510 Uraian Barang/Jasa (Bahasa Inggris) : ===Motors, except for land vehicles, machines, namely engines and motors and machines for supplying and driving water vehicles, parts therefor, related accessories, the aforesaid goods included in this class; pod drives and external drives for water vehicles, parts therefor, related accessories, the aforesaid goods included in this class; sprockets for water vehicle gearing; gears, gear units and parts thereof, included in this class, also for supplying and driving water vehicles; propulsors being drive units for water vehicles, including steerable propulsors, parts therefor, related accessories, the aforesaid goods included in this class; gear ratios, gear wheels, pinions, crown wheels, bevel wheels and bevel gear sets for use in relation to the following goods: gears, gear units and drives for water vehicles; pumps [machines], parts therefor, related accessories, the aforesaid goods included in this class; water swivels [hydraulic couplings] and parts therefor, the aforesaid goods included in this class; gears, gear units and parts thereof, included in this class, for propeller and screw drives, propulsors, thrusters, pod drives and external drives and parts thereof, included in this class, all being for water vehicles; machine parts, namely elastic couplings; couplings and parts thereof, the aforesaid goods included in this class, for use in relation to the following goods: machines; surface gears and underwater gears and parts thereof, included in this class, for drives for water vehicles; power transmission couplings and parts therefor, the aforesaid goods included in this class, for use in relation to the following goods: marine craft; propeller and ship screw shafts, parts therefor, related accessories, the aforesaid goods included in this class; gears and gear units and parts thereof, included in this class, for transmitting high torque for supplying and driving water vehicles; discs for clutch thrust bearings, other than for land vehicles.; thrusters being drive units for water vehicles and jet engines for water vehicles, parts therefor, related accessories, the aforesaid goods included in this class; mechanical bearings, including rotary bearings and vibrating bearings, for use in relation to the following goods: gears, gear units and drives for water vehicles; couplings and parts thereof, the aforesaid goods included in this class, the aforesaid goods being machines and for machines; power transmission couplings and parts therefor, the aforesaid goods included in this class, for use in relation to the following goods: machines; clutch master cylinders and parts therefor, the aforesaid goods included in this class, except for land vehicles; couplings and parts thereof, the aforesaid goods included in this class, except for land vehicles; clutch levers, other than for land vehicles; power transmission couplings and parts therefor, the aforesaid goods included in this class, for use in relation to the following goods: water vessels; propeller and screw drives, parts therefor, related accessories, the aforesaid goods included in this class; gear drives and parts of gear drives for supplying and driving water vehicles; drive mechanisms and parts thereof, included in this class, for supplying and driving water vehicles===
===sensors for determining temperature, position, distance, speed and acceleration; proximity sensors; commutators and switch contacts, the aforesaid goods included in this class; pressure sensors; electric apparatus for commutation and relays, electric; electric and electronic apparatus for water vehicles being information technology and audiovisual apparatus or navigation, guidance, tracking, targeting and map making equipment, including the following products: software, hardware and computers, related parts, related accessories, the aforesaid goods included in this class; electric and electronic sensors for measuring data for monitoring and control of the condition, operation and performance of control and propulsion systems of watercraft, included in this class; electric sensors; computer hardware and software for on board and remote monitoring and control of the condition, operation and performance of control and propulsion systems of watercraft, included in this class; timing sensors; electric and electronic direction controllers and drive controllers, including propulsion controllers, for water vehicles, including the following products: software, hardware and computers, related parts and related accessories, the aforesaid goods included in this class; electric and/or electronic apparatus for water vehicles, including the following products: software, hardware and computers, related parts and related accessories, the aforesaid goods included in this class; electronic data relays for sensors; gas sensors for measuring gas concentration; photoelectric sensors; alarms, including the following products: visual alarms and acoustic alarms; quantity indicators, namely level sensors and level limit switches, including mechanical level measuring devices, in particular with float gauges; nautical sensor systems, namely navigation systems, including the following products: software, hardware and computers; electrical and optical conduits; magnetic, electric, electromagnetic, electronic, optical, electro-optical, magneto-optical, mechanical, magneto-mechanical and electromechanical nautical instruments and apparatus, including the aforesaid for measurement and control purposes, including the following products: software, hardware and computers, related parts and related accessories, the aforesaid goods included in this class; navigation apparatus for water vehicles, namely on-board computers, including the following products: software and hardware.; monitoring and control systems for condition, operation, performance, fuel consumption, maintenance and repair requirements, utilisation, operating costs and benchmarking systems for a fleet of watercraft and fleet management, including computer software, computer hardware, sensors, transmitters and receivers for use in connection with ship control and propulsion systems, included in this class; all the aforesaid sensors in particular for installation in the control and drive systems of water vehicles or for measuring data for monitoring and control of the condition, operation and performance of control and drive systems of water vehicles, including software, hardware and computers, included in this class; signal and data transmission equipment, processing equipment and storage equipment, including the following products: software, hardware and computers, the aforesaid goods included in this class; Electric and electronic controllers, computers, computer software and hardware for motors, machines, rudders, propellers and ship screw, related parts of the aforesaid goods included in this class; apparatus for navigation, including the following products: software, hardware and computers, related parts and related accessories, the aforesaid goods included in this class; computer hardware and software for use with monitoring and control systems for watercraft for receiving, storing, processing, transmitting and displaying of data; optical sensors; fault recorders and storage devices for recording and storing data resulting from the monitoring and control of the condition, operation and performance of control and drive systems of water vehicles, including the following products: software, hardware and computers, the aforesaid goods included in this class; monitoring and control systems for condition, operation, performance, fuel consumption, maintenance and repair requirements, utilisation, operating costs and benchmarking for watercraft, including computer software, computer hardware, sensors, transmitters and receivers for use in connection with ship control and propulsion systems, included in this class; vibration sensors; environmental monitoring systems, comprising meters and sensors for measuring pressure, moisture and temperature, and alarm and reporting functions, including the following products: software, hardware and computers; ultrasound sensors; vehicle safety equipment, namely security sensors and cameras, including the following products: software, hardware and computers; leak monitoring systems, namely combinations of quantity indicators and alarm devices, including software, hardware and computers, in particular for seals, including double lip seals, between two fluids, including water and oil, on and for rotary shafts and for and in gear components, in particular of ship drives and controllers and water vehicles, for detecting developing leaks and preventing leaks, in particular of water leaks

