===Perangkat perakitan pembangkit listrik fotovoltaik manual.; Perkakas dan alat-alat tangan yang dioperasikan dengan tangan; perkakas dan alat tangan yang dioperasikan dengan tangan untuk mengencangkan bagian-bagian dengan menggunakan pengencang.===
===detektor; sarung tangan yang dilengkapi dengan sensor; sambungan listrik untuk baterai kendaraan; konektor listrik, kolektor, dan sensor; monitor (perangkat keras), monitor (program komputer); perangkat lunak; sensor suhu; Peralatan dan instrumen untuk memeriksa dan mengukur.; sensor tekanan elektronik; peralatan dan instrumen untuk memantau dan mengukur perakitan yang tepat dari konektor fluida, konektor listrik, atau klip.; peralatan dan perangkat pencarian dan identifikasi; pengolah data; sistem dan peralatan pentanahan; sensor tekanan; pembangkit listrik fotovoltaik; konektor, kotak sambungan, papan sakelar, sambungan, kontak listrik, konverter listrik, penyearah arus; Peralatan dan instrumen untuk menghantarkan, mengalihkan, mengubah, mengakumulasi, mengatur, atau mengendalikan arus listrik.; antena; aktuator; Sensor untuk memantau dan mengendalikan sistem pneumatik; stasiun dok; unit pemrosesan dan kontrol pusat; alat diagnostik, bukan untuk penggunaan medis; antarmuka manusia-mesin; Sambungan listrik untuk panel surya dengan perlindungan mekanis dan isolasi listrik untuk sel dan modul fotovoltaik.; Sistem koneksi listrik yang digunakan dalam menghantarkan, mendistribusikan, mengubah, mengakumulasi, mengatur, atau mengendalikan arus listrik untuk baterai kendaraan darat listrik dan hibrida, serta untuk perangkat penyimpanan stasioner, termasuk sensor, kolektor, konektor listrik, dan perangkat manajemen termalnya.; pelat, modul, dan sel fotovoltaik; sensor; antarmuka (untuk komputer); program komputer===
===Perangkat pengaturan suhu untuk sistem penyimpanan energi listrik pada pembangkit listrik fotovoltaik dan tenaga angin.; peralatan dan instalasi pendingin; Penukar panas; pelat pendingin===
===adaptor dan manifold logam untuk sistem pneumatik; nosel untuk penyebaran cairan sebagai bagian komponen kendaraan; manifold pneumatik, unit kontrol untuk sistem pneumatik kendaraan darat; klip dan sistem pengikat yang disesuaikan untuk mengencangkan suku cadang mobil; sambungan untuk sistem pneumatik pada kendaraan darat; Katup solenoid adalah komponen bagian kendaraan yang berfungsi untuk memblokir, mengaktifkan, atau mengarahkan aliran cairan, gas, atau udara.; Bagian dan komponen kendaraan; konektor dan sambungan untuk memindahkan cairan untuk kendaraan; konektor dan sambungan untuk mentransfer fluida, cairan, udara, dan gas untuk kendaraan (suku cadang dan komponen kendaraan); Sistem dan komponen pneumatik untuk kendaraan darat, yang merupakan bagian dan komponen dari kendaraan.; Wiper kaca depan.; pipa udara bertekanan untuk kendaraan darat; katup satu arah untuk sirkuit fluida pada kendaraan===
===konektor, adaptor, dan sambungan non-logam untuk tabung dan pipa; pipa fleksibel, tabung fleksibel, dan komponen-komponennya, yang tidak terbuat dari logam; Lembaran, potongan, film, selongsong, dan penutup untuk mulsa tanah.; pipa fleksibel bukan dari logam; potongan karet untuk digunakan mencegah pertumbuhan gulma di sekitar pohon.; segel; sambungan dan penghubung untuk pipa bukan dari logam; Konektor untuk pipa, tabung, dan kabel yang tidak terbuat dari logam.===
===dudukan mulut dan lubang non-logam; Konektor, kopling, dan klip non-logam untuk perakitan elemen bangunan dan modul perumahan.; nampan, bukan dari logam; packaging and packing closure made of plastic; Penjepit, klip, dan pengikat non-logam untuk pohon atau tanaman untuk mengikat ke kabel, pelindung, atau kabel pembawa.; pengencang pelindung dan finishing, bukan dari logam; klip non-logam untuk mengencangkan konektor; Perangkat plastik untuk menutup botol di bidang farmasi, kedokteran hewan, medis, dan kosmetologi.; klip non-logam untuk pengaturan kabel; sumbat, bukan dari kaca, logam atau karet; alat penutup botol dari plastik; klip pengikat bukan dari logam dan klip pembumian untuk perangkat pemanfaatan energi terbarukan; collars, fasteners and fixings, not of metal; Kerah, tali, dan pengencang untuk menancapkan pasak bukan dari logam.; klip kabel dari bahan non-logam; perangkat pengikat non-logam; pengikat non-logam, yaitu klip, penjepit, sekrup, pengikat; klem dan penyangga untuk pipa, tabung, dan kabel yang bukan terbuat dari logam; pengikat kabel, bukan dari logam; klip pengikat bukan dari logam untuk keperluan budaya; Penguat batang non-logam untuk tanaman dan bibit tomat; tabung plastik fleksibel kosong; konektor dan sambungan non-logam; paku keling, bukan dari logam; klip dan kait teralis, bukan dari logam; konektor dan sambungan non-logam untuk mentransfer fluida; katup bukan dari logam; kacang plastik; penguat batang non-logam untuk tanaman; klip pengikat, bukan dari logam; Pengikat non-logam, yaitu klem, pengencang, paku, baut, pasak, staples, sekrup, dan klip.; Pengencang bukan dari logam; perangkat keras non-logam.===
===Riset pasar, studi terkait pasar dan analisis pasar.; Pembelian barang dan jasa untuk bisnis lain (pengadaan); layanan

manajemen risiko komersial; Perdagangan grosir dan ritel pengencang untuk industri mobilitas dan khususnya kendaraan.; kompilasi statistik.; layanan manajemen rantai pasokan; saran tentang organisasi bisnis dan ekonomi bisnis; layanan konsultasi terkait pembelian barang atas nama pihak ketiga; lembaga impor-ekspor di bidang pengencang untuk industri mobilitas dan khususnya kendaraan.; menyediakan informasi komersial; Mediasi bisnis dalam perdagangan pengencang untuk industri mobilitas dan khususnya kendaraan.; manajemen proyek bisnis komersial===
===Pemasangan, perbaikan, dan pemeliharaan mesin dan peralatan mesin.; layanan instalasi sistem pengencang; Pemasangan pembangkit listrik dan taman fotovoltaik, pemeliharaan dan perbaikan instalasi dan taman fotovoltaik, serta sistem produksi energi lainnya.; Instalasi, pemeliharaan, dan perbaikan sel fotovoltaik, modul, dan panel, mesin untuk pembuatan panel silikon dan sel serta modul fotovoltaik.===
===Layanan logistik terkait transportasi.; Pengangkutan, pengemasan, dan penyimpanan perangkat pengikat untuk industri mobilitas dan khususnya kendaraan.===
===Layanan pelatihan; Pengorganisasian dan penyelenggaraan kolokium, konferensi, atau kongres.===
===penyimpanan data elektronik; layanan studi proyek teknis; pengujian produk baru; Desain dan pengembangan pengencang untuk industri mobilitas dan khususnya kendaraan.; penelitian teknis di bidang energi fotovoltaik; layanan analisis industri, penelitian industri, dan desain industri.; penelitian dan pengembangan produk baru untuk pihak ketiga; Perangkat Lunak sebagai Layanan (SaaS); layanan teknik; menyusun rencana di bidang pemanfaatan energi fotovoltaik; pengujian kinerja di bidang perakitan dan perekatan; rekayasa; Desain dan pengembangan komputer, perangkat periferal komputer, sistem komputer, perangkat lunak, dan objek yang terhubung.; Layanan ilmiah dan teknologi serta penelitian dan desain yang terkait dengannya.; desain pembangkit listrik dan taman fotovoltaik; engineering work in the field of photovoltaic energy; pemeliharaan sistem komputer (perangkat lunak); keahlian teknis di bidang produksi energi listrik; Melakukan dan mengatur proses di bidang perakitan dan perekatan [pengembangan teknik manufaktur]; saran implementasi teknis di bidang perakitan dan perekatan; pembuatan prototipe [desain prototipe]; layanan rekayasa rantai pasokan; Kontrol kualitas; Layanan dukungan teknis yang dilakukan oleh para insinyur untuk industrialisasi proyek pelanggan di bidang perakitan dan perekatan.; saran terkait penghematan energi; saran teknis terkait produksi energi.; Layanan studi dan pengembangan solusi pengendalian perakitan produk.; konsultasi teknis di bidang energi fotovoltaik; pengendalian mutu perakitan produk===

metal valves for controlling the flow of gases in pipelines coated with protective impregnation agents; ampoules, containers and vessels, each made of metal, for the storage and supply of liquid and gaseous chemicals, chemical compounds, chemical precursors, chemical products and high-purity and ultra-high-purity gases to a process instrument or a supply or conducting system for a process instrument for use in the electronics, semiconductor and microelectromechanical industries, battery cell manufacturing, pharmaceutical industries, biotechnology, as well as in data and high-performance computing centers.; metal pipes [coated with protective impregnating agents]; pipe fittings [junctions] of metal; metal ventilation ducts [coated with protective impregnation agents]; containers of metal for chemicals, compressed gases and liquids=== ===chemical processing machines and apparatus.; process racks as accessories for machines and mechanical equipment for use in the development and manufacture of biopharmaceuticals; filtering machines, separators and centrifuges; pneumatic tube conveyors; Material manufacturing and processing machines; plastic pipes [customized machine parts]; filter housings as parts of machines; electromechanical machines for chemical industry; compressed air pumps for liquid gas supply; bioreactors for use in manufacturing biopharmaceuticals; blending machines for chemical processing=== ===instruments for measuring temperature; insulated vessels for laboratory purposes; temperature sensors; electrical switchboards; chromatography apparatus for laboratory use; filtering units for laboratory use; measuring, detection, dosing, monitoring and control devices for chemical supply; level sensors and control devices for gas and chemicals; fermentation apparatus for laboratory use.; measuring, detection, dosing, monitoring and control devices for gas supply in manufacturing and production processes; level sensors; Electronic apparatus and instruments for control, regulation and monitoring, including as components for heating, air conditioning and ventilation systems for use in clean room systems and for building control technology; level indicators=== ===smoke extractors [ventilation or air-conditioning]; venturi scrubbers; air conditioning equipment or apparatus and systems composed thereof; pipe water valves being parts of water heating installations; Electric fans, filters for commercial air purification, air filter-fan units, lights, ventilation units for air conditioning