskotek; conducting of cultural events; instruksi dan pelatihan pengguna dan staf layanan, khususnya yang berkaitan dengan mesin dan instalasi pengolahan plastik.; instruksi dan pelatihan pengguna dan staf layanan, khususnya yang berkaitan dengan instalasi produksi industri; layanan hiburan yang berkaitan dengan olahraga; Instruksi dan pelatihan bagi pengguna dan staf layanan, khususnya yang berkaitan dengan penggunaan mesin, instalasi, dan bagian-bagian instalasi untuk teknik proses mekanik atau kimia.===
===layanan desain khusus; menyediakan lingkungan komputasi virtual melalui komputasi awan; studi proyek teknis; penelitian teknis; pengukuran aliran volume; Perencanaan, pengembangan, dan perencanaan proyek teknis mesin, peralatan mekanik, dan instalasi untuk teknik proses mekanik.; Pengujian dan pengendalian mutu sistem pemantauan, yaitu pengukuran getaran dan sistem pengukuran getaran, pemantauan pemotongan dan sistem pemantauan pemotongan, pengukuran getaran bilah dan sistem pengukuran getaran bilah, analisis tanah dan sistem analisis tanah, analisis sistem lingkungan dan pemantauan emisi, serta prakiraan yang diperoleh darinya dan perhitungan ilmiah dan teknik yang diperlukan, analisis informasi tanah serta sistem informasi tanah dan sistem kadaster perlindungan tanah dan penggunaan serta evaluasinya, pemeliharaan elektronik struktur dan badan air, pembuatan, pengoperasian, penyediaan, pengembangan lebih lanjut dan evaluasi basis data iklim, analisis air tanah statistik, pembuatan, pengoperasian, penyediaan, pengembangan lebih lanjut dan evaluasi sistem informasi air minum dan basis data dan sistem informasi lainnya, seperti sistem informasi pemerintah, sistem informasi tanah dan register perlindungan tanah, pemeliharaan elektronik struktur dan badan air, sistem kalibrasi berbantuan komputer, sistem manajemen dokumen, penyeimbangan dan penganggaran data energi, manajemen laporan kejadian, sistem informasi dan pelaporan unsur bahan bakar, manajemen pembuangan unsur bahan bakar, sistem manajemen dan pelaporan data pengukuran dan laboratorium, layanan yang berkaitan dengan fisika nuklir, pengumpulan data seluler, manajemen orang yang terpapar secara kerja, seperti orang yang Diklasifikasikan sebagai terpapar radiasi secara kerja sesuai dengan peraturan perlindungan radiasi Jerman, pengendalian dosis pribadi dan berbasis pekerjaan, data dan perhitungan untuk perlindungan radiasi, pengoperasian dan penyediaan sistem komputer proses, perhitungan, pembuatan, pengoperasian dan penyediaan sistem komputer proses yang dioptimalkan lokasi untuk pemantauan dan pengendalian berdasarkan standar yang telah teruji di industri, dan sistem informasi proyek dan data spasial radiologi serta sistem informasi proses.; konsultasi di bidang pembuatan gambar konstruksi; menyediakan penggunaan sementara perangkat lunak daring yang tidak dapat diunduh untuk mengimpor dan mengelola data.; pressure measurement; Konsultasi teknologi di bidang pengukuran dan perhitungan untuk penyesuaian bahan operasi.; Konsultasi di bidang teknik, yaitu desain instalasi dan bagian instalasi untuk produksi barang dan produk setengah jadi, yaitu panel organik dan anorganik, papan serat, panel komposit, lembaran organik, papan gipsum, panel plastik, panel WPC, panel pembawa energi.; industrial design; Layanan yang berkaitan dengan perencanaan instalasi pembangkit energi dan konversi energi seperti instalasi nuklir, instalasi energi yang ditenagai oleh kekuatan alam, seperti instalasi yang ditenagai oleh angin atau air.; scientific and technological services and research and design relating thereto; penyusunan laporan yang berkaitan dengan penelitian ilmiah tentang energi listrik; pengukuran kinerja; layanan teknologi yang berkaitan dengan manufaktur; services of an engineer in connection with the provision of the aforementioned services; Pengembangan jaringan berbasis komputer; quality control; desain industri; Konsultasi teknis terkait proses yang berhubungan dengan pengoperasian mesin, peralatan mekanik, dan instalasi untuk teknik proses mekanik yang diproduksi darinya.; Penyusunan gambar konstruksi, desain bangunan, perencanaan proyek teknis, manajemen proyek teknis, pengawasan bangunan teknis, pengendalian dan jaminan mutu di bidang instalasi pemanas industri dan tungku untuk menghasilkan panas dan uap, instalasi pengeringan industri, dan teknik lingkungan.; Analisis laboratorium terhadap material dan uji klinis yang berkaitan dengan pengolahan material, khususnya pengangkutan, pemberian dosis, penghancuran, pencampuran, aglomerasi, pemadatan, pengkondisian, pemisahan, dan penyortiran material.; research in the field of mechanical process engineering; desain berbantuan komputer untuk operasi manufaktur; Pengembangan perangkat lunak, pemrograman, dan implementasi, khususnya untuk memantau dan mengendalikan mesin, instalasi, dan proses untuk teknik proses mekanik.; Desain, pengembangan, dan implementasi perangkat lunak.; implementasi program komputer dalam jaringan; konsultasi di bidang jaringan dan aplikasi komputasi awan; pengujian industri, kalibrasi, pemantauan kondisi; penelitian dan pengembangan produk baru yang berkaitan dengan perlindungan lingkungan; pengujian seperti pengukuran getaran, analisis profil suhu, dan penyesuaian profil suhu; menyediakan sistem komputer virtual melalui komputasi awan; pemrograman sistem kontrol elektronik; industrial research; desain dan pengembangan jaringan; layanan TI; layanan desain untuk arsitektur; layanan teknologi; Konsultasi di bidang teknik, yaitu perancangan instalasi dan bagian-bagian instalasi untuk teknik proses mekanik atau kimia, serta perbaikan instalasi dan bagian-bagian instalasi untuk teknik proses mekanik atau kimia.; Layanan yang berkaitan dengan perencanaan fasilitas untuk penyortiran limbah radioaktif tingkat rendah, caisson dan housing, penutup drum otomatis, sel panas, pengepresan dalam drum, sementasi limbah cair, manajemen pembuangan elemen bahan bakar, data dan perhitungan untuk perlindungan terhadap radiasi, sistem komputer proses, pengendalian dosis pribadi dan berbasis pekerjaan.; layanan desain; layanan teknik; gambar konstruksi; layanan desain komputer; pengukuran aliran massa; konsultasi di bidang teknik; Konsultasi teknis, dan layanan rekayasa serta konsultasi teknologi yang berkaitan dengan