into the gears and oil leaks into the water; electric, electromechanical, electronic, magnetic, pressure-based, hydrostatic, mechanical, heat-based, optical limit value transmitters, ultrasound, microwave and radar-based and radiometric limit monitors; liquid level sensors; industrial calibration sensors===
===Propellers and boat propellers, double propellers and double ship propellers, fixed and adjustable propellers, fixed and adjustable boat propellers and steerable propellers and rudder propellers for driving water vehicles, parts used within and related accessories, as far as the aforesaid goods are included in this class; propeller and boat propeller blades, oars, parts used within and related accessories, as far as the aforesaid goods are included in this class; steering gears for watercraft, rudders for water vehicles and steering wheels for vessels, parts used within and related accessories, as far as the aforesaid goods are included in this class.; direction control apparatus and drive apparatus, including propulsion apparatus, for water vehicles, parts used within and related accessories, as far as the aforesaid goods are included in this class; stabilising apparatus and stabilising control apparatus for water vehicles, parts used within and related accessories, as far as the aforesaid goods are included in this class; ruder, propeller and boat propeller control apparatus, parts used within and related accessories, as far as the aforesaid goods are included in this class===
===Installation, maintenance and repair of the following goods: magnetic, electric, electromagnetic, electronic, optical, electro-optical, magneto-optical, mechanical, magneto-mechanical and electromechanical goods [other than software], instruments, apparatus and systems [other than software] for water vehicles; installation, repair and maintenance of leak monitoring systems and seals, in particular of ship propulsion systems and water vehicles, technical operational and maintenance servicing of leak monitoring systems and seals, in particular of ship propulsion systems and water vehicles.===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===baling-baling dan poros sekrup kapal, bagian-bagiannya, aksesori terkait, barang-barang tersebut di atas termasuk dalam kelas ini.; gear ratios, gear wheels, pinions, crown wheels, bevel wheels and bevel gear sets for use in relation to the following goods: gears, gear units and drives for water vehicles; sambungan putar air [kopling hidrolik] dan bagian-bagiannya, barang-barang tersebut di atas termasuk dalam kelas ini.; roda gigi, unit roda gigi dan bagian-bagiannya, yang termasuk dalam kelas ini, untuk penggerak baling-baling dan sekrup, pendorong, penggerak pendorong, penggerak pod dan penggerak eksternal dan bagian-bagiannya, yang termasuk dalam kelas ini, semuanya untuk kendaraan air.; sambungan dan bagian-bagiannya, barang-barang tersebut di atas termasuk dalam kelas ini, kecuali kendaraan darat.; roda gigi permukaan dan roda gigi bawah air serta bagian-bagiannya, yang termasuk dalam kelas ini, untuk penggerak kendaraan air.; sambungan dan bagian-bagiannya, barang-barang tersebut di atas termasuk dalam kelas ini, barang-barang tersebut di atas berupa mesin dan untuk mesin; Motor, kecuali untuk kendaraan darat, mesin, yaitu mesin dan motor serta mesin untuk memasok dan menggerakkan kendaraan air, suku cadangnya, aksesori terkait, barang-barang tersebut di atas termasuk dalam kelas ini.; Penggerak pod dan penggerak eksternal untuk kendaraan air, suku cadangnya, aksesori terkait, barang-barang tersebut di atas termasuk dalam kelas ini.; sambungan dan bagian-bagiannya, barang-barang tersebut di atas termasuk dalam kelas ini, untuk digunakan sehubungan dengan barang-barang berikut: mesin; roda gigi, unit roda gigi dan bagian-bagiannya, yang termasuk dalam kelas ini, juga untuk memasok dan menggerakkan kendaraan air.; bantalan mekanis, termasuk bantalan putar dan bantalan getar, untuk digunakan terkait dengan barang-barang berikut: roda gigi, unit roda gigi, dan penggerak untuk kendaraan air.; cakram untuk bantalan dorong kopling, selain untuk kendaraan darat.; bagian-bagian mesin, yaitu kopling elastis; silinder master kopling dan bagian-bagiannya, barang-barang tersebut di atas termasuk dalam kelas ini, kecuali untuk kendaraan darat.; roda gigi untuk roda gigi kendaraan air; pendorong yang merupakan unit penggerak untuk kendaraan air dan mesin jet untuk kendaraan air, bagian-bagiannya, aksesori terkait, barang-barang tersebut di atas termasuk dalam kelas ini.; kopling transmisi daya dan bagian-bagiannya, barang-barang tersebut di atas termasuk dalam kelas ini, untuk digunakan sehubungan dengan barang-barang berikut: kapal air; clutch levers, other than for land vehicles; roda gigi dan unit roda gigi serta bagian-bagiannya, yang termasuk dalam kelas ini, untuk mentransmisikan torsi tinggi untuk memasok dan menggerakkan kendaraan air.; Penggerak roda gigi dan bagian-bagian penggerak roda gigi untuk memasok dan menggerakkan kendaraan air.; penggerak baling-baling dan sekrup, bagian-bagiannya, aksesori terkait, barang-barang tersebut di atas termasuk dalam kelas ini.; kopling transmisi daya dan bagian-bagiannya, barang-barang tersebut di atas termasuk dalam kelas ini, untuk digunakan sehubungan dengan barang-barang berikut: kapal laut; Kopling transmisi daya dan bagian-bagiannya, barang-barang tersebut di atas termasuk dalam kelas ini, untuk digunakan dalam kaitannya dengan barang-barang berikut: mesin; Propulsor yang merupakan unit penggerak untuk kendaraan air, termasuk propulsor yang dapat dikendalikan, bagian-bagiannya, aksesori terkait, barang-barang tersebut di atas termasuk dalam kelas ini.; pompa [mesin], suku cadangnya, aksesoris terkait, barang-barang tersebut di atas termasuk dalam kelas ini; drive mechanisms and parts thereof, included in this class, for supplying and driving water vehicles===
===saluran listrik dan optik; Perangkat perekam kesalahan dan perangkat penyimpanan untuk merekam dan menyimpan data yang dihasilkan dari pemantauan dan pengendalian kondisi, pengoperasian, dan kinerja sistem kendali dan penggerak kendaraan air, termasuk produk-produk berikut: perangkat lunak, perangkat keras, dan komputer, barang-barang tersebut di atas termasuk dalam kelas ini.; proximity sensors; Peralatan transmisi sinyal dan data, peralatan pengolahan dan peralatan penyimpanan, termasuk produk-produk berikut: perangkat lunak, perangkat keras dan komputer, barang-barang tersebut di atas termasuk dalam kelas ini.; sensor optik; sensor untuk menentukan suhu, posisi, jarak, kecepatan, dan percepatan; Peralatan listrik dan elektronik untuk kendaraan air berupa peralatan teknologi informasi dan audiovisual atau peralatan navigasi, panduan, pelacakan, penargetan, dan pembuatan peta, termasuk produk-produk berikut: perangkat lunak, perangkat keras, dan komputer, suku cadang terkait, aksesori terkait, barang-barang tersebut di atas termasuk dalam kelas ini.; Semua sensor yang disebutkan di atas, khususnya untuk pemasangan pada sistem kendali dan penggerak kendaraan air atau untuk mengukur data guna memantau dan mengendalikan kondisi, pengoperasian, dan kinerja sistem kendali dan penggerak kendaraan air, termasuk perangkat lunak, perangkat keras, dan komputer, yang termasuk dalam kelas ini.; pemancar nilai batas listrik, elektromekanik, elektronik, magnetik, berbasis tekanan, hidrostatik, mekanik, berbasis panas, optik, ultrasonik, gelombang mikro dan berbasis radar serta monitor nilai batas radiometrik; Sistem pemantauan dan pengendalian untuk kondisi, pengoperasian, kinerja, konsumsi bahan bakar, persyaratan pemeliharaan dan perbaikan, pemanfaatan, biaya operasional, dan sistem pembandingan untuk armada kapal dan manajemen armada, termasuk perangkat lunak komputer, perangkat keras komputer, sensor, pemancar, dan penerima untuk digunakan sehubungan dengan sistem kendali dan penggerak kapal, yang termasuk dalam kelas ini.; sensor gas untuk mengukur konsentrasi gas; Perangkat navigasi untuk kendaraan air, yaitu komputer onboard, termasuk produk-produk berikut: perangkat lunak dan perangkat keras.; Alarm, termasuk produk-produk berikut: alarm visual dan alarm akustik.; sensor tekanan; Sistem sensor kelautan, yaitu sistem navigasi, termasuk produk-produk berikut: perangkat lunak, perangkat keras, dan komputer.; Instrumen dan peralatan navigasi magnetik, listrik, elektromagnetik, elektronik, optik, elektro-optik, magneto-optik, mekanik, magneto-mekanik, dan elektromekanik, termasuk yang disebutkan di atas untuk tujuan pengukuran dan kontrol, termasuk produk-produk berikut:

perangkat lunak, perangkat keras, dan komputer, suku cadang terkait, dan aksesori terkait, barang-barang tersebut di atas termasuk dalam kelas ini.; electric and electronic direction controllers and drive controllers, including propulsion controllers, for water vehicles, including the following products: software, hardware and computers, related parts and related accessories, the aforesaid goods included in this class; komutator dan kontak sakelar, barang-barang tersebut di atas termasuk dalam kelas ini; indikator kuantitas, yaitu sensor level dan sakelar batas level, termasuk perangkat pengukur level mekanis, khususnya dengan pengukur apung; sensor listrik; Sistem pemantauan dan pengendalian untuk kondisi, pengoperasian, kinerja, konsumsi bahan bakar, persyaratan pemeliharaan dan perbaikan, pemanfaatan, biaya operasional, dan tolok ukur untuk kapal air, termasuk perangkat lunak komputer, perangkat keras komputer, sensor, pemancar, dan penerima untuk digunakan sehubungan dengan sistem kendali dan penggerak kapal, yang termasuk dalam kelas ini.; sensor getaran; Electric and electronic controllers, computers, computer software and hardware for motors, machines, rudders, propellers and ship screw, related parts of the aforesaid goods included in this class; Sensor listrik dan elektronik untuk mengukur data guna memantau dan mengendalikan kondisi, pengoperasian, dan kinerja sistem kendali dan penggerak kapal, yang termasuk dalam kelas ini.; Perangkat keras dan perangkat lunak komputer untuk pemantauan dan pengendalian kondisi, pengoperasian, dan kinerja sistem kendali dan penggerak kapal air, baik di atas kapal maupun dari jarak jauh, yang termasuk dalam kelas ini.; relai data elektronik untuk sensor; sensor waktu; Peralatan listrik dan/atau elektronik untuk kendaraan air, termasuk produk-produk berikut: perangkat lunak, perangkat keras dan komputer, suku cadang terkait dan aksesori terkait, barang-barang tersebut di atas termasuk dalam kelas ini.; sensor kalibrasi industri; peralatan listrik untuk komutasi dan relai, listrik; Peralatan keselamatan kendaraan, yaitu sensor dan kamera keamanan, termasuk produk-produk berikut: perangkat lunak, perangkat keras, dan komputer.; Sistem pemantauan kebocoran, yaitu kombinasi indikator kuantitas dan perangkat alarm, termasuk perangkat lunak, perangkat keras, dan komputer, khususnya untuk segel, termasuk segel bibir ganda, antara dua fluida, termasuk air dan minyak, pada dan untuk poros putar dan untuk dan di dalam komponen roda gigi, khususnya penggerak dan pengontrol kapal serta kendaraan air, untuk mendeteksi kebocoran yang sedang berkembang dan mencegah kebocoran, khususnya kebocoran air ke dalam roda gigi dan kebocoran minyak ke dalam air.; sensor fotolistrik; sensor ketinggian cairan; Perangkat keras dan perangkat lunak komputer untuk digunakan dengan sistem pemantauan dan kontrol untuk kapal air guna menerima, menyimpan, memproses, mengirimkan, dan menampilkan data.; Sistem pemantauan lingkungan, yang terdiri dari meter dan sensor untuk mengukur tekanan, kelembaban, dan suhu, serta fungsi alarm dan pelaporan, termasuk produk-produk berikut: perangkat lunak, perangkat keras, dan komputer.; peralatan navigasi, termasuk produk-produk berikut: perangkat lunak, perangkat keras dan komputer, suku cadang terkait dan aksesori terkait, barang-barang tersebut di atas termasuk dalam kelas ini.; sensor ultrasonik===
===Perangkat kemudi untuk kapal, kemudi untuk kendaraan air dan roda kemudi untuk kapal, bagian-bagian yang digunakan di dalamnya dan aksesori terkait, sejauh barang-barang tersebut termasuk dalam kelas ini.; kemudi, baling-baling dan peralatan pengontrol baling-baling kapal, bagian-bagian yang digunakan di dalamnya dan aksesori terkait, sejauh barang-barang tersebut termasuk dalam kelas ini.; baling-baling dan bilah baling-baling perahu, dayung, bagian-bagian yang digunakan di dalamnya dan aksesori terkait, sejauh barang-barang tersebut termasuk dalam kelas ini.; peralatan penstabil dan peralatan kontrol penstabil untuk kendaraan air, bagian-bagian yang digunakan di dalamnya dan aksesori terkait, sejauh barang-barang tersebut termasuk dalam kelas ini.; peralatan kendali arah dan peralatan penggerak, termasuk peralatan propulsi, untuk kendaraan air, bagian-bagian yang digunakan di dalamnya dan aksesori terkait, sejauh barang-barang tersebut termasuk dalam kelas ini.; Propeller dan propeller perahu, propeller ganda dan propeller kapal ganda, propeller tetap dan yang dapat disetel, propeller perahu tetap dan yang dapat disetel, serta propeller kemudi dan propeller kemudi untuk menggerakkan kendaraan air, bagian-bagian yang digunakan di dalamnya dan aksesori terkait, sejauh barang-barang tersebut termasuk dalam kelas ini.===