and air conditioning units, each adapted for use in grid ceilings, walls, floors, cover plates and partition walls in cleanrooms, climate chambers, cleanroom ceilings, rotary air showers and tunnel air showers; heating and air conditioning apparatus and installations for buildings; gas scrubbing apparatus; cooling, heating, drying and ventilation systems, equipment and appliances; electric fans for the above goods; flue gas cleaning apparatus; air filters for extracting dust in industrial processes; separators for the cleaning and purification of gases; dust, solvent vapour and oil mist extraction and separation equipment and systems composed thereof, being air separation apparatus and air filtering installations each for use in clean room systems or for use in the treatment of atmospheric gases; air purifying apparatus; chromatography apparatus for industrial purposes.; gas scrubbers [parts of gas installations]; ventilation hoods for smoke extraction=== ===painting of metal surfaces to prevent corrosion; maintenance and repair services, as well as inspection prior to maintenance and repair of heating, cooling, air conditioning, drying, ventilation, extraction and separation systems and equipment; Services in the field of construction as well as assembly and installation work for the construction of building and engineering structures relating to air conditioning technology, clean room technology, building technology, electrical engineering, supply technology, disposal technology, water treatment technology, environmental control, automation, media supply as well as for data centers and high-performance data centers; installation, repair and maintenance of computer rooms, data centers and control centers; repair of gas supply systems; installation, maintenance and repair of production machines.; maintenance as part of the repair process, as well as repair and cleaning of semiconductor factories, data centers and high-performance data centers; assembly and installation work to retrofit existing factories with environmental protection systems and equipment; repair or maintenance of chemical plants; installation of smoke extraction systems; installation and assembly work for the initial installation and commissioning of heating, cooling, air conditioning, drying, ventilation, extraction and separation systems and equipment; construction services, as well as assembly and installation work for the construction of semiconductor factories, data centers and high-performance data centers, as well as factories in the food, pharmaceutical, biotechnology and battery cell manufacturing sectors; installation of gas supply and distribution apparatus; maintenance and repair of piping systems; assembly and installation work for the construction, assembly and installation of modular systems; installation of pipelines; assembly and installation work for setting up computer rooms, data centers and control centers=== ===technical project planning for buildings and process engineering systems; engineering services related to gas transport and gas supply systems.; technical consulting and technical planning for the implementation of work and production activities or processes in the field of microelectronics, biotechnology, battery cell manufacturing, pharmaceutical and food industries, as well as for data centers and high-performance computing centers; carrying out technical inspections to ensure the legally required functionality of heating, cooling, air conditioning, drying, ventilation, extraction and separation systems and equipment; technical consulting for the design of new semiconductor factories, data centers and high-performance data centers as well as factories in the food industry, pharmaceutical industry, biotechnology and battery cell production; technical project planning, technical inspection services and testing services for the certification of quality or standards relating to clean rooms and all areas of technical building equipment at the stages of planning, installation, function and behavior as well as their documentation within the framework of technical project management and when carrying out technical inspections; technical planning of semiconductor factories; technical planning of data centers; technical consulting and technical planning in

the field of environmentally friendly microelectronics manufacturing; technical planning of high-performance data centers; technical inspection services relating to the functionality of building technology systems as well as of the technical production and work processes; technical planning of factories in the food industry, pharmaceutical industry, biotechnology and battery cell production; Technical planning for the construction of building and process engineering systems for air conditioning, clean room technology, construction engineering, electrical engineering, supply engineering, waste disposal engineering, water treatment engineering, environmental control, automation, media supply as well as for data centers and high-performance data centers; technical advice on improving eco-efficiency as well as energy-saving and recycling techniques; technical advice on the implementation of environmentally friendly microelectronics manufacturing===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===pipa logam [yang dilapisi dengan bahan pelapis pelindung]; katup logam untuk mengontrol aliran gas dalam pipa yang dilapisi dengan bahan pelapis pelindung; wadah logam untuk bahan kimia, gas terkompresi, dan cairan; saluran ventilasi logam [dilapisi dengan bahan pelapis pelindung]; sambungan pipa [persimpangan] dari logam; katup logam untuk mengatur aliran fluida dalam pipa yang dilapisi dengan bahan pelapis pelindung; sistem saluran logam untuk pipa; ampul, wadah, dan tangki, yang masing-masing terbuat dari logam, untuk penyimpanan dan penyaluran bahan kimia cair dan gas, senyawa kimia, prekursor kimia, produk kimia, serta gas dengan kemurnian tinggi dan ultra-tinggi ke instrumen proses atau sistem penyaluran dan pengaliran untuk instrumen proses, guna digunakan dalam industri elektronik, semikonduktor, dan mikroelektromekanik, produksi sel baterai, industri farmasi, bioteknologi, serta di pusat data dan pusat komputasi berkinerja tinggi.; Pipa dan tabung yang dilapisi dengan bahan pelapis pelindung, selang, dan katup untuk keperluan tersebut, semuanya terbuat dari logam===
===bioreaktor untuk digunakan dalam produksi produk biopharmaceutical; pipa plastik [komponen mesin khusus]; rak proses sebagai perlengkapan tambahan untuk mesin dan peralatan mekanis yang digunakan dalam pengembangan dan produksi produk biofarmasi; mesin pencampur untuk pengolahan kimia; konveyor tabung pneumatik; Mesin untuk pembuatan dan pengolahan bahan; rumah filter sebagai bagian dari mesin; mesin dan peralatan pengolahan kimia.; mesin elektromekanis untuk industri kimia; mesin penyaring, pemisah, dan sentrifugal; pompa udara terkompresi untuk pasokan gas cair===
===perangkat pengukuran, pendeteksian, penakaran, pemantauan, dan pengendalian untuk pasokan gas dalam proses manufaktur dan produksi; panel listrik; sensor level; Perangkat dan instrumen elektronik untuk pengendalian, pengaturan, dan pemantauan, termasuk sebagai komponen sistem pemanas, pendingin udara, dan ventilasi yang digunakan dalam sistem ruang bersih serta untuk teknologi pengendalian bangunan; sensor suhu; wadah berinsulasi untuk keperluan laboratorium; unit penyaringan untuk keperluan laboratorium; sensor level dan perangkat pengatur untuk gas dan bahan kimia; indikator level; alat pengukur suhu; alat kromatografi untuk keperluan laboratorium; perangkat pengukuran, pendeteksian, penakaran, pemantauan, dan pengendalian untuk pasokan bahan kimia; peralatan fermentasi untuk keperluan laboratorium.===
===kipas angin untuk barang-barang di atas; peralatan kromatografi untuk keperluan industri.; perangkat pemurnian gas; perangkat pembersih gas buang; penyaring venturi; katup pipa air yang merupakan bagian dari instalasi pemanas air; peralatan dan sistem ekstraksi serta pemisahan debu, uap pelarut, dan kabut minyak, yang terdiri dari alat pemisahan udara dan instalasi penyaringan udara, masing-masing untuk digunakan dalam sistem ruang bersih atau untuk pengolahan gas atmosfer; filter udara untuk menghilangkan debu dalam proses industri; kap ventilasi untuk penghisapan asap; penyaring gas [komponen instalasi gas]; sistem, peralatan, dan perangkat pendingin, pemanas, pengering, dan ventilasi; penghisap asap [sistem ventilasi atau pendingin udara]; Kipas angin listrik, filter untuk pemurnian udara komersial, unit filter-kipas angin, lampu, unit ventilasi untuk pendingin udara, dan unit pendingin udara, yang masing-masing dirancang untuk dipasang pada langit-langit panel, dinding, lantai, pelat penutup, dan dinding partisi di ruang bersih, ruang iklim, langit-langit ruang bersih, bilik udara putar, dan bilik udara terowongan; peralatan dan instalasi pemanas serta pendingin udara untuk bangunan; alat pemurni udara; peralatan atau perangkat pendingin udara serta sistem yang terdiri darinya; pemisah untuk pembersihan dan pemurnian gas===
===perbaikan sistem pasokan gas; perbaikan atau pemeliharaan pabrik kimia; pemasangan peralatan pasokan dan distribusi gas; pemeliharaan sebagai bagian dari proses perbaikan, serta perbaikan dan pembersihan pabrik semikonduktor, pusat data, dan pusat data berkinerja tinggi; pekerjaan perakitan dan pemasangan untuk penyiapan ruang komputer, pusat data, dan pusat kendali; pekerjaan pemasangan dan perakitan untuk pemasangan awal serta pengoperasian awal sistem dan peralatan pemanas, pendingin, pendingin udara, pengering, ventilasi, ekstraksi, dan pemisahan; pemasangan sistem penghisap asap; layanan konstruksi, serta pekerjaan perakitan dan pemasangan untuk pembangunan pabrik semikonduktor, pusat data, dan pusat data berkinerja tinggi, serta pabrik di sektor makanan, farmasi, bioteknologi, dan manufaktur sel baterai; Layanan di bidang konstruksi serta pekerjaan perakitan dan pemasangan untuk pembangunan gedung dan struktur teknik yang berkaitan dengan teknologi pendingin udara, teknologi ruang bersih, teknologi bangunan, teknik kelistrikan, teknologi pasokan, teknologi pembuangan, teknologi pengolahan air, pengendalian lingkungan, otomatisasi, pasokan media, serta untuk pusat data dan pusat data berkinerja tinggi; pekerjaan perakitan dan pemasangan untuk memperbarui pabrik-pabrik yang sudah ada dengan sistem dan peralatan perlindungan lingkungan; pemasangan, pemeliharaan, dan perbaikan mesin produksi.; pekerjaan perakitan dan pemasangan untuk pembangunan, perakitan, dan pemasangan sistem modular; pemasangan, perbaikan, dan pemeliharaan ruang komputer, pusat data, dan pusat kendali; Pengecatan permukaan logam untuk mencegah korosi; layanan pemeliharaan dan perbaikan, serta pemeriksaan sebelum pemeliharaan dan perbaikan sistem dan peralatan pemanas, pendingin, pendingin udara, pengering, ventilasi, ekstraksi, dan pemisahan; Pemeliharaan dan perbaikan sistem perpipaan; pemasangan pipa===