pengembangan konsep, pengembangan/desain rencana, perencanaan dan dukungan selama proses persetujuan, saran mengenai pemilihan mitra bisnis yang tepat, pelaksanaan proyek, dukungan proyek, manajemen proyek, pengawasan/optimalisasi proses revisi, pemantauan kualitas dan pengawasan konstruksi, pembuatan dan pengecekan dokumentasi.; operating point measurement; industrial analysis; design and development of computer hardware and software; design and development of computer hardware for the manufacturing industry; Pembuatan dan pengembangan lebih lanjut perangkat lunak, serta penggunaan perangkat lunak untuk menghitung biaya proyek pembongkaran nuklir, pelacakan dan dokumentasi limbah, sistem informasi proyek data spasial radiologi.; layanan penyedia cloud hosting; jasa insinyur dan inspeksi di bidang pembangkitan energi; Jasa desain terkait dekorasi interior rumah.; Pembacaan meter listrik dan analisis data untuk keperluan audit energi.; layanan penyimpanan awan untuk data elektronik; layanan penyimpanan cloud untuk file elektronik; layanan sains dan teknologi; Layanan yang berkaitan dengan desain industri, konsultasi arsitektur.; penyusunan laporan di bidang pengukuran dan data laboratorium; konsultasi teknik terkait manufaktur; komputasi awan; layanan pengendalian mutu dan penilaian; layanan otentikasi; layanan desain interior serta layanan informasi dan konsultasi terkait hal tersebut.; penyuntingan program komputer; computer software design; desain model untuk menghasilkan cetakan untuk membuat coran, sebaiknya coran berukuran besar; Analisis teknik teknologi terkait bantalan, kopling, dan penyelarasan puli sabuk.===

cold packs for medical purposes; x-ray film mounts for medical use; photometric apparatus for medical use; filter membranes for use in medical diagnostic applications; optical instruments for medical endoscopy; medical laser apparatus; ultraviolet sun ray lamps for medical use; finger cots for medical purposes; droppers for medical purposes; exercising apparatus for medical rehabilitative purposes; tube insertion machines for medical use; water pillows for medical purposes; measuring instruments adapted for medical use; pumps for medical use in dispensing pharmaceuticals from containers; endoscopy cameras for medical purposes; inspection apparatus for medical or dental use; radioisotope apparatus for medical treatment; medical drainage bags; tomographs for medical purposes; thermal image capture devices for medical use; support mattresses for medical use; drains for medical purposes; medical cooling units with body contact applicators; television cameras adapted for medical use; rigid endoscopes for medical use; electrodes for use with medical apparatus; suction apparatus for medical use; x-ray appliances for dental and medical use; installations for the production of x-rays for medical purposes; radioisotope detector apparatus for medical treatment; aerosol valves for medical purposes; furniture adapted for medical treatment use; artificial sponges for medical purposes; apparatus for the application of laser radiation for medical purposes; ear plugs for medical purposes; medical apparatus for neurographic purposes; containers especially made for medical waste; consumable electrodes for medical use; bio-assay apparatus for medical purposes; testing apparatus for sale in kit form for medical diagnostic purposes; apparatus for medical diagnosis; medical blankets for the warming of patients; medical catheters; cervical pillows for medical purposes; diagnostic ultrasound instruments for medical use; suction tubes for medical purposes; medical drainage bags for collection of biliary; corsets for medical purposes; lamps for use with medical instruments; lab units for the dispensing of liquids for medical use; special furniture for medical use; humidifying apparatus for medical use; carrying cases adapted for sanitary masks for medical purposes; medical devices for moxibustion therapy; chemically activated heating pads for medical purposes; medical ice bags; appliances for physical exercise for medical use; medical braces; moisture exchangers for medical use in transferring the heat of exhaled breath to inhaled breath; lancet devices for medical use in extracting blood for blood tests; medical and surgical laparoscopes; detectors for medical applications; medical apparatus for nerve stimulation; ophthalmic cameras for medical purposes; detecting instruments for medical use; disposable medical syringe needles; diagnostic testing instruments for use in immunoassay procedure for medical purposes; protective suits for medical use; in-vitro diagnostic testing apparatus for medical use; medical syringes; medical scissors; high frequency cutting devices for medical purposes; dynamic tomography apparatus for medical use; capillary tubes for medical purposes; gamma instruments for medical diagnosis using images; braces for medical purposes; chemically activated cold gel packs for medical use; foam knee positioners for surgical and medical use; thermotherapy apparatus for medical purposes; bulb syringes for medical use; electrically heated pads for medical purposes; medical apparatus for the electrical stimulation of groups of muscles; nebulizers for medical use; ultrasonic sound apparatus for medical use; receptacles for applying medicines; fibre optic viewers for medical purposes; oxygen inhalators for medical use, sold empty; irrigators for medical use; surgical apparatus and instruments for medical use; electric heating covers for medical use; oxygen electrodes for medical use; medical appliances for intravenous administration of

nutritional solutions; electronic carbon dioxide recorders used for medical purposes; optical apparatus for medical endoscopy; jet injectors for medical use; medical lasers for skin treatment; medical electrodes; drainage tubes for medical use; medical apparatus for use in endoscopy; precision sensors for medical use; medical analysis apparatus; light production apparatus for medical use; radiological apparatus for medical diagnosis; inhalation protectors for medical use; pneumatically operated valve assemblies for ventilation apparatus for medical use; armchairs for medical or dental purposes; medical apparatus for introducing pharmaceutical preparations into the human body; alternating pressure pads for medical use; gas analyzers for medical analysis; mercury thermometers for medical use; cooling or heating devices containing heat exchange fluids for medical purposes; nerve muscle stimulators for medical purposes; electrical heating apparatus for medical use; robotic exoskeleton suits for medical purposes; ultraviolet lamps for medical purposes; ultrasonic imaging apparatus for medical purposes; radioisotope apparatus for medical diagnosis; medical hand tools; portable breathing apparatus for medical purposes; medical aids for use in stoma care; power filters for medical use; pill distributor and organizer boxes for medical purposes; radiotherapy apparatus for medical use; radioisotope