Uraian Barang/Jasa (menggunakan mesin translasi) : ===Perangkat keras komputer; Perangkat lunak komputer yang dapat diunduh untuk mengembangkan dan mengoperasikan aplikasi berbasis kecerdasan buatan.; Perangkat lunak komputer yang dapat diunduh untuk menyediakan platform berbasis AI yang responsif untuk otomatisasi proses bisnis dan kecerdasan pengambilan keputusan.; Perangkat lunak komputer yang dapat diunduh untuk mengukur kinerja operasi yang terlibat dalam model pembelajaran mendalam di bidang perangkat keras kecerdasan buatan.; Perangkat lunak komputer yang dapat diunduh yang menggunakan kecerdasan buatan (AI) untuk produksi ucapan dan teks.; Perangkat lunak dan program komputer yang dapat diunduh untuk berbagi kumpulan data untuk tujuan pembelajaran mesin, analitik prediktif, dan membangun model bahasa dan gambar, untuk mengembangkan dan mengimplementasikan jaringan saraf tiruan, untuk lingkungan simulasi untuk tujuan menguji agen, algoritma, atau program kecerdasan buatan, dan untuk menggunakan, menyesuaikan, menyempurnakan, dan mengadaptasi model kecerdasan buatan.; Perangkat lunak chatbot yang dapat diunduh untuk mensimulasikan percakapan, menganalisis gambar, meringkas teks, membuat konten, menghasilkan kode, bertukar pikiran, merencanakan perjalanan, dan menjawab pertanyaan.; Perangkat lunak komputer yang dapat diunduh untuk memfasilitasi interaksi dan komunikasi antara manusia dan chatbot kecerdasan buatan (AI) di bidang sains, teknik, matematika, komputasi, seni, musik, bahasa, hiburan, dan minat umum.; perangkat keras kecerdasan buatan dan perangkat lunak yang direkam; downloadable computer software for providing agentic AI platform for developing artificial intelligence software applications; Perangkat lunak komputer yang dapat diunduh berupa model kecerdasan buatan untuk melakukan tugas-tugas AI teks generatif dan tugas-tugas AI pemrosesan bahasa alami, serta untuk menulis konten berdasarkan tema, meringkas teks, menjawab pertanyaan dokumen, dan mensimulasikan percakapan alami.; Perangkat lunak komputer yang dapat diunduh untuk membuat dan menyebarkan agen otonom.; Perangkat lunak komputer yang dapat diunduh untuk pemrosesan bahasa, teks, dan ucapan berbasis pembelajaran mesin multimodal.; Perangkat lunak komputer yang dapat diunduh untuk pemrosesan bahasa, teks, dan ucapan berbasis pembelajaran mesin multimodal, serta memfasilitasi interaksi dan komunikasi antara manusia dan chatbot kecerdasan buatan (AI) yang digunakan