===konsultasi teknis dan perencanaan teknis di bidang manufaktur mikroelektronika ramah lingkungan; perencanaan proyek teknis, layanan inspeksi teknis, dan layanan pengujian untuk sertifikasi mutu atau standar yang berkaitan dengan ruang bersih serta seluruh aspek peralatan teknis bangunan pada tahap perencanaan, pemasangan, pengoperasian, dan kinerja, serta dokumentasinya dalam kerangka manajemen proyek teknis dan saat melaksanakan inspeksi teknis; melakukan pemeriksaan teknis untuk memastikan bahwa sistem dan peralatan pemanas, pendingin, pendingin udara, pengering, ventilasi, ekstraksi, dan pemisahan berfungsi sesuai dengan ketentuan hukum; saran teknis mengenai peningkatan efisiensi ekologis serta teknik penghematan energi dan daur ulang; Perencanaan teknis pabrik di industri makanan, industri farmasi, bioteknologi, dan produksi sel baterai; Jasa konsultasi teknis untuk perancangan pabrik semikonduktor baru, pusat data, dan pusat data berkinerja tinggi, serta pabrik di sektor industri makanan, farmasi, bioteknologi, dan produksi sel baterai; perencanaan teknis pabrik semikonduktor; konsultasi teknis dan perencanaan teknis untuk pelaksanaan kegiatan atau proses kerja dan produksi di bidang mikroelektronika, bioteknologi, manufaktur sel baterai, industri farmasi dan pangan, serta untuk pusat data dan pusat komputasi berkinerja tinggi; saran teknis mengenai penerapan proses produksi mikroelektronika yang ramah lingkungan; layanan inspeksi teknis yang berkaitan dengan fungsi sistem teknologi bangunan serta proses produksi dan kerja teknis; Perencanaan teknis untuk pembangunan sistem teknik bangunan dan proses, meliputi sistem pendingin udara, teknologi ruang bersih, teknik konstruksi, teknik kelistrikan, teknik pasokan, teknik pengelolaan limbah, teknik pengolahan air,

pengendalian lingkungan, otomatisasi, serta sistem pasokan media, termasuk untuk pusat data dan pusat data berkinerja tinggi; layanan teknik yang berkaitan dengan sistem transportasi dan penyaluran gas.; perencanaan teknis proyek untuk bangunan dan sistem teknik proses; perencanaan teknis pusat data; perencanaan teknis pusat data berkinerja tinggi===

510 Uraian Barang/Jasa (Bahasa Inggris) : ===parts and fittings for the aforesaid goods.; metal connectors and push-in fittings for hydraulic and pneumatic devices; metallic pipes and fittings thereof; joist clamps; Hose fittings and hose couplings, of metal; metal tubing; clip clamps; hinge clamps; vice jaws of metal; parts and accessories for metal vices and metal claws; metal clamps; metal valves, not being parts of machines; valves as machine components for compressible and incompressible fluids, namely check valves, safety valves, relief valves, time delay valves, selector valves, control valves, pilot valves, mixing valves and valve accessories, namely valve islands, modules and connectors; vice claws of metal===
===parts and fittings for the aforesaid goods.; compressed air switch valves; parts of machines, namely, nylon, polyurethane and polyester reinforced PVC tubing and tubing accessories, namely, channels in the nature of tube mounts not made of metal, and PVC markers for identifying tubes, both parts of machines; fluidic device equipment and accessories thereto for machines or mechanisms; machines utilising compressed air; air spray guns; hoses (metal) for use in pneumatic and hydraulic systems in machines; motor mufflers; pressure regulators; tube cutting machines; compressors; valves (parts of machines); powered-operated spray and blow guns; hand tools with mechanical and pneumatic drive; lubricators and greasing devices; mechanical, hydraulic and pneumatic linear driving, regulating and transport apparatus; robots for handling and manipulating

workpieces; workpiece clamping attachments for machines; compressed air machines; spray gun combined lubrication devices using filters and control elements; purge air guns and hydraulic units, namely pressure signal generators; pneumatic air preparation units and parts thereof for use in pneumatic machinery; gas and oil removal filters for use with pneumatic and hydraulic machinery; industrial robots for use in the mounting of workpieces to be worked on; compressed air compressors, other than for motor vehicles, machine tools and power tools; check valves; compressed air motors; pneumatic lubrication devices for generating an oil aerosol; fluidistor equipment and accessories therefor for machines or mechanisms; workpiece clamping attachments being parts of machines; robots for feeding and/or transferring workpieces; apparatus for applying cutting fluids in the form of a mist; compressed air engines; relief valves; air pressure regulators being parts of machines; pneumatic tools; parts of machines, namely, manifold assemblies for valves comprised primarily of pressure switches, check valves, regulators and gauges; air and gas driers being parts of machines; regulating valves for gases and liquids; spray nozzles; clamping tools for holding piece parts during machining; clamping devices being parts of machines; filters for motors and/or being parts of motors; gas and liquid processing equipment and apparatus for use in industries, in particular in the process industry; ventilation valves (part of machines); pneumatic lubrication units and parts and accessories thereof, for the production of an oily aerosol, for example, for the lubrication of pneumatic tools, air and gas filters, pressure regulators for machines, control valves for machines; lubrication devices and installations; wood grippers being parts of machines; cylinder-piston assemblies; shut-off valves for gases and liquids; air pressure operated lubrication apparatuses; filters (parts of machines or engines); fluid pressure regulators including pressure regulators for gases and liquids and parts therefor; delay valves for gases and liquids; control valves for gases and liquids; filters (machine parts or parts of engines) for pneumatic and hydraulic installations, including air, gas and oil removal filters and parts thereof; non-return valves for gases and liquids; pneumatic lubricators for generating a mist of lubricant, e.g. for lubricating air-operated tools; pressure increasing devices; safety valves for gases and liquids; robotic arms for industrial purposes; silencers for pneumatic and hydraulic devices; automatic drains for liquids (parts of machines or motors); grease guns and valves being parts of machines; spray guns and blow guns; pressure regulators for fluids; filters for lubricators; valves, particularly high-pressure control, stream regulating and needle valves; hoses (metal) for transferring pneumatic and hydraulic power in machines; fluid correspondence switches; safety valves; control valves; valves for use in linear positioners; industrial robots; mixing regulators and pressure regulators; lubricators for air-operated equipment and parts thereof, automatic drains for liquids, liquid fill devices; clamping machines; compressed air pumps; spray and blow guns; pneumatic and hydraulic cylinders for machines; timer valves; electric spindles for machine tools; spraying devices for drilling and lubrication fluids; handling and control apparatus used in automated assembly and processing installations; Agricultural equipment, tools, hatcheries; guide blocks with roller bearings for machines; compressed air sprayers; linear positioners and parts thereof; filters, pressure regulators, lubricators and valves all being parts of machines; lubrication devices for pressure lubrication systems; powered grippers for pneumatic and hydraulic devices; magnetic clamps; pressure regulators for gases and liquids; pneumatic air preparation units and parts thereof; non-return valves of metal and/or plastic being parts of machines; filters for engines and/or being parts of engines; filters and valves constituting machinery or engine parts and parts and fittings for the aforesaid goods all constituting compressed air equipment; machine valves for compressible and incompressible fluids, namely, check valves, relief valves and selector valves; lubrication devices and systems, including pneumatic lubrication assemblies for dispensing oil in aerosol form; filters for machines and/or being parts of machines; machine parts, namely, pneumatic and hydraulic cylinders; slide tables for pneumatic and hydraulic devices; flow control valves; precision machine tools for machining workpieces; parts of machines, namely, lubricators for air-operated equipment, automatic drains for liquids, liquid fill devices; pneumatic and hydraulic machines, motors and machine tools; mixing valves being part of machines; handling and positioning apparatus for use in automated assembly and processing installations; filters for pneumatically controlled motors, namely, exhaust filters; blow guns; pneumatic and hydraulic actuators; nozzles constituting machine parts; pressure generators for fluids; pneumatic directional control valves; compressed air pilot valves; clamping devices for use with machine tools; couplings and actuators constituting machine parts; manifold assemblies; machine tools; mufflers for pneumatic and hydraulic devices; grippers for pneumatic and hydraulic devices; robotic compressed air pumps; mixing valves for gases and liquids===
===Metal vice jaws; clamping wedges; locking clamps for hand tools; claws for hand tools; tube cutting instruments.; clamps; vice workpiece stops; clamps for use in holding workpieces===