detector apparatus for medical diagnosis; medical cooling units to control body wound temperatures; breath testing apparatus for estimating blood alcohol content for medical purposes; medicinal injection syringes; luer tapers for medical use; mononuclear cell apparatus for medical use; nuclear medicine tomographic scanners; ozonizers [ozonators] for medical use; needles for medical use; heating pads for medical purposes; physical exercise apparatus for medical purposes; vessels for histological purposes for medical diagnosis; chromatogram analyzers for medical use; optical inspection apparatus for medical diagnostic use; medical instruments for therapeutic drug monitoring; x-ray photographic apparatus for medical use; medical robots for use in cognitive therapy for children; x-ray apparatus for medical use; blood group analysers for medical use; medical apparatus for use in cardiac surgery; exercise devices for medical rehabilitative purposes; hand-operated spraying apparatus for medical purposes; medical implants made from artificial materials; ultrasonic apparatus for medical use in scanning the body; medical apparatus for the treatment of sleep apnea; automated blood separation instruments for medical purposes; medical tubing for administering drugs; planar chromatography apparatus for medical use; x-ray film imaging devices for medical use; nuclear magnetic resonance apparatus for medical scanning; acupressure slippers for medical purposes; finger pricking devices being medical instruments for use in drawing blood; test electrodes for medical use; examination gloves for medical use; columns for affinity chromatography for medical use; medical devices for dental surgery; photometric analysers for medical use; traction apparatus for medical purposes; electronic medical diagnostic apparatus; vacuum apparatus for medical use; apparatus for sale in kit form for medical diagnostic purposes; apparatus for administering inhalants for medical purposes; sensing apparatus for medical diagnosis; thermal imaging apparatus for medical use; gloves for medical purposes; monitoring apparatus for medical use; filters for ultraviolet rays, for medical purposes; galvanic belts for medical purposes; electronic apparatus for medical use with computers; wearable walking assistive robots for medical purposes; laser pointers for medical use; fluid collection containers for medical use; medical and surgical knives for cutting human or animal tissue and organs; ventilator exhalation valves for medical purposes; inserts for breathing masks for medical use; pumps for use in liquid chromatography for medical use; heating pads, electric, for medical purposes; blood sedimentation apparatus for medical purposes; medical apparatus for renal dialysis; disposable bags for medical use; endoscopes for medical use; suction bottles for medical use; light sources for medical use; electrically operated medical apparatus; medical apparatus for spinal disc repair; kidney dish for medical use; laser light treatment apparatus for medical use; spatulas for medical use; covers for medical bags, fitted; air mattresses for infants for medical purposes; protective mouth masks for medical use; Air pillows for infants for medical purposes; endoscopes for medical diagnostic use; radioisotope apparatus for medical use; medical ice packs; medical appliances for use by persons suffering from colostomy; compressor modules being parts of ventilators for medical use; medical specimen cups; exercise apparatus, specifically adapted for medical purposes; tubing for medical use; apparatus for use in exercising muscles for medical use; oxygen monitors for medical use; medical stents; automatic medical apparatus for administration of injectable preparations to human beings; apparatus for medical testing; medical apparatus for use in dialysis; manually operated exercise apparatus for medical use; vacuum devices for medical use; eye shields for medical use; medical testing instruments; atomisers for medical use; measuring apparatus for the photometric analysis of gases for medical use; wrist supports for medical use; lasers for medical purposes; ultrasonic diagnostic instruments for medical use; apparatus for use in medicine in the drainage of incisions; medical knee braces; medical support panty hose; air cushions for medical purposes; x-ray film imaging apparatus for medical use; shields for medical apparatus; photometric analyzers for medical use; filters for blood and blood components for medical purposes; blood cell analysing apparatus for medical use; contact apparatus for deriving electrical signals from human bodies for medical purposes; electrically heated clothing for medical use; lasers capable of producing pulsating laser beams for medical use; cushions for medical purposes; temperature sensing apparatus for medical use; medical heating units to control body wound temperatures; mattresses for medical use; apparatus for medical cell sampling; gloves for medical examinations; apparatus for blood tests for medical use; light sources for electronic endoscopes for medical purposes; pillows for medical purposes; magnetic bracelets for medical purposes; electrical heating pads for medical use; liquid chromatography injectors for medical use; medical guidewires; measuring apparatus for the photometric analysis of fluids for medical use; protection devices against x-rays, for medical purposes; gynecological medical instruments for examining women' s reproductive organs; specimen samplers for medical use; hooks for medical or surgical use; performance testing apparatus for medical use; belts, electric, for medical purposes; medical instruments for cutting tissue; ultraviolet ray lamps for medical purposes; medical catheter placement devices; apparatus for dna and rna exams for medical purposes; medical instruments for animals; exposed x-ray films for medical use; respirators for medical purposes; wrist braces for medical use; retention belts for medical purposes; laser machining tools for medical use; medical ice bag holders; humidifying machines for medical use; drapes for medical use; suction bag holders for medical use; centrifugal apparatus for medical use; measuring machines for medical use; rehabilitation apparatus for medical use; measuring apparatus for medical use; disposable gloves for medical use; pumps for medical use in the extraction of vapour; ultraviolet lamps for medical use; face masks for medical use; fluid sampling apparatus for medical use; medical instruments incorporating lasers; sources of ultrasonic fields for use in medical diagnosis; microdermabrasion apparatus for medical or therapeutic purposes; medical instruments for recording physiological data; skinfold calipers for medical purposes; remedial apparatus for medical use; processors for photosensitive films for medical purposes; pumps for medical treatment purposes; injection needles for medical use; ultrasonic apparatus for medical use in diagnosis; foreign body retrieval apparatus for medical purposes; medical apparatus for monitoring; eye wash cups for medical purposes; disposable medical devices for treating constipation; support cushions for medical purposes; phototherapy apparatus for medical purposes; apparatus for analysing images for medical use; laser beam delivery apparatus for medical use; elbow guards for medical purposes; neck pillows for medical or surgical use; oxygen masks for medical purposes; medical examination lamps; shoulder cups for medical use; apparatus for dna and rna testing for medical purposes; oxygen sensors for medical use; pliers for medical use; microsensor probes for medical