di bidang kecerdasan buatan, pembelajaran mesin, generasi bahasa alami, pembelajaran statistik, pembelajaran matematika, pembelajaran terawasi, dan pembelajaran tak terawasi.; Perangkat lunak komputer yang dapat diunduh untuk pemrosesan, pembangkitan, pemahaman, penalaran, dan analisis bahasa alami.; Perangkat lunak komputer yang dapat diunduh untuk digunakan dalam memproses dan menghasilkan kueri bahasa alami.; perangkat keras komputer yang menggabungkan perangkat lunak berbasis kecerdasan buatan; perangkat keras kecerdasan buatan; Perangkat lunak komputer yang dapat diunduh untuk memfasilitasi input bahasa alami multimodal, ucapan, teks, gambar, video, dan suara.; alat pengembangan perangkat lunak komputer yang dapat diunduh.===
===Menyediakan layanan konsultasi bisnis di bidang kecerdasan buatan, ilmu komputer, pemrosesan bahasa alami komputer multimodal, pembelajaran mesin, perangkat keras kecerdasan buatan, dan desain perangkat lunak komputer.; riset konsumen di bidang kebijakan publik; consumer research related to the societal implications of artificial intelligence; Riset pasar di bidang kebijakan publik; konsultasi riset pasar di bidang kebijakan publik; Meningkatkan kesadaran publik tentang penelitian dan pengembangan ilmiah, kecerdasan buatan, aspek etika kecerdasan buatan, ilmu komputer, pemrosesan bahasa alami komputer multimodal, pembelajaran mesin, perangkat keras kecerdasan buatan, dan desain perangkat lunak komputer.; riset pasar terkait implikasi sosial dari kecerdasan buatan===
===Konsultasi teknologi informasi terkait pemeliharaan perangkat keras kecerdasan buatan (AI).===
===providing online non-downloadable publications via a website in the nature of articles, research papers, reports, and newsletters in the fields of artificial intelligence, computer science, multi-modal computer natural language processing, machine learning, artificial intelligence hardware and computer software design.; Layanan pendidikan, yaitu, menyelenggarakan dan melaksanakan pelatihan langsung dan daring di bidang penelitian dan pengembangan ilmiah, kecerdasan buatan, ilmu komputer, pemrosesan bahasa alami komputer multimodal, pembelajaran mesin, perangkat keras kecerdasan buatan dan desain perangkat lunak komputer.; Menyediakan publikasi daring berupa artikel, makalah penelitian, laporan, dan buletin di bidang penelitian dan pengembangan ilmiah, kecerdasan buatan, ilmu komputer, pemrosesan bahasa alami komputer multimodal, pembelajaran mesin, perangkat keras kecerdasan buatan, dan desain perangkat lunak komputer.===
===Perangkat lunak sebagai layanan (SaaS), yaitu, menyediakan platform AI berbasis agen untuk mengembangkan aplikasi perangkat lunak kecerdasan buatan.; penyedia layanan aplikasi yang menampilkan perangkat lunak antarmuka pemrograman aplikasi (API).; Menyediakan layanan pengembangan produk dan rekayasa di bidang kecerdasan buatan, ilmu komputer, pemrosesan bahasa alami komputer multimodal, pembelajaran mesin, perangkat keras kecerdasan buatan, dan desain perangkat lunak komputer.; penelitian dan pengembangan ilmiah; menyediakan penggunaan sementara perangkat lunak daring yang tidak dapat diunduh untuk berbagi kumpulan data untuk tujuan pembelajaran mesin, analitik prediktif, dan membangun model bahasa dan gambar, untuk mengembangkan dan mengimplementasikan jaringan saraf tiruan, untuk lingkungan simulasi untuk tujuan menguji agen, algoritma, atau program kecerdasan buatan, dan untuk menggunakan, menyesuaikan, menyempurnakan, dan mengadaptasi model kecerdasan buatan.; Menyediakan penggunaan sementara perangkat lunak daring yang tidak dapat diunduh untuk perangkat lunak pemrosesan bahasa, teks, dan ucapan berbasis pembelajaran mesin multimodal, serta memfasilitasi interaksi dan komunikasi antara manusia dan chatbot kecerdasan buatan (AI) yang digunakan di bidang kecerdasan buatan, pembelajaran mesin, generasi bahasa alami, pembelajaran statistik, pembelajaran matematika, pembelajaran terawasi, dan pembelajaran tak terawasi.; menyediakan penggunaan sementara perangkat lunak daring yang tidak dapat diunduh untuk perangkat lunak pemrosesan bahasa, teks, dan ucapan berbasis pembelajaran mesin multimodal.; Menyediakan penggunaan sementara perangkat lunak daring yang tidak dapat diunduh untuk memfasilitasi interaksi dan komunikasi antara manusia dan chatbot kecerdasan buatan (AI) di bidang sains, teknik, matematika, komputasi, seni, musik, bahasa, hiburan, dan minat umum.; Penelitian teknologi untuk mengevaluasi dan memahami kemampuan, keterbatasan, dan potensi dampak sosial dari sistem kecerdasan buatan untuk tujuan kebijakan publik.; research and development services in the fields of artificial intelligence, computer science, multi-modal computer natural language processing, machine learning, and computer software design and development; penelitian teknologi di bidang kecerdasan buatan dan kebijakan publik; penelitian teknologi di bidang pembelajaran mendalam untuk tujuan kebijakan publik; menyediakan penggunaan sementara perangkat lunak daring yang tidak dapat diunduh untuk digunakan dalam memproses dan menghasilkan kueri bahasa alami.; menyediakan penelitian teknis di bidang kecerdasan buatan, ilmu komputer, pemrosesan bahasa alami komputer multimodal, pembelajaran mesin, perangkat keras kecerdasan buatan, dan desain perangkat lunak komputer.; Layanan perangkat lunak sebagai layanan (SaaS) yang menampilkan perangkat lunak untuk menyediakan platform berbasis AI yang responsif untuk otomatisasi proses bisnis dan kecerdasan pengambilan keputusan.; technological research in the field of artificial intelligence for public policy purposes; Menyediakan perangkat lunak chatbot yang tidak dapat diunduh, berisi informasi dari indeks dan basis data yang dapat dicari, termasuk teks, musik, gambar, video, algoritma perangkat lunak, persamaan matematika, dokumen elektronik, dan basis data.; Menyediakan penggunaan sementara perangkat lunak daring yang tidak dapat diunduh untuk mengembangkan dan mengoperasikan aplikasi berbasis kecerdasan buatan.; penelitian, desain dan pengembangan program komputer dan perangkat lunak; menyediakan penggunaan sementara perangkat lunak daring yang tidak dapat diunduh menggunakan kecerdasan buatan (AI) untuk produksi ucapan dan teks.; Memberikan konsultasi dalam desain dan pengembangan teknologi di bidang kecerdasan buatan, ilmu komputer, pemrosesan bahasa alami komputer multimodal, pembelajaran mesin, perangkat keras kecerdasan buatan, dan desain perangkat lunak komputer.; menyediakan penggunaan sementara perangkat lunak daring yang tidak dapat diunduh untuk pemrosesan, pembangkitan, pemahaman, penalaran, dan analisis bahasa alami.; Perangkat lunak sebagai layanan (SaaS) yang menampilkan perangkat lunak untuk membuat dan menyebarkan agen otonom.; Menyediakan penggunaan sementara perangkat lunak chatbot online yang tidak dapat diunduh untuk mensimulasikan percakapan, menganalisis gambar, meringkas teks, membuat konten, menghasilkan kode, bertukar pikiran, merencanakan perjalanan, dan menjawab pertanyaan.; Menyediakan penggunaan sementara perangkat lunak daring yang tidak dapat diunduh berupa model kecerdasan buatan untuk melakukan tugas-tugas AI teks generatif dan tugas-tugas AI pemrosesan bahasa alami, serta untuk menulis konten berdasarkan tema, meringkas teks, menjawab pertanyaan dokumen, dan mensimulasikan percakapan alami.; providing temporary use of online non-downloadable software for facilitating multi-modal natural language, speech, text, image, video, and sound input; penelitian teknologi tentang implikasi sosial kecerdasan buatan untuk tujuan kebijakan publik===

authentication software incorporating zero knowledge proof protocols; downloadable wallets for storing digital files authenticated by non-fungible tokens (NFTs); computer software, and peripherals for personalised, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data, and for social networking; software in the form of decentralised systems; speed checking apparatus for vehicles; computer software for blockchain technology; devices and apparatus for remote control of electrical apparatus and household appliances; electronic controllers; magnetic data carriers, recording discs; image and video editing software including software applications for use on mobile devices; streamed or/and downloadable digital audio, video and data provided from a computer database, or the Internet or other electronic network; software in the form of embedded software agents (ESAs); computer software and application software in the field of artificial intelligence (AI); GPS apparatus for vehicles for determining or signalling vehicle location, locations of site, travel routes, time, traffic conditions, presence of emergency vehicles and hazard conditions; virtual server software; smart meters; anti-theft devices not for vehicles; Internet of Things (IoT) sensors; wearable electronic telecommunication and computing devices; vehicle on-board computers; peripheral equipment for televisions and computers; satellite receiving and transmission apparatus and instruments; electronic and satellite navigational and positional apparatus and instruments including global positioning systems; GPS apparatus; smart devices, namely smartphones, tablets, computers, smart watches, smart speakers, smart thermostats, smart plugs, smart meters, smart doorbells, smart locks, smart wearable devices, smart televisions, smart cameras, smart sensors, home automation devices, smart controllers for fridges, smart controllers for freezers, smart controllers for dishwashers, smart controllers for cookers, smart controllers for washing machines, smart controllers for tumble dryers, smart controllers for microwaves, smart controllers for air conditioners, health and fitness monitors, sensors, intelligent gateways for communication, Internet of Things (IoT) gateways, network hubs, communication hubs, home automation and smart home hubs, computer hardware and electronic devices for use in connecting, managing, controlling, monitoring and enabling communication among Internet of Things (IoT) devices over a network, onboard computers and computer hardware modules for vehicles that enable the vehicle to communicate with other devices and vehicles over a network, and computer hardware modules for use with the Internet of Things (IoT); computer network hubs, switches and routers; computer software for the streaming transmission and encryption and storage, of audio, video, graphics, text and data on and over communication networks; electronic publications (downloadable) provided online from computer databases, the Internet or other electronic networks; Ethernet adapters; electronic apparatus for the control of car parking; search engine software; steering apparatus, automatic, for vehicles; downloadable computer software applications for minting non-fungible tokens (NFTs); computer software for conducting and co-ordinating communications among computer users sharing information and audio data via electronic communications networks; software that enables the automatic processing of payments using connected means, including SIM cards; computer software in the form of virtual merchants (a software application that processes electronic payments); computer software for wireless data communication; computer software for facilitating payments; communication network apparatus; collision avoidance safety systems for vehicles; pre-collision detection and collision avoidance systems, namely, on-board computers; on-board electric, electronic and optical equipment for vehicles, including land vehicles, namely vehicle automatic driving control devices, smartphone battery chargers for use in vehicles, communications apparatus for vehicles, mobile phone connectors for vehicles, multi-camera systems for vehicles, vehicle navigation systems featuring interactive displays, radios for vehicles, temperature control apparatus (thermostats) for vehicles; remote control systems for the automatic operating of the locks of vehicle doors, boot, bonnet and roof; digital telephone platforms and software; computer software for personal information management; telematics software; closed circuit television systems; radio telephones, mobile and fixed telephones; computer systems for the downloading and updating of computer software to and from vehicles; electronic apparatus incorporating artificial intelligence software; interactive software based on artificial intelligence; personal assistant software; artificial intelligence and machine learning