===parts and fittings for the aforesaid goods.; Apparatus and instruments for controlling, detection, measuring, indicating, timing, switching, inspection, sensing, checking (supervision), signalling, and monitoring; pressure sensors; scientific, nautical, surveying, electrical (including radio), photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), safety and teaching apparatus and instruments, including money or tokens operating automatic equipment, talking machines, cash registers, calculators, fire extinguishers; accessories for electronic valves that control compressible and incompressible fluids, namely, valve islands, regulators, pressure regulators, pressure switches, push-in fittings, connectors; electric sensors; pressure switches; valve islands; electropneumatic coupling apparatus and instruments; pressure indicators; electronic control systems for machines, namely, electronic compressed air network control systems; solenoid valves; control apparatus and instruments for pneumatic systems and parts thereof; electronic control instrumentation; pressure gauges; actuators, electric; solenoid components interchangeable without tools, namely, valves; electric, electronic and jet control apparatus and instruments for pneumatic and jet systems; parts, fittings and accessories for all the aforesaid goods; measuring instruments; pressure regulators for gases and liquids; software for remote diagnostic dashboards; fluid control elements and fluidic devices, namely, pressure signal generators, fluid pressure sensors, pressure amplifier boosters, pressure indicators and fluidic modules, gauges; application software for remote monitoring and diagnostics; flow meters; electro-pneumatic interface apparatus and instruments; application software; application software for diagnostics of input/output [I/O] modules; electro-pneumatic interface apparatus and instruments, pressure gauges, flow meters, solenoid valves; pressure measuring instruments; input/output [I/O] modules; pressure signal generators; fluidistor control elements, fluidistor devices, amplifiers, pressure indicators and sensor instruments; computer software for the display of digital media; solenoid components interchangeable without tools; control, detection, measuring, indicating, timing, switching, inspection, reading, checking (inspection), signalling and warning apparatus and instruments; fluid control elements and fluid devices, namely fluid meters, fluid level sensors, fluid flow meters, fluid metering apparatus; power controllers; connecting modules for valves; electric control modules; valves for controlling compressible and incompressible fluids, namely, automatic safety valves, electronic time delay valves, automatic control valves, electronic pilot valves, and electronic mixing valves; electronic sensors; electric connection units for valves; ethernet switches; control apparatus and instruments for pneumatic and hydraulic systems and parts thereof; fluidic, electrical and electronic control apparatus and instruments for pneumatic and fluidic systems; safety valves for flow shut-off (solenoid valves); software for remote diagnostics; accessories for electronic valves that control compressible and incompressible fluids, namely, valve islands, fieldbus, linear, valve and damping modules and electronic

connectors; filters for pneumatic and hydraulic systems, namely, filters for pneumatic and hydraulic pressure regulators for removing water and particles from compressed air; liquid pressure regulators, including pressure regulators for gases and liquids and parts thereof; control valves for regulating the flow of gasses and liquids (solenoid valves); ethernet controllers; valve manifolds and parts and fittings thereof; centralised input/output [I/O] modules; software for diagnostics of input/output [I/O] modules and valve islands===
===dryers for pneumatic systems including air and gas dryers and parts therefor, and air vents; parts and fittings for the aforesaid goods.; regulators such as draft and gas and jet regulators constituting parts of taps; regulators, filters and reservoirs (included in this class); irrigation spray nozzles; driers for pneumatic systems, namely, air and gas driers and parts therefor, and air vents; flow control valves and mixing valves; gas dryers; check valves, safety valves, relief valves, pilot valves, time delay valves all for water supply and heating installations; air filters; apparatus for steam generating, drying, ventilating, water supply and sanitary purposes; thermostatic valves; gas drying installations; Air dryers; filters being parts of industrial apparatus and installations===
===caps for vehicle fuel tanks; parts and fittings for all the aforesaid goods; Filler caps for vehicles; couplings, connectors and joints for tubes and hoses for land vehicles; all the above-mentioned goods for use in hydraulic and pneumatic systems of land vehicles; parts and fittings for land, air or water vehicles.===
===Flexible pipes, not of metal, used in production; couplings, connectors, joints and unions for pipes, tubes and hoses all made wholly or principally of plastics materials; non-metallic fittings for pipes and tubes; non-metallic parts of pipes and tubing lubricators and valves being parts of industrial apparatus and installations; plastic materials in the form of pipes, blocks, rods and fittings; plastic materials in the form of pipes, tubes, blocks, rods and of shaped sections, all for use in manufacture.; flexible tubing not of metal===
===advisory, information and consultancy services for the aforesaid services.; catalogue ordering services featuring motion and fluid control products; providing customer information in the field of motion and fluid control products; Computerized on-line ordering services in the field of motion and fluid control products===
===providing access to an online portal providing diagnostic information on input/output [I/O] modules and valve islands; information, advisory and consultancy services relating to the aforesaid services.; delivery of data and messages by electronic transmission; providing access to an online portal for diagnostics of input/output [I/O] modules; Electronic transmission of data and documents via the Internet or other databases; communications by means of mobile phones and the internet that connect to valve islands; electronic message sending; providing access to an online portal for controlling electronic compressed air network control systems and valve islands; providing access to an online interface for diagnostics of input/output [I/O] modules===
===Technology consultation in the field of motion and fluid control products; software as a service (SaaS); information, advisory and consultancy services relating to the aforesaid services.; cloud storage services for electronic data and files; providing online reports relating to electronic compressed air network control systems and valve islands; recording data relating to electronic compressed air network control systems and valve islands; reporting data relating to electronic compressed air network control systems and valve islands; platform as a service (PaaS); preparation of technical reports===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===metal connectors and push-in fittings for hydraulic and pneumatic devices; metallic pipes and fittings thereof; katup logam, bukan merupakan bagian dari mesin; suku cadang dan aksesori untuk ragum logam dan cakar logam; suku cadang dan perlengkapan untuk barang-barang tersebut di atas.; Fitting selang dan sambungan selang, dari logam; Katup sebagai komponen mesin untuk fluida yang dapat dikompresi dan tidak dapat dikompresi, yaitu katup searah, katup pengaman, katup pelepas tekanan, katup penunda waktu, katup pemilih, katup kontrol, katup pilot, katup pencampur, dan aksesori katup, yaitu unit katup, modul, dan konektor.; penjepit logam; pipa logam; cakar penjepit logam; penjepit klip; klem balok; penjepit engsel===
===Pengering udara dan gas merupakan bagian dari mesin.; senjata udara pembersih dan unit hidrolik, yaitu generator sinyal tekanan; kompresor; peralatan pelumasan yang dioperasikan dengan tekanan udara; lengan robot untuk keperluan industri; senapan tiup; air spray guns; selang (logam) untuk digunakan dalam sistem pneumatik dan hidrolik pada mesin; penjepit bertenaga untuk perangkat pneumatik dan hidrolik; mesin penjepit; perangkat pelumasan pneumatik untuk menghasilkan aerosol oli; pelumas untuk peralatan yang dioperasikan dengan udara dan bagian-bagiannya, penguras otomatis untuk cairan, perangkat pengisian cairan; regulator pencampur dan regulator tekanan; nosel semprot; katup pencampur untuk gas dan cairan; Peralatan pertanian, perkakas, penetasan telur; Unit persiapan udara pneumatik dan bagian-bagiannya untuk digunakan dalam mesin pneumatik.; pistol semprot dan pistol tiup; katup satu arah dari logam dan/atau plastik yang merupakan bagian dari mesin; katup tunda untuk gas dan cairan; peredam suara untuk perangkat pneumatik dan hidrolik; katup kontrol arah pneumatik; mechanical, hydraulic and pneumatic linear driving, regulating and transport apparatus; alat penjepit untuk menahan bagian-bagian benda kerja selama proses pemesinan; mesin perkakas presisi untuk pengerjaan benda kerja; workpiece clamping attachments for machines; aktuator pneumatik dan hidraulik; rakitan manifold; filter untuk pelumas; gas and oil removal filters for use with pneumatic and hydraulic machinery; compressed air compressors, other than for motor vehicles, machine tools and power tools; katup pengatur untuk gas dan cairan; Pelumas pneumatik untuk menghasilkan kabut pelumas, misalnya untuk melumasi peralatan yang dioperasikan dengan udara.; relief valves; komponen mesin, yaitu, silinder pneumatik dan hidrolik; Regulator tekanan fluida termasuk regulator tekanan untuk gas dan cairan serta bagian-bagiannya.; robot industri untuk digunakan dalam pemasangan benda kerja yang akan dikerjakan; rakitan silinder-piston; peralatan mesin; gas and liquid processing equipment and apparatus for use in industries, in particular in the process industry; ventilation valves (part of machines); pengatur posisi linier dan bagian-bagiannya; pistol semprot dan tiup bertenaga listrik; saklar korespondensi fluida; mesin pemotong tabung; mesin udara bertekanan; regulator tekanan; meja geser untuk perangkat pneumatik dan hidrolik; pelumas dan perangkat pelumasan; robot untuk menangani dan memanipulasi benda kerja; Peralatan fluidistor dan aksesori untuk mesin atau mekanisme.; penyemprot udara bertekanan; filters (machine parts or parts of engines) for pneumatic and hydraulic installations, including air, gas and oil removal filters and parts thereof; perlengkapan penjepit benda kerja yang merupakan bagian dari mesin.; penjepit untuk perangkat pneumatik dan hidrolik; katup mesin untuk fluida yang dapat dikompresi dan tidak dapat dikompresi, yaitu, katup searah, katup pelepas tekanan, dan katup selektor.; Perangkat pelumasan gabungan pistol semprot menggunakan filter dan elemen kontrol.; peralatan penanganan dan kontrol yang digunakan dalam instalasi perakitan dan pemrosesan otomatis; katup kontrol; perkakas tangan dengan penggerak mekanis dan pneumatik; alat untuk mengaplikasikan cairan pendingin dalam bentuk kabut; perangkat penyemprot untuk cairan pengeboran dan pelumas; katup periksa; regulator tekanan untuk gas dan cairan; katup pencampur yang merupakan bagian dari mesin; regulator tekanan udara merupakan bagian dari mesin; peralatan pneumatik; pressure regulators for fluids; katup penutup untuk gas dan cairan; valves, particularly high-pressure control, stream regulating and needle valves; hoses