purposes; isolation bags for medical use; elasticised socks for medical purposes; medical instruments for recording heart activity; water treatment apparatus for medical use; telemetry devices for medical applications; hyperbaric oxygen chambers for medical purposes; blood sampling apparatus for medical use; ligating clips for medical use; test clips for medical use; radioisotope detection apparatus for medical use; inhaler devices for administering medicaments; radium tubes for medical purposes; temperature measuring apparatus for medical use; tools for medical diagnostics; electric blankets for medical use; medical measuring apparatus for measurements on skin; retractors [medical instruments]; medical devices for assisting respiration; neckrolls for medical or surgical use; infrared thermometers for medical purposes; blood collection tubes for medical use; light filters for medical use; medical instruments for interstitial thermotherapy of biological tissue; electronic medical instruments; peep activators being parts of medical ventilators for maintaining pressure; nephelometric analyzers for medical diagnosis; portable pump installations for liquids for medical use; spine plates [medical apparatus]; medical cooling apparatus for use in therapeutic hypothermia; medical examination tables; body warming devices for medical use; filters for respiratory masks for medical purposes; sample preparation columns for medical use; metering pumps for delivering drugs in measured quantities for medical use; portable nebulisers for medical purposes; impactors for medical or dental use; apparatus for medical image formation; medical apparatus for diagnostic purposes; probes for medical purposes; suction bags for medical use; electronic muscle stimulators for medical purposes; detecting apparatus for medical use; physical exercise apparatus, for medical purposes; self-contained breathing apparatus for medical purposes; medical trays; haptic suits for medical purposes; incentive spirometers for medical use; electronic medical apparatus; lubricating apparatus for medical use; hoses adapted for use with medical ventilators; blood centrifuging tubules for medical use; medical devices for implantology; heat beds for medical treatment; ultraviolet light therapy apparatus for medical purposes; vessel dilators [medical apparatus]; triglycerides testing apparatus for medical diagnostic purposes; water bags for medical purposes; medical laser beam apparatus; test equipment for medical use; ultrasonic testing apparatus for medical use; flexible medical endoscopes; electric heating cushions for medical purposes; medical spatulas; automated blood separation apparatus for medical purposes; mittens for medical use; chromatography instruments for medical use; dropping pipettes for medical purposes; examination couches specially made for medical use; magnetic resonance imaging spectrometers for medical use; water therapy apparatus for medical use; hydrostatic beds for medical purposes; scanners for medical use; back supports for medical purposes; medical apparatus for monitoring pulmonary gas exchange parameters; heat exchange anti-bacterial filters for medical use; optical devices for medical diagnostic use; lamps for medical purposes; molecular filtering devices for medical use; vascular access ports for medical use; apparatus for analysing bacteria in biological samples for medical use; contraceptives being medically fitted devices; support bandages for medical purposes; volumetric pump devices for medical use; inspection instruments for medical or dental use; electronic monitoring instruments for medical use; centrifuges for medical use; implantable devices for medical use in measuring the composition of body fluids; basins for medical purposes; x-ray scanners for medical use; trace material analysers for medical use in diagnosis; breathing apparatus for medical purposes; intra-vascular apparatus for medical use; chromatographs for medical use; kinesiology tapes for medical purposes; exercise apparatus for medical rehabilitative purposes; cushioned products for medical use; filters for ultraviolet rays for medical purposes; medical probes; clothing especially made for medical use; heating pads, non-electric, for medical purposes; x-ray photographs for medical purposes; devices for use in the administration of medicines; pulse oximeters for medical purposes; cutlery for medical purposes; intra-aortic balloons being medical devices; apparatus for producing oxygen for medical use; finger stalls for medical purposes; medical support hosiery; surgical, medical, dental and veterinary apparatus and instruments; laser scalpels for medical use; sensing devices for medical use in monitoring the vital signs of patients; x-ray tubes for medical use; high frequency generators for use in medical treatment; sensor apparatus for medical use in the determination of physical parameters; medical shields for protection from bruising; digital thermometers for medical purposes; x-ray tubes for medical purposes; medical apparatus for regulating flow rates of intravenous infusions; protective visors for medical use; permanent magnets for medical use; seat pads for medical purposes; ultrasound diagnostic apparatus for medical use; leg exercising apparatus for medical use; lamps for medical [curative] purposes; chemically activated hot compresses for medical purposes; nebulizers for medical purposes; apparatus for analysing substances for medical use; medico-surgical tubes; laser devices for medical application; optical fibre temperature probes for medical diagnostic use; nanites for medical purposes; seat cushions for medical purposes; canes for medical