software; apparatus for electronic payment processing; downloadable software for connecting, operating, and managing connected devices and/or networked apparatus, instruments, devices, appliances, machinery and systems in the Internet of Things (IoT); electronic and biometric apparatus and installations for access control; compact discs, DVDs and other digital recording media; equipment and software for processing device and sensor data; computer software for the verification, authorisation, and authentication of digital identities and credentials; computer software and application software for connecting, operating, and managing networked devices, appliances, machinery and systems in the Internet of Things (IoT); chatbot software for customer service; computer software for the verification, authorisation, and authentication of payments; smart contracts software; transaction processing software; electronic equipment for detecting road markings; network access server hardware; parking aids in the nature of electronic obstacle detection device sensors; computer hardware and software for facilitating payment transactions by electronic means; virtual reality software and hardware; electric or electronic sensors for vehicles, other than vehicle parts; computer software in the form of decentralised networks; Ethernet switches; Transport Layer Security (TLS) software; computer network routers; digital voice signal processors; parental control software; electronic keys for vehicles; systems for communication networks between vehicles and road infrastructures; electronic sensors; Secure Sockets Layer (SSL) security software; computer software for use in connection with the transmission of voice and data; personal digital assistants; apparatus for sending and receiving information from movable property; payment software; batteries; software for the identification of things and/or persons; telephone cards; optical and photographic apparatus; blank and pre-recorded magnetic cards; wireless handheld telecommunication units and devices, namely, tablets, wireless phones, mobile phones, smart phones, computers, portable telephones, video telephones, radios, smart watches, USB dongles, plug-in hardware, machine wearables (namely, sensors that are attached to machines to track and monitor the machine's performance) and digital accessories, GPS trackers, wearable activity trackers, video cameras, cameras, personal digital assistants, handheld, mobile and tablet computers for the synchronisation, transmission, recordal, storage and manipulation of data and/or voice; chatbot computer software and application software; remote control apparatus; computer software and application software for the synchronisation, transmission, encryption and sharing of voice, data, calendar and content between one or more electronic devices, for secure, encrypted transactions and/or purchases; on-board electric, electronic and optical equipment for vehicles, namely, electric batteries, mileage recorders, radios for vehicles, on-board cameras, on-board electronic systems for providing driving and parking assistance in land vehicles, cruise controls for vehicles, displays for vehicles, audio speaker systems for vehicles, automatic indicators of low pressure in vehicle tyres, automatic vehicle speed control devices, autonomous driving control systems for vehicles, including for land vehicles; artificially intelligent chatbot computer software and application software for providing customer support and customer services; software in the form of blockchain and Distributed Ledger Technology (DLT) validation systems; communication apparatus integrated into motorcycle helmets; set-top box apparatus including apparatus having an interactive viewing guide and/or a recorder for recording television and audio programmes===

===the bringing together, for the benefit of others, of a variety of services, namely, business, finance and trade reporting and information services, technology information services, science information services, nature information services, transport services, transport information services, art information services, history information services, travel and culture information services, games and gaming, film and navigation information services enabling users to conveniently view and acquire those services; the bringing together, for the benefit of others, of a variety of telecommunications and computer services, enabling customers to conveniently view and purchase those services; providing online business directory information services; organisation for a third party of telephone welcoming services and of telephone receptionist services; administrative services, namely collection, systematisation, compilation and analysis of data and information from sites and other resources available on global computer networks into computer databases for others; data management services for organizing content provided over a global computer network based on user preferences; collection of data; the bringing together, for the benefit of others, of a variety of communications and telecommunications apparatus, instruments and software, enabling customers to conveniently view and purchase those goods, including such services provided online from a computer database, the Internet or other electronic network; database management and data processing services; provision of space on websites for advertising goods and services; compilation of information resulting from the surveillance of traffic; arranging of subscriptions to online music streaming services; providing consumer product information relating to goods authenticated by non-fungible tokens (NFTs).; business data analysis; retail services relating to communications and computer services; auctioning via telecommunications networks; the bringing together, for the benefit of others, of a variety of services in the field of business information services and, finance information services enabling users to conveniently view and acquire those services; data management services; subscription to a television channel; retail and wholesale services connected with telephones, mobile telephones, smartphones, mobile digital devices, connected devices, telecommunication apparatus, computer software, computers and electronic communication networks and physical and virtual software accessories for such goods, set-top boxes and modems, telecommunication apparatus, devices and accessories; database management, namely data inputting and retrieval services; business strategy and planning services; providing advertising and promotional services to promote the sale of non-fungible tokens (NFTs); customer club services, for commercial, promotional and/or advertising purposes; telephone answering and message handling services; compilation and systemisation of information into computer databases and online searchable databases; insurance and finance services, including such services provided over the Internet or any other electronic network; insurance, financing and financial guarantee services relating to telecommunications and communications apparatus and instruments; monetary affairs; provision of investment and fund management information; insurance for mobile telecommunication apparatus and instruments; trading in digitised assets (such as cryptocurrency, digital tokens, virtual currency and digital currency), including over a global computer network or the Internet; financial, banking,

monetary and payment services related to cryptocurrency, virtual and digital money; property insurance; financial guarantee services relating to telecommunications and communications apparatus and instruments; automated payment of accounts; investment of funds for charitable purposes; financial sponsorship; financial services, namely, providing a decentralised and open source cryptocurrency on a global computer network utilising a blockchain currency exchange service; electronic payment services; automated payment services; provision of financial information and advice for the prospective purchasers of goods, all related to payment terms and insurance; electronic currency transfer services; e-wallet payment services; providing financial information in the metaverse and other virtual worlds; lease-purchase financing; charge card services; real estate affairs===

===electronic data exchange services; broadcasting services; rental of replacement telecommunications apparatus in the case of breakdown, loss or theft; voicemail services; transmission of sound, picture, video and data signals; provision of access to databases in relation to online address book, calendar and diary services; email data services; automated telephone call screening services; providing access to educational content, websites and portals; communication services for the remote control of electronic devices; wireless communication services; computer network access services provided by means of a metro Ethernet; video telephone services; transmission of data, including by audio-visual apparatus; providing telecommunications connections to a global computer network or database; telecommunication services for the provision of video text, telexes and view data services, video communication services, interactive video text services; video conferencing services; hire, leasing and rental of telecommunications, radio, radio telephone and radio facsimile apparatus; providing telecommunications connections to the Internet or databases; provision of communication facilities for the interchange of digital data; telecommunications consultancy services; providing and leasing access time to computer databases, computer bulletin boards, computer networks, interactive computer communications networks, electronic publications in various fields, merchandising and service catalogues and information and computerised research and reference materials; broadcast or transmission of radio or television programmes; provision of communications networks for systems of smart metering; provision of transfer of data via wireless application protocols (WAP), including those utilising a secure communications channel; providing access to social networking websites; transmission and receiving by radio; providing third party users with access to telecommunication infrastructure; providing access to databases; electronic mail services for data and voice; messaging services, namely, sending, receiving and forwarding messages in the form of text, audio, graphic images or video or a combination of these formats; providing telecommunications connections and networks for use with the Internet of Things (IoT); data transmission services; leasing of mobile phones.; transmission of digital data in the nature of user-generated digital media content; electronic transmission of audio and video files via computer and other electronic communications networks; computer communication services; telephone and mobile telephone message collection and transmission; computer aided transmission of messages, data and images; data broadcasting and communications services; providing access to electronic communications networks and electronic databases; delivery of digital media content, including films, television programmes, radio programmes, videos, music, text, data, images, graphics and ringtones, via the Internet or a telecommunications network; Internet service provider (ISP) services; telephone communication services provided for hotlines and call centres; providing access to portals on the Internet; voice messaging and voicemail services; voice over IP services; telecommunications services provided via fibre optic, wireless and cable networks; mobile and fixed telecommunication and telephone, satellite telecommunication, cellular telecommunication, radio and cellular telephone, radio facsimile, radio paging and radio communication services; provision of broadband services, namely wireless and fibre optic broadband communication services; providing Internet access via wireless broadband networks; provision of location based telecommunications services for telecommunications apparatus; voice transmission services; communication services for the delivery of emergency messages and calls; telecommunication gateway services; provision of telecommunications information relating to or identifying telephone and telecommunications apparatus and instruments; telecommunications routing and junction services; communication services in the nature of transmission and reception of voice; electronic transmission of encrypted data; communications services by satellite, television and/or radio; providing access to virtual facilities for real-time interaction among computer users; providing electronic conferencing services; personal numbering services (telephony services); data broadcasting services; data streaming; delivery and reception of sound data and images; communication of data by means of telecommunications; provision of information relating to telecommunications, providing electronic telecommunications connections; providing chatrooms in virtual environments; Telecommunications; telecommunication services for data bank interconnection; leasing of telephone circuits; transfer of data by telecommunications; interactive telecommunications services; streaming of digital media content, including films, television programmes, radio programmes, videos, music, text, data, images, graphics and ringtones, via the Internet or a telecommunications network; telecommunications services for aircraft passengers; communication via virtual private networks; delivery of digital music by telecommunications; transmitting information resulting from traffic surveillance; rental of telecommunication facilities; wireless broadband communication services; wireless telephony services; automated telephone voice message services; electronic transmission of data and documents via computer terminals and electronic devices; providing user access to data networks; providing access to e-commerce platforms on the Internet; provision of access to the internet in relation to electronic payment services including electronic fund transfer services and online transaction facilities; telephone communication services; provision of Internet services, namely Internet access services; unified messaging services; telecommunication of information (including web pages), computer programs and any other data; network telecommunication services; transmission of digital audio, video and multimedia content by telecommunications; electronic data interchange services; providing Internet access via optical fibre broadband networks; telecommunication services provided via Internet portal; signal transmission for electronic commerce via telecommunications systems and data communication systems; electronic mail services; transmission of news and current affairs information; digital network telecommunications services; communication services for the Internet of Things (IoT); communication of data by radio, telecommunications and by satellite; telecommunication services via a global computer network or the Internet===