(metal) for transferring pneumatic and hydraulic power in machines; perangkat dan instalasi pelumasan; katup pengaman untuk gas dan cairan; motor udara tekan; penjepit kayu merupakan bagian dari mesin; pneumatic and hydraulic cylinders for machines; katup (bagian-bagian mesin); katup pengatur aliran; bagian-bagian mesin, yaitu, selang PVC yang diperkuat nilon, poliuretan, dan poliester serta aksesori selang, yaitu, saluran berupa dudukan selang yang tidak terbuat dari logam, dan penanda PVC untuk mengidentifikasi selang, keduanya merupakan bagian dari mesin.; Unit pelumasan pneumatik beserta suku cadang dan aksesorinya, untuk produksi aerosol berminyak, misalnya, untuk pelumasan peralatan pneumatik, filter udara dan gas, regulator tekanan untuk mesin, katup kontrol untuk mesin.; bagian-bagian mesin, yaitu, rakitan manifold untuk katup yang terutama terdiri dari sakelar tekanan, katup searah, regulator, dan pengukur.; spindel listrik untuk mesin perkakas; mesin yang menggunakan udara bertekanan; suku cadang dan perlengkapan untuk barang-barang tersebut di atas.; katup sakelar udara tekan; knalpot motor; filters, pressure regulators, lubricators and valves all being parts of machines; unit persiapan udara pneumatik dan bagian-bagiannya; lubrication devices for pressure lubrication systems; pistol semprot dan tiup; pompa udara bertekanan; perangkat peningkat tekanan; penjepit magnet; perangkat dan sistem pelumasan, termasuk rakitan pelumasan pneumatik untuk mendistribusikan oli dalam bentuk aerosol.; saluran pembuangan otomatis untuk cairan (bagian mesin atau motor); filter (bagian dari mesin atau motor); katup satu arah untuk gas dan cairan; filters and valves constituting machinery or engine parts and parts and fittings for the aforesaid goods all constituting compressed air equipment; mesin pneumatik dan hidrolik, motor dan peralatan mesin; bagian-bagian mesin, yaitu, pelumas untuk peralatan yang dioperasikan dengan udara, saluran pembuangan otomatis untuk cairan, perangkat pengisian cairan.; perangkat penjepit yang merupakan bagian dari mesin; Peralatan dan aksesoris perangkat fluida untuk mesin atau mekanisme.; katup pilot udara terkompresi; blok pemandu dengan bantalan rol untuk mesin; filter untuk mesin dan/atau menjadi bagian dari mesin; mesin udara tekan; katup pengatur waktu; kopling dan aktuator yang merupakan bagian dari mesin; generator tekanan untuk fluida; katup kontrol untuk gas dan cairan; filter untuk motor dan/atau menjadi bagian dari motor; pistol gemuk dan katup merupakan bagian dari mesin.; filters for pneumatically controlled motors, namely, exhaust filters; robot industri; katup untuk digunakan pada pengatur posisi linier; peralatan penanganan dan penempatan untuk digunakan dalam instalasi perakitan dan pemrosesan otomatis.; nosel yang merupakan bagian dari mesin; clamping devices for use with machine tools; robot untuk memberi makan dan/atau memindahkan benda kerja; katup pengaman; robotic compressed air pumps===
===Metal vice jaws; baji penjepit; penahan benda kerja; penjepit; klem untuk digunakan dalam memegang benda kerja; tube cutting instruments.; cakar untuk perkakas tangan; klem pengunci untuk perkakas tangan===
===regulator tekanan untuk gas dan cairan; pengontrol ethernet; perangkat lunak untuk diagnostik modul input/output [I/O] dan gugusan katup; Apparatus and instruments for controlling, detection, measuring, indicating, timing, switching, inspection, sensing, checking (supervision), signalling, and monitoring; Elemen kontrol fluida dan perangkat fluida, yaitu, generator sinyal tekanan, sensor tekanan fluida, penguat tekanan, indikator tekanan dan modul fluida, pengukur.; Peralatan dan instrumen kontrol fluida, listrik, dan elektronik untuk sistem pneumatik dan fluida.; aktuator listrik; valve islands; perangkat lunak aplikasi untuk diagnostik modul input/output [I/O]; Peralatan dan instrumen ilmiah, kelautan, survei, listrik (termasuk radio), fotografi, sinematografi, optik, penimbangan, pengukuran, pensinyalan, pemeriksaan (pengawasan), keselamatan dan pengajaran, termasuk uang atau token yang mengoperasikan peralatan otomatis, mesin bicara, mesin kasir, kalkulator, alat pemadam kebakaran.; electronic control systems for machines, namely, electronic compressed air network control systems; peralatan dan instrumen kontrol untuk sistem pneumatik dan bagian-bagiannya; generator sinyal tekanan; Regulator tekanan cairan, termasuk regulator tekanan untuk gas dan cairan serta bagian-bagiannya.; solenoid components interchangeable without tools, namely, valves; sakelar tekanan; perangkat lunak komputer untuk menampilkan media digital; perangkat lunak aplikasi untuk pemantauan dan diagnostik jarak jauh; suku cadang dan perlengkapan untuk barang-barang tersebut di atas.; Aksesori untuk katup elektronik yang mengontrol fluida yang dapat dikompresi dan tidak dapat dikompresi, yaitu, unit katup, regulator, pengatur tekanan, sakelar tekanan, fitting tekan, konektor.; katup solenoid; pengukur tekanan; electric, electronic and jet control apparatus and instruments for pneumatic and jet systems; modul input/output [I/O] terpusat; Komponen solenoida dapat diganti tanpa menggunakan alat.; peralatan dan instrumen kontrol untuk sistem pneumatik dan hidraulik serta bagian-bagiannya; perangkat lunak untuk dasbor diagnostik jarak jauh; instrumentasi kontrol elektronik; electro-pneumatic interface apparatus and instruments; application software; indikator tekanan; manifold katup dan bagian serta perlengkapannya; instrumen pengukuran; suku cadang, perlengkapan, dan aksesori untuk semua barang tersebut di atas; Peralatan dan instrumen antarmuka elektro-pneumatik, pengukur tekanan, pengukur aliran, katup solenoida; modul kontrol listrik; control, detection, measuring, indicating, timing, switching, inspection, reading, checking (inspection), signalling and warning apparatus and instruments; filter untuk sistem pneumatik dan hidrolik, yaitu, filter untuk regulator tekanan pneumatik dan hidrolik untuk menghilangkan air dan partikel dari udara terkompresi; sensor tekanan; pengukur aliran; valves for controlling compressible and incompressible fluids, namely, automatic safety valves, electronic time delay valves, automatic control valves, electronic pilot valves, and electronic mixing valves; electronic sensors; modul input/output [I/O]; sensor listrik; instrumen pengukur tekanan; peralatan dan instrumen kopling elektropneumatik; elemen kontrol fluidistor, perangkat fluidistor, penguat, indikator tekanan, dan instrumen sensor.; modul penghubung untuk katup; pengontrol daya; unit koneksi listrik untuk katup; software for remote diagnostics; katup kontrol untuk mengatur aliran gas dan cairan (katup solenoid); accessories for electronic valves that control compressible and incompressible fluids, namely, valve islands, fieldbus, linear, valve and damping modules and electronic connectors; sakelar ethernet; elemen pengontrol fluida dan perangkat fluida, yaitu meter fluida, sensor ketinggian fluida, meter aliran fluida, alat pengukur fluida; katup pengaman untuk menghentikan aliran (katup solenoid)===
===katup satu arah, katup pengaman, katup pelepas tekanan, katup pilot, katup penunda waktu, semuanya untuk instalasi pasokan air dan pemanas.; regulators, filters and reservoirs (included in this class); Pengering untuk sistem pneumatik termasuk pengering udara dan gas serta bagian-bagiannya, dan ventilasi udara.; instalasi pengering gas; suku cadang dan perlengkapan untuk barang-barang tersebut di atas.; pengering untuk sistem pneumatik, yaitu, pengering udara dan gas serta bagian-bagiannya, dan ventilasi udara; peralatan untuk pembangkitan uap, pengeringan, ventilasi, pasokan air, dan keperluan sanitasi; filter udara; katup pengatur aliran dan katup pencampur; nosel semprot irigasi; regulator seperti regulator aliran udara, gas, dan jet yang merupakan bagian dari keran; katup termostatik; filters being parts of industrial apparatus and installations; Pengering udara; pengering gas===
===caps for vehicle fuel tanks; suku cadang dan perlengkapan untuk kendaraan darat, udara, atau air.; parts and fittings for all the aforesaid goods; Filler caps for vehicles; couplings, connectors and joints for tubes and hoses for land vehicles; semua barang yang disebutkan di atas untuk digunakan dalam sistem hidrolik dan pneumatik kendaraan darat===
===selang fleksibel bukan dari logam; non-metallic parts of pipes and tubing lubricators and valves being parts of industrial apparatus and installations; Pipa fleksibel, bukan dari logam, digunakan dalam produksi.; bahan plastik dalam bentuk pipa, balok, batang, dan fitting; fitting non-logam untuk pipa dan tabung; Bahan plastik dalam bentuk pipa, tabung, balok, batang, dan penampang berbentuk, semuanya untuk digunakan dalam manufaktur.; Sambungan, konektor, persambungan, dan

penyatuan untuk pipa, tabung, dan selang, semuanya terbuat seluruhnya atau sebagian besar dari bahan plastik.===
===Layanan konsultasi, informasi, dan penasihatan untuk layanan tersebut di atas.; catalogue ordering services featuring motion and fluid control products; Layanan pemesanan online terkomputerisasi di bidang produk kontrol gerak dan fluida.; providing customer information in the field of motion and fluid control products===