purposes; mouth guards for medical purposes; testing apparatus for medical diagnostic purposes; staples for medical purposes; test apparatus for medical use; vibration generating apparatus for medical therapeutic use; medical devices for closing wounds; medical support tights; x-ray viewers for medical use; ligating clip applicators for medical use; elastic compression bandages for medical purposes; medical instruments for the removal of warts by freezing; fluoride trays for medical or dental use; lasers incorporating optical fibres for medical use; inhalation protection devices for medical purposes; ear plugs for soundproofing (other than for medical use); elbow braces for medical purposes; spray bottles [vaporizers] for medical use; gamma cameras for medical purposes; ultrasonic sensors for medical use; apparatus for testing breast milk for medical purposes; laser beam delivery instruments for medical use; nebulisers for medical purposes; ankle supports for medical use; medication injectors; electrically heated cushions for medical purposes; supportive splinting for medical use; gas laser apparatus for medical treatment; pressurised suits for medical use; water beds for medical purposes; optical viewing glasses for medical inspection purposes; x-ray analysers for medical use; immunoadsorption columns for medical diagnostic use; electronic blood oxygen saturation monitors for medical use; supports for medical use; body rehabilitation apparatus for medical purposes; inflatable pillows for medical use for fitting around the neck; medical examination sheets; thermal detection devices for medical use; lab units for the incubation of liquids for medical use; pumps for medical use in the extraction of gases; inadvertent peep reducers being parts of medical ventilators for maintaining pressure; photometric instruments for medical use; quad canes for medical purposes; medical prostheses; protective nose masks for medical use; armchairs especially made for medical purposes; shields for medical instruments; non-spill medicine spoons for infants; electronic apparatus for medical use in monitoring body functions; x-ray film holders for medical use; x-ray plates for medical use; laser light treatment instruments for medical use; thermographic apparatus for medical purposes; disposable protective gloves for medical purposes; explorers [medical or surgical apparatus]; detection apparatus for medical use; laser light transmitting apparatus for medical use; medical compression tights; knee braces for medical purposes; splints [for medical purposes]; measuring apparatus for the spectroscopic analysis of gases for medical use; electronic analysers for medical purposes; devices for medical use in retaining body secretions; knee supports for medical use; laser cutting tools for medical use; oxygen inhalers for medical use; light boxes for medical use; respiratory monitoring apparatus for medical purposes; bags [fitted] for medical instruments; refractometers for medical use; protective gowns for medical use; enema apparatus for medical purposes; medical diagnostic saliva pads; diathermic handles for medical use; sources of magnetic fields for use in medical diagnosis; medical apparatus for the preparation of parts of prostheses; apparatus for medical rehabilitation; boxes adapted for medical waste products; high frequency coagulation instruments for medical purposes; suction cups for medical purposes;

apparatus for achieving physical fitness for medical use; separation instruments for medical use; apparatus for applying laser radiation for medical purposes; gloves for medical use; medical diagnostic apparatus for testing for viruses; radioscopy [fluoroscopy] apparatus for medical use; electric belts for medical purposes; medical apparatus for measuring the oxygen content of blood; colorimetric comparators for medical use; respiratory monitors for medical purposes; x-ray structure analysis apparatus for medical use; trays for holding medical instruments; medical gloves; measuring apparatus for the spectroscopic analysis of fluids for medical use; apparatus for carrying-out assays for medical purposes; ventilator breathing apparatus for medical purposes; air mattresses for medical purposes; linear accelerators for medical use in radiotherapy; x-ray structure analysis instruments for medical use; medical diagnostic apparatus for virus screening; protective bonnets for the hair for wear by medical practitioners; cervical pillows for medical use; temperature monitors for medical use; ankle braces for medical purposes; air inflatable garments for medical purposes; optical instruments for medical diagnostic use; treadmills for medical use in physiotherapeutic exercise; implantable subcutaneous drug delivery devices; spine seats [medical apparatus]; scanning instruments for medical use; apparatus for use in medical analysis; medical measuring apparatus for measurements on hair; foreign body retrieval baskets for medical purposes; chairs especially made for medical use; chromatography columns for medical use; separation cartridges for use in chromatography for medical use; medical instruments for use in relation to hearing; protective face masks for medical use; pipetting apparatus for medical use; separation control apparatus for medical use; electro medical instruments; electro-mechanical apparatus for medical use in measuring the body functions; respirators for filtering air for medical purposes; purification installations for medical purposes; fibrescopes for medical use; pads for medical use adapted for wheelchair seats; medical diagnostic apparatus for sale in kit form; medical devices for placing and securing catheters; protective breathing masks for medical applications; air pillows for babies for medical purposes; apparatus for use in medicine in the drainage of wounds; dilation apparatus for medical purposes; scanning machines for medical use; medical diagnostic saliva vials; instruments for use in medical analysis; respiratory apparatus for medical use; devices for medical use in collecting body excretions; temperature responsive control apparatus medical use; splinting materials for medical use; measuring devices for medical use; pill distributor and organiser boxes for medical purposes; pressure garments for medical treatment; medical x-ray apparatus; oxygen concentrators for medical purposes; membrane test plates for use in medical diagnostics; instruments for analysing volatile mass in specimens under test for medical use; analysers for medical use; protective masks for use by persons working in medicine; physiological monitoring apparatus for medical use; nuclear medical diagnostic