database; publication of texts; electronic library services for the supply of electronic information (including archive information) in the form of text, audio and/or video information; providing digital music from a computer database or the Internet; arranging and conducting of competitions provided by telephone; entertainment services provided by telephone; arranging and conducting of conferences, seminars, symposia, tutorials and workshops; entertainment services provided online from a computer database or the Internet; education and training including such services provided online from a computer, the Internet or other electronic network; educational information provided online from a computer database or the Internet; arranging and conducting of exhibitions for entertainment purposes; entertainment services provided in virtual environments; providing publication of online directories for obtaining data in the fields of music, video, film, books, television, games and sports via online searchable databases; entertainment; publication of material which can be accessed from databases or from the Internet; game services provided online from a computer network; providing online non-downloadable audio content; providing digital music from the Internet; electronic games services provided by means of the Internet; training services delivered by virtual means; providing online non-downloadable video content; interactive and distance learning courses and sessions provided online via a telecommunications link or computer network or provided by other means; providing online images, not downloadable; publication of magazines; providing online non-downloadable general feature magazines; publication of electronic books and journals online; publication of printed matter; publication and dissemination of user-generated digital media content for entertainment and educational purposes; publication of periodicals; providing non-downloadable electronic publications; providing online electronic publications; providing information, reviews and personalised recommendations in the field of entertainment; publication of blogs and vlogs; providing sports information by telephone; entertainment services, namely, provision of music, films, TV programmes, audio books and games to online usage via global or local computer networks===

===computer technology consultancy; technology consultancy services in the field of telecommunication, blockchain, digital identity, digital twins, Artificial Intelligence (AI), machine learning and/or security technology; design and development of virtual reality software; creating and maintaining websites; computer software technical support services; creating, maintaining and updating computer software for databases of traffic and travel information; provision of information, advisory and consultancy services relating to the aforementioned services.; design and development of the Internet of Things (IoT); computer services namely creating website-based indexes of information, sites and other resources available on a global computer network for others; online computer services, namely providing online information about the design and development of computer hardware and software; design of telephones, including mobile telephones; computer services, namely creating website-based indexes of data, information, sites and other resources available on a global computer network for others; development, maintenance and updating of a telecommunication network search engine; provision of online non-downloadable software (application service provider); information technology consultation relating to hardware or software or services, provided online from a global computer network or the internet; providing digital content, namely non-downloadable software applications from a computer database, the Internet or other electronic network; providing temporary use of non-downloadable cloud-based software for connecting, operating, and managing networked devices, appliances, machinery and systems in the Internet of Things (IoT); design and development of communications systems, networks, devices and equipment; hosting virtual environments; providing online non-downloadable software for minting non-fungible tokens (NFTs); platform as a service (PaaS); blockchain as a service (BaaS) for creating and managing virtual goods authenticated by non-fungible tokens (NFTs); time sharing services for data processing apparatus; hosting of digital content on the Internet including online blogs and journals; testing of electronic data processing systems; provision of weather information via the telephone; provision of security services for computer networks, computer access and computerised transactions, including through electronic means via wireless network and/or mobile telecommunication devices; maintenance of software for Internet access; providing temporary use of non-downloadable computer software design of telecommunications apparatus and equipment; providing temporary use of non-downloadable software for enabling members of an online community to receive and access digital files authenticated by non-fungible tokens (NFTs); provision of technical information, advisory and consultancy services relating to computers and information technology; technical data analysis and data mining services; data migration services; certification of data via blockchain; Hosting software interfaces to provide personalised access to computer and/or device databases (including centralised and decentralised databases), the Internet or other electronic networks; hosting services; infrastructure as a service (IaaS); installation, repair and maintenance of software for computer systems for the downloading and updating of computer software to and from vehicles, computer programs for the automotive field platform as a service (PaaS); data storage via blockchain; cloud hosting services; development of computer platforms; Internet web site design services; providing virtual computer environments through cloud computer; providing temporary use of non-downloadable computer software over communication networks, intranets and the Internet; information technology (IT) consultancy; hosting of payments facilitation and e-commerce platforms on the Internet or other communications network; computerised data storage services; computer rental; computer programming for data processing; digital compression of data; providing online non-downloadable software for address book, calendar, and diary management; issuance and validation of digital certificates of ownership authenticated by non-fungible tokens (NFTs); rental of software for Internet access; providing temporary use of non-downloadable software for enabling members of an online community to receive and access non-fungible tokens (NFTs); providing temporary use of non-downloadable cloud-based virtual reality software; providing temporary use of non-downloadable cloud-based telematics software; installation, maintenance and updating of computer software; software as a service [SaaS] featuring software for unified communications; data security services [firewalls]; research in the field of technology; data conversion of electronic information, including data and computer programs (except physical conversion); installation and updating of computer software on electric and electronic apparatus, installations for access control; software as a service (SaaS) featuring computer software platforms for artificial intelligence; computer programming for telecommunications; encryption, decryption and authentication of information, messages and data; database design; providing temporary use of non-downloadable cloud-based augmented reality software; blockchain as a service (BaaS); provision of Internet search engines; design of software including software applications for use on connected devices; platforms for artificial intelligence as software as a service (SaaS); research and development services; monitoring of network systems in the field of telecommunications; consultancy services relating to blockchain and decentralised computing; design and development of virtual private network (VPN) operating software; engineering services relating to robotics; technological consultancy services for the prospective purchasers of goods and services; hosting the website of others; monitoring of computer network systems for detecting unauthorized access or data breach; server hosting; providing temporary use of non-downloadable cloud-based software for use with sensors, equipment and apparatus; maintenance and updating of computer software and programs; provision of non-downloadable software for promotional and demonstration purposes, for customised display screens on telecommunications apparatus; software as a service [SaaS] featuring software for processing electronic payments; hosting of web portals for

providing podcasts; computer programming and software design; providing Internet search engines; updating of software databases; data mining; off-site data backup; data recovery services; data warehousing; creating, maintaining and hosting of websites for online discussion forums; user authentication services using blockchain technology; providing temporary use of non-downloadable cloud-based software for use in implementing the Internet of Things (IoT); data encryption services; research and development of new products and software applications; design, graphic arts design and commissioned writing of computer programs and data processing programs for the creation of web pages on the Internet; cloud computing; providing non-downloadable software applications through computer databases, the Internet or other electronic networks; computer rental provided by Internet café; providing temporary use of on-line non-downloadable software for processing electronic payments; software as a service (SaaS); electronic data storage and recovery services; design of communications systems; rental of software; hosting of software for computer security, including antivirus, firewalls, antispam, anti-spyware, web filtering, intrusion detection software (IDS) and virtual private network (VPN) software; application service provider (ASP) services, namely, hosting computer software applications of others; computer network services; data authentication via blockchain; inspection of vehicles for roadworthiness; hosting of computer software applications for Internet of Things (IoT) enabled devices; leasing of computers and tablet computers; hosting websites and computer databases; provision of artificial intelligence computer programs on data networks===