===komunikasi melalui telepon seluler dan internet yang terhubung ke pulau-pulau katup; providing access to an online portal providing diagnostic information on input/output [I/O] modules and valve islands; layanan informasi, nasihat, dan konsultasi yang berkaitan dengan layanan tersebut di atas.; Pengiriman data dan dokumen secara elektronik melalui internet atau basis data lainnya.; pengiriman data dan pesan melalui transmisi elektronik; providing access to an online portal for diagnostics of input/output [I/O] modules; menyediakan akses ke antarmuka online untuk diagnostik modul input/output [I/O]; menyediakan akses ke portal online untuk mengontrol sistem kontrol jaringan udara tekan elektronik dan unit katup.; pengiriman pesan elektronik===
===Layanan penyimpanan cloud untuk data dan file elektronik.; information, advisory and consultancy services relating to the aforesaid services.; merekam data yang berkaitan dengan sistem kontrol jaringan udara tekan elektronik dan unit katup.; pelaporan data yang berkaitan dengan sistem kontrol jaringan udara tekan elektronik dan unit katup.; menyediakan laporan online terkait sistem kontrol jaringan udara tekan elektronik dan unit katup.; Konsultasi teknologi di bidang produk kontrol gerak dan fluida.; perangkat lunak sebagai layanan (SaaS); platform as a service (PaaS); preparation of technical reports===

tympans [parts of printing presses]; washing installations for vehicles; grindstones [parts of machines]; carburetters; machines and apparatus for cleaning, electric; knives [parts of machines]; self-oiling bearings; drilling machines; electric arc welding apparatus; compressed air engines; vacuum pumps [machines]; hair clipping machines for animals; beating machines; conveyors [machines]; knitting machines; ejectors; soldering blow pipes, gas-operated; cartridges for filtering machines; taps [parts of machines, engines or motors]; harvesting machines; sealing machines for industrial purposes; stone-working machines; road making machines; die-cutting and tapping machines; sifting machines; shoe polishers, electric; elevator belts; ironing machines; crankcases for machines, motors and engines; beaters, electric; propulsion mechanisms, other than for land vehicles; cowlings [parts of machines]; bobbins for weaving looms; wringing machines for laundry.; beer pumps; turbines, other than for land vehicles; air cushion devices for moving loads; machine fly-wheels; cranks [parts of machines]; pistons [parts of machines or engines]; hoists; typographic machines; guns [tools using explosives]; calenders; coal-cutting machines; degreasers [machines]; transmissions, other than for land vehicles; bearings [parts of machines]; machines and apparatus for carpet shampooing, electric; millstones; alternators; fittings for engine boilers; machines for processing plastics; milling machines; lasts for shoes [parts of machines]; pasta making machines, electric; winnowers; elevators [lifts]; automatic grapnels for marine purposes; chucks [parts of machines]; blowing machines; mobile cranes; compressed air pumps; threading machines; painting machines; reduction gears, other than for land vehicles; aerocondensers; filling machines; crank shafts; feeders [parts of machines]; fleshing machines; rubber tracks being parts of crawlers on mining machines; pulverisers [machines]; air condensers; pump diaphragms; robotic exoskeleton suits, other than for medical purposes; stalk separators [machines]; expansion tanks [parts of machines]; boiler tubes [parts of machines]; shock absorber plungers [parts of machines]; drilling rigs, floating or non-floating; bearing brackets for machines; belt conveyors; grease boxes [parts of machines]; moving walkways; rolling mill cylinders; tilt hammers; die-stamping machines; machines for the mineralization of drinking water; welding machines, electric; welding apparatus, gas-operated; winches; lubricating pumps; bearings for transmission shafts; spray guns for paint; kick starters for motorcycles; centrifugal machines; fuel conversion apparatus for internal combustion engines; screwdrivers, electric; derricks; apparatus for aerating beverages; type-setting machines [photocomposition]; printing cylinders; current generators; smoothing presses; handling machines, automatic [manipulators]; window openers, electric; molds [parts of machines]; handling apparatus for loading and unloading; piston segments; cream/milk separators; carbon brushes [electricity]; churns; metalworking machines; lifting apparatus; whisks, electric, for household purposes; machine tools; reapers and threshers; electromechanical machines for chemical industry; engine mounts, other than for land vehicles; parquet wax-polishers, electric; reels, mechanical, for flexible hoses; typographic presses; saws [machines]; excavators; engraving machines; hydraulic controls for machines, motors and engines; dynamo brushes; motors, other than for land vehicles; wine presses; curtain drawing devices, electrically operated; driving motors, other than for land vehicles; hydraulic turbines; shears, electric; soldering apparatus, electric; aerating pumps for aquaria; motorized cultivators; drums [parts of machines]; pumps for heating installations; filters being parts of machines or engines; connecting rods for machines, motors and engines; potters' wheels; hydrogen dispensing pumps for service stations; anti-pollution devices for motors and engines; puddling machines; gears, other than for land vehicles; door closers, electric; fans for motors and engines; rolling mills; rotary printing presses; carding machines; coffee grinders, other than hand-operated; cylinder heads for engines; food preparation machines, electromechanical; rubber tracks being parts of crawlers on snow ploughs; mortising machines; engines for air cushion vehicles; saw blades [parts of machines]; sewing machines; fuel economisers for motors and engines; paper feeders [printing]; flues for engine boilers; packaging machines; driving chains, other than for land vehicles; clack valves [parts of machines]; incubators for eggs; acetylene cleaning apparatus; electrical apparatus for sealing plastics [packaging]; rubber tracks being parts of crawlers on construction machines; igniting magnetos; rack and pinion jacks; hydraulic engines and motors; hoppers [mechanical discharging]; superchargers; hemming machines; journals [parts of machines]; sieves [machines or parts of machines]; electric welding apparatus; presses [machines for industrial purposes]; foundry machines; blowing machines or fans for the compression, sucking and carrying of grain; starters for motors and engines; waste compacting machines; compressors [machines]; drill chucks [parts of machines]; adhesive bands for pulleys; wrapping machines; nail pullers, electric; tilling machines for agricultural purposes; agricultural machines; turf removing ploughs; harrows; extractors for mines; bookbinding apparatus and machines for industrial purposes; shredders [machines] for industrial use; feeding apparatus for engine boilers; heat exchangers [parts of machines]; steam engine boilers; generators of electricity; coin-operated washing machines; milking machines; rinsing machines; housings [parts of machines]; bottle washing machines; rail-laying machines; window closers, pneumatic; apparatus for aerating water; dust removing installations for cleaning purposes; fruit presses, electric, for household purposes; guides for machines; suction nozzles for vacuum cleaners; embossing machines; packing machines; leather-working machines; bread cutting machines; converters for steelworks; steam traps; electrodes for welding machines; blowing machines for the compression, exhaustion and transport of gases; printing rollers for machines; pulleys [parts of machines]; hand-held tools, other than hand-operated; cigarette machines for industrial purposes; cord making machines; condensing installations; stamping machines; pneumatic tube conveyors; de-aerators for feedwater; vibrators [machines] for industrial use; blenders, electric, for household purposes; joysticks being parts of machines, other than for game machines; steam engines; peeling machines; rakes for raking machines; cultivators [machines]; trimming machines; grating machines for vegetables; road sweeping machines, self-propelled; emergency power generators; filter presses; exhaust

manifold for engines; punching machines; rubber tracks being parts of crawlers on agricultural machines; stators [parts of machines]; vending machines; 3D printing pens; bottle filling machines; friezing machines; glaziers' diamonds [parts of machines]; mills [machines]; turbocompressors; diggers [machines]; darning machines; door openers, hydraulic; mechanized livestock feeders; blade sharpening [stropping] machines; mixing machines; central vacuum cleaning installations; scissors, electric; door closers, hydraulic; railroad constructing machines; roller bridges; can openers, electric; engines for boats; vacuum cleaners; electric hammers; high pressure washers; soldering irons, electric; chisels for machines; window openers, hydraulic; meat choppers [machines]; bottle stoppering machines; fan belts for motors and engines; valves [parts of machines]; mine borers; compressed air guns for the extrusion of mastics; pepper mills, other than hand-operated; pneumatic jacks; satinizing machines; sparking plugs for internal combustion engines; chain saws; air brushes for applying colour; lawnmowers [machines]; fodder presses; stuffing boxes [parts of machines]; anti-friction bearings for machines; drilling heads [parts of machines]; raking machines; beverage preparation machines, electromechanical; printing plates; speed governors for machines, engines and motors; trueing machines; vacuum cleaner hoses; knives, electric; cutters [machines]; finishing machines; grease rings [parts of machines]; transmissions for machines; galvanizing machines; vulcanization apparatus; injectors for engines; belts for conveyors; compressed air machines; pressure valves [parts of machines]; sausage making machines; dishwashers; pigs for cleaning pipes; crushing machines; sifting installations; forge blowers; aeroplane engines; cutting machines; transmission chains, other than for land vehicles; carburetter feeders; sizing machines; glue guns, electric; mineworking machines; suction cups for milking machines; spinning frames; aeronautical engines; pumps for counter-current swimming; brake linings, other than for vehicles; machines and apparatus for polishing [electric]; stitching machines; oil refining machines; brake shoes, other than for vehicles; electric hand drills; pulleys; motors, electric, other than for land vehicles; grinding machines; mixers [machines]; racket stringing machines; elevating apparatus; cutting blow pipes, gas-operated; sewage pulverizers; disintegrators; filters for cleaning cooling air, for engines; washing apparatus; threshing machines; printing presses; air suction machines; jacks [machines]; concrete mixers [machines]; butter machines; dairy machines; self-regulating fuel pumps; transmission shafts, other than for land vehicles; drainage machines; rubber tracks being parts of crawlers on loading-unloading machines and apparatus; mufflers for motors and engines; dyeing machines; loading ramps; shuttles [parts of machines]; springs [parts of machines]; catalytic converters; tables for machines; brushes for vacuum cleaners; freewheels, other than for land vehicles; brewing machines; door openers, electric; adhesive tape dispensers [machines]; kneading machines; thermic lances [machines]; knives for mowing machines; pneumatic controls for machines, motors and engines; capstans; type-setting machines [printing]; woodworking machines; soldering irons, gas-operated; dynamos; joints [parts of engines]; gas-operated blow torches; scale collectors for machine boilers; superheaters; hosiery looms; cylinders for motors and engines; net hauling machines [fishing]; regulators [parts of machines]; cylinders for machines; snow ploughs; filtering machines; chaff cutter blades; basket presses; pedal drives for sewing machines; gear boxes, other than for land vehicles; dust exhausting installations for cleaning purposes; bitumen making machines; looms; torque converters, other than for land vehicles; control mechanisms for machines, engines or motors; planing machines; agitators; earth moving machines; belts for machines; fuel dispensing pumps for service stations; bicycle assembling machines; spin driers [not heated]; binding apparatus for hay; bottle capping machines; tambours for embroidery machines; journal boxes [parts of machines]; reels [parts of machines]; ball rings for bearings; ploughshares; lathes [machine tools]; pneumatic waste oil drainers; stands for machines; typecasting machines; paper machines; tarring machines; sowers [machines]; brushes, electrically operated [parts of machines]; electroplating machines; tobacco processing machines===

dapat diunduh untuk ponsel pintar.; penerima radio; monitor aliran gas; earphone; kunci yang dikendalikan frekuensi radio; serat optik [filamen penghantar cahaya]; pengisi daya untuk akumulator listrik; instrumen navigasi elektronik; mesin dikte; kamera; sensor percepatan; sensor suhu pendingin; platform perangkat lunak komputer, yang direkam atau dapat diunduh; jam tangan pintar; kamera video; baterai pengapian; peralatan untuk transmisi komunikasi; kartun animasi; peralatan radar; meteran untuk mengukur aliran gas; pemancar sinyal elektronik; server jaringan; regulator tegangan untuk kendaraan; instrumen navigasi; alat navigasi untuk mobil; kacamata hitam untuk hewan peliharaan; aplikasi seluler untuk memesan taksi; tongkat pengukur oli kendaraan; headphone; kamera [fotografi]; in-car telephone handset cradles; instrumen pengujian gas; perangkat memori untuk digunakan dengan peralatan pengolahan data; perangkat keras komputer; robot pengawasan keamanan; mesin fotokopi [fotografi, elektrostatik, termal]; aplikasi perangkat lunak komputer, yang dapat diunduh; ponsel pintar; kacamata untuk mengemudi; mainan kerincingan untuk mengarahkan ternak.; terminal penjualan tiket elektronik; penunjuk elektronik yang memancarkan cahaya; detektor inframerah; alat proyeksi holografik; akumulator listrik; Alat ionisasi bukan untuk pengolahan udara atau air.; headphone pribadi yang digunakan bersamaan dengan perangkat transmisi suara; perangkat lunak komputer, direkam; terminal layar sentuh interaktif; perangkat pemancar informasi suara nirkabel; indikator kecepatan; Perangkat keras token keamanan untuk otentikasi pengguna; pemutar media portabel; telepon; server jaringan komputer; pengeras suara; penguji speedometer; peluit olahraga; server internet; layar proyeksi; chip elektronik; program komputer (perangkat lunak yang dapat diunduh); perangkat komunikasi jaringan; speaker pintar; mechanisms for coin-operated apparatus; program komputer, dapat diunduh; proyektor digital; kunci elektronik; program komputer, direkam; meteran parkir; biochip; interkom; kotak hitam [perekam data]; peralatan navigasi satelit; pengukur tekanan ban; sensor level oli; perangkat tampilan head-up untuk kendaraan; Robot humanoid dengan kecerdasan buatan untuk digunakan dalam penelitian ilmiah.; alat ukur; kamera dasbor; lampu peringatan kerusakan kendaraan; kartu sirkuit terpadu [kartu pintar]; pelacak aktivitas yang dapat dikenakan; layar panel datar; Perangkat kemudi otomatis untuk kendaraan.; kabel starter untuk motor; catu daya portabel [baterai isi ulang]; pengenal sidik jari; electronic controllers for vehicles; perangkat pemancar [telekomunikasi]; respirator untuk menyaring udara, bukan untuk keperluan medis.; komputer yang dapat dikenakan; penguji baterai; cincin pintar; perekam video untuk mobil; kayu gelondong [alat ukur]; perangkat memori komputer; fasilitas pertukaran untuk telepon yang dapat diprogram; simulator untuk kemudi dan kontrol kendaraan; tampilan kristal cair; alat pemadam kebakaran untuk mobil; speed measuring apparatus [photography]; pemisah baterai; terminal untuk radiotelepon; akumulator listrik untuk kendaraan; modem; peralatan interkomunikasi; simulator pelatihan mengemudi kendaraan; alat untuk memeriksa cap pos; penanda garis bawah rok; pagar listrik; toples baterai; penganalisis mesin kendaraan terkomputerisasi; peneropong telur; perangkat penghenti kendaraan portabel yang dikendalikan dari jarak jauh; kamera spion untuk kendaraan; komputer; Unit pemrosesan pusat untuk memproses informasi, data, suara, dan gambar.; prosesor sinyal suara digital; alat proyeksi; sistem keamanan untuk kendaraan berupa kunci elektrik; penangkal petir; alat pemantauan, selain untuk keperluan medis; peralatan radiologi untuk keperluan industri; sensor tekanan; Robot humanoid dengan kecerdasan buatan untuk digunakan dalam pekerjaan rumah tangga seperti membersihkan dan mencuci pakaian.; Peralatan indikator angka acak elektronik [ERNIE]; wafer untuk sirkuit terpadu; pengisi daya baterai; sensor parkir untuk kendaraan; alat ukur roda gigi; filter untuk perangkat optik; perangkat sistem penentuan posisi global [GPS]; kotak akumulator; perekam jarak tempuh untuk kendaraan; alat bantu pernapasan untuk berenang di bawah air; kalkulator saku; perangkat navigasi untuk kendaraan [komputer onboard]; stasiun cuaca digital; baterai, listrik, untuk kendaraan; layar kristal cair [LCD]; alat pengukur celah busi; radio; telepon seluler; alat perekam suara; alat untuk menguji transmisi kendaraan; program operasi komputer, direkam; komputer notebook; alat untuk menguji rem kendaraan; monitor video; komputer tablet; stereo mobil; sirkuit terpadu; indikator otomatis tekanan rendah pada ban kendaraan; transformator arus; perangkat untuk memutar media suara dan gambar; layar [fotografi]; penguji cairan rem; headset realitas virtual; chip [sirkuit terpadu]; gantungan kunci elektronik adalah alat kendali jarak jauh.; pigeon training whistles; kartu kunci terenkripsi; radio kendaraan; sensor; tampilan numerik elektronik; prosesor [unit pemrosesan pusat]; layar video; baterai sekunder litium; hologram; peralatan dan instrumen navigasi dan penentuan posisi elektronik; konektor telepon; transponder; timbangan; alarm; pengukur aliran; drive disk optik; peluit anjing; perangkat kontrol listrik untuk manajemen energi; prosesor sinyal digital; speaker audio mobil; remote kontrol untuk mengoperasikan alarm kendaraan; prosesor suara digital; alarm pusat; mesin kasir; Robot humanoid yang memiliki fungsi komunikasi dan pembelajaran untuk membantu dan menghibur manusia.; meteran jam mesin; proyektor multimedia; stasiun pengisian daya untuk kendaraan listrik; instrumen navigasi satelit; server untuk jaringan area lokal; gelang terhubung [alat ukur]; kunci pintu digital; adaptor daya untuk digunakan pada soket pemantik rokok kendaraan===
===lampu malam listrik; Lampu pembunuh kuman untuk memurnikan udara; kipas angin listrik; keran otomatis; peralatan dan instalasi memasak; penghangat saku; pembersih udara dalam mobil; kipas langit-langit; pelembap ion negatif; Bola lampu; slow cooker listrik; pemanas untuk kendaraan; lampu langit-langit; lampu sinar ultraviolet, bukan untuk keperluan medis; lampu berjalan untuk kendaraan; pendingin udara untuk kendaraan; kantong pendingin pribadi, bukan untuk keperluan medis.; instalasi pendingin udara; penghilang embun untuk kendaraan; pemantik gas; cangkir yang dipanaskan secara elektrik; pengering rambut; lemari es; lampu depan kendaraan; alat sterilisasi sepatu untuk keperluan rumah tangga; pelembap udara untuk keperluan rumah tangga; mesin asap; air mancur; kompor listrik; ketel listrik; Batu lava untuk digunakan pada panggangan barbekyu; kompor induksi; mangkuk toilet; pompa panas; lampu meja; lampu untuk kendaraan; peralatan dan instalasi penerangan; pemanas ulang udara; proyektor cahaya; dudukan toilet; lampu untuk generator kendaraan; reaktor nuklir; alat pusaran air jet; lampu sein untuk sepeda; obor listrik; penggorengan udara; lampu jalan; pembersih udara untuk mobil; peralatan pendingin udara untuk mobil; lampu; tudung penghisap asap untuk dapur; tungku surya; bantal berpemanas listrik, bukan untuk keperluan medis.; laundry dryers, electric; ketel rumah tangga, listrik; oven microwave [peralatan memasak]; pengering udara; Perangkat anti-silau untuk kendaraan [perlengkapan lampu]; setrika uap pakaian; kompor bahan bakar rumah tangga; alat sterilisasi udara; lampu untuk mobil; pemanas untuk kamar mandi; instalasi polimerisasi.; lampu sepeda motor; oven listrik rumah tangga; mesin pembuat roti; instalasi penyaringan udara; autoklaf, listrik, untuk memasak; dispenser air minum; instalasi pendingin untuk cairan; alat penjernih air listrik untuk keperluan rumah tangga; pendingin udara; filter udara untuk unit pendingin udara; termos listrik; lampu pemanas untuk kamar mandi; penggorengan listrik; kipas angin [AC]; lampu depan untuk mobil; instalasi ventilasi [pendingin udara] untuk kendaraan; perlengkapan penerangan untuk kendaraan; alat disinfektan; water filtering apparatus; instalasi pendingin udara untuk kendaraan; kompor listrik untuk keperluan rumah tangga; reflektor kendaraan; pengering tangan udara panas listrik; lampu minyak; mesin kopi, listrik; air purifying apparatus and machines; mesin pembuat susu kedelai, listrik; lampu kuku; pengukus makanan, listrik; light bulbs for directional signals for vehicles; lampu sepeda; toilet [kamar kecil]; pembersih udara; instalasi penyiraman otomatis; mesin penghasil asap buatan; setrika uap kain; ionizer air untuk keperluan rumah tangga; lampu rem untuk kendaraan; alat pendingin udara; teko kopi listrik===