apparatus; pumps for medical use in delivering pharmaceuticals from containers; waterbeds for medical purposes; forceps for medical use; microsensors for medical purposes; protective masks for medical purposes; air pillows for medical purposes; medical tubing for transfusions; sensor apparatus for medical use in diagnosis; medical patient treatment chairs; cases fitted for medical instruments; stair climbing machines for medical therapeutic use; diagnostic tools for medical purposes; medical pulse pressure transducers; hot air vibrators for medical purposes; machines for physical exercise for medical use; aspiration tubing for medical purposes; chromatography apparatus for medical use; foam leg positioners for surgical and medical use; padded cushions for medical purposes; medical endoscopes; centrifugal separating machines for medical use; optical scanners for medical inspection purposes; body composition analyzers for medical purposes; intravenous bags for medical purposes; boots for medical purposes; non-electrical medical apparatus for collecting blood; high frequency cutting apparatus for medical purposes; magnetic treatment apparatus for medical use; medical apparatus for testing susceptibility to diseases; cholesterol testing apparatus for medical diagnostic purposes; medical apparatus for strengthening muscles of the pelvic floor; medical and surgical catheters; electrically heated socks for medical purposes; body fat monitors for medical purposes; medical therapy instruments; foam head positioners for surgical and medical use; apparatus for medical diagnostic purposes; automatic analyzers for medical diagnosis; powered respirators for medical purposes; optical fiber apparatus for medical diagnostic use; elastic stockings for medical purposes; intravenous administration instruments for medical purposes; suction drainage sets for medical use; apparatus for viewing medical diagnostic test strips; electronic nerve stimulators for medical purposes; medical diagnostic apparatus; x-ray sensitive films for medical use; manometer lines for medical use; incubation units for medical purposes; contoured cushions for patients' use on beds specially adapted for medical purposes; hematology analyzers for medical diagnostic purposes; immunochemical medical diagnostic testing apparatus for detecting and measuring antibody levels; face shields for medical use; inflatable mattresses for medical purposes; vacuum probes for medical use; laser cutting apparatus for medical use; disposable hypodermic syringes for medical use; protective gloves for use by persons working in medicine; oxygenators for medical use; temperature indicator labels for medical purposes; walking aids for medical purposes; face protection shields for medical use; laser instruments for medical use; urinalysis instruments for medical diagnostic purposes; alternating pressure mattresses for medical use; medical and surgical cutters for cutting human or animal tissue and organs; ultrasonic cleaners for medical use; medical apparatus for the processing of tomographic data; devices for medical use in collecting body secretions; weights for physical exercise for medical use; bed bases for beds especially made for medical purposes; heat exchange anti-viral filters for medical use; diagnostic apparatus for medical purposes; separation columns for use in gas chromatography for medical use; dressing forceps for medical use; apparatus for analysing gases for medical use; medical procedure tables; medical instruments for use as aids to hearing; sterile apparatus for the medical administration of fluids; condoms for medical purposes; thermographic instruments for medical purposes; medical apparatus for the evaluation of in-vitro diagnostic tests; portable pump installations for gases for medical use; cystomeric instruments for medical purposes; optical imaging apparatus for medical diagnostic use; electric heating appliances for medical therapeutic use; muscle exercising apparatus for medical use; x-ray producing apparatus for medical use; apparatus for the withdrawal of blood for medical examination; tables specially made for medical examination; lighting for medical use; medical appliances for use by persons suffering from ileostomy; tape cutters for medical purposes; eye droppers for medical use; medical instruments for percutaneous tracheostomy; protective structures against radiation for medical use; apparatus for dialysis for medical use; syringes for medical purposes; colour pyrometers for medical use; belts for medical purposes; diagnostic ultrasound apparatus for medical use; magnets for medical use; apparatus and installations for the production of x-rays, for medical purposes; inflatable appliances for medical use in applying pressure to the limbs; respiration monitors for medical use; ultrasonic cleaning instruments for medical use; non-electrical medical apparatus for collecting body fluids; tomographic apparatus for medical use; shock wave apparatus for medical use; electric foot warmers for medical use; spraying machines for medical use; sampling apparatus for medical diagnosis; disposable protective headgear for medical purposes; beds for use in medical diagnosis; medical apparatus for urological purposes; medical compression stockings; medical apparatus incorporating lasers; urine testing instruments for medical diagnostic purposes; medical ultrasound apparatus; bulb syringes for medical purposes; furniture especially made for medical use; medical operating lamps; cryoprobes for medical use; injectors for medical purposes; apparatus for medical purposes; indoor fitness apparatus for medical purposes; medical isolation gowns; pumps for medical use in the extraction of liquids; radiological apparatus for medical purposes; medical and veterinary apparatus and instruments; support belts for medical purposes;