perangkat keras server akses jaringan; mobile phones; kilometre recorders for vehicles; Perangkat GPS; perangkat dan peralatan untuk menemukan barang bergerak; Perangkat lunak yang memungkinkan identifikasi dan komunikasi otonom antar perangkat yang terhubung dalam Internet of Things (IoT).; Sistem pemantauan komputer untuk bantuan titik buta dan perpindahan jalur.; Sensor jarak merupakan sensor anti-tabrakan untuk kendaraan, selain komponen kendaraan.; perangkat lunak komputer yang dapat diunduh untuk dunia virtual; sistem televisi sirkuit tertutup; perangkat lunak dan sistem keamanan; customer support and customer service computer software and application software; Peralatan listrik dan elektronik untuk digunakan dalam penerimaan siaran satelit, terestrial, atau kabel.; perangkat lunak jaringan pribadi virtual; telecommunications, telephonic and communications apparatus and instruments; networking devices; alat pengukur kecepatan untuk kendaraan; Perangkat lunak komputer yang dapat diunduh untuk digunakan dalam perdagangan elektronik, penyimpanan, pengiriman, penerimaan, persetujuan, dan transmisi mata uang digital, serta pengelolaan transaksi pembayaran dan pertukaran mata uang digital.; software for access control video control, permissioned access, and detecting the presence of data, things, devices and/or persons; kartu yang berisi mikroprosesor; Pembaca dan pemindai kode batang dan kode respons cepat; Perangkat lunak yang dapat diunduh untuk menghubungkan, mengoperasikan, dan mengelola perangkat yang terhubung dan/atau peralatan, instrumen, perangkat, perlengkapan, mesin, dan sistem yang terhubung dalam jaringan Internet of Things (IoT).; dekoder; sensor elektronik; wireless routers; on-board electric, electronic and optical equipment for vehicles, including land vehicles, namely ultrasonic object detectors for use on vehicles, on-board vehicle tracking apparatus, black boxes (data recorders) for land vehicles; peralatan jaringan komunikasi; Perangkat lunak pengeditan gambar dan video, termasuk aplikasi perangkat lunak untuk digunakan pada perangkat seluler.; Perangkat lunak komputer untuk mengelola informasi terkait pelacakan, kepatuhan, dan motivasi dalam program kesehatan dan kebugaran.; media penyimpanan data magnetik, cakram perekam; perangkat lunak asisten pribadi; peralatan dan instrumen untuk memproses, mengirimkan, menyimpan, mencatat, menerima, dan mengambil data yang berupa data terenkripsi, teks, audio, gambar grafis, atau video, atau kombinasi dari format-format tersebut.; perangkat lunak komputer dalam bentuk pedagang virtual (aplikasi perangkat lunak yang memproses pembayaran elektronik); perangkat lunak komputer untuk memungkinkan jaringan peer-to-peer dan berbagi file; perangkat lunak komputer dalam bentuk jaringan terdesentralisasi; sistem deteksi pra-tabrakan dan penghindaran tabrakan, yaitu, komputer onboard; downloadable software for use to connect and control Internet of Things (IoT) electronic apparatus, instruments, devices, appliances, machinery and systems; server jaringan; perangkat lunak telematika; perangkat lunak otentikasi yang menggabungkan protokol bukti tanpa pengetahuan (zero knowledge proof); peralatan dan perangkat haptik, yaitu monitor taktil, layar, tampilan elektronik, sakelar, sensor, kacamata pintar dan kacamata serta headset realitas virtual atau augmented reality, dan proyektor holografik.; Perangkat lunak yang memungkinkan pemrosesan pembayaran otomatis menggunakan sarana yang terhubung, termasuk kartu SIM.; data processing equipment, computers; downloadable files authenticated by non-fungible tokens (NFTs); data communication apparatus and instruments; sistem untuk mengunduh dan memperbarui perangkat lunak komputer ke dan dari perangkat elektronik; pengontrol elektronik; encoded credit, debit and payment cards; alat bantu parkir berupa sensor perangkat deteksi rintangan elektronik; perangkat lunak untuk digunakan dalam implementasi Internet of Things (IoT); perangkat komunikasi data seluler; Transceiver Ethernet; perangkat lunak komputer untuk manajemen informasi pribadi; Perangkat lunak aplikasi komputer untuk digunakan dalam implementasi Internet of Things (IoT); gelang jam tangan pintar yang mengirimkan data ke ponsel pintar; ponsel pintar; instalasi komputer interkoneksi data pita lebar; smart home hubs; komputer onboard kendaraan; robot humanoid dengan kecerdasan buatan; Ethernet routers; Kabel Ethernet; perangkat lunak komunikasi terpadu; peralatan telekomunikasi portabel; perangkat elektronik untuk mengontrol parkir mobil; metering apparatus; headset untuk telepon; perangkat lunak komputer untuk memfasilitasi pembayaran; peralatan dan perangkat lunak untuk memproses data perangkat dan sensor; Perangkat keras dan perangkat lunak komputer untuk memfasilitasi transaksi pembayaran melalui sarana elektronik.; alat kendali jarak jauh; Sakelar Ethernet; Perangkat lunak yang memungkinkan perangkat yang terhubung ke jaringan untuk berkomunikasi secara aman satu sama lain.; perangkat keras komputer untuk telekomunikasi; Peralatan listrik, elektronik, dan optik yang terpasang pada kendaraan, yaitu, baterai listrik, perekam jarak tempuh, radio untuk kendaraan, kamera terpasang, sistem elektronik terpasang untuk memberikan bantuan mengemudi dan parkir pada kendaraan darat, kontrol jelajah untuk kendaraan, tampilan untuk kendaraan, sistem pengeras suara audio untuk kendaraan, indikator otomatis tekanan rendah pada ban kendaraan, perangkat kontrol kecepatan kendaraan otomatis, sistem kontrol mengemudi otonom untuk kendaraan, termasuk untuk kendaraan darat.; unit enkripsi elektronik; Peralatan listrik, elektronik, dan optik yang terpasang pada kendaraan, termasuk kendaraan darat, yaitu perangkat kendali pengemudian otomatis kendaraan, pengisi daya baterai ponsel pintar untuk digunakan di kendaraan, peralatan komunikasi untuk kendaraan, konektor telepon seluler untuk kendaraan, sistem multi-kamera untuk kendaraan, sistem navigasi kendaraan yang dilengkapi layar interaktif, radio untuk kendaraan, peralatan pengontrol suhu (termostat) untuk kendaraan.; perangkat lunak komputer dan perangkat lunak aplikasi di bidang kecerdasan buatan (AI); sakelar jaringan komputer; Pengontrol Ethernet; Modul perangkat keras komputer untuk digunakan dalam perangkat elektronik yang menggunakan Internet of Things (IoT).; layar sentuh; digital and virtual currency wallets; kartu magnetik kosong dan yang sudah direkam sebelumnya; server komunikasi [perangkat keras komputer]; audio and video recordings; peralatan jaringan; perangkat lunak perpesanan; Pengontrol elektronik untuk memberikan umpan balik sensorik, yaitu suara dan getaran yang dapat dirasakan oleh pengguna.; perangkat