automatic depalletisation machines; depalletisation systems consisting of a depalletiser, a conveyor for feeding a stack of goods with multiple layers of goods, including glass containers and glass bottles stacked on top of one another, to a depalletiser and conveyor for the transport of goods from a palletiser, including glass containers and glass bottles.; palletisation systems consisting of a palletiser, a conveyor for the feeding of goods, including glass containers, glass bottles, for a palletiser and conveyor for transporting a stack of goods with multiple layers of goods from a palletiser, including glass containers and glass bottles stacked on top of one another; installations for the packaging industry, in particular for processing films for packaging, mainly consisting of packing machines and conveyors, in particular belt conveyors and roller conveyors; Packaging machines; depalletisers; installations for the packaging industry, in particular installations for the application of packaging films and/or packaging film covers around or to goods, including stacks of goods or stacks of goods arranged on pallets, consisting primarily of packaging machines and conveyors, in particular belt conveyors and roller tracks; palletisers; conveyors, in particular belt conveyors and roller conveyors; cover sheet dispensers [machines]; automatic palletisation machines=== ===downloadable computer programs and computer software; computer programs and computer software for controlling logistical processes, including the storage, withdrawal from storage or commissioning of goods, and for checking packaging machines and systems and installations in the packaging technology sector; downloadable media; computer peripheral devices; recorded media; data processing programs recorded on data carriers, in particular for the control of logistical processes, including the storage, withdrawal from storage or commissioning of goods, and for the control and inspection of packaging machines, unpacking machines, cover sheet dispensers, palletisers and depalletisers and systems and installations in the field of packaging technology, the packaging of goods, including stacks of goods or stacks of goods arranged on pallets, with packaging film, packaging sleeves or packaging film covers, the removal of packaging film, packaging sleeves or packaging film covers applied to a pallet load, and for the control and inspection of cover sheet dispensers, palletisers and depalletisers.; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; electric and electronic apparatus, instruments and devices, the aforesaid goods included in this class, namely data processing apparatus and computers, monitoring, control, regulating, error logging and troubleshooting apparatus, equipment and instruments; data-processing equipment and computers; data processing equipment; blank digital or analogue recording and storage media; data processing programs recorded on data carriers, in particular for the control and inspection of high-tech systems in the field of packaging technology, the packaging of goods, including stacks of goods or stacks of goods arranged on pallets, with packaging film, packaging sleeves or packaging film covers, the removal of packaging film, packaging sleeves or packaging film covers applied to a pallet load, and for the control and inspection of cover sheet dispensers, palletisers and depalletisers; Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; coin-operated mechanisms; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; computer programs and software; calculating devices; computers=== ===remote maintenance, maintenance, installation and repair through digital/virtual assistance via a telecommunication network in relation to the following goods: machines for packing, de-packaging machines, cover sheet dispensers, palletisers, depalletisers and systems and installations in the field of packaging technology, the packaging of goods, including stacks of goods or stacks of goods arranged on pallets, with packaging film, packaging sleeves and/or packaging film covers, the removal of packaging film, packaging sleeves or packaging film covers applied to a pallet load, and cover sheet dispensers, palletisers and depalletisers.; Installation, maintenance and repair of the following goods: machines for packing, de-packaging

machines, cover sheet dispensers, palletisers and depalletisers and systems and installations in the field of packaging technology, the packaging of goods, including stacks of goods or stacks of goods arranged on pallets, with packaging film, packaging sleeves and/or packaging film covers, the removal of packaging film, packaging sleeves or packaging film covers applied to a pallet load, and cover sheet dispensers, palletisers and depalletisers===
===technical consultancy in relation to the creation, development, use and application of computer programs and computer software; industrial research; quality control; creation, development and maintenance of programs for data processing, in particular for the control and inspection of high-tech systems in the field of packaging technology, the packaging of goods, including stacks of goods or stacks of goods arranged on pallets, with packaging film, packaging sleeves or packaging film covers, the removal of packaging film, packaging sleeves or packaging film covers applied to a pallet load, of cover sheet dispensers, palletisers and depalletisers; updating and maintenance of computer programs and software; creation and maintenance of programs for data processing, in particular for the control of logistical processes, including the storage, withdrawal from storage or commissioning of goods, and for the control and inspection of packaging machines, unpacking machines, cover sheet dispensers, palletisers and depalletisers and systems and installations in the field of packaging technology, the packaging of goods, including stacks of goods or stacks of goods arranged on pallets, with packaging film, packaging sleeves or packaging film covers, the removal of packaging film, packaging sleeves or packaging film covers applied to a pallet load, of cover sheet dispensers, palletisers and depalletisers; technical support services in relation to the following goods: machines for packaging, de-packaging machines, cover sheet dispensers, palletisers, depalletisers and systems and installations in the field of packaging technology, the packaging of goods, including stacks of goods or stacks of goods arranged on pallets, with packaging film, packaging sleeves and/or packaging film covers, the removal of packaging film, packaging sleeves or packaging film covers applied to a pallet load, and cover sheet dispensers, palletisers and depalletisers.; Scientific and technological services and research and design relating thereto; digital support via camera, video and chat function and via exchange of digital documents relating to troubleshooting, maintenance, repair, supply and ordering of replacement parts of packaging machines and of systems and installations in the field of packaging technology; industrial design; authentification services; digital/virtual assistance, including by means of virtual overlays, relating to troubleshooting, maintenance, repair, spare parts supply and spare parts ordering for packaging machines, unpacking machines, cover sheet dispensers, palletisers and depalletisers, and of systems and installations in the field of packaging technology, the packaging of goods, including stacks of goods or stacks of goods arranged on pallets, with packaging film, packaging sleeves or packaging film covers, the removal of packaging film, packaging sleeves or packaging film covers applied to a pallet load, of cover sheet dispensers, palletisers and depalletisers; custom software programming; industrial analysis; design and development of computer hardware and software===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===mesin pengemas palet; mesin dan sistem khususnya untuk pelepasan otomatis film kemasan, selongsong kemasan, atau penutup film kemasan yang diterapkan pada muatan palet.; Sistem depalletisasi yang terdiri dari depalletiser, konveyor untuk memasukkan tumpukan barang dengan beberapa lapisan barang, termasuk wadah kaca dan botol kaca yang ditumpuk satu di atas yang lain, ke depalletiser dan konveyor untuk mengangkut barang dari palletiser, termasuk wadah kaca dan botol kaca.; mesin paletisasi otomatis; palletisation systems consisting of a palletiser, a conveyor for the feeding of goods, including glass containers, glass bottles, for a palletiser and conveyor for transporting a stack of goods with multiple layers of goods from a palletiser, including glass containers and glass bottles stacked on top of one another; Mesin pengemas; mesin depalletisasi otomatis; Instalasi untuk industri pengemasan, khususnya instalasi untuk penerapan film kemasan dan/atau penutup film kemasan di sekitar atau pada barang, termasuk tumpukan barang atau tumpukan barang yang disusun di atas palet, yang terutama terdiri dari mesin pengemasan dan konveyor, khususnya konveyor sabuk dan jalur rol.; konveyor, khususnya konveyor sabuk dan konveyor rol; Instalasi untuk industri pengemasan, khususnya untuk pengolahan film kemasan, terutama terdiri dari mesin pengemas dan konveyor, khususnya konveyor sabuk dan konveyor rol.; Mesin dan peralatan (termasuk dalam kelas ini) untuk industri pengemasan, khususnya untuk memproses film untuk pengemasan.; mesin dan peralatan untuk industri pengemasan untuk aplikasi film kemasan dan/atau penutup film kemasan, barang-barang tersebut di atas termasuk dalam kelas ini; cover sheet dispensers [machines]; pembongkar palet===