resectoscopes [medical instruments]; catheters for medical use; oxygen concentration monitors for medical use; chromatography plates for medical use; dissecting instruments for medical use; filter cartridges for medical use in the filtration of pharmaceutical liquids; forceps for medical purposes; waste collection devices for medical purposes; medical guide wire; medical spittoons; medical apparatus for testing susceptibility to disorders; dropper bottles for medical purposes; medical screw connections; devices for medical use in retaining body excretions; medical diagnostic apparatus for detecting viruses; x-ray high voltage generators with integrated x-ray tubes for medical imaging; surgical stockings for medical use; ultrasound apparatus for medical purposes; saliva collection devices for medical purposes; weight training apparatus for medical use; disposable sheeting for medical use; respiratory helmets for medical purposes; medical apparatus and instruments; finger guards for medical purposes; walking sticks for medical purposes; medical apparatus for use in expansion of tissue to define an opening; medical appliances for use by persons suffering from urine diversion; boxes adapted for medical use; blood cell separation apparatus for medical use; medical instruments; temperature measuring instruments for medical use; physical exercise machines for medical purposes; medical radiation apparatus; heating apparatus for medical purposes; medical stethoscopes; lamps for producing polarised light for medical use; mirrors for medical examination purposes; medical apparatus for the preparation of prostheses; medical apparatus for urethral catheterization; electronic temperature recorders for medical use; medical apparatus for use in the treatment of injuries; electronic drop counters for medical use; meters incorporating visual displays for medical use; detection tubes for medical purposes; x-ray apparatus for medical purposes; gamma apparatus for medical diagnosis using images; optical sources for medical inspection purposes; analysers for bacterial identification for medical purposes; x-ray fluoroscopic apparatus for medical imaging incorporating image enhancement facilities; medical drainage bags for collection of nephrostomy; biomagnetic rings for therapeutic or medical purposes; inspection mirrors for medical or dental use; medical apparatus for hyperhidrosis treatment; medical knives; latex gloves for medical use; electronic monitoring apparatus for medical use; examination chairs specially made for medical use; rubber gloves for medical use; medical testing apparatus; cooling patches for medical purposes; inhalers for medical use; sources of electromagnetic fields for use in medical diagnosis; apparatus for carrying-out diagnostic tests for medical purposes; test probes for medical use; medical drapes of non-woven textile materials; medical tables for examination or treatment purposes; specimen collection devices for medical use in extracting samples from the body; medical appliances for use by persons suffering from incontinence; applicators for medications; irrigation drainage devices for medical use; portable instruments for medical use in monitoring oxygen levels in gaseous mixtures; purification machines for medical purposes; tweezers for medical use; genetic testing apparatus for medical purposes; cushioning devices for medical use; sanitary masks for medical purposes; gamma instruments for measuring human cell attenuation for medical diagnostic purposes; wearable monitors used to measure biometric data for medical purposes; particle analyzers for medical use; medical apparatus for controlling pulmonary gas exchange parameters; optical apparatus for medical purposes; exercise boots for medical rehabilitative purposes; cystomeric apparatus for medical purposes; measuring devices having digital displays for medical use; needles for medical purposes; medical assay apparatus for the detection of helicobacter pylori organisms; heat lamps for medical use; endoscopic apparatus for medical use; hollow fibre membrane elements for medical or surgical use; gas analysers for medical analysis; molecular sieves for medical use; blood collection bags for medical purposes; reverse osmosis membranes for medical use; tractions [medical apparatus]; ultrasonic apparatus for medical use; medical splints; medical instruments for infectious disease testing; ozonisers [ozonators] for medical use; feeding cups for medical purposes; medical apparatus for detecting carbon dioxide in the airways; medicine administering spoons; body function monitoring apparatus for medical purposes; valves for use in medical infusion instruments; magnetic resonance imaging [mri] apparatus for medical purposes; apparatus for medical use; oxygen inhalers for medical purposes sold empty; extractors [medical apparatus]; valves for use in medical infusion apparatus; analyzers for bacterial identification for medical purposes; spirometers [medical apparatus]; furniture adapted for medical treatment purposes; ultrasonic medical diagnostic apparatus; medical apparatus for exercise; liquid chromatography instruments for medical use; infusion pumps to deliver medication; sanitary masks for medical use; mallets for medical use; tongue depressors for medical purposes; instruments for use in liquid chromatography for medical use; medical syringe needles; thermal image apparatus for medical use; irrigation pouches for medical use; apparatus for producing ultrasonic waves for medical application; electronic stimulator for medical use; disposable examination gloves for medical purposes; apparatus for medical imagery; optical detection installations for medical diagnostic use; masks for use by medical personnel; heating cushions, non-electric, for medical purposes; instruments for medical use in the preparation of cells; radioisotope detector apparatus for medical use; apparatus for the regeneration of stem cells for medical purposes; oxygen concentrators for medical use; impulse measuring apparatus for medical use; shoe covers for medical purposes; electric instruments for medical use in the diagnosis of blood; physiological measuring apparatus for medical use; automatic medical apparatus for dosing humans by injection; bone densitometers [medical diagnostic apparatus]; diagnostic imaging apparatus for medical use; compressors for medical [treatment] purposes; instruments for use in gas chromatography for medical use; body composition analysers for medical purposes; apparatus for the administration of powdered medicines; x-ray analyzers for medical use; pulse counters [medical apparatus]; radiation oncology apparatus for medical use; medical apparatus and instruments relating to neurovegetative reactivity; medical inhalers; medical blood oxygenation devices; non-selective electrodes being chemically sensitive probes for medical use; sun lamps for medical purposes; abdominal pads for medical use; magnetic resonance imaging instruments for medical purposes; quartz lamps for medical purposes; sources of electromagnetic fields for use in medical treatment; operating instruments for use with medical endoscopes; electrical apparatus for medical purposes for applying therapeutic stimulation to the body; injection syringes for medical purposes; x-ray film viewers for medical use; protective breathing masks made of non-woven materials for medical applications; trace material analyzers for medical use in diagnosis; straight probes