lunak komputer yang dapat secara virtual merepresentasikan barang yang diautentikasi oleh token non-fungible (NFT).; Perangkat lunak komputer untuk transmisi streaming, enkripsi, dan penyimpanan audio, video, grafik, teks, dan data pada dan melalui jaringan komunikasi.; perangkat lunak server virtual; sirene; aplikasi perangkat lunak komputer yang dapat diunduh; sistem pengolahan data; basis data elektronik; electronic speedometers; Sistem kendali jarak jauh untuk pengoperasian otomatis kunci pintu kendaraan, bagasi, kap mesin, dan atap.; meteran pintar; perangkat untuk pemrosesan pembayaran elektronik; Perangkat yang terhubung, yaitu ponsel pintar, tablet, komputer, perangkat wearable pintar, speaker, termostat dan meteran pintar, colokan, bel pintu pintar dan kunci pintar, kamera, sensor pintar, monitor kesehatan dan kebugaran, komputer onboard dan modul perangkat keras komputer untuk kendaraan yang memungkinkan kendaraan berkomunikasi dengan perangkat dan kendaraan lain melalui jaringan, dan modul perangkat keras komputer untuk digunakan dengan Internet of Things (IoT), yang dapat terhubung ke perangkat atau jaringan lain melalui protokol kabel atau nirkabel.; perangkat lunak asisten virtual; Konten media digital (yang dapat diunduh), termasuk film, program televisi, program radio, video, gambar, musik, teks, data, gambar, grafik, dan nada dering, yang disediakan dari basis data komputer, Internet, atau jaringan elektronik lainnya.; kartu telepon; perangkat telematika; Perangkat GPS untuk kendaraan yang digunakan untuk menentukan atau memberi sinyal lokasi kendaraan, lokasi suatu tempat, rute perjalanan, waktu, kondisi lalu lintas, keberadaan kendaraan darurat, dan kondisi bahaya.; perangkat lunak untuk digunakan dengan sensor haptik, peralatan, dan perlengkapan.; odometer elektronik; Perangkat lunak yang dapat diunduh untuk membelanjakan dan memperdagangkan token non-fungible (NFT); perangkat lunak mesin pencari; perangkat lunak dalam bentuk blockchain dan sistem validasi Teknologi Buku Besar Terdistribusi (DLT).; remote control untuk perangkat listrik dan elektronik; encoded cards; e-commerce software; komputer, terminal penjualan digital, peralatan dan sistem; perangkat dan instalasi alarm, selain suku cadang kendaraan; tachometer elektronik; asisten digital pribadi; perangkat lunak untuk televisi interaktif; komputer termasuk laptop dan komputer notebook; perangkat lunak untuk pengembangan kembaran digital; Perangkat lunak Transport Layer Security (TLS); perangkat lunak komputer, termasuk perangkat lunak komputer yang disediakan dari basis data komputer, Internet, atau jaringan elektronik publik atau pribadi lainnya.; Perangkat lunak keamanan Secure Sockets Layer (SSL); kartu kredit telepon terenkripsi; dudukan gagang telepon di dalam mobil; electronic media for storing information, data, images and sound; parking assistance, namely, blind spot detection sensors; perangkat lunak komputer untuk lingkungan metaverse; Perangkat lunak yang dapat diunduh untuk menghubungkan, mengoperasikan, dan mengelola peralatan, instrumen, perangkat, perlengkapan, mesin, dan sistem yang terhubung dalam jaringan Internet of Things (IoT).; Perangkat lunak komputer dan perangkat lunak aplikasi untuk sinkronisasi, transmisi, enkripsi, dan berbagi suara, data, kalender, dan konten antara satu atau lebih perangkat elektronik, untuk transaksi dan/atau pembelian yang aman dan terenkripsi.; Perangkat lunak dan perangkat keras komputer interaktif untuk menyediakan layanan keuangan daring dari jaringan komputer global dan Internet melalui terminal komputer dan perangkat komunikasi seluler.; baterai; Kontrol jarak jauh elektronik tanpa kunci untuk perangkat akses kendaraan.; Adaptor Ethernet; pengisi daya baterai untuk digunakan dengan peralatan telekomunikasi; Perangkat lunak komputer dan perangkat lunak aplikasi untuk menghubungkan, mengoperasikan, dan mengelola perangkat, peralatan, mesin, dan sistem yang terhubung dalam jaringan Internet of Things (IoT).; perangkat telekomunikasi dan komputasi elektronik yang dapat dikenakan; modem; sistem komputer layar sentuh di dalam kendaraan; perangkat lunak dalam bentuk agen perangkat lunak tertanam (ESA); perangkat lunak komputer untuk teknologi blockchain; sensor elektronik termasuk pedometer, altimeter, dan timbangan berat badan; Perangkat lunak yang dapat diunduh untuk tujuan promosi dan demonstrasi, untuk layar tampilan khusus pada peralatan telekomunikasi.; Perangkat lunak yang dapat diunduh untuk menerima dan mengakses token non-fungible (NFT); basis data elektronik dan komputer, yaitu, basis data aset yang dapat dibagikan dan ditransmisikan.; perangkat lunak interaktif berbasis kecerdasan buatan; sakelar listrik; sensor haptik; downloadable wallets for storing digital files authenticated by non-fungible tokens (NFTs); software in the form of decentralised systems; peralatan dan instrumen pengajaran; perangkat elektronik untuk mengidentifikasi orang; perangkat komunikasi yang terintegrasi ke dalam helm sepeda motor; audio, video, dan data digital yang dapat diunduh dan/atau dialirkan yang disediakan dari basis data komputer, atau Internet atau jaringan elektronik lainnya.; perangkat lunak pemrosesan transaksi; sistem keselamatan pencegahan tabrakan untuk kendaraan; Perangkat lunak komputer untuk menerima, memproses, mengirimkan, dan menampilkan informasi yang berkaitan dengan kebugaran, lemak tubuh, indeks massa tubuh, pola tidur, lokasi, sikap, cuaca, dan suhu.; prosesor sinyal suara digital; Pengontrol nirkabel untuk memantau dan mengontrol fungsi perangkat elektronik lainnya.; perangkat lunak aplikasi, termasuk perangkat lunak aplikasi untuk perangkat terhubung, perangkat tertanam, sensor, telepon, dan perangkat seluler.; catu daya cadangan baterai; sistem dan instrumen teleguidance kendaraan; Internet of Things (IoT) sensors; sistem lokasi dan navigasi satelit; peripheral equipment for televisions and computers; satellite receiving and transmission apparatus and instruments; computer network hubs, switches and routers; Perangkat lunak komputer, dan periferal untuk pemrograman televisi (TV) interaktif yang dipersonalisasi dan untuk digunakan dalam menampilkan dan memanipulasi media visual, gambar grafis, teks, foto, ilustrasi, animasi digital, klip video, cuplikan film dan data audio, dan untuk jejaring sosial.; Gerbang Internet of Things (IoT); perangkat dan peralatan untuk kendali jarak jauh peralatan listrik dan peralatan rumah tangga; perangkat lunak komputer dalam bentuk agen transaksional, keuangan terintegrasi, komponen kepercayaan dan identitas.; perangkat lunak sistem operasi; enkripsi, penandatanganan digital, sertifikat digital, otentikasi, perangkat lunak otorisasi; Perangkat elektronik untuk mendeteksi dan/atau bertukar data antara kendaraan dan unit jarak jauh untuk tujuan keamanan.; perangkat lunak untuk identifikasi benda dan/atau orang; perangkat keras jaringan telekomunikasi; Aplikasi perangkat lunak komputer yang dapat diunduh untuk mencetak token non-fungible (NFT).; perangkat lunak pengoperasian; platform dan perangkat lunak telepon digital; perangkat lunak dan perangkat keras realitas tertambah; peralatan dan instrumen navigasi dan penentuan posisi elektronik dan satelit termasuk sistem penentuan posisi global.; perangkat lunak komputer untuk menerbitkan sertifikat digital yang diautentikasi oleh token non-fungible (NFT); perangkat lunak kontrak pintar; Perangkat penguat jangkauan (antena) Internet of Things (IOT); perangkat lunak komunikasi; Perangkat lunak komputer yang digunakan untuk menghubungkan dan mengontrol perangkat elektronik Internet of Things (IoT).; router jaringan area luas (WAN); kunci elektronik untuk kendaraan; artificial intelligence and machine learning software; media penyimpanan data yang dapat dibaca mesin; Perangkat lunak untuk enkripsi, penandatanganan data, anonimisasi data, dan pengaburan data.; peralatan elektronik untuk mendeteksi marka jalan;

perangkat lunak dan perangkat keras realitas virtual; computer software for the verification, authorisation, and authentication of digital identities and credentials; Perangkat lunak komputer untuk melakukan dan mengoordinasikan komunikasi antar pengguna komputer yang berbagi informasi dan data audio melalui jaringan komunikasi elektronik.; computer software for the verification, authorisation, and authentication of payments; perangkat lunak komunikasi data; perangkat lunak uang elektronik dan pembayaran elektronik; perangkat pengalih otomatis untuk telekomunikasi; remote kontrol untuk starter kendaraan; perangkat lunak komputer; perangkat elektronik yang menggabungkan perangkat lunak kecerdasan buatan; perangkat set-top box termasuk perangkat yang memiliki panduan menonton interaktif dan/atau perekam untuk merekam program televisi dan audio.; perangkat keselamatan untuk kendaraan, yaitu, komponen dan perlengkapan untuk sistem penghindaran tabrakan elektronik pada kendaraan.; perangkat anti pencurian bukan untuk kendaraan; cakram kompak, DVD, dan media perekaman digital lainnya; peralatan dan instalasi elektronik dan biometrik untuk kontrol akses; peralatan optik dan fotografi; kamera, kamera televisi, dan perekam video untuk televisi sirkuit tertutup; Unit yang dipasang di meja atau mobil yang dilengkapi dengan pengeras suara yang memungkinkan penggunaan gagang telepon tanpa menggunakan tangan.; systems for communication networks between vehicles and road infrastructures; casing untuk telepon; computer software for use in connection with the transmission of voice and data; Perangkat lunak komputer dan perangkat lunak aplikasi untuk pembelian yang aman dan terenkripsi.; apparatus for sending and receiving information from movable property; payment software; wireless handheld telecommunication units and devices, namely, tablets, wireless phones, mobile phones, smart phones, computers, portable telephones, video telephones, radios, smart watches, USB dongles, plug-in hardware, machine wearables (namely, sensors that are attached to machines to track and monitor the machine's performance) and digital accessories, GPS trackers, wearable activity trackers, video cameras, cameras, personal digital assistants, handheld, mobile and tablet computers for the synchronisation, transmission, recordal, storage and manipulation of data and/or voice; sistem komputer untuk mengunduh dan memperbarui perangkat lunak komputer ke dan dari kendaraan; chatbot computer software and application software; Perangkat pintar, yaitu ponsel pintar, tablet, komputer, jam tangan pintar, speaker pintar, termostat pintar, colokan pintar, meteran pintar, bel pintu pintar, kunci pintar, perangkat wearable pintar, televisi pintar, kamera pintar, sensor pintar, perangkat otomatisasi rumah, pengontrol pintar untuk lemari es, pengontrol pintar untuk freezer, pengontrol pintar untuk mesin pencuci piring, pengontrol pintar untuk kompor, pengontrol pintar untuk mesin cuci, pengontrol pintar untuk pengering pakaian, pengontrol pintar untuk microwave, pengontrol pintar untuk AC, monitor kesehatan dan kebugaran, sensor, gateway cerdas untuk komunikasi, gateway Internet of Things (IoT), hub jaringan, hub komunikasi, hub otomatisasi rumah dan rumah pintar, perangkat keras komputer dan perangkat elektronik untuk digunakan dalam menghubungkan, mengelola, mengontrol, memantau, dan memungkinkan komunikasi antar perangkat Internet of Things (IoT) melalui jaringan, komputer onboard dan modul perangkat keras komputer untuk kendaraan yang memungkinkan kendaraan berkomunikasi dengan perangkat dan kendaraan lain melalui jaringan, dan modul perangkat keras komputer untuk digunakan dengan Internet of Things (IoT).; router jaringan komputer; telepon radio, telepon seluler dan telepon tetap; publikasi elektronik (yang dapat diunduh) yang disediakan secara daring dari basis data komputer, Internet, atau jaringan elektronik lainnya; Jam tangan yang mengirimkan data ke ponsel pintar, yaitu jam tangan pintar.; artificially intelligent chatbot computer software and application software for providing customer support and customer services; perangkat lunak perintah dan pengenalan suara, perangkat lunak konversi ucapan ke teks, dan aplikasi perangkat lunak yang diaktifkan suara.; perangkat lunak kontrol orang tua===