for medical purposes; oxygen enrichment apparatus for medical use; cell culture instruments for medical use; chromatographic columns for analytical chromatography for medical use; transparent face shields for use by medical personnel; flexible needles for medical purposes; radiation oncology instruments for medical use; radiology screens for medical purposes; medical lasers for beauty therapy; exercise simulating apparatus for medical purposes; capillary tubes for medical use; nuclear resonance spectrometers for medical use; skin temperature indicators for medical use; abdominal pads for medical purposes; carbon dioxide indicators for medical use; portable oxygen concentrators for medical purposes; heating cushions, electric, for medical purposes; medical diagnostic instruments; optical apparatus for medical diagnostic use; apparatus for medical analysis; cups for administering medicine; syringes for medical use; ear inserts for medical use; nuclear magnetic resonance installations for medical scanning; sensor apparatus for medical use in monitoring the vital signs of patients; bags for medical use in collecting urine samples; medical devices for micro-surgery; chemically activated cold compresses for medical purposes; medical apparatus for use in respiration; adipometers for medical purposes; maternity support belts for medical purposes; diagnostic testing apparatus for medical purposes; medical apparatus for the display of tomographic data; tint samples boxes [medical apparatus]; lab units for the mixing of liquids for medical use; electro medical

apparatus; protective clothing for medical purposes; protective breathing masks for medical purposes; electrophoresis apparatus for medical purposes; medical apparatus for monitoring flow rates of intravenous infusions; thermal protective aids [heated] for medical use; bags for medical use in storing urine samples; pressure monitors for medical use; apparatus for medical and therapeutic stimulation of the body; analytical instruments for medical use; temperature scanners for medical use; medical apparatus for nerve location; solaria for medical purposes; cushions for medical use for supporting infants being examined; tissue sampling devices for medical use; electrodes for medical use; optical fibre apparatus for medical diagnostic use; electronic thermometers for medical use; rigid medical endoscopes; probes for use with integrated circuits for medical diagnosis; apparatus for use in clinics for the preparation of medicaments; vacuum massage cups for medical purposes; temperature sensitive testing apparatus for medical use; apparatus for use in pharmacies in the preparation of medicaments; radio cardiographic apparatus for medical purposes; fingerstalls for medical purposes; shielding devices for medical apparatus; diagnostic testing apparatus for use in immunoassay procedures for medical purposes; manually operated cutting devices for histological purposes for medical use; protective gloves for medical use; electronic apparatus for medical purposes; sanitary masks for dust isolation for medical purposes; spraying devices for medical use; irrigators for medical purposes; inspection devices for medical or dental use; impulse measuring instruments for medical use; braces for limbs and joints for medical use; medical apparatus for producing laser radiation; exercise machines for medical rehabilitative purposes; inflation syringes for medical or surgical use; chromatographic apparatus for medical use; medical heating units with body contact applicators; infrared apparatus for medical purposes; applicators for anti-bacterial preparations for medical purposes; laser installations for medical use; nanorobots for medical purposes; body supports for medical purposes; portable exercise apparatus for medical use; nasal filters for medical purposes; medical diagnostic testing apparatus; blankets, electric, for medical purposes; medical apparatus for electrical muscle stimulation; oxygen concentration analysers for medical use; medical infusion columns; alternating pressure supports for medical use; nippers for medical use; tomographic instruments for medical use; nail pinches for medical use; applicators for antibacterial preparations for medical purposes; carbon arc lamps for medical purposes; inflatable appliances [splints] for medical use in holding the limbs; ventilator filters [parts of medical apparatus]; leg traction units for medical use; applicators in the nature of sponges for medical use; telemetry apparatus for medical use; medical apparatus for testing muscles of the pelvic floor; thermal electric compresses for medical use; cytofluorometric apparatus for medical purposes; tissue sampling apparatus for medical use; warmers for medical use; apparatus for physical training for medical use; fibre optic viewing devices for medical purposes; automated analysers for body fluids for medical use; optical detection apparatus for medical diagnostic use; probes connected to microprocessing apparatus for medical diagnosis; cushions for medical use, adapted to support the face; electronic blood oxygen saturation recorders for medical use; curing lamps for medical purposes; sources of ultrasonic fields for use in medical treatment; gamma apparatus for measuring human cell attenuation for medical diagnostic purposes; injection sleeves for medical use; lab units for the dilution of liquids for medical use; respiratory protection apparatus for medical purposes; exercise equipment for medical rehabilitative purposes; medical instruments for drug abuse testing; dermabrasion apparatus for medical or therapeutic purposes; processors for x-ray films for medical purposes; medical apparatus for measuring flow rates of intravenous infusions; medical gowns; sterile apparatus for the administration of medicaments; medical tubing for irrigation purposes; endoscopic equipment for medical purposes; test probe assemblies for medical use; electronic carbon dioxide monitors used for medical purposes; respiratory masks for medical purposes; skin moisture analysers for medical purposes; medical blankets for the cooling of patients; medical therapy apparatus; medical elbow braces; medical apparatus for training breathing techniques; bracelets for medical purposes; optical temperature measuring instruments for medical inspection purposes; chemically activated cold compresses for medical use; chemically activated hot compresses for medical use; filtration membranes for medical use; temperature meters for medical use; staplers for medical purposes; high frequency coagulation apparatus for medical purposes; medicinal catheters; length gauges for medical use;
